RESOLUTION NO. - 2015, ADOPTING LOCAL LAW NO.
-2015, A LOCAL LAW ESTABLISHING A DRUG
STEWARDSHIP PROGRAM FOR SUFFOLK COUNTY

WHEREAS, there was duly presented and introduced to this County Legislature
at a meeting held on , 2015, a proposed local law entitled, "A LOCAL LAW
ESTABLISHING A DRUG STEWARDSHIP PROGRAM FOR SUFFOLK COUNTY" now,
therefore, be it

RESOLVED, that said local law be enacted in form as follows:

LOCAL LAW NO. -2015, SUFFOLK COUNTY, NEW YORK

A LOCAL LAW ESTABLISHING A DRUG STEWARDSHIP
PROGRAM FOR SUFFOLK COUNTY

BE IT ENACTED BY THE COUNTY LEGISLATURE OF THE COUNTY OF
SUFFOLK, as follows:

Section 1. Legislative Intent.

This Legislature hereby finds and determines that pharmaceuticals are essential
to the treatment of illnesses and long term conditions, allowing us to live longer, healthier lives.

This Legislature also finds and determines that prescription and over-the-counter
drugs are often disposed of improperly, entering public drinking water supplies and causing
harm to the environment.

This Legislature further finds and determines that Suffolk County sits atop a sole
source aquifer which provides residents with necessary drinking water. Protection of the aquifer
is critical to the health and safety of Long Island residents.

This Legislature finds that when medications are improperly disposed of, by
flushing pills down the drain, water treatment plants do not remove medications from the potable
water supply, exposing residents to trace or higher amounts of medications like
benzodiazepines, steroids, pain killers, anti-epileptics and anti-depressants.

This Legislature determines that the failure to properly dispose of unused
prescription pain killers can lead to abuse of these addictive medications. Research conducted
by the Partnership for Drug Free Kids finds that the majority of teens who abuse prescription
medications obtain them at the homes of their friends and family.

This Legislature also finds that prescription and over-the-counter medications are
best disposed of through drug take back programs.

This Legislature further finds that Suffolk County operates a limited drug take
back program at police precincts within the County Police Department. This program does not
meet the needs of County residents outside of the Police District, including those who live in the environmentally sensitive east end.

This Legislature also determines that product stewardship is a strategy that allocates responsibility for drug disposal between consumers and manufacturers when products reach the end of their useful life.

This Legislature further determines that several counties in the United States, including Alameda County in California, have established drug product stewardship policies which require drug manufacturers to design and fund comprehensive collection programs for unwanted, unused and expired prescription and over-the-counter medications. The program established by Alameda County was upheld by the courts upon challenge.

This Legislature also determines that manufacturer-funded drug product stewardship programs have been successfully established in France, Spain and Portugal, as well as in many provinces throughout Canada.

This Legislature further determines that New York does not have statewide stewardship program for unwanted medications. Drug manufacturers and producers have not offered to establish a collection program independently.

This Legislature also finds that Suffolk County should establish a manufacturer sponsored drug collection system to protect the health and welfare of County residents and the environment.

Therefore, the purpose of this local law is to establish a drug stewardship program that is fully funded and operated by drug manufacturers.

RE:      MEMORANDUM OF COUNSEL TO THE LEGISLATURE PURSUANT TO RULE 28

PROPOSED LOCAL LAW YEAR 2015

TITLE:   I.R. NO. -2015; A LOCAL LAW ESTABLISHING A DRUG STEWARDSHIP PROGRAM FOR
          SUFFOLK COUNTY

SPONSOR: LEGISLATOR HAHN

DATE OF RECEIPT BY COUNSEL:       7/8/2015       PUBLIC HEARING:       9/9/2015
DATE ADOPTED/NOT ADOPTED:          -               CERTIFIED COPY RECEIVED: -

This proposed local law would require producers of prescription and non-prescription drugs to
develop, fund and operate a drug stewardship program and ensure that drugs collected under
this program are disposed of properly. Under this law, producers would be required to
participate in a program for the collection and disposal of drugs from residential generators
beginning on January 1, 2016. Programs may be developed by individual producers or a
collective of producers and may be run by producers or an independent stewardship
organization. The costs associated with the operation of the program must be borne by the
producers or the stewardship organization operating the program and cannot be passed on to
the consumer.

Each product stewardship program must have a product stewardship plan that is approved by
the Department of Health Services ("the Department"). The initial plan must be submitted by
January 1, 2016 and include: a certification that the program will collect all unwanted drugs,
regardless of who produced them, a description of the methods by which unwanted drugs will
be collected in a manner that is convenient for all County residents, a description of how the
drugs will be safely and securely tracked, handled and disposed of, and a description of the
public education and community outreach that will be done to publicize the program. All plans
must be in effect by July 1, 2016. The Department shall review each plan within 90 days of

1 "Producer" is defined as "a person that (a) has a physical presence in the United States and causes a covered drug
to be manufactured or has legal ownership of the brand, brand name or co-brand under which a covered drug is sold;
or (b) imports a covered drug branded or manufactured by a person or entity without a physical presence in the
United States. This term shall not include retailers that put a store label on a covered drug, unless the retailer
imports the drug from a producer outside of the United States, nor shall it include individual prescribed drug
products compounded by a pharmacist for a patient."

2 "Residential generator" is defined as "single and multiple family residences and locations within Suffolk County
where household drugs are unused, unwanted, disposed of or abandoned. This term shall include hospice services,
nursing homes, boarding care homes, schools, foster care, day care and any other locations where people reside on a
temporary or permanent basis. This term shall not include airport security, drug seizures made by law enforcement,
pharmacy or other business waste, or any other source identified by the Department as a non-residential source."
receiving it. If the plan is rejected by the Department, the program applicant must submit a revised plan within 60 days. Once a plan is approved, it must be updated and submitted for approval by the Department every 3 years. Any changes to the plan must be approved by the Department. Producers who begin offering drugs for sale in the County after June 1, 2016, must submit an independent plan or show proof that they have joined an existing approved plan at least 90 days prior to selling their products.

Each product stewardship program must comply with all local, state and federal laws and regulations applicable to its operations, including those governing the disposal of medical waste and controlled substances. As new disposal technologies are developed, programs may petition to use these techniques, provided the proposed technology provides equivalent protection in each, and superior protection in one or more, of the following areas: 1) monitoring of emissions or waste, 2) worker health and safety, 3) air, water or land emissions contributing to persistent, bioaccumulative, and toxic pollution, and 4) overall impact on the environment and human health.

Each program must also publicize to residential generators, pharmacists, retailers of drugs and healthcare practitioners the proper and safe methods of disposing of unwanted drugs. This promotion must include educational and outreach materials, signage for retailers or advertising materials. The program must also have a website publicizing the collection locations, program operations and a toll-free telephone number to provide residential generators with information about the program and its operations.

Beginning on July 1, 2017 and continuing every July 1st thereafter, each product stewardship program must file a report with the Department, describing the program's activities during the previous calendar year. The report must include: 1) the participants in the program, 2) the amount, by weight, of unwanted drugs collected at each collection site, County-wide, and through a mail-back component, where applicable, 3) a description of the collection system, 4) information on the disposal facilities utilized, 5) a statement on the program's ability to adhere to the policies and procedures set forth in the product stewardship plan, 6) a statement on the security provided during collection, transportation and disposal of unwanted drugs, with an explanation of any problems and remedial actions taken as a result, and 7) a description of the education and outreach activities implemented.

Violation of this law shall be punishable by a civil penalty of up to $1,000 per day. Each day a violation continues shall constitute a separate and distinct violation. A civil penalty may only be assessed by the Commissioner following a hearing and opportunity for an alleged violator to be heard.

This law will take effect immediately upon filing in the Office of the Secretary of State.

Subject: REQUEST FOR LEGISLATIVE RESOLUTION

The New York State Office of Alcoholism and Substance Abuse Services (NYSOASAS) awarded an annualized Cost of Living Adjustment (COLA) on the state share of funding for chemical dependence, prevention and gambling treatment programs effective, January 1, 2015.

The NYS OASAS letter dated March 9, 2015 identified a miscalculation of COLA funds summarized in Attachment B.

