OBJECTIVE
To obtain a position that utilizes my extensive supervisory skill set to help improve operations and contribute to the company’s growth and profits. As a small business owner I understand the need to pay attention to both detail and the big picture. My personal mission is to promote physical and mental health while fostering independence, heightening self-esteem and creating a sense of empowerment for those who seek my training.

PROFESSIONAL EXPERIENCE

Personal Trainer – West Islip, NY
Fitness Instructor
Certified by ISSA (International Sports Science Association)
- Working one on one with all vulnerable populations
- Able to adapt training to meet client’s needs
- Available for in home and in gym training

Third Eye Insight – Fitness for the Blind Inc – West Islip, NY
Founder/Program Director, Chief Instructor
Created non-profit 501(c) 3 martial arts/physical fitness organization the first of its kind for visually impaired individuals located on Long Island, New York. Classes include instruction in the practice of Martial Arts/Self Defense, Yoga and Meditation. Special classes are also offered in Tai Chi and The Power of Visualization – a program used to develop a champion’s mentality.
- Developed martial arts/fitness and meditation program syllabi for blind and visually impaired children, adult men and women.
- Chief instructor of martial arts/fitness, meditation and archery classes.
- Instructor in personal safety, health, and awareness to improve visually impaired individuals’ level of lifestyle independence.
- Martial arts/physical fitness instructor at Camp Abilities: summer camp for children with visual and developmental disabilities.
- Coordinate special classes’ offerings with volunteer guest instructors in Tai Chi and The Power of Visualization.
- Assistant instructor of martial arts/physical fitness classes for senior citizens at the Jewish Guild Organization - Manhattan, NY.
- Provide special class offering opportunity for students to gain certification in the National Safety Council’s NSC First Aid Course for First Aid with Adult/Child and Infant CPR.
- Organize and deliver opportunities for the visually impaired to participate in off-site recreational events such as: surfing, kayaking, horseback riding, sailing, rock climbing and adaptive snow skiing.
- Partnerships with Bay Shore YMCA, Lion’s Club, USABA, Vermont Adaptive Ski and InTandem.

Certifications
2015 Certified Fitness Trainer
2015 2nd Degree Black Belt in Ninpo Ninjutsu
2011 Certified National Safety Council (NSC) First Aid & CPR
2006 Shodan Degree Black Belt in Ninpo Ninjutsu

RESOLUTION NO. -2015, AUTHORIZING THE RECONVEYANCE OF COUNTY-OWNED REAL ESTATE PURSUANT TO SECTION 215, NEW YORK STATE COUNTY LAW TO ANDREAS DAMBAKAKIS AND GIOVANNA DAMBAKAKIS

WHEREAS, the County of Suffolk is the fee owner of the following described parcel:

ALL, that certain plot, piece or parcel of land with any buildings and improvements thereon erected, situate, lying and being the Town of Smithtown, County of Suffolk, State of New York, described on the Tax Map of the Suffolk County Real Property Service Agency as District 0800, Section 115.00, Block 01.00, Lot 039.00, and acquired by tax deed on October 6, 2014, from Angie M. Carpenter, the County Treasurer of Suffolk County, New York, and recorded on October 9, 2014, in Liber 12791, at Page 708, and otherwise known and designated by the Town of Smithtown, as Lot No. 22, on a certain map entitled “Map of Water Mill Estates. Section 1”, filed in the Office of the Clerk of Suffolk County on February 25, 1969 as Map No. 5260; and

and

WHEREAS, Andreas and Giovanna Dambakakis were the former owners of said real property; and

WHEREAS, the time for redemption of this real property under Local Law No. 16-1976 has expired; and

WHEREAS, an investigation by the office of Legislator Kennedy has determined that said non-payment of taxes on the part of Andreas and Giovanna Dambakakis was not an intentional act but was due to hardship circumstances beyond their control; and

WHEREAS, it would be in the best interest of the County of Suffolk to return said parcel to the tax rolls; and

WHEREAS, the Director of the Division of Real Property Acquisition and Management, or his or her deputy, will receive and deposit the sum of $43,851.07 together with any and all other charges that may be due and owing to the County of Suffolk as of the actual date of closing, as full payment of all amounts due and owing to the County of Suffolk; now, therefore be it

1st RESOLVED, that the Director of the Division of Real Property Acquisition and Management, or his or her deputy, is hereby authorized to execute, acknowledge, and deliver a quitclaim deed to:

Andreas Dambakakis and Giovanna Dambakakis
19 Kental Lane
Nesconset, New York 11767
upon receipt of the above-described moneys, to convey the interest of the County of Suffolk in
the above-described real estate; and be it further

2nd RESOLVED, in the event Andreas and Giovanna Dambakakis fail to pay all
amounts due and owing the County within 60 days of the effective date of this resolution, the
Division of Real Property Acquisition and Management shall not convey the subject property to
Andreas and Giovanna Dambakakis.

RESOLUTION NO. 2015, APPROPRIATING FUNDS IN CONNECTION WITH REWIRING OF HISTORIC BUILDINGS AT SUFFOLK COUNTY VANDERBILT MUSEUM (CP 7445)

WHEREAS, the Suffolk County Vanderbilt Museum has been placed on the National Register of Historic Places and is the former summer estate of William K. Vanderbilt II; and

WHEREAS, this 100-year-old Estate is one of the last few remaining examples of the Gold Coast Mansion era on Long Island; and

WHEREAS, the electric wiring and distribution system in many of the museum’s buildings is obsolete and is in need of replacement; and

WHEREAS, this project provides for new wiring, electrical circuits, and energy efficient lighting, which will reduce operating costs and improve safety; and

WHEREAS, the Executive Director of the Suffolk County Vanderbilt Museum has requested construction funds for electrical upgrades at the Vanderbilt Museum; and

WHEREAS, there are sufficient funds within the 2015 Capital Budget and Program to cover the cost of said request; and

WHEREAS, that this Legislature, by resolution of even date herewith, has authorized the issuance of $50,000 in Suffolk County Serial Bonds; and

WHEREAS, Resolution No. 471-1994, as revised by Resolution No. 571-1998, Resolution No. 209-2000 and Resolution No. 461-2006 established the use of a priority ranking system, implemented in the Adopted 2015 Capital Budget, as the basis for funding capital projects such as this project; now, therefore be it

1st RESOLVED, that it is hereby determined that this project, with a priority ranking of thirty-eight (38) is eligible for approval in accordance with the provisions of Resolution No. 471-1994 as revised by Resolution No. 571-1998, Resolution No. 209-2000 and Resolution No. 461-2006; and be it further

2nd RESOLVED, that the proceeds of $50,000 in Suffolk County Serial Bonds be, and they hereby are, appropriated as follows:

RESOLUTION NO. -2015, APPROPRIATING FUNDS IN CONNECTION WITH RECONSTRUCTION OF VANDERBILT SEAWALL (CP 7453)

WHEREAS, the Suffolk County Vanderbilt Museum has been placed on the National Register of Historic Places and is the former summer estate of William K. Vanderbilt II; and

WHEREAS, this 100-year-old Estate is one of the last few remaining examples of the Gold Coast Mansion era on Long Island; and

WHEREAS, William K. Vanderbilt II commissioned the construction of the Estate's historic granite block seawall approximately 85 years ago; and

WHEREAS, major storms and severe winter ice conditions during the past five (5) years have caused several sections of the seawall to collapse and possibly compromise the stability of the steep hill behind the seawall; and

WHEREAS, planning funds are required to evaluate and survey the waterfront to obtain the necessary environmental permits and approvals to repair and restore the seawall; and

WHEREAS, the Executive Director of the Suffolk County Vanderbilt Museum has requested planning funds for the restoration of the seawall at the Vanderbilt Museum; and

WHEREAS, there are sufficient funds within the 2015 Capital Budget and Program to cover the cost of said request; and

WHEREAS, that this Legislature, by resolution of even date herewith, has authorized the issuance of $35,000 in Suffolk County Serial Bonds; and

WHEREAS, Resolution No. 471-1994, as revised by Resolution No. 571-1998, Resolution No. 209-2000 and Resolution No. 461-2006 established the use of a priority ranking system, implemented in the Adopted 2015 Capital Budget, as the basis for funding capital projects such as this project; now, therefore be it

1st RESOLVED, that it is hereby determined that this project, with a priority ranking of thirty-nine (39) is eligible for approval in accordance with the provisions of Resolution No. 471-1994 as revised by Resolution No. 571-1998, Resolution No. 209-2000 and Resolution No. 461-2006; and be it further

2nd RESOLVED, that the proceeds of $35,000 in Suffolk County Serial Bonds be, and they hereby are, appropriated as follows:

<table>
<thead>
<tr>
<th>Project Number</th>
<th>Project Title</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>525-CAP-7453.110</td>
<td>Reconstruction of Vanderbilt Seawall</td>
<td>$35,000</td>
</tr>
</tbody>
</table>

and be it further
3rd RESOLVED, that the County Department of Public Works is hereby authorized, empowered and directed to take such action as may be necessary, for the planning and reconstruction of the Vanderbilt Museum Seawall; and be it further

4th RESOLVED, that this Legislature, being the lead agency under the State Environmental Quality Review Act ("SEQRA"), Environmental Conservation Law Article 8, hereby finds and determines that this law constitutes a Type II action, pursuant to Section 617.5 (C) (20), (21) and (27) of Title 6 of New York Code of Rules and Regulations ("NYCRR"), in that the law authorizes information collection, including basic data collection and research, and preliminary planning processes necessary to formulate a proposal for an action, but does not commit the County to commence or approve an action; since this law is a Type II action, the Legislature has no further responsibilities under SEQRA.

T:\BRO\Resolution CP7453 sea wall planning 2015.doc
RESOLUTION NO. - 2015, AUTHORIZING EXECUTION
OF RECIPROCAL EASEMENT AGREEMENTS WITH
GURWIN JEWISH HEALTHCARE FOUNDATION IN
CONNECTION WITH THE RECONSTRUCTION OF A
COUNTY RECHARGE BASIN IN THE VICINITY OF CR 4
COMMACK ROAD

WHEREAS, the County of Suffolk is the record owner of property identified on
the Suffolk County Tax Map as District 0400, Section 251.00, Block 01.00, Lot 015.000 upon
which is located an operational dry recharge basin; and

WHEREAS, Gurwin Jewish Healthcare Foundation ("Gurwin") is the owner of
adjacent property which Gurwin intends to develop as a senior independent living facility; and

WHEREAS, the existing dry recharge basin is necessary for the County to
adequately manage storm water runoff and drainage from County Road 4, Commack Road; and

WHEREAS, Gurwin is desirous of reconstructing the dry recharge basin so as to
provide a more aesthetically pleasing water feature adjacent to its property, while maintaining
the functionality of the recharge basin; and

WHEREAS, Gurwin further agrees to assume responsibility for future
maintenance of the reconstructed recharge basin/water feature; and

WHEREAS, Gurwin requires and easement across the County-owned property
adjacent to the Gurwin property in order to progress the reconstruction of the recharge
basin/water feature and to perform future maintenance of same; and

WHEREAS, in furtherance of this project, Gurwin will provide the County a
reciprocal easement across a portion of its property, identified on the Suffolk County Tax Map
as p/o District 0400, Section 251.00, Block 01.00, Lot 017.003 in order to accommodate the
expansion of the reconstructed recharge basin/water feature and to provide future access to the
recharge basin by the County; and

WHEREAS, prior to any construction, Gurwin will submit for review and approval
by the County and the Town of Huntington detailed plans for the reconstruction and
enlargement of the existing dry recharge basin for conversion to a wet recharge basin/water
feature; and

WHEREAS, the reconstructed recharge basin will continue to serve its public
purposes without any diminishment in functionality, at no cost to the County for the
reconstruction and with Gurwin assuming responsibility for the future maintenance cost
associated with the recharge basin, while providing a water feature for the aesthetic
enhancement of the Gurwin Property; now, therefore be it

1st RESOLVED, that this Legislature hereby authorizes, empowers, and directs the
County Executive, or his designee, to enter into such easement agreements necessary to
facilitate the reconstruction of the subject recharge basin in accordance with the plans submitted by Gurwin to, and as approved by, the Department and upon such other terms and conditions, including future maintenance of the recharge basin by Gurwin, as approved by the Department of Public Works, and subject to the approval of the Department of Law; and be it further

2nd RESOLVED, that this Legislature, being the lead agency under the State Environmental Quality Review Act, New York Environmental Conservation Law Article 8 ("S.E.Q.R.A."), and Chapter 279 of the Suffolk County Code, hereby determines that authorization of the subject reciprocal Easements constitutes an unlisted action and will not have significant adverse effects on the environment, which completes SEQRA; and be it further

3rd RESOLVED, that, in accordance with Section 279-5(C)(4) of the Suffolk County Code, the Suffolk County Council on Environmental Quality is hereby directed to prepare and circulate any appropriate SEQRA notices of determination in accordance with this resolution.

RESOLUTION NO. - 2015, AMENDING THE 2015 CAPITAL BUDGET AND PROGRAM AND APPROPRIATING FUNDS FOR THE PECONIC BAY ESTUARY PROGRAM (CP 8235) AND APPROVING THE PURCHASE OF A REPLACEMENT VEHICLE IN ACCORDANCE WITH THE COUNTY VEHICLE STANDARD LAW

WHEREAS, the Commissioner of Health Services has requested funds for the Peconic Bay Estuary Program; and

WHEREAS, the original 2015 funding request was to support planning and site improvements to habitat restoration projects; however, due to delays in the conceptual design phase of these projects, this funding will be amended to purchase needed replacement equipment used for water quality monitoring; and

WHEREAS, the equipment request includes funds to replace a 2006 Ford pick-up (Fleet #29846) used for transporting boats used in water sampling; and

WHEREAS, Resolution No. 321-2003 requires that no vehicle shall be purchased or leased unless "explicit approval for the acquisition of such vehicles, via lease or purchase, has been granted via duly enacted Resolution of the Suffolk County Legislature"; and

WHEREAS, there are sufficient funds within the 2015 Capital Budget and Program to cover the cost of said request under Capital Program Number 8235; and

WHEREAS, amortizing the bonds over the period of probable usefulness ("PPU") of the project may be fiscally beneficial as compared to including the project in the weighted average maturity ("WAM") determined for a typical bond issue; and

WHEREAS, Resolution No. 471-1994 and as amended by Resolution No. 461-2006 has established a priority ranking system as the basis for funding Capital Projects such as this project; and

WHEREAS, the County Legislature, by resolution of even date herewith, has authorized the issuance of $150,000 in Suffolk County Serial Bonds; now, therefore be it

1st RESOLVED, that this Legislature, being the lead agency under the State Environmental Quality Review Act ("SEQRA"), Environmental Conservation Law Article 8, hereby finds and determines that this law constitutes a Type II action, pursuant to Section 617.5(C) (25) and (27) of Title 6 of New York Code of Rules and Regulations ("NYCRR"), in that the resolution concerns purchasing of computer applications and hardware, other than land, radioactive material, pesticides, herbicides or other hazardous materials, and adoption of a local legislative decision in connection with the same, and the Legislature has no further responsibilities under SEQRA; and be it further
2nd RESOLVED, that it is hereby determined that this project, with a priority ranking of sixty (60) is eligible for approval in accordance with the provisions of Resolution No. 471-1994 and as amended by Resolution No. 461-2006; and be it further

3rd RESOLVED, that the Department of Health Services is hereby authorized to replace a 2006 Ford truck, Fleet number 29846; and be it further

4th RESOLVED, that if it is determined to be fiscally beneficial, the purchase of equipment for the Peconic Bay Estuary Program will be financed utilizing the PPU of the project; and be it further

5th RESOLVED, that the 2015 Capital Budget and Program be and they are hereby amended as follows:

Project No.: 8235
Project Title: Peconic Bay Estuary Program

Page 2 of 2

To be completed by the Executive Budget Office
MEMORANDUM

To: Liza Wright, Senior Budget Analyst
   Budget/Purchasing

From: Walter Davydiak, Jr., P.E., J.D., Director
       Division of Environmental Quality

Date: October 21, 2015

Subject: Request for Introductory Resolution for Adopted 2015 CP 8235 (Peconic Bay Estuary Program); $150,000

I request drafting of an Introductory Resolution for the Adopted 2015 CP 8235 – Peconic Bay Estuary Program (PEP). The resolution would appropriate $150,000 to replace the following equipment:

- An aging (2006, >160,000 miles) gas powered Ford pick-up with a heavy duty diesel powered tow and support vehicle – estimated at $56,000.
- A replacement 250 HP outboard engine for the 23’ Parker sampling vessel- estimated at $18,000.
- Replacement of 5 marine monitoring devices (Sondes)- estimated at $60,000.
- Replacement of 4 handheld water quality meters – estimated at $16,000.

Project Description:
This funding request for $150,000 in equipment, originally scheduled for 2017, will be used for as part of the PEP marine monitoring program. The funding originally included in the 2015 Capital Budget and Program was to support planning and site improvements of habitat restoration projects at various sites. However, due to delays in the conceptual design phase of these projects the funding will be amended and used for the purchase of replacement equipment.

At present, surface water quality monitoring is performed at over 35 marine stations, throughout the Peconic Estuary under the PEP. Samples are routinely collected for a variety of physical, chemical, and biological parameters, including temperature, secchi depth, irradiance, dissolved oxygen, salinity, conductivity, pH, nutrients (various nitrogen & phosphorous compounds), coliform bacteria, suspended solids, chlorophyll-a, and Aureococcus (the "brown tide" organism).

The current vehicle used to tow and support the sampling fleet is approaching the end of its serviceable life. It currently has over 160,000 miles on it and no longer has the necessary power to haul the larger boats in the fleet.
The 23' Parker sampling vessel was purchased in 2007 and allows for shallow water access. The current outboard has nearly 1500 hours and is approaching the end of its serviceable life. The Sondes and handheld meters will be replacing existing ones that are no longer operational.

This monitoring program is the County biggest contribution to the Implementation of the PEP CCMP, and continues an essential long-term data set that has been essential for evaluating the effectiveness of water quality protection measures. This monitoring program will be used to demonstrate water quality improvements that result from the County’s “Reclaim Our Waters” initiative.

Michael Jensen, Assoc. PH Sanitarian – Office of Ecology
TITLE OF BILL: Amending the 2015 Capital Budget and Program and appropriating funds for the Peconic Bay Estuary Program (CP 8235) and approving the purchase of a replacement vehicle in accordance with the County Vehicle Standard Law.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to amend and appropriate funds to capital project 8235 and will be used to replace a 2006 Ford truck (Fleet #29846), outboard engines for 23’ Parker boat, marine monitoring devices (Sondes), and handheld water quality meters.

SUMMARY OF SPECIAL PROVISIONS: None.

JUSTIFICATION: This Resolution is needed to amend and appropriate funds to capital project 8235. The funding originally included in the 2015 Capital Budget and Program was to support planning and site improvements of habitat restoration projects at various sites. However, due to delays in the conceptual design phase of these projects the funding will be amended and used for the purchase of replacement equipment. All equipment is used for the marine monitoring program in the Peconic Estuary.

FISCAL IMPLICATIONS: Serial bonds and related debt service.
October 21, 2015

Jon Schneider, Deputy County Executive
County Executive’s Office, 12th Floor
H. Lee Dennison Building
Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to amend the 2015 Capital Budget and Program and appropriating funds for the Peconic Bay Estuary Program (CP 8235) and approving the purchase of a replacement vehicle in accordance with the County Vehicle Standard Law. This legislation is needed to amend and appropriate funds to capital project 8235. The funding originally included in the 2015 Capital Budget and Program was to support planning and site improvements of habitat restoration projects at various sites. However, due to delays in the conceptual design phase of these projects the funding will be amended and used for the purchase of replacement equipment. The equipment being replaced is a 2006 Ford truck, outboard engines for 23’ Parker boat, marine monitoring devices (Sondes) and handheld water quality meters. All are used for the marine monitoring program in the Peconic Estuary.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Walter Dawydiak at 2-5800. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-CP 8235 PEP.doc.”

Sincerely,

James L. Tomarken, MD, MPH, MBA, MSW
Commissioner

RESOLUTION NO. - 2015, AMENDING THE 2015 ADOPTED OPERATING BUDGET TO ACCEPT AND APPROPRIATE 100% ADDITIONAL STATE AID FROM THE NEW YORK STATE OFFICE OF MENTAL HEALTH TO FEDERATION OF ORGANIZATIONS FOR THE PURPOSE OF ENHANCING THE CHILDREN & YOUTH SINGLE POINT OF ACCESS PROGRAM

WHEREAS, the New York State Office of Mental Health has issued additional 100% State Aid for the expansion of Single Point of Access Services (SPOA) for Children & Youth; and

WHEREAS, these services support children and adolescents with serious emotional disturbance in Suffolk County; and

WHEREAS, The New York State Office of Mental Health supports sub-allocation of these funds to the Federation of Organization's SPOA program effective July 1, 2015; and

WHEREAS, these additional funds are not currently included in the 2015 Adopted Operating Budget; now, therefore be it

1st RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $67,125 in additional State Aid as follows:

REVENUES:

001-3493 Community Support Services $67,125

ORGANIZATIONS:

Department of Health Services (HSV)
Division of Community Mental Hygiene Services
001-HSV-4330-4980

To be completed by the Executive Budget Office.
MEMORANDUM

To:        James L. Tomarken, MD, MPH, MBA, MSW
            Commissioner, Department of Health Services

From:     Art Flescher, LCSW, CASAC
            Director, Division of Community Mental Hygiene Services

Date: October 6, 2015

Subject: Request for Legislative Resolution

The New York State Office of Mental Health has allocated $67,125 in 100% additional State Aid in 2015 beginning 7/1/15 for the enhancement of Children’s SPOA Services in Suffolk County. The Division is requesting a Legislative Resolution to allocate this State Aid to Federation of Organizations. As per Resolution No. 870-2013, adopting Local Law 40, we would like to accelerate legislative consideration to accept these 100% state funds. This acceleration is needed due to the lateness in the calendar year that OMH has issued these 2015 funds.

I am attaching drafts of the fiscal impact statement, intro resolution and routing form as well as the Office of Mental Health’s 2015 state aid letter and the OMH Long Island Field Office letter which gives the specifics of the funding.

AF/HM
Enclosures
Cc: L. Wright, S. Reagan, D. Holtsford, B. Russo
October 6, 2015

Mr. Arthur Flescher, Director
Suffolk County Department of Health Services
Division of Community Mental Hygiene Services
North County Complex - 725 Veterans Memorial Highway
Building C928
Hauppauge, NY 11788

Dear Mr. Flescher:

The New York State Office of Mental Health (OMH) is allocating $67,125 in Children & Families Clinical Infrastructure funding (OMH funding code 046A) in 2015 to support the enhanced roles of the Local Governmental Unit and Single Point of Access (SPOA) as a result of the changes to the OMH’s Home and Community Based Services Waiver program which serves children and adolescents with serious emotional disturbance in Suffolk County. These funds are effective July 1, 2015 and have an annualized value of $134,250.

Suffolk County will receive the full annual amount until December 31, 2016. The long term expectation is that counties will receive partial reimbursement through Medicaid Administration claiming by having the SPOA staff (even if subcontracted) on the Random Moment Time Study county roster pursuant to the current RMTS inclusion process. Based on the county’s ability to claim, the OMH will continue to provide a percentage of the enhanced SPOA funding on a recurring basis.

The OMH supports the decision to sub-allocate these funds to the Federation of Organizations for the NYS Mentally Disabled effective July 1, 2015. These funds must be reported as Single Point of Access (program code 1400) on all OMH financial reports. The OMH approves the following allocation:

<table>
<thead>
<tr>
<th>Mental Health Program</th>
<th>Program Code</th>
<th>7/1/15 - 12/31/15</th>

A FACILITY OF THE OFFICE OF MENTAL HEALTH
TITLE OF BILL: Amending the 2015 Adopted Operating Budget to accept and appropriate 100% additional State Aid from the New York State Office of Mental Health to Federation of Organizations for the purpose of enhancing the children & youth Single Point of Access Program.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriate 100% State Aid from the New York State Office of Mental Health to Federation of Organizations for enhancement of the Children & Youth Single Point of Access Program.

SUMMARY OF SPECIAL PROVISIONS: None.

JUSTIFICATION: New York State Office of Mental Health has awarded additional funds for Federation of Organization to enhance the Single Point of Access Program for children and adolescents with serious emotional disturbance in Suffolk County.

FISCAL IMPLICATIONS: $67,125 in additional State Aid will be added to the 2015 Adopted Operating Budget.
October 21, 2015

Jon Schneider, Deputy County Executive
County Executive's Office, 12th Floor
H. Lee Dennison Building
Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to amend the 2015 Adopted Operating Budget to accept and appropriate 100% additional State Aid from the New York State Office of Mental Health to Federation of Organizations for the purpose of enhancing the children & youth Single Point of Access Program. These additional funds support children and adolescents with serious emotional disturbance in Suffolk County.

I enclose the financial impact statement and other materials for this Resolution. If you have any questions on the enclosed, please call Barbara Russo at 3-8533. Also, an e-mail version of this resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-MH Federation Org SPOA.docx.”

Sincerely,

James L. Tomarken, MD, MPH, MBA, MSW

RESOLUTION NO. - 2015, ACCEPTING AND APPROPRIATING 100% STATE GRANT FUNDS FROM THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR HIV REPORTING AND PARTNER NOTIFICATION PROGRAM

WHEREAS, the New York State Department of Health has awarded 100% State grant funds to the Department of Health Services, Division of Public Health for HIV Reporting and Partner Notification Program in the amount of $284,836 for the period 10/01/15-09/30/16; and

WHEREAS, this funding is used to maintain patient and partner notification service information for the Partnership Surveillance and Partner Service Program in an effort to reduce the spread of HIV; and

WHEREAS, a portion of these grant funds, salaries and fringe, were included in the 2015 Adopted Operating Budget and the remaining funds need to be appropriated; now, therefore be it

1st RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate said grant funds as follows:

REVENUES

001-3401 State Aid: Public Health $213,627

APPROPRIATIONS

Department of Health Services (HSV)
Division of Public Health
HIV Reporting and Partner Notification Program
001-HSV-4023

1000 - Personal Services $174,085
1110 Interim Salaries (for charging salaries from 001-4010) $174,085

Employee Benefits
Social Security

8000 – Employee Benefits $13,317
8330 Social Security $13,317

and be it further

2nd RESOLVED, that the funding and expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further
3rd RESOLVED, that the County Legislature hereby authorizes the County Executive, or his
designee, to execute any and all contract documents necessary to receive these grant funds; and
be it further

4th RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter
279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II
action.

TITLE OF BILL: Accepting and appropriating 100% State grant funds from the New York State Department of Health to the Suffolk County Department of Health Services for HIV Reporting and Partner Notification Program.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriate 100% State grant funds from the New York State Department of Health for HIV Reporting and Partner Notification Program.

SUMMARY OF SPECIAL PROVISIONS: None.

JUSTIFICATION: The mission of Suffolk County Department of Health Services is to promote wellness and protect the public’s health and environment. These grant funds are used to maintain patient and partner notification service information for the Partnership Surveillance and Partner Service Program in an effort to reduce the spread of HIV.

FISCAL IMPLICATIONS: Additional State grant funds will be added to the 2015 Adopted Operating Budget.
October 21, 2015

Jon Schneider, Deputy County Executive
County Executive's Office, 12th Floor
H. Lee Dennison Building
Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 100% State grant funds from the New York State Department of Health to the Suffolk County Department of Health Services for HIV Reporting and Partner Notification Program. This program maintains patient and partner notification service information for the Partnership Surveillance and Partner Service Program in an effort to reduce the spread of HIV.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-PH Partner Notify Grant.docx.”

Sincerely,

RESOLUTION NO. - 2015, ACCEPTING AND APPROPRIATING 100% FEDERAL GRANT FUNDS FROM THE US CENTERS FOR DISEASE CONTROL AND PREVENTION PASSED THROUGH THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR THE PUBLIC HEALTH EMERGENCY PREPAREDNESS-CITIES READINESS INITIATIVE (CRI)

WHEREAS, 100% Federal grant funds have been awarded through the New York State Department of Health for the Public Health Emergency Preparedness Program-CRI in the amount of $85,690 for the period 07/01/15-06/30/16; and

WHEREAS, these grant funds will be used for Public Health Emergency Preparedness, Cities Readiness Initiative; and

WHEREAS, these grant funds will be used for emergency preparedness with a focus on planning and assessment, surveillance, health alert notifications, risk communication, and education and training; and

WHEREAS, a portion of these grant funds are already included in the 2015 Adopted Operating Budget and $38,118 needs to be appropriated; now, therefore be it

1ST RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $38,118 in additional grant funds as follows:

REVENUES

001-4401 Federal Aid: Public Health $42,845

APPROPRIATIONS

Department of Health Services (HSV)
Public Health Emergency Preparedness-CRI
001-HSV-4026

1100 Personal Services $35,409
1110 Interim Salaries (for charging salaries from 001-4010) $35,409

Employee Benefits
Social Security

8000 – Employee Benefits $2,709
8330 Social Security $2,709

and be it further
2ND RESOLVED, that the funding and the expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further

3RD RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II action.

COORDINATION OF GRANT APPLICATION OR CONTRACT
County of Suffolk

DATE: 10/14/2015

Submitting Department / Agency: Department of Health Services
Location: 3500 Sunrise Hwy. Great River, NY 11739

Contact Person in Department / Agency: Gary Amato
Telephone Number: 854-0143
Grant Application Due Date:

Instructions: Applicant will complete all items on this form. If an item is not applicable, enter "NA". If additional space is needed, insert and asterisk (*) in the item box and attach additional information on an 8 1/2" X 11" sheet cross referenced to the item.

I. Background Information

1. Grant Title
   Public Health Emergency Preparedness Program - CRI

2. Statutory Legislation (Public Law No. & Title & Department Administering Grant Program)

3. Grant / Contract Status (Check One Box)
   
   A. New Program Application
   X B. Renewal Application
   C. Supplemental (Specify)
   D. Extension of Funding Period
   E. Contract

4. General Purpose of Grant / Contract (Describe briefly. If it is a refunding, please attach a recent progress report, including summary of goal attainment.)

   The Centers for Disease Control and Prevention (CDC), is the nationally designated lead agency for Public Health Emergency Preparedness. The Public Health Emergency Preparedness (PHEP) Grant is used to build critical capacities in five specified areas: (1) Planning and Assessment (2) Surveillance, (3) Health Alert Notification (4) Risk Communication, and (5) Education / Training. CDC Grant deliverables require that SCDHS develop, maintain and exercise the following plans: (a) Public Health Emergency Preparedness and Response Plan (PHEPR) that includes a Radiological Emergency Response Plan, (b) Strategic National Stockpile (SNS) Plan and (c) Medical Countermeasures (MCM) Plan. All of these documents are Annexes to the "Suffolk County All-Hazards Comprehensive Emergency Management Plan" (CEMP) that Suffolk County FRES is mandated, by law, to maintain.

5. County Departments / Agencies Affected (Include any with similar operational programs, regardless of their eligibility for this program.)

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 100% Federal grant funds from the US Centers for Disease Control and Prevention passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Public Health Emergency Preparedness-Cities Readiness Initiative (CRI). These grant funds will be used for emergency preparedness with a focus on planning and assessment, surveillance, health alert notifications, risk communication, and education and training.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-PHEP CRI.docx.”

Sincerely,

RESOLUTION NO. - 2015, ACCEPTING AND APPROPRIATING 100% FEDERAL GRANT FUNDS FROM THE US CENTERS FOR DISEASE CONTROL AND PREVENTION PASSED THROUGH THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR THE PUBLIC HEALTH EMERGENCY PREPAREDNESS PROGRAM

WHEREAS, 100% Federal grant funds have been awarded through the New York State Department of Health for the Public Health Emergency Preparedness Program-CRI in the amount of $570,709 for the period 07/01/15-06/30/16; and

WHEREAS, these grant funds will be used for public health emergency preparedness with a focus on planning and assessment, surveillance, health alert notifications, risk communication, and education and training; and

WHEREAS, a portion of these grant funds are already included in the 2015 Adopted Operating Budget and $198,909 needs to be appropriated; now, therefore be it

1st RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $198,909 in additional grant funds as follows:

REVENUES

001-4401 Federal Aid: Public Health $285,355

APPROPRIATIONS

Department of Health Services (HSV)
Public Health Emergency Preparedness Program
001-HSV-4024

1100 Personal Services $184,774
1110 Interim Salaries (for charging salaries from 001-4010) $184,774

Employee Benefits
Social Security

8000 – Employee Benefits $14,135
8330 Social Security $14,135

and be it further

2nd RESOLVED, that the funding and the expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further
3rd RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II action.

   C. Supplemental (Specify)
   D. Extension of Funding Period
   E. Contract

4. General Purpose of Grant / Contract (Describe briefly. If it is a refunding, please attach a recent progress report, including summary of goal attainment.)

   The Centers for Disease Control and Prevention (CDC), is the nationally designated lead agency for Public Health Emergency Preparedness. The Public Health Emergency Preparedness (PHEP) Grant is used to build critical capacities in five specified areas: (1) Planning and Assessment, (2) Surveillance, (3) Health Alert Notification (4) Risk Communication, and (5) Education / Training. CDC Grant deliverables require that SCDHS develop, maintain and exercise the following plans: (a) Public Health Emergency Preparedness and Response Plan (PHEPR) that includes a Radiological Emergency Response Plan, (b) Strategic National Stockpile (SNS) Plan and (c) Medical Countermeasures (MCM) Plan. All of these documents are Annexes to the "Suffolk County All-Hazards Comprehensive Emergency Management Plan" (CEMP) that Suffolk County FRES is mandated, by law, to maintain.

5. County Departments / Agencies Affected (Include any with similar operational programs, regardless of their eligibility for this program.)

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 100% Federal grant funds from the US Centers for Disease Control and Prevention passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Public Health Emergency Preparedness Program. These grant funds will be used for emergency preparedness with a focus on planning and assessment, surveillance, health alert notifications, risk communication, and education and training.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-PHEP Base.docx.”

Sincerely,

James L. Tomarken, MD, MPH, MBA, MSW

RESOLUTION NO. — 2015, AMENDING THE 2015 ADOPTED OPERATING BUDGET TO ACCEPT AND APPROPRIATE 100% FEDERAL GRANT FUNDS PASSED THROUGH THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR THE IMMUNIZATION ACTION PLAN

WHEREAS, these 100% Federal grant funds are passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Immunization Action Plan and the award amount is $300,000 for the period 04/01/15-03/31/16; and

WHEREAS, this plan aims to completely immunize children in Suffolk County by their second birthday; and

WHEREAS, a portion of these funds are already included in the 2015 Suffolk County Adopted Operating Budget and $53,818 needs to be appropriated; and

WHEREAS, these funds are 100% federally funded; now, therefore be it

1ST RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $53,818 in grant funds as follows:

REVENUES

001-4401 Federal Aid: Public Health $75,000

APPROPRIATIONS

Department of Health Services (HSV) Division of Patient Care Services Immunization Action Plan 001-HSV-4116

1100 Personal Services $49,993
1110 Interim Salaries (for charging salaries from 001-4101) $49,993

Employee Benefits Social Security

8000 – Employee Benefits $3,825
8330 Social Security $3,825

and be it further

2nd RESOLVED, that the funding and expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further
3rd RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II action.

MEMORANDUM

To: Liza Wright, Budget, Purchasing and Inventory Unit
From: Gary Amato, Budget, Purchasing and Inventory Unit
Date: September 30, 2015
Subject: Request for Resolution

Immunization Action Plan
Budget Period: 4/1/15 – 3/31/16
Approp: 001-4116
Revenue Code: 4401
Grant ID # HSV 2356

Please write a resolution to accept and appropriate 100% Federal grant funds for the above mentioned program. The total grant award for this period is $300,000. Part of these grant funds were included in the 2015 Adopted Operating Budget. The remaining grant funds need to be appropriated as follows:

## I. Background Information

1. **Grant Title**
   - Immunization Action Plan (IAP)

2. **Statutory Legislation (Public Law No. & Title & Department Administering Grant Program)**

3. **Grant / Contract Status (Check One Box)**
   - A. New Program Application
   - B. Renewal Application [X]
   - C. Supplemental (Specify)
   - D. Extension of Funding Period
   - E. Contract

4. **General Purpose of Grant / Contract (Describe briefly. If it is a refunding, please attach a recent progress report, including summary of goal attainment.)**
   - The purpose of this funding is to insure that 90% of all children in Suffolk County are completely immunized by their second birthday.

5. **County Departments / Agencies Affected (Include any with similar operational programs, regardless of their eligibility for this program.)**
   - NONE

## II. BUDGET INFORMATION

1. **Term of Contract**
   - From: 4/1/2015  To: 3/31/2016

2. **Financial Assistance Requested**

James L. Tomarken, MD, MSW, MPH, MBA, FRCP, FACP
Health Commissioner
Suffolk County Department of Health Services
3500 Sunrise Highway, Suite 124, PO Box 9006
Great River, NY 11739-9006

RE: IAP Contract #C-028322, 2015-2016 Budget Amount $300,000

Dear Commissioner Tomarken:

This letter provides you with your New York State Department of Health (NYSDOH) Immunization Action Plan (IAP) contract renewal budget amount and instructions for preparing your IAP budget and work plan for the period beginning April 1, 2015 and ending March 31, 2016. Completed budget and work plan documents must be submitted by January 12, 2015. This communication contains the following documents:

- 2015-16 IAP budget and justification template
- 2015-16 IAP work plan template
- AFIX/Daycare Audit Guidance
- Vaccine Storage & Handling Review Tool

2015-2016 Budget

The budget template for 2015-16 has been revised to make budget lines consistent for all counties and aid in providing justification for each expense. Please review the Instructions tab of the template prior to entering any information into the budget template. Additional instructions are provided within the different tabs of the template to guide you in entering your budget information. Any questions regarding using the budget template should be addressed to the NYSDOH Bureau of Immunization’s Administrative Unit via email at ImmAdmin@health.ny.gov or by calling 518-473-4437. Completed budget templates must be submitted to ImmAdmin@health.ny.gov and your NYSDOH regional representative by Monday, January 12, 2015.
2015-2016 Work Plan

Please review the 2015-16 work plan, the AFIX/Daycare Audit Guidance document, and the Vaccine Storage & Handling Review Tool and begin planning your activities. These documents have been updated and must be used for the 2015-16 contract period. While the work plan has not changed significantly, please note the following:

- **AFIX:**
  - All AFIX will be completed using the AFIX online tool. A training webinar will be scheduled.
  - All AFIX need to be completed within the first two quarters of the contract year (by September 30th) to allow for required follow up in the third and fourth quarters (by March 31st).
  - County-specific baseline data for 19-35 month old 4:3:1:3:3:1:4 series completion rates will be available in mid-January.

- **Grant Personnel:**
  - Grant personnel must be specified in the work plan. Each objective must outline the individual(s) who will work on the objective and the estimated percent of their time.
  - The total time (funded and in-kind) listed in the budget should match the total combined amount of time the individual spends on all work plan deliverables. For example, if an individual is listed as spending 25% of their total time on IAP activities in the budget, the amount of time designated within the work plan (all objectives combined) should total 25%.
  - Staff will be required to account for their time spent on IAP objectives in each quarterly report.

- **Required Deliverables:**
  - The following objectives have required deliverables: 2-A, 3-A, 3-B, 4-A, 4-D, and 5-A. Required deliverables are activities which each local health department (LHD) must complete. Since these required activities are identified by NYSDOH, the LHD does not have to provide specific details of how or when the activities will be completed in the work plan. IAP Coordinators will attest to the completion of the required deliverables in the quarterly reports. LHDs should maintain documentation of activities completed for audit purposes.
  - The remaining objectives require a detailed written narrative describing the activities which the LHD will complete to achieve the objective. Please provide sufficient written details.

Submit a completed work plan to your NYSDOH regional office supervisor, Barbara Bright-Motelson, at bar.bright-motelson@health.ny.gov **AND** immAdmin@health.ny.gov by **Monday, January 12, 2015**. Regional and central office staff will conduct simultaneous work plan reviews and may ask LHDs to revise and/or update the work plan. If changes to the work plan are required, the regional office will request edits be completed within two weeks of their
return to the LHD. The next project period starts April 1, 2015 and timely response to requests for updates/edits will ensure that work plans are approved by that date.

Reporting Requirements

Quarterly reports and vouchers must be submitted no later than 30 days after the end of each quarter (e.g., July 30th is the deadline for the quarter ending June 30th). Quarterly reports and supporting documentation should be emailed to immAdmin@health.ny.gov and your regional representative. Hard copies of the Claim for Payment (form AC3253-S) and the corresponding Budget Statement and Report of Expenditures (BSROE) should be mailed to:

Administrative Unit
NYSDOH, Bureau of Immunization
ESP, Corning Tower, Room 649
Albany, NY 12237

Additional guidance on reporting requirements, including supporting documentation, will be sent once the budget and work plan documents have been approved.
If you have any questions, please contact your regional representative.

Sincerely,

[Signature]

Elizabeth Rausch-Phung, MD, MPH
Director, Bureau of Immunization

RESOLUTION NO. 2015, ACCEPTING AND APPROPRIATING 100% FEDERAL GRANT FUNDS FROM THE US DEPARTMENT OF TRANSPORTATION PASSED THROUGH THE NEW YORK STATE GOVERNOR'S SAFETY COMMITTEE FOR THE NEW YORK STATE HIGHWAY SAFETY GRANT PROGRAM FOR THE SUFFOLK COUNTY OFFICE OF THE MEDICAL EXAMINER TOXICOLOGY LABORATORY.

WHEREAS, the US Department of Transportation passed through the New York State Governor's Safety Committee has awarded 100% Federal grant funds to the Suffolk County Office of the Medical Examiner Toxicology Laboratory for the New York State Highway Safety Program in the amount of $56,600 for the period October 1, 2015 through September 30, 2016; and

WHEREAS, this program funds projects to improve highway safety and reduce deaths and serious injuries due to crashes; and

WHEREAS, a portion of these funds in the amount of $5,950 are already included in the 2015 Suffolk County Adopted Operating Budget for overtime, equipment, supplies and travel and $50,650 needs to be appropriated; now therefore be it,

1st RESOLVED, that the County Comptroller and the County Treasurer be and they hereby are authorized to accept and appropriate $56,600 said grant funds as follows:

REVENUES

001-4320 Medical Examiner $50,650

APPROPRIATIONS

Office of the Medical Examiner
NYS Highway Safety Program
001-MED-4737

Personal Services $20,304
1120 Overtime Salaries $20,304

Supplies, Materials, and Other Expenses $30,184
3370 Medical, Dental & Laboratory Supplies $28,279
3680 Repairs: Special Equipment $1,905

Contractual Expenses $162
4340 Travel: Other $162

and be it further
2nd RESOLVED, that the funding and expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further

3rd RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II action; and be it further

4th RESOLVED, that the County Legislature hereby authorizes the County Executive, or his designee, to execute any and all contract documents necessary to receive these grant funds.

2015 INTERGOVERNMENTAL RELATIONS
MEMORANDUM OF SUPPORT

TITLE OF BILL: Accepting and appropriating 100% Federal grant funds from the US Department of Transportation passed through the New York State Governor's Safety Committee for the New York State Highway Safety grant program for the Suffolk County Office of the Medical Examiner Toxicology Laboratory.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriate 100% Federal grant funds from the US Department of Transportation passed through the New York State Governor's Safety Committee for the New York State Highway Safety grant program for the Suffolk County Office of the Medical Examiner Toxicology Laboratory.

SUMMARY OF SPECIFIC PROVISIONS: None.

JUSTIFICATION: The Governor's Traffic Safety Committee (GTSC) awards Federal highway safety grant funds to local, state and not-for-profit agencies for projects to improve highway safety and reduce deaths and serious injuries due to crashes. The Suffolk County Office of the Medical Examiner Toxicology Laboratory utilizes these funds to enhance its DWI/DUID alcohol and drug testing program. Grant funds are used for overtime for forensic personnel to expedite DWI cases, purchase of laboratory supplies used in DWI analysis, scientific training and attendance at scientific meetings.

FISCAL IMPLICATIONS: Accept and appropriate $56,600 in Federal grant funds to the 2015 Adopted Operating Budget.

CFDA #: 20.616  
EFFECTIVE DATE: October 1, 2015

Dear Assistant Toxicologist Michael Katz:

On behalf of Governor Andrew M. Cuomo, I am pleased to notify you that the Suffolk County Medical Examiners Office-Toxicology has been awarded $56,600 to participate in New York State’s Highway Safety Program. Our goal is to reduce the number of crashes, injuries and deaths on New York’s roads.

The enclosed contracts must be signed by your agency and returned to our office. Contracts will be effective only upon final approval by the New York State Office of the State Comptroller.

Before incurring any project related expenses, login to eGrants to review your approved budget as it may have been reduced or otherwise changed from what was requested.

Thank you for participating in New York State’s Highway Safety Program. I wish you success in your efforts. If you have any questions, please contact the Governor’s Traffic Safety Committee at (518) 474-5111.

Sincerely,

Charles R. DeWeese  
Assistant Commissioner

RESOLUTION NO. - 2015, APPROVING THE VECTOR CONTROL PLAN OF THE DEPARTMENT OF PUBLIC WORKS DIVISION OF VECTOR CONTROL PURSUANT TO SECTION C8-4(B)(2) OF THE SUFFOLK COUNTY CHARTER

1st WHEREAS, the Department of Public Works, Division of Vector Control is responsible for the suppression of mosquitoes, ticks and other arthropods which are vectors of human disease and require public action for control; and

2nd WHEREAS, Section C8-4(B)(2) of the Suffolk County Charter requires the annual filing of a Vector Control Plan with the Legislature outlining the work to be done, methods to be employed and general description of lands to be entered to carry out these responsibilities; and

3rd WHEREAS, the Vector Control 2016 Annual Plan of Work was filed with the Clerk of the Legislature; and

4th WHEREAS, at its meeting on October 21, 2015, the Suffolk County Council on Environmental Quality recommended a determination that the Vector Control 2015 Annual Plan of Work will be carried out in conformance with the conditions and thresholds established for such actions as set forth in the Suffolk County Vector Control & Wetlands Management Long Term Plan Final Generic Environmental Impact Statement (FGEIS) and associated Finding Statement, as approved by Suffolk County in Resolution No. 285-2007, and that, therefore, no further compliance is required pursuant to Title 6 New York Code of Rules and Regulations (NYCRR) Section 617.10(d)(1) and the State Environmental Quality Review Act, N.Y. Envtl. Conserv. Law Art. 8 (SEQRA); and

5th WHEREAS, this Legislature, being the SEQRA lead agency, has independently considered the FGEIS, Findings Statement, Environmental Assessment Form (EAF) and relevant testimony and materials concerning the same; now, therefore, be it

1st RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that, as demonstrated in the Environmental Assessment Form and relevant documents and testimony, the Vector Control 2015 Annual Plan of Work will be carried out in conformance with the conditions and thresholds established for such actions in the Suffolk County Vector Control & Wetlands Management Long Term Plan Final Generic Environmental Impact Statement (FGEIS) and associated Finding Statement as approved by Suffolk County in Resolution No. 285-2007; and, be it further

2nd RESOLVED, and determined that, pursuant to Title 6 New York Code of Rules and Regulations Section 617.10(d)(1), implementation of this action requires no further SEQRA compliance; and, be it further

3rd RESOLVED, that in accordance with Section 279-5(c)(4) of the Suffolk County Code, the Suffolk County Council on Environmental Quality is hereby directed to prepare and circulate any appropriate notices or determinations in accordance with this resolution; and be it further
4th RESOLVED, that the Vector Control 2016 Annual Plan of Work is hereby approved in its entirety.

DATED:

APPROVED BY:

County Executive of Suffolk County

Date:
MEMORANDUM

TO:         Jason Richberg  
            Clerk of the Suffolk County Legislature  

FROM:      Gilbert Anderson, P.E.  
            Commissioner of Public Works

DATE:       September 28, 2015

RE:         Division of Vector Control  
            2016 Annual Work Plan

Pursuant to Article VIII, Section C8-4, B(2) of the Suffolk County Administrative Code, enclosed please find a copy of the 2016 Annual Plan of Work for the Division of Vector Control for distribution to all members of the Legislature. This Annual Plan is consistent with the Findings of the Vector Control and Wetlands Management Long Term Plan and GEIS as approved by the Legislature in Resolution 285-2007 on March 20, 2007 and signed by the County Executive on March 22, 2007. As such, no further compliance under SEQRA is required.