The NYS OASAS April 17, 2015 State Aid Funding Authorization (SAFA) reduced one-time only state aid to Pederson-Krag gambling program by -$34,729.

The Division of Community Mental Hygiene requests introduction of a legislative resolution to accept and appropriate additional state aid for the 2015 annualized COLA from NYSOASAS to various contract agencies and reduce one time only state aid funding to Pederson-Krag gambling program.

Attached please find a draft intro resolution, fiscal impact statement, resolution routing form, and NYSOASAS letter dated, March 9, 2015 identifying modification of 2015 annualized COLA funds to various providers and the April 17, 2015 NYS OASAS SAFA confirming the one-time only reduction in state aid funding to Pederson-Krag gambling program.

Dear Mr. Flescher:

This letter is a follow-up to OASAS’ January 16, 2015 letter regarding the increases to provider budgets for salary and salary-related fringe benefit costs, pursuant to Part I of Chapter 60 of the Laws of 2014.

Unfortunately, a miscalculation was discovered that adversely affected certain of your allocated providers. A revised summarized Attachment B is enclosed reflecting the adjusted allocations. Those providers with funding changes are noted with an asterisk. All affected providers will also receive a revised Attachment B. We apologize for any inconvenience this error may have caused.

Please note that if a provider is funded via both direct contract and through the LGU, that while funding through the LGU may have decreased, overall the provider was not negatively impacted.

Any questions should be sent to the OASAS Budget Mailbox at OASASBudget@oasas.ny.gov with the subject: 2% Salary Increase Question.

Sincerely,

P. David Sawicki

Re: 2015 State Aid Funding Authorization

Dear Mr. Flescher:

Enclosed please find a revised 2015 Office of Alcoholism and Substance Abuse Services (OASAS) State Aid Funding Authorization (SAFA) for your County. This revised SAFA has been issued for the following:

- Multiple Providers: to add the annualization of the January increase for Direct Care & Direct Support staff, plus ¾ of the April increase for Direct Care, Direct Support and Clinical Staff. The April increase will annualize in 2016.

- PSCH-Sponsor – Pederson-Krag Operator: processed SPM LI 15-17 to reduce State Aid per performance, vacancy and low census. Decreased Program 278000 by -$34,729 and added to Suffolk unallocated.

Please return a signed copy of this Authorization within thirty days. In accordance with Section 9 of the NYS Consolidated Budget and Claiming Manual, LGU payment amounts may be reduced as a result of delinquent submission of State Aid Funding Authorizations.

If you have questions regarding these changes, please contact your Field Office representative.

MEMORANDUM OF SUPPORT

Title of Resolution:
AMENDING THE ADOPTED 2015 OPERATING BUDGET TO TRANSFER FUNDS FROM
FUND 477 WATER QUALITY PROTECTION, AMENDING THE 2015 CAPITAL BUDGET AND
PROGRAM, AND APPROPRIATING FUNDS IN CONNECTION WITH AQUATIC HABITAT
RESTORATION OF VARIOUS SHELLFISH SPECIES AND EELGRASS IN BELLPORT BAY

PURPOSE OR GENERAL IDEA OF BILL:
To provide water quality protection (Fund 477) funding to the Town of Brookhaven to conduct
aquatic habitat restoration of shellfish species and eelgrass in Bellport Bay

SUMMARY OF SPECIFIC PROVISIONS:
To transfer the funding from Fund 477 into a Capital Projects account to be used by the Town of
Brookhaven after the execution of an inter municipal agreement with the town.

JUSTIFICATION:
The funding for this habitat and species restoration project was recommended at the March 13,
2015 meeting of the WQPRP Review Committee. It was deemed by the Committee to be a
prudent and beneficial use of the ¼% sales tax water quality funds. Restoring populations of
shellfish species and eelgrass, which ultimately contribute to the removal of nitrogen from
Bellport Bay and will provide many ecological benefits to Bellport Bay.

FISCAL IMPLICATIONS
There is no fiscal impact to the General Fund. All funding will come from the existing ¼% sales
tax generated fund for water quality protection projects.
Aquatic Habitat Restoration of Various Shellfish Species and Eelgrass in Bellport Bay

Town of Brookhaven/ Suffolk County Legislator Kate Browning

Requested WQPRP funds: $56,710

The opening of a new breach created by Super Storm Sandy in the vicinity of Old Inlet has resulted in significant changes to the local habitat and water quality. Preliminary observations have indicated that shellfish seed has shown improved setting and recruitment in the area impacted by the new inlet. This project hopes to take advantage of the beneficial changes in water quality that have occurred. All the target species contribute to the removal of nitrogen from the embayment. Nitrogen that has become incorporated into algal blooms can then be removed by filter feeding shellfish, where it is converted into somatic and gonadal tissue. Eelgrass besides providing habitat, also removes nitrogen from the embayment during its normal growth processes.

The proposed project involves the restoration of three species of shellfish (hard clams, oysters and scallops) and one marine plant (eelgrass) to specified areas of Bellport Bay in eastern Great South Bay. Three different varieties of shellfish seed will be purchased from NYSDEC certified Marine Hatcheries. Of the purchased seed; 250,000 2.1-3.0 mm oysters; 1,000,000 1-2 mm hard clam seed; and 70,000 4.1-6.0 mm scallop seed will be cultured in the Town of Brookhaven state certified Shellfish Culture Facility at Cedar Beach, Mt. Sinai, NY.

All of the restoration species have had their numbers reduced as the result of harmful algal blooms, overfishing and loss of habitat.

Great South Bay is listed on the New York State DECs impaired waterways list due to bacterial pollution, however high nitrogen levels and subsequent brown tide blooms have also impacted the health of the Bay.

Proposal: Plantings will consist of 250,000 oyster spat and sublegal sexually mature oysters, 1,000,000 juvenile hard clams, 70,000 scallop bugs and 100,000 spawner clams. Eelgrass (Zostera marina) plantings and educational community outreach will be conducted under contract with Cornell Cooperative Extension. Prior to the plantings, a bay bottom survey will identify suitable locations for the planting of all three shellfish species.

The eelgrass restoration component of the project will be by contract with Cornell Cooperative Extension. Seed and plugs of eel grass will be harvested and cultured in on-shore tanks until they are ready for planting. Planting will take place in and around identified eelgrass beds, on the south side of Bellport Bay. As noted eelgrass beds are one of the marine species that provide protection and habitat for scallops. Because of their ability to filter huge quantities of water, shellfish help to remove excessive algal blooms from the Bay water. The improvement in
water clarity then supports the increased penetration of sunlight, allowing the eelgrass beds to grow and proliferate.

Spawner clams, 100,000, will be planted in predetermined spawner sanctuaries, which have been proven to provide successful shellfish spawning and recruitment. If conditions are right, large numbers of seed can be generated. The shellfish survey provides essential information regarding the habitat, bottom type and the success of a shellfish restoration program. Varying species of shellfish perform differently on divergent bottom types. The Town of Brookhaven owns the rights to its underwater lands through the Dongan Patent.

The pollutant of concern is nitrogen. Nitrogen enters the embayment through gradual migration from shore based septic systems, surface water runoff and atmospheric deposition. Nitrogen becomes incorporated into algal blooms and is then removed by filter feeding shellfish and converted into somatic and gonadal tissue. Shellfish are efficient filter feeders, oysters alone filtering 50 gallons of water per day. Eelgrass also removes nitrogen from the environment. Shellfish restoration enhances algal removal and therefore provides greater light penetration for eelgrass growth and proliferation.