A resolution for approval of the 2016 Plan of Work will be submitted to the Legislature by the County Executive’s Office.

Thank you for your cooperation.

2016 ANNUAL PLAN OF WORK - DIVISION OF VECTOR CONTROL

SUFFOLK COUNTY DEPARTMENT OF PUBLIC WORKS
DIVISION OF VECTOR CONTROL

2016 ANNUAL PLAN OF WORK

The Suffolk County Department of Public Works, Division of Vector Control, is responsible under the County Charter for controlling mosquito infestations that are of public health importance. The Division's responsibility is to control mosquito infestations that significantly threaten public health, or create social or economic problems for the communities in which they occur. The Division meets its responsibilities in consultation with the Suffolk County Department of Health Services (SCDHS) and the appropriate federal, state and local agencies. This Plan of Work has been prepared pursuant to and in compliance with the Vector Control and Wetlands Management Long Term Plan and Generic Environmental Impact Statement (the Long Term Plan). The Long Term Plan was approved by the County Legislature as Resolution 285-2007 on March 20, 2007 and signed by the County Executive on March 22, 2007. The 2016 Annual Plan of Work is therefore governed by State Environmental Quality Review Act (SEQRA) Regulation 617.10(d)(1) which provides the following: “When a final generic EIS has been filed under this part (1) no further SEQR compliance is required if a subsequent proposed action will be carried out in conformance with the conditions and thresholds established for such actions in the generic EIS or its findings statement.” This issue is also discussed in the Findings, appended hereto, pages 7 and 58. The 2015 Plan of Work added the use of a new active ingredient, prallethrin, which required a modification of the Long Term Plan. In accordance with the Findings, a SEQR review of prallethrin was conducted in order to allow the use of the new active ingredient. This review was completed with the issuance of a Negative Declaration as CEQ Resolution 34-2014 and the modification of the Long Term Plan approved by the Legislature as Resolution 706-2014. This Annual Plan complies with the reporting requirements in Executive Order 15-2007 (Suffolk County Vector Control Pesticide Management Committee) and Resolution 285-2007 (which adopts the Findings Statement for the Long-Term Plan). The reporting requirements of Resolution 285-2007 are satisfied within this Annual Plan, and the Pesticide Management Committee will submit a report to CEQ independently to satisfy Executive Order 15-2007.

On October 17, 2013, the County approved Resolution 797-2013 requiring this Plan of Work to include a section on the “steps being taken to reduce the incidence of tick-borne diseases in Suffolk County”. Accordingly, the 2016 Plan of Work will include a section on ticks. For 2016, these steps will be limited to planning and information gathering and as such will be Type II actions under SEQRA Section 617.5 (c) (20), (21) and (27).

2016 SUMMARY

1. Water Management: Water Management activities will conform to the guidelines outlined in the Long Term Plan and GEIS Finding statement's Wetlands Best Management Practices (BMP’s). The Wetlands Stewardship Program finalized the Wetlands Stewardship Strategy in 2015. Maintenance of existing structures will be conducted as described in BMP’s 2, 3 and 4 in the Findings Statement and Long Term Plan. Water management work beyond those
measures specified in BMP's 2, 3, and 4 will have to undergo review under SEQR, and would be subject to Suffolk County's Council of Environmental Quality (CEQ) review, as well. Now that the Wetlands Stewardship Strategy is finalized, the County will undertake Integrated Marsh Management (IMM) projects as called for under that Strategy. The County has received $1.3M in Sandy funding from the National Fish and Wildlife Foundation Coastal Resiliency grant for IMM work to be done in cooperation with the Towns of Babylon, Islip and Brookhaven and the State. These projects will be planned in late 2015 and early 2016 and construction will commence in late 2016. The County has also received $560,000 from a Federal Hazard Mitigation Grant Program for IMM work at Smith Point Marsh in Shirley for costal resiliency. Planning is underway for that project with construction targeted for late 2017.

2. Larval Control: Perform approximately 15,000 inspections of larval sites. Treat approximately 20,000 acres with Bacillus thuringiensis israelensis (Bti), Bacillus sphaericus or methoprene.

3. Adult Control: Conduct adult control when infestations are severe and widespread and/or necessary to respond to the presence of pathogens.

4. Research and Surveillance: The Vector Control Laboratory will collect and process 10,000-12,000 larval and adult mosquito samples, depending on mosquito populations and viral activity. The Department of Health Services Arthropod-Borne Disease Laboratory (ABDL) will collect and process approximately 50,000 mosquitoes for arbovirus surveillance. The Vector Lab will evaluate the effectiveness of treatments in cooperation with the ABDL. The Vector Lab will perform special studies of problem areas, such as checking for pesticide resistance, identifying the sources of unusual infestations or finding larval habitats of problem species.

**Technical and Institutional Framework for Vector Control**

To achieve this goal, the Division employs an integrated control program. Control measures are employed in a hierarchical manner that emphasizes prevention, and are guided by a surveillance program to ensure that control measures are only directed to address a clear need. Control proceeds from the long-lasting, more "environmentally friendly" measures such as water management and biological control to highly specific larvicides, and uses chemical control such as adulticiding only after other measures prove to be either insufficient or not feasible. This integrated approach is recognized as the most effective and environmentally sound manner in which to conduct a mosquito control program.

Because mosquitoes are of high public health importance, the Division works closely with SCDHS. SCDHS operates the ABDL, with some operational support provided by the Division. The ABDL concentrates its efforts on surveillance for mosquito-borne pathogens, primarily the arboviruses West Nile Virus (WNV) and Eastern Equine Encephalitis (EEE). The Division conducts laboratory work that concentrates on estimating populations of mosquito adults and larvae. The Division also conducts laboratory work related to special projects designed to improve the control program and to evaluate the impacts of wetlands management. The results
of this surveillance are used to guide and evaluate the Division’s control work. During times of a
declared public health emergency, the Division comes under the operational control of SCDHS.
However, these declarations are rare and must be issued by the New York State Health
Commissioner. The State has determined that such declarations are not normally needed for
West Nile Virus, since the virus is now established here and its control is not considered a
General Public Health activity. Under most circumstances, the Division takes the lead role on
control efforts but works in close consultation with SCDHS when there is active virus activity.
Under the County’s NY State Freshwater Wetlands permit, the Commissioner of Health Services
must determine that application of adulticides is required in response to mosquito-borne
pathogens before they can be applied to most freshwater wetlands. SCDHS is also responsible
for other activities related to mosquitos and the public health, such as medical surveillance,
sanitation, environmental monitoring, community outreach and public education.

The New York State Department of Health (DOH) provides important support to the program by
analyzing mosquito samples for pathogens, providing technical advice and guidelines and
determining when a public health threat declaration is required. DOH also provides significant
assistance with public education, as well as financial aid for vector surveillance and control.
Because mosquito control involves work in environmentally sensitive areas and the use of
pesticides, environmental compliance and protection are important components of the program.
The Division is heavily regulated and subject to inspection under a series of New York State
Department of Environmental Conservation (DEC) permits, as well as regulations pertaining to
the use of pesticides and licensing of applicators. Close contact is maintained with DEC, United
States Fish and Wildlife Services (USFWS) and other agencies throughout the year to ensure that
all work is conducted to a high environmental standard.

2016 PROGRAM COMPONENTS

WATER MANAGEMENT: Field personnel conduct this component from January 1 to April 30,
and October 1 to December 31 (approximate dates). Water management is a functional way to
reduce the need for pesticide applications. The Division expects to conduct water management
in each of the County’s ten towns. The work will be performed on a priority, as needed basis.
Highest priority is assigned to larval habitats where infestations have the greatest potential for
negative impact. In particular, areas that showed unexpectedly high infestations in 2015 will
have high priority over the coming winter. Water management activities will be carried out in
such a manner so that the primary goal of the work will be to protect the health of the marsh,
while also reducing mosquito numbers.

Water management minimizes mosquito production through maintaining or improving systems
of tidal channels, ditches, culverts and other structures that drain off surface water and/or allow
access to potential larval habitats by predatory fish. In some cases, the current ditch system has
become an important component of the wetland as it exists today, and maintenance of the system
is necessary to maintain tidal flow, fish habitat, or existing vegetative patterns. Much of this is
maintenance work that may not require a permit, but is nonetheless conducted after consultation
with the New York State Department of Environmental Conservation (DEC) to ensure
consistency with conservation of the wetland. Sometimes, work to restore a system, even within
its original configuration, requires a permit. In such cases, work is performed under permit and
in cooperation with the DEC. More extensive work to rehabilitate wetlands in a manner that restores and preserves resource values while also reducing mosquito production is now underway under the umbrella term Integrated Marsh Management (IMM). In accordance with the Long Term Plan, all water management activities will be conducted with appropriate notification to and oversight by the Wetlands Stewardship Committee (WSC) and Council for Environmental Quality (CEQ), as outlined in the Findings Statement of the Suffolk County Legislature that was adopted by Suffolk County Resolution 285-2007.

The Wetlands Stewardship Committee completed its work in establishing standards for wetlands Best Management Practices (BMP’s) and a Wetlands Stewardship Strategy was issued by Executive Order 01-2015 on July 13, 2015. With that Strategy in place, water management in 2016 will not be limited to maintenance activities described in the BMP’s. More extensive marsh projects using more intensive BMP’s described in the Long Term Plan will be undertaken under the framework of IMM in consultation with CEQ, WSC and DEC. These will be projects that restore and enhance the natural resource values of the wetlands while also reducing or eliminating the need for pesticides to control mosquitoes. All work will be planned in partnership with the landowner and NYSDEC, USFWS and other natural resources agencies.

CONTROL OF MOSQUITO LARVAE: All field personnel conduct larval control during the active mosquito season. Most crews conduct ground larviciding, while a heavy equipment crew assists in helicopter larvicide applications. This component is conducted during the active mosquito season of May 1 to September 30 (approximate dates). Larval control is most often employed when water management has not been able to completely prevent mosquito production. It also is used when water management has not been conducted or is not appropriate. Larval control is the Division's second most important control method. Ground crews visit known larval habitats, check for the presence of larvae, obtain larval specimens for identification in the laboratory and apply larvicide if necessary. Field crews also eliminate larval habitats by unclogging pipes, removing containers or otherwise eliminating standing water. While the acreage of these sites is small, their proximity to residential areas makes them important. Ground crews also respond to complaints from the public. Over 90% of the larvicide used by the Division is applied in the major salt marshes and other wetlands, by helicopter. These marshes are surveyed at least weekly, or after flood tides. If larvae are discovered, a contract helicopter applies larvicide. For salt marshes and similar habitats, either liquid Bti (Bacillus thuringiensis israelensis) or liquid Altosid (methoprene) is applied, based on larval stage, temperature, and weather conditions. Larval control is used only if inspection of a site reveals or has the potential for significant larval production.

The larval control products to be used in 2016 and the conditions under which they are used are described as follows:

Altosid Liquid Laricide concentrate (methoprene, EPA 2724-446) – Aerial application to tidal and freshwater marshes.

Altosid Liquid Laricide (methoprene, EPA 2724-392) – Ground application to tidal and freshwater marshes, as well as other temporarily flooded areas.
Altosid Pellets (methoprene, EPA 2724-448) – Ground application to intermittently or permanently flooded areas such as freshwater swamps, catch basins, drainage areas and recharge basins, provided that they are not fish habitats.

Altosid XR-G (methoprene, EPA 2724-451) – Ground or aerial application to tidal wetlands; ground application to intermittently flooded freshwater areas; aerial application in freshwater areas in response to Eastern Equine Encephalitis (EEE) or West Nile Virus (WNV) with case-by-case approval by DEC.

Altosid XR Briquets (methoprene, EPA 2724-421) – Catch basins and other drainage or artificial structures that are not fish habitats. XR briquets will be used in May and June, with follow up treatments using Vectoxel or Altosid pellets as necessary.

Aquabac 200G (Bti, EPA 62637) – Ground application to intermittently flooded freshwater and tidal areas.

Sphaeratax SPH (50G) (B. sphaericus, EPA 84268-2) - Aerial or ground application to freshwater and tidal areas that hold water for more than 7 days, such as ditches, impounded marshes, swamps, ponds; catch basins in July and August.

Valent BioSciences Vectobac 12 AS (Bti, EPA 73049-38) – Aerial application to tidal and freshwater marshes; ground application to intermittently flooded areas such as tidal and freshwater marshes.

Summit B.t.i. Briquets (Bti, EPA 6218-47) – Catch basins, ground depressions, artificial sites.

Fourstar Briquets 90 (Bti plus B. sphaericus, EPA 83362-3) – Catch basins, ground depressions, artificial sites.

The equipment to be used for larval control includes various trucks for crew transportation, samplers such as dippers and mosquito traps, truck-mounted hydraulic sprayers, backpack sprayers and granular blowers, plus specially-equipped helicopters for larvicide applications on areas too large or inaccessible for ground treatment. All pesticide applications will use DEC-registered materials and be conducted under appropriate DEC permits and in accordance with label directions and other relevant State and Federal law.

The Division has developed technical guidelines for larval surveillance and control that determine where and when larvicides are used and what materials are chosen for a particular situation. These guidelines emphasize the use of bacterial products when possible and reserve methoprene for those situations where bacterial products are unlikely to be effective. As per the Findings for the Long Term Plan and Executive order 15-2007, the Pesticide Management Committee has reported on the results of its review of literature on methoprene and potential impacts, as well as on research sponsored by the County. The Committee found no significant new concerns regarding the use of methoprene. The County is committed to implementing a Pesticide Reduction Action Plan, that will seek to further accelerate pesticide reduction. As part of this Pesticide Reduction Action Plan, the County will continue to work with technical experts to further refine protocols related to larval monitoring and larvicider usage, consistent with the Long-Term Plan and GEIS. The County is not aware of any new data, studies or reports which contravene research, reports and Findings of the Long Term Plan with respect to larval treatment guidelines or thresholds. Therefore, those Findings are still valid, and control this Annual Plan.

In accordance with the Division's priorities and goals, approximately 1,500 of the 2,077 major larval habitats known to the Division will be surveyed and controlled if necessary throughout the
active season. These known habitats consist primarily of freshwater wetlands and salt marshes, as well as roadside ditches, recharge areas and other non-wetland sites. The remaining major larval habitats and the 100,000+ artificial larval sites will be controlled on a complaint basis, as resources permit. Maps showing major larval habitats requiring control are on file at the Division's office in Yaphank.

CONTROL OF ADULT MOSQUITOES: This control method is conducted from approximately June 1 through September 15. It is done on an overtime basis; because the need for it is so highly variable it is not efficient to dedicate staff full time to it. This is a tertiary form of control, and the smallest component of the program. It is carried out only when adult infestations constitute an immediate threat of mosquito-borne disease or there is a severe and widespread infestation of vector species, as determined by surveys and/or public complaints. While the need for adult control can be reduced by the other program components, it is not possible to control all larval sites in Suffolk County for several reasons. Higher than normal rainfall can increase the need for adult control and some sites cannot be expeditiously treated due to independent permitting requirements, as is the case for larval habitats in the Wilderness portions of Fire Island. In addition, new or unexpected larval habitats always seem to occur, despite the best efforts of the program. It is not appropriate to treat for adult mosquitoes in every area where residents express a concern, nor is it appropriate to treat small areas or individual properties for adult mosquitoes. Adult control is conducted only when it is clear, based on complaints, Division surveillance and SCDHS consultation that a substantial portion of a community is infested with vector species or there is a threat of mosquito-borne disease. Then, the entire affected area is treated. This strategy treats relatively few areas, but those that are treated receive sufficient control to reduce the problem. The guidelines for adult control in this Plan are consistent with those described in the GEIS Findings Statement.

Adult control can be deemed to be necessary under two separate operational scenarios in the GEIS. One is defined as a “Vector Control” (public health nuisance) application, the other is defined as “Health Emergency” application. Vector Control adulticide applications are made to reduce excessive numbers of human biting mosquitoes that impact public health and quality of life by their biting activities. These high populations also represent potential vectors if a pathogen is present or appears in the area. Health Emergency applications are made when an unacceptably high risk of disease transmission to humans is detected, based on the ongoing presence of pathogens in mosquitoes. In either case, pesticide use decisions are only made on the basis of scientifically-determined surveillance data.

The need for Health Emergency treatments is determined by the New York State Department of Health West Nile Virus Response Plan for mosquito-borne disease, adapted for local conditions by staff experts at Vector and Health Services. Because of the persistent presence of WNV in the County, the County perpetually begins each year in Risk Category 2. The New York State Department of Health has determined that there is an ongoing threat to the public health from West Nile Virus, and no longer declares health threats on a year-by-year basis for WNV. The determination of when this ongoing threat rises to the level that requires adulticiding is made by the County.
The need for adulticiding in response to WNV varies greatly from year to year. An analysis of Suffolk County’s WNV history during the years 2000-2015 indicates that most years, (10 of 16) the number of human cases of WNV is low, 0-4 cases. Under such conditions, the WNV human transmission risk level is low yet widespread throughout the County. In these low risk years, determining exactly where adulticiding would help is nearly impossible with current data. As a result, in low years, adulticiding is usually not warranted due to the difficulty in delineating an area or areas to target. Higher risk years are caused largely by environmental conditions favorable to virus amplification in birds and mosquitoes, such as warm spring weather and a high water table. These conditions manifest themselves in late July and early August through higher than normal numbers of positive mosquito samples and infection rates. WNV history also demonstrates that, in years when WNV activity is higher than normal, human cases are more likely to occur in some parts of the County than others. In years with early indicators of high risk, adulticiding targeted to these high risk areas can measurably reduce the risk of human transmission and is therefore warranted. When a high year can be identified, these applications should take place in late July or the first 2 weeks in August. Responding to early indications of high risk is important, because adulticiding should occur before human transmission occurs, that is, in the first 2-3 weeks of August. Waiting to see if transmission results in actual human cases is not appropriate because by the time cases are detected, transmission has been going on for weeks and it may be too late to prevent further transmission. Use of adulticides after late August or early September is usually not indicated because most human transmission has already occurred.

As indicators of risk of transmission to humans accumulate, Vector Control determines which control measures are best suited to the situation and which areas should be targeted for maximum benefit. The Commissioner of the SCDHS makes the final determination of the need for adult control in response to pathogens. By limiting the use of adulticides for virus response to only those years and those areas where a benefit is likely, the risks associated with adulticiding can be reduced while still providing a high level of public health protection. This strategy is consistent with the goal in the Findings to reduce the use of pesticides by a targeted approach.

To ensure adulticides are used only when there is a clear need and a likely benefit, the criteria for conducting an adulticide treatment will include:

1. Evidence of high numbers of mosquitoes biting residents and visitors (Vector Control):
   - Service requests from public - mapped to determine extent of problem.
   - Requests from community leaders, elected officials.
   - New Jersey trap counts higher than generally found for area in question (at least 25 females of human-biting species per night).
   - Centers for Disease Control (CDC) portable light trap counts of 100 or more. Landing rates of one per minute over a five minute period.
   - Confirmatory crew reports from problem area or adjacent larval habitat

2. Higher than normal risk of human disease transmission that can be reduced by adulticiding (Health Emergency):
   - Indications of a higher than normal year for WNV activity County-wide as determined by such measures as infection rates and/or the number or proportion of positive mosquito
samples, especially by late July or early August. In a year with normal or below normal levels of WNV activity, adulticiding is generally not indicated.

- In a high risk year, adulticiding may be warranted when there are indications of higher than normal levels of WNV risk (such as the number of positive mosquito samples, infection rates, vector species populations and history of human transmission) in particular areas. Adulticiding priority will be given to those parts of the County where WNV cases have occurred in multiple years and at high densities compared to the rest of the County.

- Adulticiding will be strongly considered if EEE is detected during July or August, when human transmission is most likely.

- Adulticiding in response to other pathogens (such as dengue, chikungunya, malaria or other emerging pathogens) will be considered on a case-by-case basis based on the vector ecology of the pathogen involved.

3. Control is technically and environmentally feasible:

- A target area can be clearly defined based on geographic features and the distribution of vector species and other risk factors.

- Weather conditions are predicted to be suitable for ULV application when mosquitoes are active. Aerial applications in response to WNV are particularly dependent on weather conditions, and near-ideal conditions of low wind combined with high temperatures and humidity are needed for truly effective results.

- The road network is adequate and appropriate when truck applications are considered.

- Legal restrictions on the treatment of wetlands, open water buffers, and no-spray list members in the treatment zone will not create untreated areas that would prevent adequate coverage to ensure treatment efficacy.

- There are no issues regarding listed or special concern species in the treatment area.

- Meeting label restrictions for selected compounds will not compromise expected treatment efficacy.

4. Likely persistence or worsening of problem without intervention:

- Considerations regarding the history of the area, such as the identification of a chronic problem area for biting mosquitoes or a history of virus transmission.

- Seasonal cycles of pathogen activity, such as whether or not the treatment is in time to prevent WNV transmission or whether it is too late and most transmission has already occurred.

- Determination if the problem will spread beyond the currently affected area absent intervention, based on the life history and habits of the species involved.

- Crew reports from adjacent larval habitats suggest adults will soon move into populated areas.

- Life history factors of mosquitoes present – i.e., if a brooded species is involved, determining if the brood is young or is naturally declining.

- Weather factors, in that cool weather generally alleviates immediate problems, but warm weather and/or the onset of peak viral seasons exacerbate concerns.

- Determining, if the decision is delayed, if later conditions will prevent treatment at that time or not. Conversely, adverse weather conditions might remove most people from harm’s way.

In essence, criteria 1 and 2 are necessary thresholds which must be met, prior to a treatment being considered, while criteria 3 and 4 are countervailing factors that would indicate treatment is not
required despite the presence of an infestation or virus activity. With enhanced surveillance, there will be rigorous, numeric validation of mosquito infestations in or near a potentially affected population in all cases. Treatment will not occur unless criteria 1 or 2 are satisfied through a combination of surveillance indicators, although not all surveillance techniques may be feasible in every setting and situation. The County is not aware of any new data, studies or reports which contravene research, reports and Findings of the Long Term Plan with respect to adulticide treatment guidelines or thresholds. Therefore, those Findings are still valid, and control this Annual Plan.

Vector Control applications will normally be made by truck since that technique has been shown to be effective for the most common species involved, although aerial application remains an option for unusually widespread problems. Health Emergency applications will be done by aerial application due to the need to treat large areas to make a difference and due to the lack of evidence ground application significantly impacts WNV activity in our setting. Necessary public notices will be issued in a timely manner (normally, at least 24 hours pre-application), and appropriate precautions will be made to meet DEC restrictions on applications, and to avoid “No Spray” properties. If necessary to protect sensitive resources, buffer areas will be provided between the sensitive area and the application equipment. A 150-foot buffer from freshwater wetlands will be provided to avoid the need for DEC Article 24 (Freshwater Wetlands) permits unless a permit or other authorization from DEC has been received.

In 2009 and previous years, an Emergency Authorization were requested from DEC if freshwater wetlands were involved to eliminate the need for an Article 24 (Freshwater Wetlands) permit. In 2011, NYSDEC issued an Article 24 permit to allow adulticide applications in freshwater wetlands or adjacent areas if necessary to protect the public health and replace the use of Emergency Authorizations. This permit controls the use of adulticides in and adjacent to freshwater wetlands during the term of that permit, 2011-2020. The permit covers Health Emergency applications throughout the County and will also allow Vector Control applications in and adjacent to some freshwater wetlands in heavily developed areas of southern Brookhaven. Appropriate required public notices will be issued. Pre-application mosquito sampling will be conducted (for efficacy determinations). If an aerial application is required, a helicopter using the AG-NAV Flightmaster guidance system or equivalent GPS-based technology will be used to optimize the delivery of the pesticide.

Efficacy measurements will be made following as many adulticide applications as weather conditions and resources allow. The Long-Term Plan also calls for the establishment of resistance testing for the more commonly used compounds. Testing of mosquitoes against sumithrin (Anvil) in 2014 revealed no resistance to this material.