RESOLUTION NO. 2015.41 - MAKING A SEQRA DETERMINATION FOR THE RENEWABLE ENERGY AND STEM CENTER ON THE MICHAEL J. GRANT CAMPUS, CP 2141

WHEREAS, in accordance with the Memorandum of Understanding between the County of Suffolk and Suffolk County Community College, dated April 16, 2009, the College Board of Trustees serves as Lead Agency for determinations issued pursuant to the State Environmental Quality Review Act (“SEQRA”) (NYS Environmental Conservation Law, Article 8) and its implementing regulations at Title 6 NYCRR Part 617, and

WHEREAS, construction of the 34,000-square foot Renewable Energy and STEM Center on the Michael J. Grant Campus is funded in both the current Adopted County Capital Program and the current Adopted New York State Budget, and

WHEREAS, in accordance with 6 NYCRR §617.6(a)(3), an Environmental Assessment Form (“EAF”) was prepared by the College, as shown in Attachment II, attached hereto, to systematically consider environmental factors involved with this action to make a reasoned determination regarding the likelihood that the action may have a significant adverse impact on the environment, and

WHEREAS, this review has indicated that the construction of the Renewable Energy and STEM Center on the Michael J. Grant Campus will not have a significant adverse impact on the environment, and,

WHEREAS, accordingly, the College recommends that this project be considered an “Unlisted Action,” pursuant to 6 NYCRR §617.2(ak), be it therefore

RESOLVED, that the Board of Trustees hereby finds and determines that the Renewable Energy and STEM Center to be constructed at the Michael J. Grant Campus constitutes an “Unlisted Action,” pursuant to 6 NYCRR §617.2(ak), and be it further
RESOLUTION NO. 2015.41 - Continued

RESOLVED, that pursuant to 6 NYCRR §617.7(b)(2), the Board of Trustees hereby makes a negative declaration that the construction of the Renewable Energy and STEM Center will not have a significant adverse environmental impact for the following reasons:

1. The action will not exceed any of the criteria contained in 6 NYCRR §617.7(c), which sets forth thresholds for determining significant adverse impacts on the environment;

2. The action does not adversely impact surface or groundwater, nor increase erosion, flooding, leaching or drainage problems as the topography remains flat, and the building will be sewered;

3. The action does not impact a significant habitat area;

4. The action does not conflict with the College’s Master Plan;

5. The use of electricity and natural gas is not significant relative to the rest of the Michael J. Grant Campus as the building will be designed as a “Net Zero Energy Building.” The energy required to illuminate, heat, cool and ventilate the building will be equal to or less than the energy produced from solar and wind sources;

6. All necessary State and County approvals will be obtained.

MEMORANDUM

TO: Jon Schneider, Deputy County Executive
FROM: Gilbert Anderson, P.E., Commissioner
SUBJECT: A Resolution Amending the 2015 Capital Budget and Program and Appropriating Funds in Connection with Planning and Design of Nitrogen Reduction Projects (CP 8197)
DATE: June 22, 2015

Attached is a draft resolution, SCIN Form 175a and 175b, and backup for the referenced capital project filed as Reso DPW Planning and Design of Nitrogen Reduction Projects CP 8197 dated 6-22-15 and backup filed as Backup-DPW Planning and Design of Nitrogen Reduction Projects CP 8197 dated 6-22-15. The planning and design of the project is to receive a low interest loan of approximately $22 million for engineering design services to reduce nitrogen impacts to four watershed areas (Forge River, Carlis River, Connetquot River, and Patchogue River). It is imperative that the design be initiated as soon as possible such that construction grant funds can be secured and the project timeline met. The attached resolution utilizes an offset to provide $2,000,000 which is sufficient to have engineering tasks initiated.

We appreciate the resolution being laid on the table as soon as possible.

**Ballot Comment:** INCREASE IN COST AS MORE BRIDGES WERE ADDED TO THIS MAINTENANCE PROJECT - OFFSET 076085
MEMORANDUM

TO: Jon Schneider, Deputy County Executive

FROM: Gilbert Anderson, P.E. Commissioner

DATE: June 23, 2015

RE: Amending the 2015 Capital Budget and Program and Appropriating Funds in Connection with the County Share for Participation in Bridge Painting Preventive Maintenance on Various County Bridges (CP 5815, PIN 076086)

Attached is a draft resolution to appropriate the sum of $10,200,000 for construction in connection with the above referenced project. There are insufficient funds included in the 2015 Capital budget and program for this project. However, pursuant to the Suffolk County charter, Section C4-13, an offsetting authorization is not required on amendments which are financed in an amount of at least fifty percent (50%) by Federal or State aid.

This is a Federally funded project. Mandated milestones must be met to insure that Federal funds are obtained. Recent changes to the procedures for obtaining final Federal authorization require that the County pass a resolution and have local and State contracts in place prior to final authorization, which must occur prior to September 1, 2015 or the County risks the loss of the Federal funding for this project.

The project involves cleaning and repainting of bridges and bridge components throughout Suffolk County. More than half of the 70 bridges that are required to be maintained by the County contain exposed structural steel that must be periodically cleaned and painted. When exposed to the elements, due to compromised coatings, structural steel rapidly deteriorates and can threaten the integrity of the entire structure. By properly cleaning and painting exposed steel, deterioration is halted and reduces the risk of more significant costly repairs. The bridge painting program extends the life of these structures for well over 10 years.

It is our intent to utilize these funds for painting of seven bridges: CR 99, Woodside Avenue over Buckley Road, over Waverly Avenue and over IRS Road; CR 97, Nicolls Road over Portion Road and over CR 19, Patchogue-Holbrook Road; CR 101, Sills Road over Sunrise Highway (southbound) and the Shinnecock Canal Bridge.

The Suffolk County Council on Environmental Quality has reviewed projects of this nature and determined that they constitute a Type II action and no further review is required. The Suffolk County Legislature concurred with this finding pursuant to Resolution 793-1989.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title "Reso-DPW-CP5815(Br Paint Fed Aid).doc".

INTERMUNICIPAL AGREEMENT ("IMA")
BETWEEN THE COUNTY OF SUFFOLK AND THE TOWN OF BROOKHAVEN FOR
DEMOLITION OF STRUCTURES ON PROPERTIES TAKEN BY COUNTY
BY TAX DEED

It is hereby agreed between the COUNTY OF SUFFOLK ("County"), a municipal
corporation of the State of New York, acting through its duly constituted Department of
Economic Development and Planning, Division of Real Property Acquisition and Management
("Development"), located at H. Lee Dennison Building, 100 Veterans Memorial Highway, P.O.
Box 6100, 2nd Floor, Hauppauge, New York 11788-0099 and the TOWN OF BROOKHAVEN
("Town"), a municipal corporation, having its principle offices located at One Independence
Hill, Farmingville, new York 11738, as follows:

WHEREAS, the County has taken title to the various premises by Tax Deed from time to time,
and

WHEREAS, at times these are improved with a structure (the "Structure") generally assessed to
be in significant disrepair, unsafe and uninhabitable which is blighted and affects the neighboring
properties; and

WHEREAS, as a result of the condition of some of these premises, the Town will request that
the Structure on the premises be demolished and, from time to time, the County may request that
the Town perform the demolition of the Structures, and the Town has indicated its agreement to
conduct such demolition on the terms set forth herein; and

WHEREAS, the County may at times agree that the Structure be demolished as a matter of
safety.

NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES AND
COVENANTS HEREBIN CONTAINED, IT IS HEREBY AGREED AS FAROL WHAT:

1. The parties agree that the Town, at a cost not to exceed a negotiated amount to be agreed
between the parties, which cost the Town agrees shall not include any Administrative
Fees, tipping fees, or other charges and shall only include the price for the work billed to
the Town by a contractor employed by the Town to perform the demolition (the
"Vendor"), as said in the above and following sections, shall demolish and remove the
Structure located on the identified premises. In this regard, the Town shall provide all
necessary labor, materials and equipment to demolish the Structure, clean up the affected
area where the Structure was located prior to the demolition and the area surrounding
where the Structure was located prior to the demolition and remove all debris from the
demolition area in accordance with generally accepted demolition practices and
procedures. The foundation of the Structure shall not be removed, so that any rebuilding
on the lot remains permissible on the existing footprint, unless the County determines
otherwise.

2. A written statement of said permissible costs or expense related to the demolition or
activities hereunder shall be provided to the County, together with a statement as to what
tax year such costs will appear on the tax roll, and shall be assessed against the premises. Furthermore, said cost/assessment shall be levied on said premises on the next-possible tax rolls so as not to burden future owners upon the County’s subsequent transfer of title. Such demolition and removal shall be conducted in compliance with all laws, rules and regulations, including, but not limited to, law, rules and regulations as to the removal and disposal of asbestos and other environmentally sensitive or hazardous materials, and the Town and the Vendor shall obtain all necessary permits and licenses to accomplish the foregoing.

3. While performing the demolition and removal work in accordance with this Agreement, the Town and the Vendor shall not engage in any action that constitutes a violation of any law, order, ordinance, rule, regulation or code of any government authority that may cause injury to a persons, nor shall the Town or the Vendor in any manner deface or injure property that is not subject to demolition, permit any unreasonably objectionable noise or odor to be emitted, permit anything to be done on the property where the Structure is located tending to create a health, environmental or safety hazard or nuisance or cause any penalty to the County.

4. The Vendor or Town shall remove all waste materials, rubbish and equipment upon completion of the demolition, and shall lawfully dispose of all waste materials and rubbish in a licensed landfill.

5. The Vendor or Town shall operate, maintain and leave the demolition site in a generally orderly condition.

6. The Vendor or Town shall erect and maintain all reasonable or necessary safeguards for protection of persons and property, including safety barriers and warnings of dangers and hazards, which safeguards and notices shall remain in place until completion of the work in accordance with this IMA.

7. Prior to any work commencing on any specific County owned parcel requested to be demolished by the Town, the Town shall obtain written approval from the Suffolk County Department of Economic Development and Planning, Division of Real Property Acquisition and Management. For any Structure being requested by the County to demolished, the County shall obtain written approval of the Town.

8. To the greatest extent permitted by law, the Town agrees that is shall defend, protect, indemnify, and hold harmless the County and its officers, officials, employees, contractors, agents, and other persons (the “County Indemnified Parties”) from and against all liabilities, fines, penalties, actions, damages, claims, demands, judgments, losses, costs, expenses, suits, or actions including reasonable attorney’s fees, arising out of or in connection with the acts or omissions of the Town, and the Vendor, and their officers, officials, employees, contractors, agents, and other persons in connection with the Premises or the actions contemplated pursuant to this IMA.

9. This IMA is subject to the approval of the Suffolk County Legislature.

DATE: June 30, 2015
RE: CP 6425 – Improvements to Suffolk County Ballpark, Central Islip

Attached for your review is a draft resolution amending the 2015 Operating Budget to transfer funds from Fund 620 to the Capital Program and amending the Capital Budget and Program to appropriate the sum of $150,000 in planning and $850,000 in construction for miscellaneous improvements to the Suffolk County Ballpark in Central Islip. This work is necessitated by deficient conditions in and around the building which must be addressed to preserve and maintain the facilities. Work includes railing replacement, HVAC and electrical upgrades, superstructure painting and miscellaneous building and site improvements.

FROM: Gilbert Anderson, P.E. Commissioner
DATE: March 31, 2015
RE: Appropriating Funds in Connection with Bulkheading at Various Locations (CP 5375)

Attached is a draft resolution to appropriate the sum of $500,000 for construction in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

This funding provides for the repair or replacement of deteriorated bulkheads at various locations adjacent to County right-of-way properties. It is intended that these funds will be utilized to repair the CR 42, Shore Road Bulkhead.

*It may be necessary to add and/or substitute other locations due to permits, changes in priorities or other requirements to be determined by this Department.*

The Suffolk County Council on Environmental Quality has reviewed projects of this nature and determined that it constitutes a Type II action and no further review is required. The Suffolk County Legislature concurred with this finding pursuant to Resolution 1167-1995.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-CP5375(BH).doc”.

Attached is a draft resolution to appropriate the sum of $100,000 for planning/design and $500,000 for construction in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

Planning/design funds will provide for construction support and inspection services by a consultant engineer, for the County’s current Reconstruction of County Culverts (parks and roads) requirements contract. Construction funds will provide for the ongoing repair and maintenance of County-owned highway culverts under County roads and in County parks. These improvements include repairing structural problems such as deteriorating concrete, rusted reinforcing rods and eroded shoreline.

Potential locations for these services are Carll’s River culvert in the Town of Babylon; CR65 over Stillmans Creek, Tuthills Creek West Lake and Division Street culverts in the Town of Brookhaven; Brown Creek West, Brown Creek East, Corey Creek and Lotus/San Souci (Parks) culverts in the Town of Islip; Headwaters Sawmill Creek culvert in the Town of Riverhead; East Seatuck Creek, East River, Speonk River, Gunk Hole Pond (Parks) and Brinkley Pond (Parks) culverts in the Town of Southampton. It may be necessary to add and/or substitute other locations due to seasonal limitations, changes in priorities or other requirements to be determined by this Department.

The Suffolk County Council on Environmental Quality has reviewed these types of projects and has determined that projects of this nature constitutes a Type II action, pursuant to Section 617.5(c)(1), (2), (20) and (27) of Title 6 of New York Code of Rules and Regulations ("NYCRR"), therefore, the Legislature has no further responsibilities under SEQRA.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-CP5371(Culverts Plan&Constr).doc”.

To be completed by the Executive Budget Office
TITLE OF BILL: Appropriating Funds in Connection with Reconstruction of Shinnecock Canal Locks, Town of Southampton (CP 5343)

PURPOSE OR GENERAL IDEA OF BILL: This funding will provide for additional repairs and/or replacements (due to the extended period of time between repairs) required for the current project (severely deteriorated hinges, concrete and other mechanisms), as well as initial funding for the next phase (VIII) of the reconstruction/rehabilitation.

SUMMARY OF SPECIFIC PROVISIONS: This is a current Capital Budget project, there are no offsets needed.

JUSTIFICATION: This would enable Suffolk County to complete repairs to current phase of the Reconstruction of Shinnecock Canal Locks, and provide initial funding for Phase VIII, scheduled for Letting in Fall 2015.

FISCAL IMPLICATIONS: Bonds will be issued to finance this project and principal and interest costs will be incurred over the life of the Bonds.
MEMORANDUM

TO: Jon Schneider, Deputy County Executive
FROM: Gilbert Anderson, P.E. Commissioner
DATE: April 20, 2015
RE: Appropriating Funds in Connection with Reconstruction of Shinnecock Canal Locks, Town of Southampton (CP 5343)

Attached is a draft resolution to appropriate the sum of $1,500,000 for construction in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

Since 1993, the County has embarked on a multi-phase rehabilitation of the existing locks and tide gates at the Shinnecock Canal. Historically, rehabilitation has occurred approximately every 2 to 3 years. However, due to budgetary constraints, a longer span of 6 years occurred between the last rehabilitation undertaking (Let in 2007, completed March of 2009) and the rehabilitation currently underway (Let in 2013, began March of 2014).

This funding will provide for additional repairs and/or replacements (due to the extended time between repairs) required for the current project (severely deteriorated hinges, concrete and other mechanisms), as well as initial funding for the next phase (VIII) of the reconstruction/rehabilitation, scheduled for Letting in the Fall of 2015.

The Suffolk County Council on Environmental Quality has reviewed these types of projects and has determined that they constitute a Type II action and no further review is required. The Suffolk County Legislature concurred with this finding pursuant to Resolution 391-1993.

This funding will provide for the cleaning and painting of the tide gates which operate the Canal Lock system. Ongoing routine cleaning and maintenance of these gates significantly slows deterioration, reducing the risk of more costly repairs.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-CP5343(Shinn Locks).doc”.

TITLE OF BILL: Appropriating funds in connection with Replacement of Dredge Support Equipment (CP 5201)

PURPOSE OR GENERAL IDEA OF BILL: This funding will provide for the replacement of equipment necessary for the continued operation of our dredging programs. It is important to replace equipment periodically as needed, especially since this equipment is used under very harsh marine conditions, such as soft sandy areas and the salt water environment.

SUMMARY OF SPECIFIC PROVISIONS: This is a current Capital Budget project for equipment and no offset is required.

JUSTIFICATION: These funds will enable Suffolk County Department of Public Works to continue with dredging operations.

FISCAL IMPLICATIONS: Bonds will be issued to finance this project and principal and interest costs will be incurred over the life of the Bonds.

RE: Appropriating Funds in Connection with Replacement of Dredge Support Equipment (CP 5201)

Attached is a draft resolution to appropriate the sum of $350,000 for equipment in connection with the above referenced Capital Project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

It is necessary to rehabilitate and replace equipment periodically to insure that it will remain in a condition that will allow for proper function in order to support our dredging operations. It is our intent to utilize these funds to purchase replacement of a landing craft. It may be necessary to add and/or substitute other equipment due to changes in priorities or other requirements to be determined by this Department.