The Long-Term Plan proposed a general reliance on resmethrin, a synthetic pyrethroid, as the adulticide pesticide. However, the Federal and State registrations for resmethrin products end in 2015 and existing stocks were used up or disposed of. Sumithrin, a similar pyrethroid, was proposed by the Long Term Plan to be the primary back-up to resmethrin, and the primary pesticide for any hand-held applications. Sumithrin will now become the Division’s primary adulticide material. Sumithrin, like resmethrin has been found to be an effective pesticide for mosquito control, can be used for ultra-low volume applications for truck and aerial delivery,
undergoes rapid decay in the environment, and, as discussed below, has few identified non-target effects when applied as proposed under the Long-Term Plan. The Division will also use a relatively new product, Duet, now that the Long Term Plan has been modified to include it and one of its active ingredients, prallethrin. Duet is similar to the Division's primary sumithrin product, Anvil, in that both products contain sumithrin and the synergist piperonyl butoxide (PBO). However, in addition to 5% sumithrin and 5% PBO, Duet also contains 1% prallethrin. This amount of prallethrin is not sufficient to control mosquitoes, but it does induce them to fly, a phenomenon known as "benign agitation". Benign agitation causes mosquitoes that are resting to fly so that they will encounter aerosol droplets and be exposed to a lethal dose of sumithrin. Duet has been shown to be particularly effective against mosquitoes that tend to rest during the optimal time of the day for aerosol treatment, that is, at night. The primary use for Duet will be against the Asian Tiger mosquito (ATM), Aedes albopictus. The ATM is an exotic species that inhabits containers and tend to bite during the daytime, making it a significant biting pest that is difficult to control because it is less active at night. The Long-Term Plan also identifies two other pyrethroids, permethrin and natural pyrethrins, as potential adulticide compounds. Neither is preferred; however, permethrin is a more widely available product that is manufactured by more than one company, and so may continue to be available under conditions when the patented, less-widely used pyrethroids may not be. Natural pyrethrins are identified as a potentially useful compound because its label allows for use over agricultural areas. In addition to the pyrethroids, malathion, an organophosphate pesticide, was identified as a potential adulticide. Malathion would be used under very specialized conditions, that are unlikely to happen, such if thermal fogging were needed, daylight applications were called for, or if resistance testing indicated pyrethroid applications would be ineffective in meeting the goals of the application. All of these pesticides would be applied at the maximum label rate, as that is the best way of achieving effective mosquito control and is helpful in avoiding the development of pesticide resistance. The adulticides included in this Annual Plan have been fully evaluated in the GEIS for the Long-Term Plan, and this Annual Plan is fully consistent with the attached Findings. The County will continue to review available pesticides and alternatives.

PUBLIC EDUCATION: Mosquito problems resulting from larval habitats around homes and yards, containers, drains and the like, is generally brought to the Division's attention through residents' requests for service. Control of these "domestic" mosquitoes is promoted through education and appeal to individual property owners. Given the WNV threat posed by these mosquitoes, especially Culex pipiens, SCDHS has taken on a leading role in public education. Sanitarians are utilized to require property owners to clean up potential mosquito larval sites. Public education includes the distribution of pamphlets, telephone contact, site visits, media exposure and presentations to various citizens' groups and associations. In addition, the Division offers assistance to residents in eliminating sources of mosquitoes on their property, and leaves "door hangers" with educational information at properties they visit. Educational materials are also available on the County Web site. The appearance of the exotic, container-breeding species Aedes japonicus and Aedes albopictus means this component will take on increasing importance, since the public's cooperation will be needed to control these larval habitats.

PUBLIC NOTIFICATION AND THE "NO-SPRAY" REGISTRY: In 2000, the County passed new laws to improve required public notification for adult mosquito control. As a result, there is now an increased use of the media and extensive outreach to local officials. The Health Services
Web site is used to post spray maps. For each adulticide application, over 150 faxes are sent to various officials and other interested parties. Newsday and News12 post spray schedules and maps. It is important to recognize that adulticide applications are very sensitive to the weather, especially aerial pyrethroid applications. The need to inform the public will need to be balanced with the need to conduct operations promptly, within weather windows and before the problem spreads and more acreage needs treatment. It is usually not appropriate to provide more than 24 hours’ notice in most cases, because beyond that time, weather forecasts are not very reliable. Attempts to provide more than 24-hour notice often result in many spray operations being announced and then cancelled. These cancellations are very confusing to the public. Despite these difficulties, the County provides 48-hour notice for aerial adulticide applications whenever possible.

In addition to the previous public notification procedures, the County has implemented the new County law, passed in 2010, requiring the use of its “Code Red” automated calling and messaging system to provide more thorough public notice for adulticiding. This system allows automated phone calls to be placed to all telephones in an area designated for treatment. These messages provide basic information about the operation, such as spray hours, and refer the recipient to additional sources of information. The system ensures that nearly everyone in the area knows about the operation. Use of the Code Red system has been very successful and provides a new level of public information for the program.

The Division maintains a “no-spray” registry of residences where adult mosquito control is not desired. During ground applications the application unit is shut off 150 feet prior to passing such a residence and not turned on until 150 feet after. For aerial control, a system has been devised for identifying and avoiding areas with a minimum radius of ¼ mile, more than 65% of the area is residential and where more than 35% of the residences are on the registry. This registry represents an effort to balance the desires of those residents who want control of adult mosquitoes with those who oppose the use of pesticides. At this writing, the “no-spray” registry lists several hundred properties, most of which are in areas where serious infestations are rare. When control is required to deal with a public health emergency, the Commissioner of SCDHS can override the list. Even then list members are telephoned prior to applications in their area through the Code Red system. In addition to this legally required registry, the Division maintains listings of beekeepers and organic farms. Beekeepers’ properties are generally avoided or beekeepers are notified before treatments so that they can protect their hives.

Although not required to do so by law, the County also provides public notification for aerial larviciding. An e-mail notice of the marshes to be treated by helicopter is sent each week to Legislators, local governments and other interested parties. In addition, a list of marshes to be treated is posted each week on the County Web site.

SURVEILLANCE AND RESEARCH: All control operations are based on information obtained from surveillance and research. This a cooperative effort between Vector Control staff in the Department of Public Works and the Arthropod Borne Disease Laboratory in the Department of Health Services. Knowledge of mosquito populations, species composition and arbovirus activity is used to guide and evaluate control measures. Arbovirus surveillance allows the
Division, in cooperation with the County and State Health Departments, to gauge the potential for disease transmission and take appropriate action.

A) Mosquito population surveillance: Approximately 12,000 larval and adult mosquito surveys are analyzed each year. These surveys are necessary for locating infestations, directing control efforts and evaluating the effectiveness of those efforts. The mosquito species that breed in various locations are determined from larval samples. Numbers of adult mosquitoes in residential areas are estimated from a network of approximately 29 New Jersey light traps in fixed locations throughout the County. New Jersey traps provide a dead sample three to five times per week. Some 50,000 mosquitoes per year from these traps are identified and counted. This work is conducted by DPW staff. In addition, Vector DPW maintains an array of 5 specialized Mosquito Magnet traps to monitor seasonal cycles and long term trends in populations of the exotic, container-breeding species *Aedes japonicus* and *Aedes albopictus* (The Asian Tiger Mosquito).

B) Arbovirus surveillance in mosquitoes: Viral surveillance is conducted primarily by the ABDL and will be directed primarily at two pathogens, EEE and WNV. Surveillance will be conducted according to the latest CDC and State DOH guidelines, modified for Suffolk County's unique environment. To monitor virus activity, CDC light traps and gravid traps are placed on a weekly or rotating basis at various locations throughout the County. These sites are chosen based on their history of viral activity or the presence of viral indicators such as the finding of birds with WNV in the area. The ABDL and the Division collect and process approximately 50,000 live, adult mosquitoes annually for viral analysis. In 2016, the samples will be sorted by species, frozen, and sent to Albany for arbovirus analysis in the State DOH laboratory.

C) Bird and other surveillance: SCDHS, State DOH, DEC and CDC monitor other WNV indicators such as unusual bird deaths or the number of dead birds sighted in an area. The presence of WNV-positive birds is an indicator of virus activity in an area, although the usefulness of dead birds as an indicator has declined in recent years as birds adapt to the virus. The County picks up selected dead birds for WNV testing. The County conducts a rapid, field test (the RAMP test). There are also indications that the number of dead bird sightings in an area is a surrogate indicator of risk. There will also be SCDHS monitoring of hospitals and outreach to physicians to quickly detect any human cases.

D) Efficacy monitoring: While the Division has always monitored the effectiveness of the control program in a variety of ways, there will be an increased effort in this area, based on trial work to develop methods conducted in 2007. In particular, trapping of adult mosquitoes before and after adulticide events will be conducted using carbon dioxide baited CDC light traps. In addition, indicators of virus activity before and after treatment are followed to be sure the desired effect is achieved. While the number of adult mosquitoes in New Jersey traps and other traps is a key indicator of the overall success of the larval control program, additional effort will be directed toward before and after sampling of treated areas to confirm the efficacy of the treatment methods used. For methoprene applications, this requires bringing pupae from the treated areas back to the laboratory to determine if they emerge, something that is very labor intensive.
E) Special surveys and field investigations: Vector’s Laboratory Director and other staff also conduct special surveys to determine the source of mosquito problems when these turn up in places where they are not expected. Special surveys of problems that appear early in a season can allow larval crews to prevent further trouble through the summer. Ongoing studies on mosquito production in catch basins are helping to define appropriate control measures for this important habitat for *Culex* mosquitoes that transmit WNV. In addition, we are developing new techniques to improve surveillance and control for the Asian tiger mosquito, *Ae. albopictus* a species which has become a major biting pest in large portions of the County the last four years. Given the somewhat unpredictable ways mosquitoes seem to find to cause problems for residents of and visitors to the County, it is important that the Division retain a flexible ability to investigate issues as they come up.

F) Support for Wetlands Stewardship activities: Vector Control continues to provide support for monitoring and other investigations related to Wetlands Stewardship activities. In particular, Division staff assists in the monitoring of the Integrated Marsh Management (IMM) project at Wertheim National Wildlife Refuge. In addition, the Division will assist the Wetlands Stewardship Program in identifying and evaluating prospective sites for future IMM projects, particularly those that will help meet Long Term Plan goals for pesticide use reduction. With the completion of the Wetlands Stewardship Strategy and the availability of grant funding, this component of the program will increase substantially in 2016.

Other provisions of the Work Plan notwithstanding, Vector Control may participate in limited research, monitoring, and demonstration projects in cooperation with other levels of government such as the State, Towns or federal agencies such as the US Fish and Wildlife Service or Army Corps of Engineers. These activities, which are not part of this Plan, will be subject to separate permitting and SEQRA compliance, and would be subject to CEQ and Wetlands Stewardship Committee review as well.

In 2013, the Division began work as required under Resolution 797-2013 to determine how the County might be able to reduce the impact of tick-borne diseases. It’s important to remember that this subject was covered in some detail in the report of the Tick Management Task Force (TMTF) that was submitted to the Legislature in May of 2008 in response to Resolution 1123-2006. Most, if not all of these recommendations of this Task Force remain viable and should be strongly considered as County policy makers determine what steps the County might take to reduce the incidence of tick-borne diseases. In addition, Resolution 132-2014 created the Tick Control Advisory Committee (TCAC) to advise Vector on this important issue. Given the important and complex nature of this problem and the fact that the TCAC’s input is vital, it would be premature to attempt to present a fully developed plan for tick control at this time. It is also clear that any serious effort to reduce the number of ticks on the landscape, such as those described by the TMTF, would have at least the potential for adverse impacts on the environment. This means that no large scale control efforts can be undertaken without an environmental review under SEQRA. The development of a control plan, therefore, is a major effort that has yet to be funded. It is expected that the TCAC will help the County develop a plan of action and identify the resources needed, but that work remains to be done.
In 2016, Vector Control will continue to work on the tick issue within the limited resources available and not conduct any control activities that would require environmental review under SEQRA. Given these limitations, there are still things Vector can do. In particular, Vector can help improve the technical basis for control efforts and provide that technical information to the various public and private entities currently undertaking tick control. These efforts can leverage the County’s limited resources through partnership efforts:

1. The County created a new position and hired an Entomologist for tick-related activities. Having a person devoting full time to ticks is a major step forward in dealing with this problem.

2. We will continue to work with the TCAC to explore alternatives that might be available to the County. Most importantly, the TCAC will allow for the kind of stakeholder input needed to gauge what options might be feasible and acceptable for implementation. This is a significant task, since all the available options have their benefits and drawbacks.

3. We will continue to search the literature on the subject in order to improve the Division’s technical expertise in tick control and the environmental effects thereof.

4. We will continue our efforts to reach out to experts in the field for their advice and input. This process has already begun and has proven very helpful in gaining knowledge that may not be published but is highly valuable. For instance, the details of how surveillance is conducted are very important to ensure quality data, and to learn this, it’s best to actually go into the field with experts who are doing this work.

5. We have identified sites and methods and begin baseline surveillance of tick populations. This effort will provide important information to help design control efforts, such as species composition, abundance, seasonal cycles, and pathogens present.

6. Vector staff has begun submitting tick samples collected during population surveys for pathogen testing by NYSDOH and academic researchers.

7. Vector staff will continue to provide technical advice to landowners and government agencies that are conducting tick control or are considering doing so. These contacts will also provide further opportunities to learn what techniques are useful and how the County might use them. A workshop is planned for the fall of 2015 and more will be considered.

8. Vector staff will investigate emerging wide-area tick control methods and conduct field trials as opportunities and resources allow.

The prevention of tick-borne diseases in the County is a difficult and complex issue. It is particularly difficult because the biology of these vectors and diseases dictate that the problem is inextricably linked to another difficult problem, deer overpopulation and management. In addition, tick control technology suitable for large scale application is clearly not as well developed as mosquito control technology is. There are emerging technologies that may improve this picture when they become available. Any effort that would seriously reduce the incidence of tick-borne diseases by controlling the vectors will require substantial resources at a time of fiscal scarcity. Even preparing a proper plan with concurrent SEQRA compliance would require resources beyond those currently available at Vector. However, tick-borne diseases and the adverse impacts ticks have on the ability of County residents to utilize the outdoors, even their own property, are important issues.
Pesticide Use in 2015

The Findings Statement for the Long Term Plan requires Vector Control to provide an annual report of pesticide use to the Legislature. The table below summarizes the use of pesticides by the Division in 2015. The acres treated are compiled by multiplying the total used by the standard dose. In a Duplex treatment, the acres treated with two products simultaneously are only counted once.

Suffolk County DPW, Division of Vector Control

2. PROJECT NAME
Vector Control 2016 Annual Plan of Work

3. PROJECT LOCATION
Municipality: Throughout the County
County: Suffolk

4. PRECISE LOCATION (Street address and road intersections, prominent landmarks, etc., or provide map)
Mosquito larval habitats and residential areas, as determined by surveillance. Maps and other information are on file at the Vector office in Yaphank.

5. IS PROPOSED ACTION:
[] New  [] Expansion  [] Modification /alteration
The project is the annual plan for the County's ongoing mosquito control program, to be conducted pursuant to the Vector Control and Wetlands Management Long Term Plan and GEIS (the Long Term Plan).

6. DESCRIBE PROJECT BRIEFLY:
The project is an integrated mosquito control program as described in the Long Term Plan.

7. AMOUNT OF LAND AFFECTED:
Initially _______ acres  Ultimately _______ acres
Acres treated varies according to results of surveillance.

8. WILL PROPOSED ACTION COMPLY WITH EXISTING ZONING OR OTHER LAND USE RESTRICTIONS?
X [ ] Yes  [ ] No If No, describe briefly

9. WHAT IS PRESENT LAND US IN VICINITY OF PROJECT?
[] Residential  [] Industrial  [] Commercial  [] Agriculture  [] Park/Forest/Open Space  [] Other
Describe: Mosquito control takes place in all types of areas.

10. DOES ACTION INVOLVE A PERMIT APPROVAL, OR FUNDING, NOW OR ULTIMATELY FROM ANY OTHER GOVERNMENTAL AGENCY (FEDERAL, STATE OR LOCAL)?
X [ ] Yes  [ ] No If yes, list agency(s) and permit/approvals
Use of larvicides requires a variety of NYDEC permits, including Article 15 (Aquatic Pesticides), Article 24 (Freshwater Wetlands) and Temporary Revocable Permits of NYDEC lands. Use of adulticides in or adjacent to freshwater wetlands requires an Article 24 permit or Emergency Authorization. Use of pesticides in and near water requires permits under the Clean Water Act. Water management may require NYDEC Article 24 or Article 25 (Tidal Wetlands) permits, and also may require Army Corps of Engineers permits.

11. DOES ANY ASPECT OF THE ACTION HAVE A CURRENTLY VALID PERMIT OR APPROVAL?
X [ ] Yes  [ ] No If yes, list agency name and permit/approval
Article 24 permits are in place for pesticides in 2015. A Notice of Intent has been filed as required under the Clean Water Act. The proposed activities are also being conducted under the approved Long Term Plan.

12. AS A RESULT OF PROPOSED ACTION WILL EXISTING PERMIT/APPROVAL REQUIRE MODIFICATION?
X [ ] Yes  [ ] No

If the action is in the Coastal Area, and you are a state agency, complete the Coastal Assessment Form before proceeding with this assessment

Continue to Part II
PART II - ENVIRONMENTAL ASSESSMENT (To be completed by Agency)

A. DOES ACTION EXCEED ANY TYPE I THRESHOLD IN 6 NYCRR, PART 617.4? If yes, coordinate the review process and use the FULL EAF.
   X yes ☐ No Comment: Coordinated review has already been conducted for the Vector Control and Wetlands Management Long Term Plan, a full EAF and a full GEIS have been prepared and approved for that Plan. This Annual Plan is fully consistent with the March 22, 2007 Findings for the GEIS and as such, no further SEQRA review is required.

B. WILL ACTION RECEIVE COORDINATED REVIEW AS PROVIDED FOR UNLISTED ACTIONS IN 6 NYCRR, PART 617.6? If No, a negative declaration may be superseded by another involved agency.
   X yes ☐ No Coordinated review and GEIS have already been conducted, and this Annual Plan is fully consistent with the March 22, 2007 Findings for the GEIS. As such, no further SEQRA review is necessary.

C. COULD ACTION RESULT IN ANY ADVERSE EFFECTS ASSOCIATED WITH THE FOLLOWING: (Answers may be handwritten, if legible)
   C1. Existing air quality, surface or groundwater quality or quantity, noise levels, existing traffic patterns, solid waste production or disposal, potential or erosion, drainage or flooding problems?
      Explain briefly: no

   C2. Aesthetic, agricultural, archaeological, historic, or other natural or cultural resources; or community or neighborhood character?
      Explain briefly: no

   C3. Vegetation or fauna, fish, shellfish or wildlife species, significant habitats, or threatened or endangered species?
      Explain briefly: no

   C4. A community’s existing plans or goals as officially adopted, or a change in use or intensity of use of land or other natural resources?
      Explain briefly: no

   C5. Growth, subsequent development, or related activities likely to be induced by the proposed action?
      Explain briefly: no

   C6. Long term, short term, cumulative, or other effects not identified in C1-C5?
      Explain briefly: no

   C7. Other impacts (including changes in use of either quantity or type of energy)?
      Explain briefly: no

D. WILL THE PROJECT HAVE AN IMPACT ON THE ENVIRONMENTAL CHARACTERISTICS THAT CAUSED THE ESTABLISHMENT OF A CEA?
   ☐ yes X ☐ No If Yes, explain briefly:

E. IS THERE, OR IS THERE LIKELY TO BE, CONTROVERSY RELATED TO POTENTIAL ADVERSE ENVIRONMENTAL IMPACTS?
   X yes ☐ No If Yes, explain briefly: Full EIS was prepared with extensive public input and review, with approval by the County Legislature after extensive hearings.

PART III - DETERMINATION OF SIGNIFICANCE (To be completed by Agency)

INSTRUCTIONS: For each adverse effect identified above, determine whether it is substantial, large, important or otherwise significant. Each effect should be assessed in connection with its (a) setting (i.e. urban or rural); (b) probability of occurring; (c) duration; (d) irreversibility; (e) geographic scope; and (f) magnitude. If necessary, add attachments or reference supporting materials. Ensure that explanations contain sufficient detail to show that all relevant adverse impacts have been identified and adequately addressed.

☐ Check this box if you have identified one or more potentially large or significant adverse impacts which MAY occur.
☐ Then proceed directly to the FULL EAF and/or prepare a positive declaration. A full EAF and GEIS have already been prepared
☐ Check this box if you have determined, based on the information and analysis above and any supporting documentation, that the proposed action WILL NOT result in any significant adverse environmental impacts AND provide on attachments as necessary, the reasons supporting this determination:

A. Introduction

The subject action is the Suffolk County Vector Control Wetlands Management and Long-Term Plan (herein the Long-Term Plan; October, 2006). This Statement of Environmental Findings has been prepared in accordance with the environmental review requirements of the State Environmental Quality Review Act (SEQRA), as set forth in 6 NYCRR Part 617 and Chapter 279 of the Suffolk County Charter. This statement of findings has been prepared to demonstrate that:

1. the procedural requirements of SEQRA have been met;

2. the proposed Long-Term Plan was selected from among the reasonable alternatives as the choice that minimized potential impacts; and

3. as required by 6 NYCRR Section 617.11(d), consistent with social, economic and other essential considerations from among the reasonable alternatives available, the action is one that avoids or minimizes adverse environmental impacts to the maximum extent practicable. Adverse environmental impacts will be avoided or minimized to the maximum extent practicable by incorporating as conditions to this Statement of Findings those mitigative measures that were identified as practicable.

B. Overview

Purpose/Goals

Suffolk County has developed this Long-Term Plan to control mosquitoes (protect public health), reduce pesticide usage, and manage and protect wetlands. A major goal is to reduce larviciding by 75 percent, as measured in acres treated, over 12 years; currently, 4,000 acres of tidal wetlands are routinely larvicided. Another key goal is to continue to reduce adulticideing. In recent years, less than two percent of Suffolk County has received non-emergency adulticide treatments.

Description of Action

The Long-Term Plan enhances integrated pest management, including increased surveillance (including pre-adulticide, and post-adulticide efficacy), operational improvements (e.g., catch basin larviciding), and expanded public education/outreach. Strict numeric mosquito criteria will
be used to justify every non-Health Emergency adulticide treatment. The use of technology has also been optimized. For example, the Adapco Wingman spray technology is used to minimize pesticide usage, and geographic information systems have been improved.

Wetlands management will be critical in reducing larvicide usage. As part of the program, no new ditches will be created, and routine use of machine ditch maintenance has ceased. During the first three years, implementation of the Long-Term Plan will focus on low-impact water management without significant changes to the wetland ecology. Wetlands functions and values will be the paramount objective for all wetland management projects.

In the longer term, a Wetlands Stewardship Committee strategy will address the assessment and management needs of all 17,000 acres of tidal wetlands in Suffolk.

At a minimum, the Long-Term Plan will be updated on a triennial basis, with the first update due in 2010. The triennial report will contain detailed information on effectiveness of implementing a broad variety of recommendations related to public health, vector control, and water management (see Appendix 1 for format and examples of specific indicators). Any significant changes to the Plan may be subject to further environmental review (see section G).

Impact Analysis

A comprehensive environmental review was conducted for the potential impacts of the Long-Term Plan. As discussed in Section F, there is no data or analysis which documents that implementation of the Long-Term Plan will have any potentially significant adverse impacts (with the possible exception of adulticide impacts to non-target insects which are believed to be minor and can be mitigated, as well as Wetlands Best Management Practices 5 through 15, which would be subject to additional environmental review if proposed). Successful implementation of the Plan will, however, result in significant beneficial impacts (e.g., pesticide reduction).

Potential environmental impacts were reviewed for all aspects of the program, through exhaustive literature searches, local experiments (including collection of extensive monitoring data) and demonstration projects, and a comprehensive, quantitative risk analysis. Vector control and water management programs, and impacts, were evaluated for numerous jurisdictions.
The pesticides analysis results can be summarized as:

- Human health: negligible impacts (acute, chronic, or carcinogenic) from any larvicide or adulticide agent.

- Ecological impact: no significantly increased risks for impacts for mammalian, avian, or reptilian wildlife from any pesticide. Possible risks for aquatic impacts were associated only with the adulticides permethrin and, potentially more so, malathion. However, models indicate that the increased risk for invertebrate impacts does not propagate up the food chain, and a sophisticated ecosystem model showed recovery to be complete by the following spring.

Bees are the standard for understanding agricultural pesticide impacts to flying insects and, based on theoretical potential effects to bees, all adulticides posed a potential risk to non-target flying insects. However, vector control adulticides are generally not applied when bees are flying (day time). No study has attributed significant impacts to insect populations from vector control adulticides at the concentrations and methods in which they are applied. Also, the literature suggests that effects of transient stressors on insect populations are fleeting, with populations recovering within days. Mitigation measures contained in the Long-Term Plan are expected to minimize any potential impacts to non-target flying insects.

The water management impact assessment found that there should be no significant impacts from careful, site-specific application of the selected Best Management Practices. For the first three years of the Long-Term Plan (through early 2010), implementation of the Long-Term Plan will focus on low impact Best Management Practices (BMPs 1-4, including de minimis ditch maintenance and maintenance/repair of existing culverts). Any other BMPs (including BMPs 5-15) will automatically trigger additional environmental review.

The Long-Term Plan involves a new approach to the management of Suffolk County's coastal marshes, and there will be no new ditch construction, no routine ditch maintenance of the overall grid ditch system, and minimal, limited machine ditch maintenance (expected to be annually limited to 50,000 linear feet, affecting less than 50 acres of marsh) in conjunction with projects where it is necessary to preserve or enhance important ecological functions in tidally restricted areas.
Mitigation

Mitigation is discussed in detail in Section F. Mitigation is summarized as follows, in terms of integrated pest management, water management, and pesticide usage.

Integrated Pest Management

The Long-Term Plan mitigates potential impacts because it enhances many aspects of the current Integrated Pest Management approach, including:

- Public outreach will be bolstered. In particular, there will be targeted education efforts in areas that have a greater probability of receiving adulticide applications.

- Surveillance efforts (pre-spray and post-spray efficacy) will increase, including increasing the number of traps used and the number of set-outs made. New Jersey Light Traps will increase from 27 to 30, and CDC trap-nights are expected to increase from 80 to 105 trap nights per week, at peak). Surveillance results will be better communicated to the public as a means of justifying program decisions.

- Current efforts to reduce mosquito breeding in catch basins and other storm water systems will be increased. Catch basin monitoring will increase, with the goal of increasing from 10,000 to 40,000 inspections per year.

- Focus will be increased on reducing the number of tires that litter the County. These sites serve are key habitats for important disease vectors, and so these efforts clearly reduce the risks of disease transmission.

- Biocontrol use will be mitigated through the use of disease-free, native fish, whenever possible (although the use of disease-free fathead minnows is also a possibility), and through strict observance of restrictions to ensure fish do not escape to other water bodies and do not threaten endangered species or significant habitats.

Wetlands Management

Water management was the cause of many comments from interested parties. It is of prime importance that wetlands management be organizationally and functionally separated from vector control. To mitigate potential effects from any wetlands management project, the following measures will be instituted.
• For the first three years of the Long-Term Plan (through early 2010), implementation of the Long-Term Plan will focus on low impact Best Management Practices (BMPs 1-4, including de minimis ditch maintenance and maintenance/repair of existing culverts).

• Any other BMPs (including BMPs 5-15) will automatically trigger additional environmental review. While BMPs 1-4 will be generally classified as Type II Actions, they may be subject to further SEQRA review if deemed necessary by DEE and/or CEQ. BMPS 5-15 will be deemed Unlisted or Type 1 Actions to ensure appropriate SEQRA review.

• A Wetlands Stewardship Committee, chaired by the Suffolk County Department of Environment and Energy, will be a key part of the Long-Term Plan, and this Committee will provide recommendations on all projects using BMPs 10-15, and can review any other project its membership wishes to consider.

• In 2010, the first triennial report will include recommendations from the Wetlands Stewardship Committee strategy; at that point, any Long-Term Plan modifications may be subject to further environmental review (see section G).

• The Long-Term Plan now emphasizes marsh health and preservation in design, implementation, and assessment of all wetlands management projects.

• All necessary permits will be acquired, which will require a great deal of formal project reviews.

_Pesticide usage_

Pesticide impacts are mitigated in several ways, as follows.

• Implementation of the long-term plan is expected to result in decreasing need to use larvicides (an eventual 75 percent reduction is a Long-Term Plan goal).

• Precise triggers (trap counts or landing rates) are required to be met before any Vector Control adulticide applications.

• Efficacy testing will be a significant element of the Long-Term Plan, and these data should provide justification for the pesticide use that does occur.
• Use of the Adapco Wingman technology will optimize aerial adulticide applications (maximize mosquito control while minimizing pesticide usage)

• Continued consultation with New York State Department of Environmental Conservation (NYSDEC) and other resource agencies will ensure that all pesticide applications avoid impacts to endangered species and minimize impacts to settings of particular concern, whether through the use of setbacks, adjustments in application timing, or avoidance of specific areas.

• The plan report now appears to want to lessen such buffers, which right now are 100-150 feet. CEQ feels the buffers are necessary, though if more nuanced applications are proven to avoid non-target impact/drift, CEQ will be willing to consider such evidence as part of the long term strategy.

It is important to emphasize that the Long-Term Plan will be an adaptively managed Plan. The Steering Committee and the advisory committees (Citizens and Technical) are expected to continue to function, and issues can continue to be addressed, even if they arise or are realized after this iteration of the Plan has been completed.

Further Environmental Review

The triggers for further environmental review which are specified herein constitute the minimum conditions under which additional environmental review would be initiated. At any time, the County could commence additional environmental review based on substantial new technical information.

Further environmental reviews (see Section G) are possible under at least two circumstances: adoption of the Annual Plan of Work, and in relation to wetlands management projects. Both are summarized below.

Annual Plans of Work

On an annual basis, the Council on Environmental Quality will review Annual Plans of Work and make a recommendation with respect to the State Environmental Quality Review Act to the Suffolk County Legislature. Annual Plans of Work that comply with the form and content of the Long-Term Plan generally should not require further environmental review. If an Annual Plan
of Work diverges from the Long-Term Plan, whether in terms of the scope of particular elements, or in terms of specific products or approaches to vector control, then all or part of the Annual Plan may be subject to further environmental review, at the determination of the Suffolk County Legislature and/or other involved agencies.

In general, annual plans need to focus on the use of surveillance to determine where mosquito problems exist, and to primarily employ source reduction tools to reduce the impact of mosquitoes on people. The implementation (over time) of the techniques for wetlands management developed in the Best Management Practices manual, as outlined in the Wetlands Management Plan may be a source reduction tool.

Specific triggers for additional SEQRA reviews have been detailed. These triggers include:

- failure to include public education and outreach steps to educate residents and visitors on the means that are available to avoid mosquito bites and diseases associated with mosquitoes
- inadequate mosquito population or disease surveillance
- failure to commit to respond to all mosquito complaints using personnel appropriately trained to identify and mitigate sources of mosquito problems
- failure to use the review processes outlined in the Wetlands Management Plan for wetlands management projects
- proposed use of a non-native biocontrol organism not already resident in Suffolk County natural environments
- proposed use of a larvicide other than Bacillus thuringensis var israelensis (Bti), Bacillus sphaericus, or methoprene
- proposed use of an adulticide other than resmethrin, sumithrin, permethrin, natural pyrethrins, or malathion
- identification of a preferred adulticide agent other than resmethrin or sumithrin
- use of BMPs 5-15.
**Wetlands Management**

Most wetlands management projects will be subject to further environmental review. Projects utilizing Best Management Practices 1 through 4, as determined by DEE, (none to Minimal Impacts) will not, unless unusual site-specific conditions are cause for concern; all others will.

The triggers for further environmental review which are specified in the FGEIS and below in Section G constitute the minimum conditions under which additional environmental review would be initiated. At any time, the County and/or the Council on Environmental Quality could commence additional environmental review based on substantial new technical information.

**C. Procedural Requirements**

Suffolk County Department of Public Works (SCDPW) prepared an Environmental Assessment Form (EAF) for the development of a Vector Control and Wetlands Management Long-Term Plan and submitted the EAF to the Council on Environmental Quality (CEQ) on May 2, 2002. On May 15, 2002, the CEQ issued a recommendation for a Positive Declaration to the Suffolk County Legislature. The Legislature issued the Positive Declaration at its meeting on August 6, 2002.

A draft Scoping document was prepared by Suffolk County Department of Health Services (SCDHS). The draft Scope was circulated for public review beginning August 7, 2002. A public Scoping hearing was held on September 10, 2002, at the Suffolk County Legislative Building in Hauppauge. This hearing was conducted by the CEQ, acting on behalf of the County Legislature, as authorized by Chapter 279 of the Suffolk County Administrative Code.

The CEQ held open the public Scoping record until September 25, 2002, in order to afford the opportunity for additional written comments regarding the scope of the DGEIS. All written comments received through that date, as well as minutes and summaries from the various meetings conducted as part of the Scoping process, were collected together and published by the County.
The Final Scope was published August 1, 2003, and was adopted by the Legislature by Resolution 1122 on December 16, 2003. The resolution was signed by County Executive Robert Gaffney on December 18, 2003.

A Draft Generic Environmental Impact Statement (DGEIS) for the Suffolk County Vector Control and Wetlands Management Long-Term Plan was submitted to CEQ on May 3, 2006. It was accepted as complete by CEQ at its May 17, 2006 meeting. At that meeting, CEQ set a 60 day comment period (through July 17, 2006) and also announced that two public hearings would be held. Public hearings were thus held, on Thursday, June 29, 2006, from 6 to 9 pm, at the Maxine S. Postal Legislative Auditorium, Riverhead, and on Thursday, July 6, 2006, from 10 am to 1 pm in the Rose A. Caracappa Legislative Auditorium, Hauppauge, before members of CEQ, with CEQ Chair Dr. R. Lawrence Swanson presiding.

At the CEQ meeting held on August 9, 2006, CEQ determined that the comments received in writing and at the hearings were substantive in nature, and forwarded a recommendation to the Legislature that it cause to have a Final Generic Environmental Impact Statement (FGEIS) prepared. The Legislature, at its meeting on October 17, 2006, passed resolution 1103-2006 authorizing the preparation of a FGEIS. The resolution was signed by County Executive Steve Levy on October 20, 2006.

The FGEIS was received by CEQ on November 9, 2006. The FGEIS Supplement was sent to the CEQ on January 4, 2006. All documents were forwarded to the Legislature for review and consideration together with comments from CEQ, and considered at the January 29, 2007 meeting of the Environmental, Planning and Agriculture Committee (EPAC) of the Suffolk County Legislature. These findings incorporate the direction from the Legislature.

To the extent that these Findings may contain measures (e.g., mitigation) which are not already explicitly in the Plan, the Plan is deemed to be amended to incorporate these Findings. If any provisions in the Findings are potentially inconsistent with the Plan, the provisions of the Findings are deemed to prevail.

D. Long-Term Plan Overview

Introduction
On August 6, 2002, the Suffolk County Legislature adopted a “Positive Declaration” on the County’s proposed Vector Control and Wetlands Management Long-Term Plan. The Legislature subsequently appropriated funding to conduct the program, resulting in SCDPW (as fiscal manager) and SCDHS (as project manager) preparing and issuing a Request for Proposals (RFP) for the preparation of a Long-Term Vector Control and Wetlands Management Plan together with any associated environmental reviews.

An open and public process was undertaken to generate a Long-Term Plan and to perform the environmental impact assessment of the Long-Term Plan. Elements of public participation and input included:

- Formation of project committees such as the Technical Advisory Committee (TAC), the Citizens Advisory Committee (CAC), the Wetlands Subcommittee, and the Monitoring Subcommittee. These formally constituted committees (the TAC and CAC) and more informal groups provided venues and means for comment and review of project work products, and for feedback and input on the development of the Long-Term Plan to be made.

- Reviews of various project work products by nationally recognized technical experts (organized by the TAC).

- The Best Management Practices Manual and Wetlands Management Plan were released in draft form for public review in July 2005. The Long-Term Plan was released for public review in September 2005. On the basis of received public comments, the Long-Term Plan and the associated Wetlands Management Plan and Best Management Practices Manual were revised, and released in draft form again in December 2005. At that time, a draft version of the DGEIS was also released for public comment and review.

- Following the receipt of comments, the County once again revised the Long-Term Plan, the Wetlands Management Plan, and the Best Management Practices Manual. These documents, together with a revised DGEIS, were formally submitted to the CEQ on May 3, 2006.
• Following the public comment period on the DGEIS, the Long-Term Plan, the Wetlands Management Plan, and the Best Management Practices Manual were again revised, with the updated versions released in October 2006. On November 9, 2006, the FGEIS was delivered to CEQ, as a response to comments made on the DGEIS.

Therefore, it is clear that the Long-Term Plan and its associated environmental reviews are the product of an open and very public process, one in which several substantial revisions have been made following extensive public input to generate draft plans and analyses. The Plan was revised several times, on a voluntary basis, by the County.

In addition, Suffolk County commissioned its consultant, Cashin Associates, PC, and its team of subconsultants to conduct extensive fieldwork and local data collection, including local experimentation and environmental characterizations. These efforts included:

• Designing, permitting, constructing, and monitoring a progressive water management project at Wertheim National Wildlife Refuge, in conjunction with US Fish and Wildlife Service (USFWS) and the County.

• Designing, permitting, and conducting the Caged Fish experiment of larvicide and adulticide impacts under environmentally relevant conditions, documenting all aspects of the applications and subsequent fate and transport, and testing for biological effects, in conjunction with the County and the US Geological Survey (USGS).

• Identifying and characterizing 21 local wetlands (Primary Study Areas) to serve as a basis for determining environmental impacts associated with water management.

• Identifying and characterizing four sentinel areas of the County to allow for careful modeling of the risks to human health and the environment from proposed pesticide applications.

• Conducting an assessment of the potential for mosquito control ditches to convey land-based pollutants to the surrounding estuaries.

• Testing for changes in invertebrate communities at five pairs of salt marshes from extended exposure to mosquito control larvicide formulations.
• Determining the long-term vegetation characteristics at two south shore salt marshes, and relating changes in vegetation patterns to extrinsic environmental changes, such as ditching, changes in land use, major storms, and similar factors.

• Monitoring turtle use of upland mosquito ditches near Napeague Harbor, and surveying for their presence in three similar settings.

• Surveying additional stormwater control structures beyond those identified by preliminary County assessments for the potential to breed mosquitoes that might impact human health.

• Testing innovative mosquito control formulations and devices in County environments.

• Constructing a Geographical Information System (GIS) database of local vector control information along with other relevant County environmental data sets.

• Designing and preparing to implement a test of remote sensing capabilities to ascertain vegetation geographical patterns and temporal trends in County salt marshes.

This information was released to the public through 27 separate publications associated with the Literature Search, additional reports connected with other tasks of the project, construction and maintenance of a project website where all relevant information, publications, and presentations were posted, professional presentations at local, national, and international meetings, and through production and dissemination of a project specific newsletter.

_Nuisance versus Disease_

The Long-Term Plan attempted to distinguish between mosquito control conducted to control nuisance, and mosquito control conducted to prevent human health impacts. However, such a distinction proved to be impracticable. The Plan was successful, however, in describing approaches geared to “Vector Control” (control in the absence of a detected pathogen; synonymous, for purposes of the Long-Term Plan, with the term “Public Health Nuisance Control”), as differentiated from actions associated with “Emergency Response.”
It is noted the Long-Term Plan approach is consistent with Public Health Law. The law reflects the position that a severe infestation of mosquitoes that results in large numbers of people receiving many bites is clearly not a “healthy” situation, even if no specific disease is transmitted. State and County Public Health Law describe a mosquito infestation as a “public health nuisance,” whether or not pathogens have been detected. A public health nuisance is, by definition, a condition that can adversely affect public health.

It is not possible to distinguish specific mosquito control steps for human health protection from all other mosquito control actions. For instance, West Nile virus (WNV) occurs and reoccurs across nearly all the County in most years. Nearly all human-biting mosquitoes found in the County have the potential to transmit WNV. Source reduction, wetlands management, larval control efforts, and wetland management techniques can reduce the potential for infection by reducing the pool of mosquitoes that can transmit disease. However, since female adult mosquitoes that have fed at least once are the only mosquitoes that carry WNV, the application of these techniques that limit the production of adult mosquitoes necessarily occurs prior to the mosquitoes becoming infected.

WNV impacts in the County are believed to be much less than they might in the absence of such control measures. Modeling suggests that West Nile virus incidence rates could be an order of magnitude higher in the absence of vector control (i.e., potentially tens of deaths, and hundreds of serious illnesses, annually). It is quite probable that other factors, such as the composition of the County’s mosquito population, also impacts the infection rate here. However, the control program also has a role in shaping the mosquito population, so that again it is difficult to separate out clearly the impact of the control program from other factors. The terminology used for control of adult mosquitoes may appear to support a distinction between nuisance and disease control, but that is not so. “Health Emergency” adulticide applications are made when the Commissioner of the SCDHS, acting under authority granted by the New York State Department of Health, determines that immediate risks to human health need to be reduced, by reducing adult mosquito populations in a certain area because there is a particularly high risk of transmission of disease to humans. The implication is that other applications are not made to reduce health risks. However, the Long-Term Plan has accurately designated these other kinds of adulticide applications “Vector Control” applications (i.e., control vectors with potential to adversely affect public health, prior to detection of WNV or other pathogens). The terminology is intended to
underline that all human-biting mosquitoes in the County are potential vectors of disease (most often, WNV), and that the reduction of large numbers of these mosquitoes will reduce overall disease risks. This clear connection between the reduction of large numbers of human-biting mosquitoes and decreases in disease risk is the reason that all aspects of the County control program are seen to be part of an overall disease control effort. It is true that alleviation of impacts to residents' and visitors' quality of life does follow from adulticide applications, and this is an important benefit of the program. This brief discussion focuses on West Nile virus. As discussed in the Long-Term Plan and GEIS, an integrated vector control program is credited to manage risks from other diseases and Eastern Equine Encephalitis.

**Content of the Vector Control Long-Term Plan**

Those aspects of the Vector Control portion of the Long-Term Plan were developed as an implementation of Integrated Pest Management. Integrated Pest Management is a means of addressing pest problems that uses a hierarchical approach where those activities that have greater impact on the organisms but potentially have fewer environmental or human health risks are assayed first, and where actions taken are commensurate with the problem.

The scope of the Long-Term Plan includes all of Suffolk County. However, Orient Point Mosquito Control District is responsible for vector control in that portion of the County. In addition, implementation of mosquito control in Fire Island National Seashore will require completing a separate permit application and environmental review process, and, due to its status in the national park system, may require some additional considerations that do not apply to the remainder of Suffolk County.

The hierarchical elements of the Vector Control component of the Long-Term Plan are:

- **Public education and outreach**

Public education and outreach is central to the effectiveness of the Long-Term Plan. The Long-Term Plan will re-enforce existing efforts that allow residents and visitors to avoid being bitten by mosquitoes, and that address mosquito breeding problems determined through responses to citizen complaints. The Long-Term Plan calls for expansion of general public outreach through program presentations, brochures, and web site maintenance, and will target the areas of the County, predominantly along the south shore, where adulticide
applications have been made more frequently. Specific efforts to improve catch basin maintenance and to address tire litter are expected to provide dividends in terms of reductions of disease risks. The County will maintain its “Do Not Spray” registry and will expand its efforts to educate Suffolk County residents regarding specific elements of the vector control program.

- Scientific surveillance

A central tenet of Integrated Pest Management is that information is necessary in order to determine appropriate actions. The Vector Control Long-Term Plan surveillance program is intended to generate necessary information in sufficient quantity and in a timely manner so that the activities of the vector control program are optimized. Surveillance generally determines two parameters concerning the local mosquito population. One is number and speciation, generally called population surveillance. The second is pathogen presence, which is generically called disease monitoring.

Population surveillance looks to assess larval and adult populations. Larval populations are determined at set stations, where crews collect samples with laboratory confirmation of numbers and speciation. Crews also seek for breeding sites in response to citizen complaints. The County will maintain its existing larval population sampling efforts, and endeavor to respond to all complaints within three days. Adult populations are assessed through trapping, primarily. The fixed New Jersey trap network will be expanded by three under the Long-Term Plan, and, if adult control is proposed, special population sampling using CDC light traps will be undertaken prior to any application to ensure numerical triggers are exceeded. In addition, post application sampling will be conducted to measure efficacy. In some circumstances, landing rates will be used either in place of trapping or as an adjunct to trapping efforts.

Disease surveillance generally uses CDC gravid or CDC light traps. The initial set out of CDC traps will be expanded to 35 weekly set outs, and will be proportionately increased as the season progresses. The County will continue to send its pools of potentially infected mosquitoes to the State Department of Health for testing, although the Long-Term Plan recommends the construction of a Bio-Safety Level 3 laboratory in Suffolk County so that testing may occur more quickly and be conducted on more potential pools than is currently
possible. Dead birds will continue to be collected, tested for WNV presence locally, and tested for a larger range of pathogens at the State laboratory.

Generally, SCVC will assume responsibility for population surveillance, and the Suffolk County Department of Health Services Arthropod-Borne Disease Laboratory (ABDL) will be responsible for disease surveillance. SCVC and the ABDL will continue to work closely together and share responsibilities to ensure that the primary mission of public health protection is adequately supported.

A discussion of surveillance results will be included in Annual Plans of Work. Detailed reporting and analysis of surveillance data will be included in each Triennial Report.

- **Source control**

Source control means to eliminate conditions conducive to mosquito breeding. This is a focus of public outreach efforts. It is also the most effective method of mosquito control conducted in response to public complaints. The County already has a strong program to encourage residents to take steps to drain standing water from containers near houses, to ensure pools are properly maintained, and to replace water in birdbaths at frequent intervals. The County will expand these efforts by addressing issues such as used tire management and catch basin maintenance with other local governments, and will expand the storm water facility maintenance program to private concerns such as shopping centers or apartment complexes. These efforts are especially important as the house mosquito (*Culex pipiens*) is believed to be the prime vector for WNV in Suffolk County (other mosquitoes are also significant risk factors for WNV transmission, as well).

- **Wetlands Management**

The Long-Term Plan reconfirms the existing County commitment to abandon ditching as a means of wetlands management for mosquito control, and to avoid machine ditch maintenance except in the most limited of circumstances. In the longer run, the Long-Term Plan has identified the utilization of more progressive wetlands management in salt marshes (as defined in the Best Management Practices Manual) as one element in increasing effective control of mosquitoes and decreasing the potential for environmental impacts associated with vector control. Potential reductions of 75 percent in larvicide use, reductions in adulticide
use, and improvements in important salt marsh ecological functions are all thought to result from careful and considered application of the Best Management Practices in select coastal marshes in the County.

Concerns raised by interested and involved parties have resulted in much more thorough review and appraisal of wetlands management as a means of vector control. For the first three years of the Long-Term Plan, only minor and relatively no impact projects will be considered by the County (see Figure 1, Figures 2-3, and Figure 6). Any project that is usually more likely to have potentially significant impacts or major impacts (Best Management Practices 5 to 15; Figures 4-5) will be subject to additional review under SEQRA. In addition, any project involving machine maintenance of existing ditches, structures, waterways, or other features associated with wetlands will be noticed to CEQ, either through submission of a copy of the permit application for the project, or submission of a project description detailed enough to serve as a NYSDEC permit application.

- **Biocontrols**

  Biocontrols are not a major facet of the County program. This is largely due to the potential for environmental impacts from the invasive and aggressive *Gambusia* fish which has served the County as its primary biocontrol for several decades, and so the necessity to restrict biocontrols to settings where the fish will almost certainly not impact natural water bodies. In addition, many settings where biocontrols would serve good purposes for mosquito control are ecologically sensitive, often because they are largely predator-free. The Long-Term Plan proposes to substitute fathead minnows (*Pimephales promelas*) for *Gambusia*, as the minnow as been identified as a more benign species should it escape to natural water bodies. The County will also follow developments in other jurisdictions regarding other promising organisms that are shown to consume mosquitoes, such as certain freshwater copepods (potential biocontrols for catch basins). However, the County will be very cautious in implementing biocontrol use, to ensure that sensitive environments are not disrupted through the introduction of predator species.