The Suffolk County Council on Environmental Quality has reviewed projects of this nature and determined that the purchase of replacement equipment constitutes a Type II action and no further review is required.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-CP5201(Dredge Equip).doc”.

RE: Appropriating Funds in Connection with Construction of Sidewalks on Various County Roads (CP 5497)

Attached is a draft resolution to appropriate the sum of $500,000 for construction in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this request.

As part of the County Executive's Complete Streets initiative, this funding provides for the installation and restoration of sidewalks on County roads to advance a safe environment for pedestrian traffic. Improvements include concrete curb and sidewalk, as well as possible spot drainage modifications.

Potential locations for sidewalk installation and/or repair are CR 80, Montauk Highway from the vicinity of Louis Avenue to the vicinity of Old Neck Road (Brookhaven); CR 71, Mill Road from the vicinity of Montauk Highway to the vicinity of Oneck Lane (Southampton); and CR 11, Pulaski Road from the vicinity of Stony Hollow to the vicinity of Woods Lane (Smithtown). It may be necessary to add and/or substitute other locations due to seasonal limitations, changes in priorities or other requirements to be determined by this Department.

The Suffolk County Council on Environmental Quality has reviewed projects of this nature and have determined that construction and/or restoration of sidewalks on various County roads constitutes a Type II action pursuant to the provisions of Title 6 NYCRR Part 617.5(c) (1), (2), (20) and (27) and the Suffolk County Legislature has concurred with these findings.

MEMORANDUM OF SUPPORT

TITLE OF BILL: Appropriating Funds in Connection with Improvements to Environmental Recharge Basins (CP 5072)

PURPOSE OR GENERAL IDEA OF BILL: To improve the functionality, security, appearance and potential public health impacts of the County's recharge basins. Shedding of needles and leaves from plantings, as well as in the runoff from roadways causes the bottoms of the basins to become silted, limiting the recharge of water back into the ground. Vegetation also encroaches into the security fencing around the basins compromising the safety barriers around these sites.

SUMMARY OF SPECIFIC PROVISIONS: This is a current Capital Budget project for construction and equipment; no offset is required.

JUSTIFICATION: This funding will allow for improvements to environmental recharge basins.

FISCAL IMPLICATIONS: Bonds will be issued to finance this project and principal and interest costs will be incurred over the life of the Bonds.

MEMORANDUM

TO: Jon Schneider, Deputy County Executive

FROM: Gilbert Anderson, P.E. Commissioner

DATE: June 9, 2015

RE: Appropriating Funds in Connection with Improvements to County Environmental Recharge Basins (CP 5072)

Attached is a draft resolution to appropriate the sum of $305,000 for construction and $20,000 for equipment in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

This on-going project will improve the functionality, security, appearance and potential public health impacts of the County’s recharge basins. The County maintains over 250 recharge basins, most of which are over 25 years old. The natural growth of vegetation has encroached into holding areas, reducing the natural recharge ability of the basins. The shedding of needles and leaves from the plantings as well as the materials contained in the runoff from roadways have caused the bottoms of the basins to become silted, limiting the recharge of water back into the ground. The vegetation has also encroached into the security fencing around the basins compromising the safety barriers around these sites.

Existing appropriations, along with this request will enable the Department to make improvements at the following potential locations: CR 16, Horseblock Road at Oakdale Avenue; CR 93, Lakeland Avenue at Piper Lane; CR 46, William Floyd Parkway at Winston Drive; CR 47, Great Neck Road at Edmonds Place and CR 2, Straight Path at CR 95, Little East Neck Road. It is our intent to apply the equipment funding towards the purchase of a skidsteer loader for the Department’s Highway Maintenance staff.

It may be necessary to add and/or substitute other locations and equipment purchases due to seasonal limitations, changes in priorities or other requirements to be determined by this Department.

The Suffolk County Council on Environmental Quality has reviewed projects and purchases of this nature and have determined that they constitute a Type II action and no further review is required.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-CP5072(RBs).doc”

RE: Appropriating Funds in Connection with Dredging of County Waters (CP 5200)

Attached is a draft resolution to appropriate the sum of $4,300,000 for planning, site improvements and equipment in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

Locations anticipated to be dredged during the 2015-2016 dredge season include Shinnecock Inlet East Cut, Champlin Creek and various Great South Bay locations.

*It may be necessary to add and/or substitute other waterways due to environmental permits, changes in priorities or other requirements to be determined by this Department.*

As the New York State Department of Environmental Conservation is SEQRA lead agency for all dredging projects, this project is not reviewed by the Suffolk County Council on Environmental Quality.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title "Reso-DPW-CP5200(Dredging-General).doc".

TITLE OF BILL: Appropriating Funds in Connection with Equipment for Public Works Material Testing Laboratory (CP 5141)

PURPOSE OR GENERAL IDEA OF BILL: To provide funding to purchase needed equipment for the Public Works Material Testing Laboratory. Requirements for Federal aid reimbursement dictate that the County has acceptable testing equipment to perform various tasks associated with the design and construction of roadway and bridge improvements. Lack of approved equipment may jeopardize Federal aid reimbursement.

SUMMARY OF SPECIFIC PROVISIONS: This is a current Capital Budget project for equipment and no offset is required.

JUSTIFICATION: Updated equipment for testing is required for the Material Testing Laboratory at Public Works.

FISCAL IMPLICATIONS: Bonds will be issued to finance this project and principal and interest costs will be incurred over the life of the Bonds.

RE:  Appropriating Funds in Connection with Equipment for Public Works Material Testing Laboratory (CP 5141)

Attached is a draft resolution to appropriate the sum of $80,000 for site improvements in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

This funding will provide for the purchase of equipment that assists the Laboratory in testing asphalt and concrete on County projects. The Department intends on purchasing the following items, however, it may be necessary to add and/or substitute other equipment due to changes in priorities or requirements to be determined by this Department:

- Concrete Cylinder End Grinder – This is used to prepare the ends of concrete cylinders for testing, which will eliminate the use of hazardous Sulfur capping compound at 360°F;
- Asphalt Burn-off Oven – This is used to test asphalt material purchased by the County to assure that it meets specifications;
- Up-Grade to Compression Machine – The electronics for the compression machine, which is used to test concrete cylinders for specification acceptance, is old and repair parts are no longer available. At present, the equipment cannot be turned off or all memory will be lost.

Federal Aid guidelines for design approval and construction reimbursement require the Quality Assurance Testing of asphalt and concrete material used. Therefore, it is imperative that our equipment remains current with acceptable standards in the industry to avoid the possibility of losing Federal funding.

The Suffolk County Council on Environmental Quality has reviewed these types of projects and has determined that projects of this nature constitutes a Type II action, pursuant to Section 617.5(c) (20), (25) and (27) of Title 6 of New York Code of Rules and Regulations (“NYCRR”), therefore, the Legislature has not further responsibilities under SEQRA.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-CP5141(Lab Equip).doc”.

RE: Appropriating Funds in Connection with Stormwater Remediation to Yaphank Lakes and Carmen’s River at CR 21, Main Street/Yaphank-Middle Island Road (CP 8241)

Attached is a draft resolution to appropriate the sum of $750,000 for construction in connection with the above referenced project. There are sufficient funds included in the 2015 Capital Budget and Program for this project.

This funding will provide for the construction of various structural Best Management Practices (BMP’s) designed in accordance with the NYSDEC Stormwater Management Design Manual which will intercept and treat the stormwater runoff that currently discharges directly to the Yaphank Lakes and Carmen’s River.

The Suffolk County Council on Environmental Quality has reviewed this project and determined that it constitutes an unlisted action and no further review is required. The Suffolk County Legislature concurred with this finding pursuant to Resolution 11-2011.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-CP8241(SW Rem Yap Lakes).doc”.

These one-time funds are included in the current 2015 Suffolk County State aid approval letter under the CSP Miscellaneous funding source (funding code 122). They are approved for the start-up expenditures that are found on the Attachment of this letter which we expect the contract between Suffolk County and each provider to include.