- **Larval control**

  The Long-Term Plan reaffirms the County commitment to only using pesticides when scientifically-collected information supports its use, in the context of Integrated Pest
Management principles. Surveillance data regarding the species and stages of immature mosquitoes along with information on the time of year and conditions at the prospective treatment site will be used to determine if use of one of two bacterial pesticides, *Bacillus thuringiensis var israelensis* (Bti) or *Bacillus sphaericus* (Bs), or the insect growth hormone mimicker methoprene, is appropriate. At times, the County may use a “duplex” treatment of Bti and methoprene, as well. Application rates will always be at label maximums. This insures maximum effectiveness for the application, and is important to reduce the development of resistance in treated populations. For regularly sampled locations, the primary determinant of the need to larvicide will be “presence/absence” over an appropriate subset of sampling points. The Long-Term Plan also identifies the potential to develop numerical triggers through analysis of data sets as augmented by continuing sampling, through the creation of a GIS (Geographical Information System) database of historical sampling results as part of the Plan development process. The County will continue to apply larvicides by helicopter to marshes that have large expanses of breeding, although it is anticipated that implementation of the Wetlands Stewardship Strategy (to be developed by the Wetlands Stewardship Committee under the direction of SCDEE) will help to significantly reduce larviciding needs. Other larvicides will be applied by field crews in response to surveillance data generated by citizen complaints or regular surveillance of smaller breeding locations. To check *Culex pipiens* populations further, the County will expand its surveillance of catch basins to some 40,000 (or more) sites each year. Time release formulations of methoprene, or, sometimes, Bs, will be used to prevent the emergence of adult mosquitoes at these sites.

The Long-Term Plan requires the establishment of an efficacy program and also sampling to determine if resistance is being generated in treated populations.

- Adult control

Control of adult mosquitoes is the least favored means of mosquito control. Adulticide use signals the failure of all other potential treatment means, and is the last option for program managers. The County always endeavors to minimize its use of adulticide products.

Adult control can be deemed to be necessary under two separate operational scenarios. One is defined as a “Vector Control” (public health nuisance) application; the other is defined a
"Health Emergency" application. In either case, pesticide use decisions are only made on the basis of scientifically-determined surveillance data.

Vector Control adulticide applications are made to reduce large numbers of human biting mosquitoes. Criteria for conducting a Vector Control treatment include:

1. Evidence of mosquitoes biting residents (there is no problem unless people are affected):
   - Service requests from public - mapped to determine extent of problem
   - Requests from community leaders, elected officials

2. Verification of problem by SCVC (service requests must be confirmed by objective evidence):
   - New Jersey trap counts higher than generally found for area in question (at least 25 females of human-biting species per night).
   - CDC portable light trap counts of 100 or more.
   - Landing rates of one per minute over a five minute period.
   - Confirmatory crew reports from problem area or adjacent breeding areas.

3. Control is technically and environmentally feasible (pesticides should only be used if there will be a benefit):
   - Weather conditions predicted to be suitable (no rain, winds to be less than 10 mph, temperature to be 65°F or above).
   - Road network adequate and appropriate for truck applications.
   - "No- treatment" wetlands, wetlands and open water buffers, and no-spray list members will not prevent adequate coverage to ensure treatment efficacy.
   - There are no issues regarding listed or special concern species in the treatment area.
   - Meeting label restrictions for selected compounds (such as avoiding farmland) will not compromise expected treatment efficacy.
4. Likely persistence or worsening of problem without intervention (pesticides should not be used if the problem will resolve itself):

- Considerations regarding the history of the area, such as the identification of a chronic problem area.
- Determination if the problem will spread beyond the currently affected area absent intervention, based on the life history and habits of the species involved.
- Absent immediate intervention, no relief from the problem can be expected.
- Crew reports from adjacent breeding areas suggest adults will soon move into populated areas.
- Life history factors of mosquitoes present – i.e., if a brooded species is involved, determining if the brood is young or is naturally declining.
- Seasonal and weather factors, in that cool weather generally alleviates immediate problems, but warm weather and/or the onset of peak viral seasons exacerbate concerns.
- Determining, if the decision is delayed, if later conditions will prevent treatment at that time or not. Conversely, adverse weather conditions might remove most people from harm’s way.

In essence, criteria 1 and 2 are necessary thresholds which must be met, prior to a treatment being considered. With enhanced surveillance, there will be rigorous, numeric validation of mosquito control infestation near a potentially affected population in all cases. Treatment will not occur unless criteria 1 and 2 are satisfied through a combination of surveillance indicators, although not all surveillance techniques may be feasible in every setting and situation.

Vector Control applications will normally be made by truck. Necessary public notices will be issued in a timely manner (normally, at least 24 hours pre-application), and appropriate precautions will be made to meet NYSDEC restrictions on applications, and to avoid “No Spray” properties (including all farms).
The need for Health Emergency treatments is determined by the New York State Department of Health West Nile Virus Response Plan for mosquito-borne disease. Because of the persistent presence of WNV in the County, the County perpetually begins each year in Tier II. As indicators of pathogen presence accumulate (positive dead birds, positive pools of mosquitoes), the Commissioner of the SCDHS will petition the Commissioner of the State Department of Health to declare a Health Emergency. If the petition is granted, and the risk assessments made by SCDHS indicate that risks to the residents of an area of the County are no longer tolerable, the Commissioner will declare a Health Emergency. In conjunction with NYSDEC and SCVC, SCDHS will determine the optimal treatment area to reduce risks of disease transmission to people. An application will be made to NYSDEC for NYSDEC to issue an Emergency Authorization to permit adulticide applications that might otherwise violate the State Freshwater Wetlands Regulations. Appropriate required public notices will be issued. Pre-application mosquito sampling will be conducted (for efficacy determinations). If, as is almost always the case for Health Emergency applications, an aerial application is proposed, a helicopter using the Adapco Wingman guidance system will be used to optimize the delivery of the pesticide.

Efficacy measurements will be made following every adulticide application. The Long-Term Plan also calls for the establishment of resistance testing for the more commonly used compounds.

The Long-Term Plan proposed a general reliance on resmethrin, a synthetic pyrethroid, as the adulticide pesticide. Resmethrin has been found to be an effective pesticide for mosquito control, can be used for ultra-low volume applications for truck and aerial delivery, undergoes rapid decay in the environment, and, as discussed below, has few identified non-target effects when applied as proposed under the Long-Term Plan. Sumithrin, a similar pyrethroid, is proposed to be the primary back-up to resmethrin, and the primary pesticide for any hand-held applications (the resmethrin label is currently interpreted as not permitting hand-held applications). The Long-Term Plan also identifies two other pyrethroids, permethrin and natural pyrethrins, as potential adulticide compounds. Neither is preferred; however, permethrin is a more widely available product that is manufactured by more than one company, and so may continue to be available under conditions when the patented, less-widely used pyrethroids may not be. Natural pyrethrins are identified as a potentially useful
compound because its label allows for use over agricultural areas. In addition to the pyrethroids, malathion, an organophosphate pesticide, was identified as a potential adulticide. Malathion would be used under very specialized conditions, such as if thermal fogging were needed, daylight applications were called for, or if resistance testing indicated pyrethroid applications would be ineffective in meeting the goals of the application. All of these pesticides would be applied at the maximum label rate, as that is the best way of achieving effective mosquito control and is helpful in avoiding the development of pesticide resistance.

Each year, SCVC will prepare and submit to CEQ and the Legislature a report on its pesticide use in the previous calendar year. The report will document actions taken to minimize the use of pesticides. It will summarize any notable scientific findings regarding the pesticides used by the program. The report will also identify any research or product development that may lead to selections of alternatives to the compounds selected by SCVC over that time period. The report will also review the thresholds used for Vector Control application consideration, and determine if those thresholds were appropriate to achieve the goals of protecting public health and the environment.

Wetlands Management component of the Long Term Plan

The Long-Term Plan establishes a Wetlands Stewardship Committee. The Suffolk County Department of Environment and Energy (SCDEE) will chair the committee. NYSDEC permits and reviews will be required for nearly every project. No project requiring a NYSDEC permit will be allowed to proceed without explicit review and approval of SCDEE, meaning that permit applications and Wetlands Stewardship Committee considerations will not begin without SCDEE vetting of the proposed project. Any project that is usually more likely to have potential for major impacts (Best Management Practices 10-15), or any other project, using Best Management Practices 5 through 9 that the Wetlands Stewardship Committee membership determines to need review, will undergo the review and recommendations of the Wetlands Stewardship Committee of the project goals, design, and impact assessment. Any project requiring a NYSDEC permit will be noticed to CEQ. Thus, any project except for the most minor will undergo extensive scrutiny and analysis prior to any alteration of the marsh.
If the DEE adopts any of the BMPs 2-4 as part of [their] its stewardship strategy, then “Maintenance as defined in BMPs 2-4 needs further clarification [classification].

a) No material alteration of marsh hydrology, tidal circulation characteristics, vegetation or animal populations shall occur as part of any maintenance activity.

b) Maintenance should involve only existing water features in a marsh and cannot be used to expand any feature in length, width or depth.

c) Suffolk County can remove blockages/obstructions in a ditch or impairments to tidal flow in accordance with conditions identified in the FGEIS.

d) Maintenance cannot expand a ditch network.

e) Maintenance shall avoid enhancement of storm water conveyance.
Figure 1. Overall Hierarchy of Proposed Best Management Practices

Suffolk County Vector Control and Wetlands Management Long-Term Plan
Best Management Practices

- Management Activities with
  Minimal Impact on Wetlands

- Management Activities with
  Minor Impacts

- Management Activities usually more likely to have potential significant impacts
  (requires Stewardship Committee review in all cases)

- Management Activities usually more likely to have potential major impacts
  (requires Stewardship Committee review in all cases)

- Invasive Species Management Actions

* DEC Permits and SEQRA required in all cases.
Figure 2. Review Process for Management Activities with No or Minimal Impacts

S.C. Vector Control and Wetlands Management Long-Term Plan

Review Process for Wetlands Activity

NO ACTION & MINIMAL IMPACT

* Replacement in-kind with substantially identical culvert.

** Notice will also be sent to Town and Trustee jurisdictions.

*** BMP 1-4 may require SEQRA review if deemed appropriate by DEE/CEQ.

**S.C. Vector Control and Wetlands Management Long-Term Plan**

**Review Process for Wetlands Activity**

**MANAGEMENT ACTIVITIES WITH MINOR IMPACTS**

- **Hand Maintenance**
  - No NYSDEC Permit Required
  - No Stewardship Committee Review
  - No SEQRA Required

- **Machine Work**
  - NYSDEC Permit Application
  - No Stewardship Committee Review
  - No SEQRA Required

---

* Minimal machine maintenance when required for critical public health or ecological purpose (50,000 feet/year, 50 acres maximum, 1 acre minimum).

** Notice will also be sent to Town and Trustee jurisdictions.

*** BMP 1-4 may require SEQRA review if deemed appropriate by DEE/CEQ.**
Figure 4. Review Process for Management Activities with the Potential for Significant Impacts

S.C. Vector Control and Wetlands Management Long-Term Plan

Review Process for Wetlands Activity

MANAGEMENT ACTIVITIES USUALLY MORE LIKELY TO HAVE POTENTIAL SIGNIFICANT IMPACTS*

* In former plan drafts, BMP's 5-9 were designated "minor impacts" unless they affect 15 or more acres. In the current plan all are deemed usually more likely to have "potential significant impacts," irrespective of size. Impacts may be beneficial not necessarily adverse.

** Stewardship Committee can submit comments to project sponsor and/or SEQRA lead agency prior to project approval. Stewardship Committee meetings can also occur, as needed.

*** Notice will also be sent to Town and Trustee jurisdictions.

*SEQR Required*
Figure 6. Review Process for Interim Management/Ongoing Maintenance Activities

S.C. Vector Control and Wetlands Management Long-Term Plan

Review Process for Wetlands Activity

INTERIM MANAGEMENT/ONGOING MAINTENANCE ACTIVITIES (IMA)

* Notice will also be sent to Town and Trustee jurisdictions.
In addition, over the first three years of the Long-Term Plan, the Stewardship Committee is charged with developing more rigorous indicators for marsh health for Suffolk County, and using them to assess marsh health and develop a strategy to manage all of the counties 17,000 acres of salt marsh (not just the 4,000 acres of vector control concern). SCDEE will oversee the development of this strategy. Marsh health (functions and values) and the preservation of marshes are to be paramount considerations in evaluating any potential project.

The Wetlands Stewardship Committee is envisioned in the Long-Term Plan to have the following composition:

---

**Estuary programs:**
- Long Island Sound Study (LISS) representative
- Peconic Estuary Program (PEP) representative
- South Shore Estuary Reserve (SSER) representative

**State**
- New York State Department of Environmental Conservation (NYSDEC) Region I
- NYSDEC Bureau of Marine Resources
- New York State Department of State (NYSDOS)

**County**
- County Legislature
- County Executive
- Suffolk County Department of Health Services (SCDHS)
- Suffolk County Department of Public Works (SCDPW)
- Suffolk County Department of Environment and Energy (SCDEE) (chair)
- Suffolk County Department of Planning
- Suffolk County Department of Parks
- Council on Environmental Quality (CEQ)

**Local**
- Town representative (based on project location)
- Trustee's representative (based on project location)

**Non-governmental Organizations**
- Two appointed by County Legislature
- Two appointed by County Executive

Any agency or entity that initiates a project that is before the committee, cannot vote on that project.

Appendix 2 more completely describes the functions of the Wetlands Stewardship Committee.

The Long-Term Plan identified priority sites for consideration of wetlands management (approximately 4,000 acres of salt marshes), and also identified other sites where no marsh
management for vector control purposes appeared to be appropriate (also approximately 4,000 acres). The Long-Term Plan, in the context of the Integrated Marsh management program developed by the Wetlands Stewardship Committee under the direction of SCDEE, proposes to assess the priority sites and the remaining 9,000 acres of other coastal marshes over the next 12 years or so to determine whether marsh management (possibly with a vector control element) is appropriate.

*Other important Long-Term Plan elements*

SCVC and the Arthropod Borne Disease Lab (ABDL) have redefined areas of operation under the Long-Term Plan, with SCVC focusing on population dynamics and control, and the ABDL concentrating on disease surveillance and determination of the need for adulticide treatment to reduce health risks. Each division has been slightly reorganized, and the County has committed to providing the personnel necessary for the organizations to meet their duties under the Long-Term Plan. The Long-Term Plan also emphasizes the need for continuing professional education to maintain the current top-notch standing of these organizations and to support continuing review and reporting on program elements.

The Long-Term Plan is not envisioned to be a static document. Means for continuing adaptive management are outlined in the Plan, including, obviously, incorporation of the findings of the Wetlands Stewardship Committee into the Wetlands Management element of the Plan. In addition, to meet the need for continuing evolution of the Long-Term Plan, and also to meet important public outreach goals, the production of a Triennial Report has been proposed. Its outline is attached as Appendix 1 to this Findings Statement.
E. Reasonable Alternatives Considered

In accord with the requirements of SEQRA, the environmental review of the Long-Term Plan considered reasonable alternatives to the Long-Term Plan.

- No Action (continue the existing program)

SEQRA requires that a "no action" alternative be considered. If no changes were made to the existing situation, then the existing mosquito management program would be continued.

The existing program is an Integrated Pest Management program, but the Long-Term Plan has identified ways that it could be improved. The ways that the existing program would be improved include:

- An expanded and improved education program
- An expanded surveillance program
- Potential construction of a local BioSafety Level 3 laboratory
- Improved GIS capabilities for data management
- Improved source reduction, including an emphasis on tire management and storm water facility maintenance
- Implementation of a more ecologically sound and yet more effective water management program
- Selection of a better biocontrol agent than Gambusia fish
- Proposed implementation of numerical triggers for larviciding
- Establishing goals for larvicide reductions through more effective water management
- Purchase and installation of the Adapco system for aerial adulticide applications
- Establishing clear and precise numerical triggers for Vector Control treatments
- Creating pesticide efficacy programs
- Establishing resistance testing
• Establishing clear distinctions for the complementary roles of SCVC and the ABDL

• Creating mechanisms by which the Long-Term Plan can be modified as needs dictate

Thus, the No Action alternative is clearly inferior to the Long-Term Plan.

• No Mosquito Control

A considered alternative was one where no mosquito control was to be conducted. This alternative was found to be insufficiently protective of human health. A model of WNV prevalence in the theoretical absence of mosquito control found that tens of deaths might occur each year, with more than one hundred additional cases requiring hospitalization. In addition, because careful implementation of progressive water management can augment important salt marsh functionalities, potential ecological benefits would be lost. Human health and environmental impacts from pesticide use (see Section F below), which would be avoided under this alternative, were not found to be of the same magnitude as the potential human health impacts from disease. The potential for ecological impacts from water management are mitigated by processes established for programmatic and project level reviews (see Section D above and Section F below).

• Alternative IPM approaches

Various permutations of the overall Long-Term Plan approach were considered. They included:

• No water management at all

This is to adopt a marsh reversion policy for all marshes throughout the County. The environmental analysis suggested that, for certain marshes, allowing ditches to infill could increase mosquito breeding. In addition, for certain marshes, allowing the ditches to infill would reduce tidal circulation, and therefore lead to reduced functioning as a salt marsh. Therefore, having no water management at all would lead to potentially greater human health impacts because of increased mosquito breeding, and decreases in important ecological functions.
Selective ditch maintenance

Experiences in other jurisdictions suggests that there are water management alternatives that potentially are more effective as mosquito control means, have potentially fewer environmental impacts, and should augment certain marsh functionalities such as fish production and water bird use of the marsh. This suggests that ditch maintenance is an inferior means of conducting water management.

Ditch maintenance of all ditches

This alternative is based on the notion that structures should be maintained as they were constructed to be. However, it is clear that not all ditches are needed for mosquito control purpose. It is also likely that some ditches have had negative environmental impacts on certain marshes. Therefore, a universal policy of ditch maintenance is also an inferior means of mosquito control and of marsh management.

Alternative larvicide compounds

Three alternatives were considered: ethoxylated fatty alcohols, Temphos, and Golden Bear Oil. Temphos clearly has the potential for greater ecological impacts to non-target aquatic invertebrates compared to Bti, Bs, and methoprene. The other two compounds are not as well studied. However, they appear to have the potential for non-target organism impacts, and do not appear to meet operational needs for SCVC. Therefore, these three compounds were evaluated to be inferior choices.

No larvicide use in fresh water settings, with no methoprene use in salt water settings

Based on efficacy data, it is clear that mosquito breeding would be increased under this choice. The County has found that increased mosquito populations increase risks of disease transmission. Therefore, selecting this alternative would increase the risk of human disease. The analysis was not able to quantify the increase in risks, however. Selection of this alternative is based on the environmental benefits of reduced larvicide use outweighing the increase in human health risks. Although no use of pesticides is risk free, the quantitative risk analysis found that the proposed Long-Term Plan use of Bti, Bs, and methoprene should result in no changes to ecological conditions, as the modeling
suggested the exposure of organisms to these pesticides would be below thresholds where impacts were found to occur. Therefore, it is likely that no discernable environmental benefits would ensue, and so the risk increase to human health is likely to be much greater than (and incommensurate with) any potential ecological benefits. In fact, significantly increased adulticide usage could occur as a result. This makes this alternative inferior to the Long-Term Plan.

- Alternative adulticide compounds

Four alternatives were considered: naled, fenthion, chlorpyrifos, and deltamethrin. Qualitative risk assessments were conducted of these compounds. Naled, fenthion, and chlorpyrifos are organophosphate pesticides. US Environmental Protection Agency studies suggest they are likely to have more non-target impacts than the pyrethroids selected for the Long-Term Plan. They thus represent inferior choices to resmethrin and sumithrin (the preferred Long-Term Plan adulticides). Deltamethrin is also a synthetic pyrethroid. The qualitative analysis of deltamethrin suggested it should have ecological and human health impacts that are similar to the selected pyrethroids. Because no information surveyed suggested it would have lower impacts than the selected pyrethroids, it was not selected as an alternative that should be preferred over the Long-Term Plan choices.

- Use of Mosquito Magnets in Davis Park

Mosquito Magnets and other mosquito traps have been found to be effective in some testing. However, local tests conducted under the Long-Term Plan did not find that they deterred mosquitoes from reaching a target area. Therefore, establishing an array of such traps across the barrier beach to reduce infiltration of mosquitoes to the community was thought to be technically flawed.

- Adulticide only for Health Emergencies

Four study areas were considered for the quantitative risk assessment. Two areas (Dix Hills, with one application, and Manorville, with two applications) were evaluated under Health Emergency scenarios. Mastic-Shirley (10 applications) was evaluated for a mix of Health Emergency and Vector Control applications, and Davis Park (14 applications)
was evaluated for Vector Control applications only. Increasing the number of applications did not increase risks above impact thresholds for most of the scenarios and compounds evaluated. Potential impacts to terrestrial insects were found under all scenarios and for all pesticides (see Section F below). Potential impacts to aquatic invertebrates were found for the higher use scenarios for permethrin and malathion, but not for resmethrin and sumithrin. More sophisticated ecological modeling suggested that any permethrin impacts would be of short duration, and would not affect ecological conditions in the following season (these results were thought to be valid for malathion, as well). The only potential risk found to be greater than threshold limits for human health was found for the highest potential release of malathion in Davis Park, and this risk increase could be mitigated by washing the exposed vegetables (a “community gardener” scenario was modeled for all risk assessment areas, even though it was understood that conditions on Fire Island do not allow for extensive vegetable gardens). Thus, only under the highest use scenario with the highest potential exposure concentration was there even a suggestion that Vector Control applications might lead to greater impacts than Health Emergency applications. Thus, the risk assessment generally found the potential for increased risks associated with Health Emergencies and Vector Control applications to be similar (and negligible). Therefore, there would be only slight risk benefits to be achieved by eliminating Vector Control applications. The analysis by the County, however, finds that increased numbers of mosquitoes tends to increase risks of disease transmission. Therefore, there is a risk benefit for human health from decreased disease risks when Vector Control applications are made. Therefore, eliminating Vector Control applications would not only decrease quality of life, but it would increase human health risks, and provide only negligible risk advantages. This made it an inferior alternative.

- Adulticide only after human illness

This programmatic choice is logically flawed. For one, adulticides are used to avoid human illness. In this scenario, the illness has already occurred. Secondly, it needs to be understood that there is often a week or more lag between the time of infection and diagnoses of illness. Because mosquitoes often have high mortality rates (especially for brooded mosquitoes), the mosquitoes that may have been responsible for the illness may
already be dead when the illness is determined. Therefore, it will often be the case that
treatment decisions will be made for reasons other than the targeted mosquitoes having
caused illness. If so, those treatment criteria could be used prior to the onset of illness.
Because the mosquitoes that caused illness are not likely to still be present, it is clear that
eliminating mosquitoes that caused people to become ill is not the direct cause of the
proposed adulticide application. This means other criteria must be used to determine
where and when the application will be made. If other criteria are used, then these self-
same criteria could have been applied prior to the onset of illness, with the effect of
potentially preventing impacts to human health. In nearly all mosquito control situations
with a virus like WNV that has a long lag between induction of illness and diagnosis of
the disease, and where brooded mosquitoes are important to the risk of transmission, past
human cases are a poor criterion on which to base mosquito control decisions, and the
more important criteria that measure current risks from virus presence are not affected by
incidences of disease. Therefore, disease occurrence in humans is a suboptimal trigger
for treatment.

- No adulticiding

Information collected in the impact assessment suggests that adulticiding is effective at
killing adult mosquitoes. If virus is circulating in these mosquitoes, their deaths will
decrease risks to people from mosquito-borne disease. The analyses carried out on
adulticide applications suggest that no significant increases in risks to the environment or
human health result from judicious use of these pesticides. Therefore, avoiding the use of
adulticides does not result in significant risk reductions. On the contrary, it could result
in significant risk increases for mosquito-borne disease impacts.
F. Long-Term Plan Potential Significant Impacts and Identified Mitigation

Introduction

Suffolk County, through its consultant, Cashin Associates, and the team of subconsultants assembled by Cashin Associates, has conducted a most thorough and complete evaluation of potential impacts of the proposed Long-Term Plan. As detailed above in Section C, the overall approach to this project provided for a robust feedback system whereby initial findings were commented on and criticized, leading to revised and improved programs and analyses of the proposed programs. Not only were traditional methods of environmental analysis used (such as the literature search and modeled risk analysis), but local and unique experiments, assessments, and demonstration projects were undertaken to strengthen the development of the project and its environmental impact analysis.

Several elements are key to the findings regarding the proposed Long-Term Plan. These are:

- The 27 volume literature search
- The quantitative risk assessment of potential ecological and human health impacts of the proposed Long-Term Plan pesticides, using four exemplar areas of the County with different application scenarios, conducted by Integral Consulting.
- The Caged Fish experiment of fate and transport and potential impacts to sentinel organisms for methoprene and resmethrin under operational conditions in salt marsh ditches, under the direction of Professor Anne McElroy, Stony Brook University.
- The Wertheim National Wildlife Refuge demonstration of progressive water management practices and their potential to create environmental benefits and meet mosquito control needs, with the cooperation of USFWS.
- A model of potential human health impacts from WNV in the absence of local mosquito control, based on serological data collected in New York, Ohio, and Ontario.

Hundreds of samples of air, water, sediment, and biota were taken, with samples analyzed to the low part-per-trillion level, the lowest known detection limit ever attained. Numerous other efforts from this three-year study contributed to the conclusions reached here.
The contributions of volunteers were extremely important, and shaped the results presented here. These volunteers included citizens and government and academic professionals from outside of the project, who served on the various committees and who analyzed project output and draft and provisional documents.

**Impacts and Mitigation**

The following specifies potentially significant impacts that may be incurred with the adoption of the Long-Term Plan by the Suffolk County Legislature, and also identifies mitigation of these potential impacts.

- **Education and Outreach**

  The Long-Term Plan identified the potential for impacts associated with counseling the public to use DEET to avoid mosquito bites. Although it is not clear that any health impacts result from the use of DEET, the Long-Term Plan repeats the advice of the State Department of Health and urges the public to use caution when applying DEET to skin, and to ensure label directions are followed. Any potential impacts associated with DEET use are mitigated by reductions in disease risk associated with its effective deterrence of mosquito bites.

- **Source Reduction**

  Collection of littered tires can increase waste management requirements, and the maintenance of storm water structures can also generate somewhat problematic materials. The scope of these problems, in light of waste management as a whole County-wide, is not great. The impact of problems associated with these waste streams is mitigated by the potential for improved mosquito management, especially in the reductions of risks to human health.

- **Water Management**

  The Long-Term Plan identifies 15 Best Management Practices and four Interim Management/Ongoing Maintenance Activities (Tables 1 through 5) that could be conducted in coastal marshes to further mosquito control purposes. The following five tables summarize the possible impacts associated with each, and also identify mitigation for each potential impact (identified in the Tables as “Potential Benefits”).

Please note that other jurisdictions besides NYSDEC may also regulate activities in wetlands.

NPN = Uses Not Requiring a Permit
GCp = Generally Compatible Use- Permit Required
Extensive experience in other jurisdictions such as New Jersey and Connecticut, suggests that careful site selection and professional implementation of these Best Management Practices tends to minimize the potential for negative impacts and increase the potential for benefits to accrue.

In addition to these efforts to mitigate impacts, Suffolk County will take the following actions to ensure that projects do not result in unwanted and unexpected negative environmental impacts:

- All water management projects are to be conducted on the basis that marsh health and marsh preservation are the primary project concern.

- All projects using Best Management Practices 5 to 15 (listed in Tables 3 and 4) will be subject to initial review through SCDEE and also will be subject to further environmental review.

- All projects will receive NYSDEC permits, as required, and undergo State environmental reviews, as required. Any project requiring a NYSDEC permit will be noticed to CEQ.

- The Long-Term Plan calls for the creation of a Wetlands Stewardship Committee. The Committee will be chaired by SCDEE. This Committee, as discussed in Section D, (and further outlined in Appendix 2) will be responsible for developing a definition of marsh health, and to use that definition to develop a County-wide marsh management plan that will be the basis of an Integrated Marsh Management program. The Integrated Marsh Management program will address all County marsh management needs, including those associated with vector control. The Wetlands Stewardship Committee will also be required to review and make recommendations on all projects that use Best Management Practices 10 to 15, and Best Management Practices 5-9 that the membership of the Committee determines requires further review.

- For the first three years of the Long-Term Plan, the County will only conduct water management projects that have the potential for minimal environmental impacts.

- All wetlands management projects will be developed, reviewed, and assessed on site-specific basis.
Projects that do not meet goals and objectives after implementation will be subject to remedial activities to mitigate any potential impacts.

- Biocontrols

The Long-Term Plan identified potential impacts of the introduction of fish into certain fresh water habitats as a potential impact associated with the use of biocontrols. This is because certain predator-deficient environments allow for the development of aquatic invertebrates, insects, and amphibians. Some of the insects that can flourish in these environments are mosquitoes. Thus, it can seem to be worthwhile, from a mosquito control standpoint, to introduce mosquito larvae predators to reduce emergent populations. This would likely have negative impacts on other species, however. Therefore, the County will mitigate this potentially negative impact by limiting fish releases generally to locations where they have been used before. In addition, any expansion of fish releases will only occur after the locations have been reviewed and determined not to provide these kinds of “vernal pool” or “coastal plain pond”-type environments, and that any connected waters that the fish might migrate to also do not constitute such environments. This will be done for natural waters, and also for the various artificial waterways (such as recharge basins) that sometimes appear to need treatment.

- Larval Control

Comments were received on the County’s proposed use of methoprene and its potential for environmental impacts. The comments tended to focus on two areas:

1) The County ignored important scientific findings in making its analysis

2) The County did not correctly interpret a study conducted in Minnesota

There is no study that was evaluated as part of the Long-Term Plan which suggested that methoprene, as used in vector control applications in Suffolk County (as per NYSDEC-approved label requirements), has significant adverse ecological impacts. To the contrary, the Long-Term Plan’s comprehensive risk assessment found that methoprene has no such impacts. Therefore, these findings do not recognize these comments and potential impacts as being substantiated. No commenters have refuted the specific technical materials in the
DGEIS or the FGEIS. Some commentators have recommended that, as a matter of policy, methoprene should be eliminated from the County's vector control program, without scientific documentation of adverse impacts. The commentators have made the recommendation based on speculation that, in the future, scientists may document adverse methoprene impacts in our salt marsh. This basis of speculation is clearly contrary to SEQRA.

Michael Horst has published research regarding impacts of methoprene on various crustaceans since 1999. He has found serious impacts, especially to larval stages of crabs and lobsters. The following summarizes the findings of this environmental assessment with regard to Dr. Horst's research:

- Methoprene is applied in wetland areas, not where larval crabs and lobsters used by Dr. Horst are found. Blue claw crabs hatch offshore and only arrive in estuaries when they are close to being fully developed. It is unlikely any are present in salt marshes in larval forms. Lobsters hatch offshore, develop offshore, and live offshore. A modeling exercise, made to estimate the maximum amount of pesticides that could have been in Long Island Sound when the 1999 lobster die-off occurred, found the maximum amount of methoprene that could be present in the near offshore waters of the sound was measured in the parts per quadrillion, and the lowest concentration linked to effects are in the parts per billion.

- Dr. Horst tends to overestimate the concentration of methoprene that could be present in salt marsh ponds, ditches, and streams, and in estuarine waters, according to all other researchers in the field. He also finds effects that, sometimes, others cannot duplicate.

- Dr. Horst has identified effects from methoprene that other researchers have not found, and have not looked for. This is because he is concerned about impacts from methoprene effects on endocrine systems of organisms. It is possible that pesticides (and other chemicals) that affect endocrine systems are not being correctly evaluated. However, the work in this field is preliminary, and cannot and should not be used to draw conclusions regarding any environmental impacts, based on only a few, limited laboratory studies.
To more specifically illustrate problems with the methoprene research cited by commentators, Dr. Horst's 1999 research with crab larvae used concentrations up to 500 times higher than those levels present in real-world vector control applications. Dr. Horst's more recent work in 2005 with lobster larvae suggested that there was increased mortality in Stage II lobster larvae in experiments conducted utilizing concentrations of 1 to 2 ppb methoprene continuously during a 72 hour exposure. These results were not confirmed in concurrent Stony Brook University analyses.

In any case, one ppb methoprene exposures maintained continuously for 72 hours is an extremely unrealistic exposure. The Caged Fish Study, conducted as part of the Long-Term Plan, with independent verification by USGS, clearly demonstrated that the concentrations required to cause impacts found by the Horst laboratory do not persist in the water column. Nominal concentrations of methoprene rapidly decrease to near or below detection limits of 5 ng/L (0.005 ppb); most of this reduction occurs within two hours of application. In addition, the quantitative risk assessment found, with comfortable margins of error, that risks of ecological impact do not increase to any significant level when methoprene is applied as is anticipated under the Long-Term Plan. Field sampling of salt marshes around Suffolk County also found no differences in the presence or absence of keystone marsh species with the use or not of methoprene in the marshes.

Some have placed great reliance of reports from researchers in Minnesota that appear to show impacts from methoprene use in fresh water marshes. The Hershey group's studies, published in 1997 and 1998, looked at six years of data collected from 1989 to 1994. The research indicated that methoprene use was correlated with relative reductions in insect populations and diversity (primarily in the chironomids), compared to control sites (but note that all populations actually increased in numbers and diversity over the study period; the treatment site populations grew more slowly than the control site populations did). However, sampling of the same marshes in 1997 and 1998 found the effect was gone, although insecticide use was continued. These reports are interpreted by many, including Suffolk County, as indicating that methoprene was not the primary cause of the change in the marsh insect populations.
In summary, the Hershey results do not document potential adverse impacts of methoprene, particularly in terms of Suffolk County's vector control setting. Scientifically, the Minnesota results are equivocal. The results relied on by Hershey impacts were apparently anomalous, as variations in chironomid populations occurred only in later years of the study, with no apparent causal explanation. Confounding factors such as meteorological variations may have been the root of observed impacts on chironomids. Significantly, Hershey's results were not reproduced in subsequent studies and years (i.e., no impacts, despite continuing pesticide use). Finally, it is important to emphasize that, even though the Hershey study was rigorously evaluated, it is substantially irrelevant to the Suffolk County vector control program. Hershey's work was performed exclusively in fresh water systems, while Suffolk's use of methoprene is focused predominantly on salt marshes. As such, Hershey dealt with different use patterns and ecological settings than those present in Suffolk County.

Aerial applications of larvicides appear to have the potential to cause impacts to certain bird species. Aircraft, especially when flown low over a marsh, have been observed to startle resting and nesting birds, causing them to take flight. Research on the impacts of startling such birds at one or two week intervals, as can occur due to repeated applications of larvicide across a season, is sparse, and so the impacts to any such species is based on speculation.

This potential impact is mitigated in two ways through the Long-Term Plan. One is by identifying important populations, and then altering application techniques to avoid any startling. This is already the practice of SCVC when piping plover nesting sites may be in potential flight paths. SCVC has requested that local experts work more closely with it to identify any significant populations or environments that may be impacted by its operations; although the focus of this effort is on fresh water settings, the same experts may be useful in identifying at risk populations in salt marshes, and the times when they are most sensitive to disturbance. Secondly, it is hoped that full implementation of progressive water management across the salt marshes will lead to a reduction in aerial larviciding. This has been the experience in neighboring jurisdictions where these procedures are used regularly.

Generally, the potential for impacts from the use of larvicides will be mitigated by the proposed large-scale reduction in applications, as the need for such applications is reduced.
Another overall mitigation is the benefit to human health resulting from disease risk reductions when potential vector populations are reduced.

As mentioned above, potential impacts associated with larval controls in fresh water settings are going to be further mitigated by encouraging information exchange between experts with knowledge of at risk organisms or settings, and SCVC. As each party understands habitat needs of the organisms, and proposed treatments by SCVC, it is anticipated that alterations can be made in the means SCVC uses to control mosquitoes to minimize the potential for impacts. These alterations could be shifts in the time of day that applications are made, to avoidance of treatments for certain settings at certain times, to more studied selection of treatments and times or applications to optimize mosquito control while minimizing the opportunities for impacts to occur. SCVC has, for example, worked closely with NYSDEC to avoid treating any tiger salamander habitats at times when impacts might affect breeding, or development and emergence of young. This is true although there do not appear to be any reasons to believe larvicide applications directly affect amphibians.

The quantitative risk assessment, the scientific literature in general, and local field work all found no potential impacts from the use of the biorational larvicides selected by the County under its proposed application means. Nonetheless, the County will seek to minimize its use of pesticides in the program. This is for several reasons:

- Minimizing pesticide use complies with spirit of the County pesticide phase-out law
- Minimizing pesticide use complies with Integrated Pest Management, where other means of pest control are preferred to the use of pesticides
- Reliance on pesticides for mosquito control can lead to suboptimal control. Resistance might develop, weather or other factors may impede the delivery of the pesticide, or the application may fail to impact the targeted population as expected (for a number of reasons). Thus, the pesticide may not achieve the expected efficacy.
- The potential exists for impacts due to accidents or misapplications.
- All studies, experiments, and calculations involve some uncertainties; in the case of much of the work with mosquito control pesticides, there are certainly a number of
factors and conditions that have not been completely studied and understood. Therefore, there is still a potential for impacts from the use of these products.

Therefore, the County will continue to seek to reduce its use of these compounds wherever and whenever it is feasible to do so.

- Adult Control

In the course of modeling helicopter releases of adulticides, RTP Environmental discovered there was drift of the pesticides from the release point so that at least some of the material was deposited outside of the target zone. To mitigate this potential impact, the County purchased an Adapco Wingman system. This is a coupled weather station-modeling-aircraft guidance system, where real-time meteorological data are used to model potential draft patterns of released ultra-low volume pesticides, and flight patterns are instantaneously generated to optimize the delivery of the pesticides to the target zone. This modeling system was installed on the contract helicopter used by the County in late 2005.

The quantitative risk assessment found at the point in the model grid where pesticides concentrations were greatest in Davis Park, that some elevated risks for human health for a receptor called the "community gardener" are possible (the community gardener receptor was studied in all settings, although it is not feasible for someone on Fire Island to have a large, extensive vegetable garden). A community gardener is someone who eats all of their vegetables and fruit in summer from home-grown produce (15 percent of all annual produce ingestion) and works in the garden. Such an individual receives a higher dose of pesticides from residues ingested on the vegetable and from dermal contact with contaminated plants. The exposure modeled is a chronic, non-cancerous toxicity associated with malathion only. The risk can be mitigated by washing produce. It is also mitigated because malathion is not a preferred pesticide for the Long-Term Plan, and exposures associated with the pyrethroids (including resmethrin and sumithrin) do not exceed concentrations of concern. Public education efforts will help to mitigate risks associated with home-grown produce ingestion.

The quantitative risk assessment determined that there could be impacts to night-flying insects based on air dispersion model output concentrations compared to significant concentrations that could cause effects on bees (see Table 6 and Table 7).

(PBO effects included)

A number of key factors may act to mitigate and in some cases entirely remove the potential for risks to honeybees and other non-target insects:

- Actual risks would be most likely to occur when insect activity coincides with the application timing, with risks being largely mitigated for daytime insects if spraying were to occur at night.

- Additional habitat preferences, activity patterns, and behavior could result in lower risks for certain non-target insects than those predicted in this evaluation. For example, many insects are active on the ground and may be below vegetation, which may intercept applied adulticides. Many insects, such as crickets, beetles, ants, and millipedes, spend a portion of their life cycle underground. If this period does not temporally coincide with the spray season, the potential for exposure could be significantly mitigated. Some flying insects, such as certain moths and dragonflies, rest at nighttime underneath plants or other structures, and therefore would be less likely to be exposed during nighttime applications. Certain insects may actively avoid sprayed areas, and it has been shown that permethrin has a strong repellent effect on honeybees, for example.

- Verification of the air modeling data showed that under "normal" atmospheric conditions, there was typically a three to one difference between predicted PBO values and measured PBO values; with unusual atmospheric conditions, the agreement was less good (an average of 14:1). The model overpredicts the pesticide concentrations. Conservatively, it seems reasonable to assert a slight overprediction.
of three to five times on the basis of the air modeling, which suggests that under most atmospheric conditions resmethrin has little potential for impact to bees, using the study area mean concentrations as a basis for understanding impacts. The same would follow for sumithrin; similar conclusions follow for at least two of the permethrin results.

- Exposures and risks are predicted based upon instantaneous conditions, precluding the incorporation of degradation of adulticides. However, adulticides are generally not persistent in terrestrial environments. Because of the difficulty in measuring resmethrin concentrations in the field, it was conservatively assumed that the resmethrin to PBO ratio would remain constant. However, deposition samples collected on solid media and aqueous samples collected within 30 minutes of the pesticide applications all found that the resmethrin had significantly decreased in concentration relative to PBO. This strongly suggests that the degradation of resmethrin may reduce the predicted concentrations enough so that the concentration of concern for bees is not achieved under most conditions.

The combination of degradation of resmethrin and overprediction by the air modeling makes it conceivable that the predicted concentrations are at least an order of magnitude greater than may actually occur. This suggests there is not likely to be a potential impact for resmethrin to flying insects under the more conservative assumptions in Table 6 for any of the aerial application scenarios. Because sumithrin has been found to behave similarly to resmethrin in laboratory experiments, it may be that it, too, degrades very quickly relative to PBO. If that were the case, then aerial applications of sumithrin would likewise be of much less concern, even under the more conservative modeling scenario.

In very broad terms, the toxicity of an insecticide dose is proportional to the size of the affected insect. The pesticides used under the Long-Term Plan are intended to be toxic to mosquitoes. Therefore, insects of similar or smaller sizes are likely to be affected if they are also exposed to the pesticide. Table 8 lists the orders of flying insects found in the New York metropolitan area that are of similar or smaller size compared to mosquitoes.

There has only been one test of pyrethroid application impacts on flying insects; in that experiment, both the control and test sites experienced declines in populations, and both recovered within a week. Another test using a different class of adulticide also found recovery of the insect population within a week. This suggests that any effects on non-target organisms are likely to be short-lived; since the mechanism for recovery is likely to be immigration, one caveat, thus, is that the treatment area sizes should be minimized.

Acute and chronic impacts to aquatic invertebrates were predicted for malathion under many evaluated scenarios, and for permethrin in one case through the quantitative risk assessment. No elevations in risk that are likely to cause impacts were predicted for the use of resmethrin or sumithrin. A sophisticated aquatic ecosystem model developed by the US Environmental Protection Agency was used to test whether permethrin use might result in ecological impacts (permethrin, rather than malathion, was tested because pyrethroids were identified as the preferred adulticide, and so testing a pyrethroid for impacts was deemed to be of greater value in predicting any ecological impacts from implementing the Long-Term Plan). The model found short-term declines in populations for a variety of organisms following modeled exposure to permethrin. However, all but one population recovered within several months of the cessation of applications, and the slower recovery of the remaining population did not lead to any ecological changes in the modeled system.
Mitigation of these potential impacts includes:

- Measurement of effects may be based on overpredictions of deposited concentrations (see just above)

- Pyrethroids, as represented by resmethrin, appear to degrade very rapidly (testing of pesticides in association with the Caged Fish experiment was only able to detect resmethrin in the water column immediately following applications)

- Historically, applications have only been made to small portions of the County. In 2003, which had more adulticide use of any year since 1999, only six percent of the County received an adulticide application. This means that any potential impacts are extremely limited in terms of geographical extent.

More generally, the County will also seek to mitigate potential impacts to those areas that commonly receive one (or more) Vector Control adulticide application in a season. Targeted outreach will stress the importance of avoiding exposure to mosquitoes, and in taking mitigating steps if exposure cannot be avoided. The Commissioner of SCDHS will also craft an advisory detailing the means that SCDHS recommends (or suggests) to minimize risks for potential impacts from exposure to adulticides. Washing of home-grown vegetables in areas where adulticides may be used more often will be an important outreach topic.

The small area of the County impacted by adulticides in any one year is a general mitigation of impacts. In addition, the strict compliance of SCVC with defined, numerical application triggers may reduce the number of applications, and will mitigate any public perceptions that applications are made on the basis of ambiguous criteria. Finally, implementation of progressive water management steps should provide more effective larval control than has been achieved using larvicides and ditch maintenance, which may decrease the need for adulticide applications.

The use of adulticides also provides ancillary benefits. Adulticide applications reduce risks for mosquito-borne disease and also reduce impacts to quality of life. This is because efficacy data clearly shows adulticides are effective means of reducing mosquito populations, although these populations may recover within several weeks in conditions allow. The collection of efficacy data in association with adulticide applications will allow the County to
clearly justify this element of the program. If the efficacy data do not support claims of population reductions, then the County will need to reexamine its use of this control tool.

The County will mitigate the overall impacts of its use of pesticides through an annual review. Elements of this review will include documenting the use of pesticides in the previous year, analysis of any relevant scientific findings on the products in use, and considered evaluation of alternatives in light of any new information (research or product development) since the previous year’s report. The report will also discuss the application thresholds used to determine if Vector Control applications should be made, and determine if adjustments need to be made in light of human health and environmental considerations.

- Adaptive management

Suffolk County has made a public commitment to adaptively managing the Long-Term Plan. This is a clear mitigation of any impact associated with the Long-Term Plan. If the above analysis did not adequately identify a potential impact, or if some potential impact was overlooked in the environmental analysis, the ability to adjust the program to meet changed circumstances allows the Long-Term Plan to be modified. The list of issues to be addressed in the Triennial Plan, attached as an appendix to this Findings Statement, makes clear Suffolk County’s determination to carefully assess the effectiveness and potential impacts of the Long-Term Plan.

G. Requirements for Further Environmental Reviews

Potential further environmental reviews for actions taken under the Long-Term Plan relate to at least two types of actions:

- adoption of the Annual Plan of Work by the County Legislature
- reviews of water management projects and BMPS 5-15

The triggers for further environmental review which are specified herein constitute the minimum conditions under which additional environmental review would be initiated. At any time, the County and/or the Council on Environmental Quality could commence additional environmental review based on substantial new technical information.
The adoption of these Findings by the Legislature (as Lead Agency) means the Legislature is satisfied that the potential impacts of the Long-Term Plan have been adequately reviewed. From this perspective, if an Annual Plan of Work complies substantively with the Long-Term Plan, then potential impacts of that annual plan will have been adequately considered, as well, and the Annual Plan of work would be deemed a Type II Action pursuant to SEQRA.

The primary criterion for determining if an Annual Plan of Work is not substantively in accord with the Long-Term Plan should be the annual plan’s compliance with the overall approach of the Long-Term Plan, and, where specified, a failure to use particular actions, or a major deviation from an important specific set of actions. In general, annual plans need to focus on the use of surveillance to determine where mosquito problems exist, and to primarily employ source reduction tools to reduce the impact of mosquitoes on people. An important source reduction tool must be implementation (over time) of the techniques for water management developed in the Best Management Practices manual, as outlined in the Wetlands Management Plan. Any plan that proposes to manage mosquitoes without surveillance or to not use water management as a means of obtaining long-term control of mosquito problems will require additional environmental review.

Other criteria that would lead to additional environmental review of an annual plan would be:

- failure to include public education and outreach steps to educate residents and visitors on the means that are available to avoid mosquito bites and diseases associated with mosquitoes
- Inadequate mosquito population or disease surveillance
- failure to commit to respond to all mosquito complaints using personnel appropriately trained to identify and mitigate sources of mosquito problems
- failure to use the review processes outlined in the Wetlands Management Plan for water management projects
- proposed use of a non-native biocontrol organism not already resident in Suffolk County natural environments
- proposed use of a larvicide other than Bacillus thuringensis var israelensis (Bti), Bacillus sphaericus, or methoprene
proposed use of an adulticide other than resmethrin, sumithrin, permethrin, natural pyrethrins, or malathion

identification of a preferred adulticide agent other than resmethrin or sumithrin

Environmental reviews may consist of a negative declaration if no significant environmental impacts will result (6 NYCRR §617.10(d) (3)) or a supplemental environmental impact statement if one or more significant adverse environmental impacts was not adequately addressed (6 NYCRR §617.10(d) (4)). Use of an expanded EAF may be appropriate when a negative declaration is proposed.

The adoption of these Findings by the Legislature (as Lead Agency) means the Legislature is satisfied that the potential impacts of the Long-Term Plan have been adequately reviewed. From this perspective, the classification of allowable water management actions (as described in the Best Management Practices manual) as “no to little” potential impacts, “minor” potential impacts, “usually more likely to have potentially significant” impacts, and “usually more likely to have major” potential impacts will have been accepted, and the descriptions of the potential for impacts (and the mitigation steps to avoid impacts) will have been deemed to be adequate.