The CSP Miscellaneous State aid allocation represents a 100 percent State participation rate. These funds should be reported as Clinic Treatment (program code 2100) on all OMH financial reports including the County Allocation Tracker.

RESOLUTION NO. - 2015, ADOPTING LOCAL LAW NO. -2015, A LOCAL LAW TO INCREASE AWARENESS OF DRY CLEANING CHEMICAL USE

WHEREAS, there was duly presented and introduced to this County Legislature at a meeting held on , 2015, a proposed local law entitled, "A LOCAL LAW TO INCREASE AWARENESS OF DRY CLEANING CHEMICAL USE" now, therefore, be it

RESOLVED, that said local law be enacted in form as follows:

LOCAL LAW NO. -2015, SUFFOLK COUNTY, NEW YORK

A LOCAL LAW TO INCREASE AWARENESS OF DRY CLEANING CHEMICAL USE

BE IT ENACTED BY THE COUNTY LEGISLATURE OF THE COUNTY OF SUFFOLK, as follows:

Section 1. Legislative Intent.

This Legislature hereby finds and determines that the County of Suffolk works to protect the health and safety of its residents and the environment.

This Legislature also finds and determines that professional dry cleaners provide an important service for residents who own clothing and other items that cannot be cleaned in a conventional washing machine.

This Legislature finds that most dry cleaners use the chemical perchloroethylene, commonly known as "perc".

This Legislature determines that perc is a hazardous chemical considered to be a probable human carcinogen by the federal government. Perc contaminates drinking water in our aquifer and is responsible for a number of contaminated waste locations on Long Island and throughout the nation.

This Legislature also finds that, in response to the problems associated with perc use, the dry cleaning industry has developed alternative cleaning methods using different types of chemicals. These alternative solvents to perc vary in their environmental impacts, as well as their safety for consumers and dry cleaning employees.

This Legislature also determines that professional dry cleaners should disclose to consumers the type of process and solvents they utilize in a manner that is easily understood.

Therefore, the purpose of this local law is to require all dry cleaners to disclose the primary chemical solvent they use in operating their businesses.
Section 2. Definitions.

As used in this law, the following terms shall have the meanings indicated:

“Commissioner” – the Commissioner of the Department of Health Services.

“Department” – the Department of Health Services.

“Dry Cleaning Establishment” – any natural individual or business entity of any kind that uses chemical solvents to clean clothing or other objects made of cloth, labeled “dry clean” or “dry clean only”, for compensation.

Section 3. Requirements.

A. The Department shall develop a sign which conveys to the reader via color-coded design the safety of chemical solvents used by dry cleaning establishments. The chemicals shall be listed from safest to most harmful, in the following order:

1. Professional wet cleaning
2. Liquid carbon dioxide
3. Liquid silicone (siloxane D5)
4. K4 system (butoxymethoxy/butylal)
5. Hydrocarbon
6. Perchloroethylene (“PERC”)

B. Every dry cleaning establishment operating in the County of Suffolk shall post the sign that is provided by the Department. The sign must be located behind the counter and be clearly visible to anyone entering the dry cleaning establishment. Each dry cleaning establishment must indicate on the sign which chemical solvent or cleaning method is employed at that location.

C. During inspections, the Department shall verify that a dry cleaning establishment: 1) has posted the sign required by this law; 2) indicated the chemical solvent or method being used on the sign; and 3) is using the indicated solvent or method at the time of inspection.

Section 4. Enforcement.

This law shall be enforced by the Department of Health Services.

Section 5. Rules and Regulations.

The Commissioner of the Department of Health Services is hereby authorized, empowered and directed to promulgate such rules and regulations as he or she deems necessary to implement this law.

Section 6. Penalties.

A. Any dry cleaning establishment which violates any provision of this law shall be subject to an initial civil penalty of five hundred ($500) dollars per violation, with all subsequent violations subject to a civil penalty of one thousand ($1,000) dollars per violation. Each violation shall constitute a separate and distinct offense.
B. No penalties shall be imposed by the Department until a hearing is held by the Commissioner or his or her designee and the alleged violator is given an opportunity to be heard.

Section 7. Applicability.

A. This law shall apply to all actions occurring on or after the effective date of this law.

B. The Department shall establish the ranking system called for in Section 3(a) of this law within ninety (90) days of the effective date of this law and dry cleaning establishments shall comply with the posting provisions of this law within ninety (90) days thereafter.

Section 8. Severability.

If any clause, sentence, paragraph, subdivision, section, or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, or part of this law, or in its application to the person, individual, corporation, firm, partnership, entity, or circumstance directly involved in the controversy in which such order or judgment shall be rendered.

Section 9. SEQRA Determination.

This Legislature, being the State Environmental Quality Review Act (SEQRA) lead agency, hereby finds and determines that this law constitutes a Type II action pursuant to Section 617.5(c)(20), (21), and/or (27) of Title 6 of the NEW YORK CODE OF RULES AND REGULATIONS (6 NYCRR) and within the meaning of Section 8-0109(2) of the NEW YORK ENVIRONMENTAL CONSERVATION LAW as a promulgation of regulations, rules, policies, procedures, and legislative decisions in connection with continuing agency administration, management and information collection. The Suffolk County Council on Environmental Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this law.

Section 10. Effective Date.

This law shall take effect immediately upon filing in the Office of the Secretary of State.

      N.Y. SOC. SERV. LAW § 147 (Misuse of food stamps)

   b. Conduct appropriate law enforcement operations and engage in traditional methods of investigation to effectuate prosecutions before the courts of the United States, the State of New York, and/or other States.

   c. Gather intelligence relating to SNAP fraud, dealing in proceeds of unlawful activity, and related violations of law.
2. To accomplish the objectives of the joint law enforcement operations outlined above, the Suffolk County Police Department agrees to assign experienced officers to the joint activities, as requested by the OIG, Northeast Region, Special Agent-in-Charge (SAC).

3. To accomplish the objectives of the joint law enforcement operations outlined above, OIG agrees to participate with the Suffolk County Police Department to coordinate resources as needed to assist in meeting the goals of the joint task force effort. Permissible expenses reimbursable under this Agreement may include overtime relating to Suffolk County Police Department Detectives assigned to the Criminal Intelligence Bureau and Narcotics Section, investigative equipment, travel, training, intelligence data gathering expenditures, and other joint operation support costs, relating to State or local law enforcement officers. For Fiscal Year (FY) 2015, funds under this CRA must be used primarily (at least 90 percent) for overtime expenses; no more than 10 percent of funds may be used for permissible expenses other than overtime. With respect to approved funding for this joint law enforcement operation, OIG will obligate in its financial management system an amount equal to the total authorized funding under this Agreement for the joint operation, as specified below in paragraphs four through nine.

4. Subject to the availability of funds from the Department of Justice Assets Forfeiture Fund, OIG will administer the funds to Suffolk County Police Department for reimbursement of overtime relating to Suffolk County Police Department Detectives assigned to the Criminal Intelligence Bureau and Narcotics Section, investigative equipment, travel, training, intelligence data gathering expenditures, and other joint operation support costs incurred while engaged in the joint law enforcement operations under this Agreement. For FY 2015, funds under this CRA must be used primarily (at least 90 percent) for overtime expenses; no more than 10 percent of funds may be used for permissible expenses other than overtime.

5. The Suffolk County Police Department will submit a reimbursement request to the regional OIG office on a monthly basis by the 15th of the following month, covering incurred costs to OIG for disbursement of funds for overtime relating to Suffolk County Police Department Detectives assigned to the Criminal Intelligence Bureau and Narcotics Section, investigative equipment, travel, training, intelligence data gathering expenditures, and other joint operation support costs. For FY 2015, funds under this CRA must be used primarily (at least 90 percent) for overtime expenses; no more than 10 percent of funds may be used for permissible expenses other than overtime. The reimbursement request must include the following information: FMMI Code 155410R2000706RADOJAJR706AG; and Purchase Order No. 4500060944.

6. Upon receipt, the regional SAC will review the reimbursement request to ensure that the request contains only costs that may be lawfully reimbursed based upon the standards and criteria enunciated in 28 U.S.C. § 524(c)(1)(I). The maximum total amount for authorized reimbursement pursuant to this Agreement is seven thousand dollars ($7,000), of which only 10 percent, i.e., seven hundred dollars ($700.00), may be used to reimburse the Suffolk County Police Department for permissible expenses other than overtime.
7. During the period of the joint law enforcement operations outlined above, the Suffolk County Police Department will remain responsible for the payment of costs incurred by Suffolk County Police Department personnel.

8. More than one law enforcement agency may be involved in the joint law enforcement operation as outlined above. OIG will reimburse funds for expenses incurred in the conduct of the joint law enforcement operation as outlined above only to the entity identified in this Agreement. If more than one State or local law enforcement agency is participating in the joint law enforcement operation, separate reimbursable agreements must be entered into with each law enforcement agency in order to reimburse costs as approved by the Department of Justice Assets Forfeiture Fund.

9. In no event will the Suffolk County Police Department charge any indirect costs to OIG for the administration or implementation of this Agreement.

10. The Suffolk County Police Department shall maintain, on a current basis, complete and accurate records and accounts of all obligations and expenditures of funds under this Agreement, in accordance with generally accepted accounting principles and instructions provided by OIG to facilitate onsite auditing and inspection of such records and accounts.

11. The Suffolk County Police Department shall permit and have readily available for examination and auditing by OIG, the United States Department of Justice, the Comptroller General of the United States, and any of their duly authorized agents and representatives, any and all records, documents, accounts, invoices, receipts, and expenditures relating to this Agreement. The Suffolk County Police Department shall maintain all such reports and records until all audits and examinations are completed and resolved, or for a period of three (3) years after termination of this Agreement, whichever is later.

12. The Suffolk County Police Department shall comply with Title VI of the Civil Rights Act of 1964, 42 U.S.C. §§ 2000d et seq., and all requirements imposed by applicable regulations.

13. All overtime payments from all Federally-provided sources for each State or local officer participating in the joint law enforcement operation with the Federal Government shall not exceed 25 percent yearly base pay of a GS-12, Step 1, taken from the general pay scale at the beginning of each Federal Government fiscal year, without any locality pay or other adjustments during the fiscal year. For purposes of this Agreement, “overtime” shall not include any costs for benefits, such as retirement, FICA, or other expenses.

14. All final costs must be incurred by September 30, 2015. All requests for payment and supporting documentation must be submitted to the regional SAC no later than October 15, 2015. Reimbursement requests for permissible expenses other than overtime must be provided to OIG for processing after September 1, 2015.

15. Billings for all outstanding expenditures must be received by OIG within thirty (30) days of the termination date for the joint law enforcement operation, but no later than October 15, 2015. OIG will only be responsible for the disbursement of funds for authorized overtime
relating to Suffolk County Police Department Detectives assigned to the Criminal Intelligence Bureau and Narcotics Section, investigative equipment, travel, training, intelligence data gathering expenditures, and other joint operation support costs, as specified by and during the term of this Agreement. For FY 2015, funds under this CRA must be used primarily (at least 90 percent) for overtime expenses; no more than 10 percent of funds may be used for permissible expenses other than overtime.

16. The regional SAC will ensure that all final billing is received by the Investigations Business Operations Division SAC no later than October 20, 2015.

17. This Agreement becomes effective upon the date that the last party signs the Agreement. This Agreement may be terminated by either party with thirty (30) days advance written notice. Any amendments to this Agreement must be in writing and signed by both parties.

1st RESOLVED, by the County Legislature of the County of Suffolk, New York, as follows

Section 1. PLEASE TAKE NOTICE that the Legislature of the County of Suffolk New York will meet at the County Center in Hauppauge, New York in said County, on 6th day of October 2015 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for an amendment to 2012 Map and Plan for the increases and improvements to the facilities of Suffolk County Sewer District No. 23 – Coventry Manor; in and about the Town of Brookhaven, substantially in accordance with the amended maps, plans, report and recommendations prepared by the Suffolk County Sewer Agency, with the assistance of the Suffolk County Department of Public Works, and filed with the Legislature of the County of Suffolk, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

SUBJECT: CALLING A PUBLIC HEARING FOR THE PURPOSE OF INCREASING AND IMPROVING FACILITIES FOR SUFFOLK COUNTY SEWER DISTRICT NO. 23 – COVENTRY MANOR (CP 8149)

DATE: July 2, 2015

Attached is a draft resolution, SCIN Form 175a and 175b, and backup for the referenced capital project filed as Reso DPW CP 8149 – SD 23 – Coventry Manor (Improvements) Hearing 7-2-15 and backup filed as Backup DPW CP 8149 – SD 23 – Coventry Manor (Improvements) Hearing 7-2-15. The resolution calls for a public hearing to provide funds for the improvements of the wastewater treatment facility. Funds requested in accordance with the 2015 Capital Budget of $4.5 million and recognizing prior appropriations of $2.0 million use sewer district serial bonds. Additional funds are necessary to complete the work necessary for the construction of sewerage facilities at the Suffolk County Sewer District No. 23 – Coventry Manor. Using sewer district serial bonds will have no impact for the benefited properties due to the ASRF stabilizing rates at a 3% increase regardless of any improvement performed. It is noted that prior hearings and applications have taken place and the Map and Plan has been amended and submitted to the Legislature for the total project cost of $6.5 million.

We appreciate the draft resolution being laid on the table as soon as possible such that the findings and appropriations can be adopted in 2015.

follows

Section 1. A meeting of the Legislature of the County of Suffolk New York shall be
held at the County Center in the meeting room of the County Legislature in Riverhead, New
York, in said County, on the 6th day of October 2015, at 2:30 p.m., Prevailing Time, for the

cause a notice of said public hearing to be published once in each of the official newspapers of
said County, and such other newspaper as the Legislature may designate, if any, said
publication to be made in each of such newspapers not less than ten, nor more than twenty
days before the day set herein for said public hearing. Such notice shall be in the following
form, to wit:
NOTICE OF PUBLIC HEARING

PLEASE TAKE NOTICE that the Legislature of the County of Suffolk New York will meet at the County Center in Riverhead, New York in said County, on 6th day of October 2014 at 2:30 pm, Prevailing Time, for the purpose of conducting a public hearing upon a proposal for an amendment to 2005 Map and Plan for the increases and improvements to the facilities of Suffolk County Sewer District No. 18 – Hauppauge Industrial; in and about the Town of Smithtown, substantially in accordance with the amended maps, plans, report and recommendations prepared by the Suffolk County Sewer Agency, with the assistance of the Suffolk County Department of Public Works, and filed with the Legislature of the County of Suffolk, at which time and place said County Legislature will consider such proposal and hear all parties interested therein concerning the same.

Suffolk County Resolution Nos. 1010-2005, 378-2008, 1019-2012, and 1107-14 found and determined that is was in the public interest to increase and improvement the facilities of Sewer District No. 18 – Hauppauge Industrial and to extend the boundaries of said district. This work has been initiated and has progressed with the wastewater treatment facility and small portions of sewer work construction completed while the majority of the sewer installation in the near future. However, additional funds are needed to complete all work. The public hearing is being held to address a proposed cost amendment to 2005 Map and Plan for the increase and improvement the facilities of Sewer District No. 18 – Hauppauge Industrial and to extend the boundaries of said district.

Notice of Cost

The cost of the increase and improvement the facilities of Sewer District No. 18 – Hauppauge Industrial and the extension of the boundaries of such district has risen from an estimated cost of $65 million in 2005 to an estimated cost of $84.7 million as set forth in the amended Map and Plan.

There will be no fiscal impact to the benefited properties within Suffolk County Sewer District No. 18 – Hauppauge Industrial, since pursuant to the ASRF, all property owners in Suffolk County sewer districts experience a 3% annual increase regardless of any increases or improvements performed. In the case of Suffolk County Sewer District No. 18, the annual ASRF increase will result in an increase of approximately $0.50 per 1,000 gallons to the typical property within the District, regardless of additional funds necessary to complete the increase and improvement and extension of boundaries. Therefore, there is no fiscal impact caused to the benefited properties in the District as a result of the amendment of the 2005 Map and Plan to reflect an increase in the cost to the increases, improvements, and extension of boundaries of the District.