Nonetheless, on a project by project basis, the following criteria need to be considered to determine if additional environmental reviews are warranted:

- the techniques to be employed have been classified as having the potential for potentially significant or major environmental impacts (BMPs 5-15)
- consultation with local authorities or review by the Wetlands Stewardship Committee finds there is a potential for environmental impacts under the proposed course of action
- review by the CEQ finds there is a potential for environmental impacts under the proposed course of action

Environmental reviews may consist of a negative declaration if no significant adverse environmental impacts will result (6 NYCRR §617.10(d) (3)) or a supplemental environmental impact statement if one or more significant environmental adverse impacts was not adequately addressed (6 NYCRR §617.10(d) (4)). In light of the extensive reviews of the techniques to be employed for water management in the GEIS and associated documents, use of an expanded
EAF to cite relevant sections of the GEIS or to report on local data collection efforts that justify the project may be appropriate if a negative declaration is proposed.

The triggers for further environmental review which are specified above constitute the minimum conditions under which additional environmental review would be initiated. At any time, the County could commence additional environmental review based on substantial new technical information.
Appendix 1 to the Statement of Findings: Contents of the Triennial Report

The following outline is intended to provide a preliminary overview of issues which will be analyzed to form the basis of the Triennial Report. The outline includes indicators (where available) which will be used to measure success. The content and format of the Triennial Report will be contingent on Steering Committee and Wetlands Stewardship Committee input which will be sought at the early stages of report preparation.

1) Executive Summary
The Executive Summary will provide an overview of the following issues, which will be addressed in detail in subsequent report sections.
- Public health (viral surveillance, human disease)
- Vector control (pesticide usage, water management, surveillance, etc.)
- Education/oureach
- Wetlands Stewardship Program – Accomplishments and Plans
- Potential Plan Updates and Amendments

2) Public Health
- Viral surveillance results
- Human health (cases and deaths from mosquito-borne diseases)

3) Vector Control Long-Term Plan Implementation
The report will integrate results from the Department of Public Works, Division of Vector Control and Department of Health Services, Division of Public Health.

A. Public Education and Outreach

Current Program:
- Recommend avoidance of the outdoors at dawn and dusk.
- Consider use of personal repellants (DEET, Bite Blocker, Picaridin, Oil of Lemon Eucalyptus).
- Maintain home environments that do not foster mosquito breeding.
- Distribute Publications such as “Fight the Bite” and “Dump the Water.”
- Maintain County Web Site
  - Post spray events
  - Link to no spray list

Long-Term Plan Recommendations:
- Establish tire management education program to eliminate mosquito breeding habitat. Encourage other county departments and municipalities responsible for routine sanitation or maintenance activities to properly dispose of tires.
- Conduct farmer irrigation outreach-targeted education through Cornell Cooperative Extension.
- Encourage private storm water system maintenance.
- Conduct tailored outreach to municipal highway departments regarding storm water structures as mosquito habitat.
• Emphasize personal responsibility for reducing impacts from mosquitoes (avoiding mosquitoes whenever possible, wearing long-sleeves and pants, and using repellents).
• Improved efficacy reporting. Results made available to the public via the web and annual reports.
• Post efficacy reports on the SCVC website. Reports will summarize the results of mosquito control efforts measured before, during and after aerial spray event.
• Maintain the Citizens Advisory Committee.
• Create a listserv for adulticide application notifications.
• Integrate new web site into existing county site.
• Revise public notice/guidance.
• Participation in “Mosquito Awareness Week.”
• Targeting specific communities (recommended in DGEIS comment period).
• Focusing on educating school-aged children (recommended in DGEIS comment period).

Indicators of Success

• Degree to which current program and Long-Term Plan recommendations are implemented. Implementation will be quantified, where possible. E.g.:
  o Partnerships established with towns for tire management plans.
  o Public education workshops which have been conducted.
  o Brochures and fact sheets disseminated to public.
  o Number of efficacy reports posted.
  o Programs targeted at specific communities and school-aged children.

B. Scientific Surveillance

Current Program:

• Presence or absence of larvae
• Collect and process 10,000-12,000 larval and adult mosquito samples
• Collect and process approximately 75,000 mosquitoes for arbovirus surveillance
• Integration of Geographic Information System (GIS) and Global Positioning System (GPS) technology for surveillance information
• 27 permanent NJ traps; 80 CDC trap-nights per week.

Long-Term Plan Recommendations:

• Increase surveillance capabilities.
• Increase staff for surveillance for both SCVC and the ABDL.
• Increase permanent NJ trap network to 30.
• Increase CDC trapping to 105 trap-nights per week.
• Conduct quantitative mosquito assessment prior to EVERY adulticide event.
• Conduct post-spray efficacy monitoring.
Indicators of Success
- Degree to which current program and Long-Term Plan recommendations are implemented. E.g.:
  - Number of staff-days dedicated to surveillance.
  - Number of mosquito samples processed.
  - Number of CDC light traps deployed and NJ traps maintained.
  - Number of pre-adulticide mosquito counts.
  - Annual reports on surveillance analysis, including post-spray efficacy.

C. Source Reduction/Control

  Current Program:
  - Public education program (above).
  - Response to citizen complaints.
  - Catch basin and recharge basin control efforts.

  Long-Term Plan Recommendations:
  - Expand surveillance of catch basins from 10,000 to 40,000 inspections.
  - Augment education component (County tire collection effort, private storm water management system outreach effort, increase interaction between SCVC and highway departments)

  Indicators of Success
  - Catch basins inspected.
  - Records on response to complaints.
  - Improve waste management and county departments tire management

D. Biocontrols

  Current Program:
  Mosquito fish, (Gambusia spp.)

  Long-Term Plan Recommendations:
  - Fathead minnows; other disease free fish native to the area.
  - Predacious Copepods

Indicators of Success
- Research alternatives and explore other states initiatives
- Same or increased level of biodiversity after introduction of biocontrol
- Reduced mosquito larvae counts in sampling

E. Larval control

  Current Program:
  - Biorational larvicides, Bacillus thuringiensis var. israelensis (Bti), Bacillus sphaericus (Bs), and methoprene
  - Surveillance of the nearly 2,000 breeding points in the County
- 15,000 inspections of breeding sites and other surveillance findings (includes catch basins and sumps)
- Approximately 4,000 acres of the County’s salt marshes aerial larvicided

**Long-Term Plan Recommendations:**
- Increased surveillance
- Surveillance of the 2,000 breeding points in the County
- 15,000 inspections of breeding sites and other surveillance findings
- Identify problem breeding sites
- Expanded catch basin and recharge basin larviciding
- Implementation of ecological controls
- Implementation of formal resistance testing and management
- Water management - 75% percent reduction goal in acreage treated

**Indicators of Success**
- Number of inspections/surveillance events.
- Area larvicided (frequency and extent).
- Record and analyze dip counts in relation to reduction in treatments (results).
- Annual larvicide efficacy reports (results).
- Reduced adulticide events expected after successful larvicide control in known problem areas.

**F. Adult control (only if necessary)**

**Current Program:**
- Resmethrin, sumithrin, malathion, permethrin and natural pyrethrin
- Adulticide-directed surveillance, decision-making procedures, and efficacy and resistance testing

**Long-Term Plan Recommendations:**
- Criteria for spraying
  - Evidence of mosquitoes biting humans – service requests mapped
  - Verification of problem-New Jersey trap counts > 25 females /night
  - CDC light trap counts > 100; Landing rates of one to five per minute
  - Control is technically feasible Weather conditions suitable (no rain, winds<10 mph, temperature 65 ° or above)
- Improved spray technology (“Adapco Wingman”) to minimize pesticide application and optimize mosquito control.
- Augment the New Jersey light trap network from 27 to 30. Expand as resources allow (see surveillance).
- Increase the number of CDC light traps from 27 to 35. Expand as resources allow (see surveillance).
- Increase CDC trap-nights to 105 per week.
- Reduce adulticide usage (currently less than 2% of County in non-emergency situations).
Indicators of Success
- Reduction in adulticide usage.
- Efficacy tests post treatment indicate 90 – 99% population reduction.
- Efficacy tests posted annually on county web page and in annual reports.
- Aerial application efficacy released within a week or so of the application.
- Post Health Emergency reductions in the parity and infection rates for the target mosquito species (if staff and lab resources available).

G. Water Management:

Current Program
- Hand maintenance/machine maintenance limited to < 200,000 linear ft/yr
- Machine work limited to repair and replacement of existing structures
- No new machine ditching
- Machine maintenance limited to 50,000 ft/year (no more than 50 affected acres), and only when essential for public health or ecological reasons.
- Natural Process (No action/ reversion)
- Culvert repair/ maintenance when tidally restricted
- Stop gap ditch plug

Long-Term Plan Recommendations
- Develop a strategy for managing Suffolk County’s 17,000 acres of tidal wetlands, irrespective of Vector Control concern (goal: 12-year implementation window).
- Reversion priorities, allowing natural processes to fill ditches (approx. 4,000 acres; no vector control).
- Candidates for possible restoration/water management (currently routinely larvicided; approx. 4,000 acres). Marsh health is paramount objective.
- Areas requiring more assessment (approx. 9,000 acres); low-impact best management practices are possible.
- The pre-existing policy of "no new ditching" will be continued.
- Less than four percent of the County’s tidal wetlands (~600 acres) subject to machine ditch maintenance over the next decade.

Indicators of Success
Implementation of Plan recommendations (above).

4) Wetlands Stewardship Program – Accomplishments and Plans

Long-Term Plan Recommendations
- Develop a comprehensive assessment and management plan for the 17,000 acres of tidal wetlands within three years
- Ensure the protection and preservation of functions, values, and health
- Use Vector Control Wetlands Management Plan as foundation (Goodbred Report; primary study area results)
- Inventory/assess wetlands County-wide
• Review and evaluate major wetland restoration projects
• Implement early action demonstration projects
• Develop Long-term strategies

**Indicators of Success**
• Existence/adoption of strategy
• Acres/subsystems assessed
• Acres/subsystems restored
• Integrated plans implemented

5) **Recommended Plan Updates and Amendments**

Plan updates and amendments will be made, as needed. Updates may be recommended by involved agencies, the Citizens Advisory Committee, Technical Advisory Committee, and/or Wetlands Stewardship Committee. Updates require review/approval of the Steering Committee.
Appendix 2 to the Statement of Findings: Structure of the Wetlands Stewardship Committee

SUFFOLK COUNTY VECTOR CONTROL AND WETLANDS MANAGEMENT LONG-TERM PLAN
Wetlands Stewardship Committee (WSC) – Overview

Membership (Tentative)

**Estuary programs**
- Long Island Sound Study representative
- Peconic Estuary Program representative
- South Shore Estuary Reserve Program representative

**State**
- New York State Department of Environmental Conservation Region I
- New York State Department of Environmental Conservation Bureau of Marine Resources
- New York State Department of State

**County**
- County Legislature – Presiding Officer
- County Executive
- Suffolk County Department of Environment & Energy – will serve as Chair of Committee

**Council on Environmental Quality**
- Suffolk County Department of Health Services

**Suffolk County Department of Public Works**
- Suffolk County Department of Planning
- Suffolk County Department of Parks

**Non-governmental Organizations (NGOs)**
- Two appointed by County Legislature
- Two appointed by County Executive

- Town (only when projects proposed in a Town)
- 1 Supervisor and 1 Trustee rep

Nature of Committee; Support from Work Group, Agencies, and Contractor

The Stewardship Committee is comprised of policymakers, high-ranking agency officials, and NGOs from agencies and organizations with responsibility for wetlands management. The Committee will meet on a quarterly basis, or as needed to vote on wetlands management projects. The Committee will be supported by professional staff at the Suffolk County Departments of Environment, Health, and Public Works. Suffolk County Capital Program 8730 (Wetlands Planning) is also expected to support the Committee and the Wetlands Stewardship Program ("WSP," see below), via a contracted workplan. A "Wetlands Management Work Group," consisting of technical experts from agencies, NGOs, and academia, will meet more frequently, and will report to the Stewardship Committee. The work group will conduct many of the functions formerly performed by the Long-Term Plan's "Wetlands Subcommittee" (i.e., will guide monitoring, assessment, and project design).

**Wetlands Stewardship Committee - Charges**
- Oversee and make recommendation all major aspects of the Wetlands Stewardship Program.
- Meet to review and make recommendations on all proposed wetlands projects which propose use of Best Management Practices 10 through 15 in Long-Term Plan.
- Review and make recommendations on proposed wetlands projects which propose use of Best Management Practices 5 through 9 in Long-Term Plan, at Committee's discretion.
- Provide review and recommendations on the water management component of the Triennial Long-Term Plan Update. This update shall incorporate results of the Wetlands Stewardship Program.

The WSP is a cooperative effort between the Wetlands Stewardship Committee and various Suffolk County Departments (Environment and Energy as the committee chair, Health Services as Stewardship Program project manager, Public Works as project sponsor, and Planning and Parks as key partners). The WSP is charged with developing indicators of wetlands health, assessing wetland health, establishing preservation and restoration priorities, and designing and implementing pilot projects. The WSP will also coordinate activities among estuary programs.

Within three years, the WSP will develop a Wetlands Stewardship Strategy (WSS) to address the assessment and management needs of all tidal wetlands in Suffolk County (approximately 17,000 acres), not just those wetlands of concern with respect to vector control. Marsh health will be the paramount objective. The scope of WSC activity will generally be limited to tidal wetlands. However, freshwaters and freshwater wetlands which are closely hydrologically connected, and integral to a tidal wetlands subsystem, may be considered on a case-by-case basis. Federal, state, town and village jurisdictions are encouraged to participate in the Stewardship Committee (e.g., in terms of project review), but are not required to do so.

*Working outline, subject to establishment of final membership, by-laws and procedures by Suffolk County Dept. of Environment & Energy*
Appendix 3 to the Statement of Findings: Adopting Resolution 1150-2007

Introduced by Deputy Presiding Officer Viloria-Fisher

RESOLUTION NO. 285 -2007, ADOPTING THE SUFFOLK COUNTY VECTOR CONTROL AND WETLANDS MANAGEMENT LONG-TERM PLAN AND A STATE ENVIRONMENTAL QUALITY REVIEW ACT FINDINGS STATEMENT FOR THE FINAL GENERIC ENVIRONMENTAL IMPACT STATEMENT

WHEREAS, it is the policy of Suffolk County to reduce or eliminate pesticide usage, to the extent practicable; and

WHEREAS, Suffolk County is committed to preserving and restoring its tidal wetlands, which have been dramatically altered by an extensive vector control grid ditch network which was substantially created in the 1930s; and

WHEREAS, the West Nile Virus threat highlighted the need to further optimize an already effective Vector Control Program, which is essential to protect public health, and also has important ancillary quality of life benefits; and

WHEREAS, in acknowledgement of the need to develop a comprehensive long-term vector control plan to protect public health and welfare, while reducing pesticide usage and enhancing wetlands which may be affected by Vector Control, in Resolution No. 688-2002, this Legislature authorized the development of a Suffolk County Vector Control and Wetlands Management Long-Term Plan (hereinafter "Long-Term Plan," dated October 2006, annexed hereto, incorporated by reference and made a part hereof), designated itself as lead agency under the State Environmental Quality Review Act (hereinafter “SEQRA”, N.Y. Environmental Conservation Law Article 8) and its implementing regulations (subject to appropriate coordination), classified the action as Type I, and adopted a Positive Declaration for the Long-Term Plan, causing a Generic Environmental Impact Statement (hereinafter “GEIS”) to be prepared; and

WHEREAS, this Legislature adopted the Final Scope for the Generic Environmental Impact Statement, pursuant to Resolution No. 1122-2003; and

WHEREAS, the Long-Term Plan and GEIS were prepared in a public and open process with extensive input and guidance from Citizens and Technical Advisory Committees, as well as the Council on Environmental Quality (hereinafter the “CEQ”), interested citizens of the County, and Local, State, and Federal agencies; and

WHEREAS, comments from agencies, advisory committees, the public, and the CEQ resulted in multiple voluntary iterations of the Long-Term Plan (including publications in September 2005, May 2006, and October 2006), and, as a result, the Plan has been substantially improved; and

WHEREAS, the Departments of Health Services, Public Works, and Energy and the Environment caused the preparation of a Draft GEIS in accord with the procedures and rules of SEQRA as defined in 6 NYCRR Part 617; and

69
WHEREAS, pursuant to Chapter 279 of the Suffolk County Charter, the Council on Environmental Quality evaluated the Draft GEIS and found it to be complete according to the standards set forth under SEQRA; and

WHEREAS, the Council on Environmental Quality then solicited public comments on the Draft GEIS, including holding two public hearings; and

WHEREAS, this Legislature, on the advice of the Council of Environmental Quality, found that comments received on the Draft GEIS were substantive in nature, requiring the preparation of Final GEIS, as per Resolution No. 1103-2006; and

WHEREAS, the Suffolk County Departments of Health Services, Public Works, and Energy and the Environment therefore caused the preparation of a Final Generic Environmental Impact Statement in accordance with the procedures and rules of SEQRA as defined in 6NYCRR Part 617; and

WHEREAS, the Final GEIS was filed with the Council on Environmental Quality and made available to the general public; and

WHEREAS, the Council on Environmental Quality forwarded the Long-Term Plan, the Final GEIS, and the Final GEIS Addendum, together with its comments and recommendations and those received from the public with this Legislature, for consideration at the January 29, 2007 meeting of the Environment, Planning and Agriculture Committee of the Suffolk County Legislature, as part of CEQ Resolution No. 08-07; and

WHEREAS, the Suffolk County Departments of Health Services, Public Works, and Energy and the Environment caused the preparation of a draft Findings Statement; now, therefore be it

1st RESOLVED, that the Legislature adopts the Long-Term Plan as an appropriate, comprehensive, long-term lands management and vector control plan to protect public health and welfare, while reducing pesticide usage and protecting wetlands; and be it further

2nd RESOLVED, that, pursuant to 6 NYCRR Part 617 and Chapter 279 of the Suffolk County Charter, the Legislature hereby adopts the Statement of Findings annexed hereto, incorporated by reference and made a part hereof, certifies that the requirements of SEQRA have been met, and certifies that, consistent with social, economic and other essential considerations, the proposed Long-Term Plan has been developed from among the reasonable alternatives available, as the choice that avoids or minimizes potential adverse, environmental impacts, to the maximum extent practicable; and be it further

3rd RESOLVED, that the Legislature certifies that adverse environmental impacts will be avoided or minimized to the maximum extent practicable by incorporation, as conditions within the Statement of Findings, where those mitigative measures that have been identified as practicable; and be it further

4th RESOLVED, that the Legislature finds that there is a need for a strategy to address the management needs of the County’s 17,000 acres of tidal wetlands, not just the 4,000 acres of tidal wetlands of greatest concern to Vector Control; and be it further

5th RESOLVED, that the Legislature supports the Wetlands Stewardship Committee concept described in the Findings Statement, as a means of coordinating and overseeing future marsh management projects, as well as overseeing development of a strategy to address the management needs of the County’s 17,000 acres of tidal wetlands, consistent with applicable laws; and be it further
6th RESOLVED, that the Commissioner of the Suffolk County Department of Environment and Energy, or her designee, is hereby authorized and directed to serve as Chair of the Wetlands Stewardship Committee, and to oversee development and implementation of appropriate procedures and by-laws of that Committee, including membership and voting, which procedures and by-laws shall be consistent with applicable laws; and be it further

7th RESOLVED, that the Suffolk County Department of Environment and Energy will prepare a report on Wetlands Stewardship Committee activities to this Suffolk County Legislature within three years, with said report containing a strategy to address the management needs of the County’s 17,000 acres of tidal wetlands.

---

Page 2 of 2

To be completed by the Executive Budget Office
Title of Bill: Approving the Vector Control Plan of the Department of Public Works Division of Vector Control Pursuant to Section C8-4(B)(2) of the Suffolk County Charter

Purpose of the Bill: Section C8-4(B)(2) of the Suffolk County Charter requires the annual filing of a Vector Control Plan with the Legislature outlining the work to be done, methods to be employed and general description of lands to be entered to carry out these responsibilities.

Summary of specific provisions: Department of Public Works, Division of Vector Control is responsible for the suppression of mosquitoes, ticks and other arthropods which are vectors of human disease and require public action for control. The County Charter requires that the Division's Annual Plan of Work be approved by the Legislature in order for the Division to carry out its duties.

Justification: Vector Control performs an essential public service by controlling vectors that transmit diseases and impact the well-being and quality of life of County residents and visitors. This bill provides the necessary legal groundwork to allow the Division to operate.

Fiscal Implications: None
MEMORANDUM

TO: Jon Schneider, Deputy County Executive

FROM: Gilbert Anderson, P.E.
Commissioner of Public Works

DATE: October 22, 2015

RE: Resolution to Adopt the Vector Control Annual Plan of Work – Year 2016

By memorandum dated September 28, 2015 our Year 2016 Vector Control Annual Plan of Work was filed with the Clerk of the Suffolk County Legislature pursuant to Article VIII, Section C8-4,B (2) of the Suffolk County Administrative Code and distributed to the members of the Suffolk County Legislature for appropriate review.

I have attached a draft resolution and hereby request that you initiate the process to have a resolution introduced to the Legislature to adopt the 2016 Work Plan. The Council on Environmental Quality (CEQ) met on October 21, 2015 and approved a resolution determining that the proposed 2016 Vector Control Plan of Work will be carried out in conformance with the conditions and thresholds established for such actions as set forth in the Suffolk County Vector Control & Wetlands Management Long Term Plan Final Generic Environmental Impact Statement (FGEIS) and associated Finding Statement as approved by Suffolk County in 2007. Therefore, no further SEQR compliance is required pursuant to 6 NYCRR, Part 617.10(d)(1).

If you have any questions, please do not hesitate to contact me.

Enclosures
RESOLUTION NO. -2015, EXTENDING AUTHORIZATION FOR THE TOWN OF SOUTHAMPTON STORMWATER ABATEMENT PROJECT IN THE REEVES BAY WATERSHED AND AUTHORIZING WATER QUALITY REVIEW COMMITTEE APPROVED CHANGES (CP 8240.325)

WHEREAS, Resolution 1200-2010 was adopted on December 28, 2010: and

WHEREAS, Resolution 1200-2010 transferred $495,000 from Fund 477 into Capital Project 8240.325 for the Town of Southampton to accomplish stormwater improvements in the Reeves Bay watershed; and

WHEREAS, the Suffolk County Water Quality Protection and Restoration Program Review Committee, pursuant to Article XII of the SUFFOLK COUNTY CHARTER, had previously recommended funding this program as an appropriate use of Suffolk County Water Quality Protection and Restoration Program and Land Stewardship Initiative funds during a meeting held on April 24, 2008; and

WHEREAS, this project was never initiated by the Town of Southampton; and

WHEREAS, the Town of Southampton came to the WQPRP Review Committee (Committee) at the meeting held on February 27, 2015 requesting that the Committee approve proposed changes to the project; and

WHEREAS, the Committee approved said changes at the meeting held on February 27, 2015; and

WHEREAS, the Town of Southampton has committed by resolution 2008-1335, to enter into an inter-municipal agreement with the County of Suffolk for this project and to commit to a match of the lesser of $500,000 or one half the total cost of the project; and

WHEREAS, the project be initiated within one (1) year of the date of adoption of this resolution; and

WHEREAS, this will be the final time extension regarding the County funding for this project, and

WHEREAS, pursuant to C4-19 (C) of the SUFFOLK COUNTY CHARTER, the subject capital project will automatically expire at the end of 2015 unless extended by legislative resolution; now, therefore be it

1st RESOLVED, that this Legislature, being the lead agency under the State Environmental Quality Review Act ("SEQRA"), Environmental Conservation Law Article 8, hereby finds and determines that this resolution constitutes a Type II action, pursuant to Section 617.5 (C) (20) and (21) of Title 6 of the NYCRR and within the meaning of Section 8-019 (2) of the New York Environmental Conservation Law as a promulgation of regulations, rules, policies, procedures, and Legislative decisions in connection with continuing agency administration, management and information collection, and the Suffolk County Council on Environmental
Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this resolution; and be it further

2nd RESOLVED, that the duration of the project established in Resolution No. 1200-2010, Capital Project No. 8240.325, is hereby extended to December 31, 2016; that the funding currently residing in CP 8240.325 be retained for the purpose of Reeves Bay stormwater improvements; and be it further

3rd RESOLVED, that the County Executive is hereby authorized to execute an intermunicipal agreement with the Town of Southampton under Section 119-0 of the NEW YORK GENERAL MUNICIPAL LAW which shall include, but not be limited to, a provision authorizing the Town of Southampton to conduct stormwater abatement improvements to the Reeves Bay watershed within the town boundaries