TITLE OF BILL – Calling a Public Hearing for the Purpose of Increasing and Improving Facilities for Suffolk County Sewer District No. 18 – Hauppauge Industrial (CP 8126)

PURPOSE OR GENERAL IDEA OF BILL - To hold a public hearing as a prerequisite to requesting additional appropriations.

SUMMARY OF SPECIFIC PROVISIONS – Provides information on an improvement project and costs for SCSD #18 – Hauppauge Industrial. Meets the requirements of NYS County Law, Article 5-A.

JUSTIFICATION – The public hearing will allow appropriations to be made in accordance with the adopted budget.

FISCAL IMPLICATIONS – Sewer district costs are stabilized by the ASRF. The annual increase of 3% is approximately $155 per parcel with a median flow rate.

FROM: Gilbert Anderson, P.E., Commissioner
SUBJECT: CALLING A PUBLIC HEARING FOR THE PURPOSE OF INCREASING AND IMPROVING FACILITIES FOR SUFFOLK COUNTY SEWER DISTRICT NO. 18 – HAUPPAUGE INDUSTRIAL (CP 8126)

DATE: July 2, 2015

Attached is a draft resolution, SCIN Form 175a and 175b, and backup for the referenced capital project filed as Reso DPW CP 8126 – SD 18 – Hauppauge Industrial (Improvements and Expansion) Hearing 7-2-15 and backup filed as Backup DPW CP 8126 – SD 18 – Hauppauge Industrial (Improvements and Expansion) Hearing 7-2-15. The resolution calls for a public hearing to provide funds for the improvements and expansion of the wastewater treatment facility and district. The wastewater treatment plant project has construction completed and sewers and pumping stations require additional funds in 2015. Funds requested in accordance with the 2015 Capital Budget of $2,000,000 use sewer district serial bonds. Additional funds are necessary to complete the work necessary for finishing the construction of sewerage facilities at the Suffolk County Sewer District No 18 – Hauppauge Industrial. Using sewer district serial bonds will have no fiscal impact for the benefited properties due to the ASRF stabilizing rates at a 3% increase regardless of any improvements performed. It is noted that prior hearings and applications have taken place and the Map and Plan has been amended and submitted to the Legislature.

We appreciate the draft resolution being laid on the table as soon as possible such that the findings and appropriations can be adopted in 2015.

6. PROGRAM DESCRIPTION AND STATUS

A. DETAIL PROGRAM DESCRIPTION, DESIGN, AND FUNCTION (If Resolution No. 126-2006 LEED Certification is applicable on this project, please identify how compliance with this resolution will be achieved.)

This project calls for the Countywide Replacement of Computer Equipment / Infrastructure to improve the efficiency and deemed essential to the departments and approved by the Information Processing Committee. This Capital Project will allow the DoIT IT departments to take advantage of replacing outdated equipment greater than five (5) years or greater.

E. PROGRAM BENEFITS AND IMPACT: Include physical, economic, social, environmental, etc.:

The Countywide Replacement of Computer Equipment / Infrastructure will benefit all County departments by enabling the user to have computer equipment that is refreshed after a minimum of five years and in some cases older; and will improve productivity within the department and is essential to the continued mission of the County. Additionally, IT will be able to replace department equipment on a more timely basis and make purchases in bulk, resulting in saving of additional County funds by reducing the cost of units through economies of scale.

10. IF NEW, EXPLAIN WHY THIS PROGRAM NEEDS TO BE INCLUDED IN THE CURRENT CAPITAL PROGRAM:

Implementation of the Countywide Replacement of Computer Equipment / Infrastructure will benefit all County departments with replacement computers deemed necessary for their department operation and mission. By creating this Countywide Capital Project, the County will benefit by ensuring current reliable equipment is in place with at least a five-year life expectancy and the depreciation of the equipment / infrastructure will result in a greater return on investment. The mission is to modernize the County's IT aging equipment / infrastructure where needed and necessary throughout the County department on a five-year basis.

SCIN FORM 175b (10/95)
TO: Jon Schneider, Deputy County Executive

FROM: Vincent M. Mezzanotte, Commissioner of Information Technology

DATE: July 16, 2015

SUBJECT: Capital Project # 1816 – COUNTYWIDE REPLACEMENT OF COMPUTER EQUIPMENT / INFRASTRUCTURE

Please find the attached draft resolution requesting appropriation of $1,355,000 for the year 2015. The resolution amount represents the funding that will be needed to support Capital Project # 1816. An email version of the resolution was sent to CE RESO saved under the title “Reso-ITS-CP1816- Countywide Replacement of Computer Equipment and Infrastructure.”

This program calls for the Countywide Replacement of Computer Equipment and Infrastructure hardware, whereby purchases will be funded and managed by IT for all County departments for the replacement of obsolete computer equipment. This will enable the IT department to replace end-of-life computer equipment with a life span of at least five (5) years.

The Information Technology Department plans to purchase replacement desktop computers and peripherals for departments where justified and with the support of the Information Technology Steering Committee. The replacement of obsolete equipment / infrastructure is critical to the efficiencies of the departments and the mission of the County. This will also allow the County to take advantage of bulk purchases and reduced costs that are offered when purchasing larger quantities.

This Capital Project does not have a negative impact on the Operating Budget, since all licenses associated with equipment / infrastructure will be funded within the Capital Program and taking a proactive approach to replacing hardware before it fails will reduce overall maintenance costs on this equipment.

SUMMARY OF SPECIFIC PROVISIONS:

JUSTIFICATION: The Suffolk County Landbank Corporation (“SCLBC”) is a not-for-profit corporation which was formed pursuant to Local Law 18-2012.

The SCLBC has a mission to efficiently facilitate the return of distressed and underutilized properties within Suffolk County to productive uses consistent with the comprehensive plans of the jurisdictions in which they are located.

The SCLBC was formed with the intent to acquire the accumulated tax liens from Suffolk County on tax delinquent and potentially environmentally contaminated brownfield properties for the purpose of leveraging private sector investment to remediate and return the properties to the tax rolls.

The SCLBC, since its inception has enhanced revenues for Suffolk County by enabling the collection of in excess of $2,000,000 from owners of tax delinquent properties.

The SCLBC wishes to apply for funding to identify and mitigate environmental risks associated with future redevelopment of five tax-delinquent environmentally challenged sites, all which are located in economically distressed downtowns engaged in New York State funded Brownfield Opportunity Area activities and leverage funding from the New York State Attorney General’s office.

The New York Main Street grant program requires a municipal resolution in support of any application.

FISCAL IMPLICATIONS: There is no fiscal impact.

RESOLUTION NO. -2015, ADOPTING LOCAL LAW NO. -2015, A LOCAL LAW TO AMEND COUNTY REGULATION OF NONNATIVE INVASIVE PLANT SPECIES

WHEREAS, there was duly presented and introduced to this County Legislature at a meeting held on , 2015, a proposed local law entitled, "A LOCAL LAW TO AMEND COUNTY REGULATION OF NONNATIVE INVASIVE PLANT SPECIES"; now, therefore be it

RESOLVED, that said local law be enacted in form as follows:

LOCAL LAW NO. -2015, SUFFOLK COUNTY, NEW YORK

A LOCAL LAW TO AMEND COUNTY REGULATION OF NONNATIVE INVASIVE PLANT SPECIES

BE IT ENACTED BY THE COUNTY LEGISLATURE OF THE COUNTY OF SUFFOLK, as follows:

Section 1. Legislative Intent.

This Legislature hereby finds and determines that the County of Suffolk has established regulations on the sale or propagation of nonnative invasive plant species, codified as Article II of Chapter 446 of the SUFFOLK COUNTY CODE.

This Legislature finds that New York State also regulates nonnative invasive species and recently exempted certain cultivars of these plants when the cultivar is sterile or unlikely to cause ecological damage.

This Legislature determines that Suffolk County should allow for similar exemptions, as these plants cannot reproduce and spread or do so in a manner unlikely to cause ecological damage.

Therefore, the purpose of this law is to amend Chapter 446 of the SUFFOLK COUNTY CODE to allow for the sale of sterile cultivars of invasive plant species and other cultivars unlikely to cause ecological damage.

Section 2. Amendments.

Chapter 446 of the SUFFOLK COUNTY CODE is hereby amended as follows:
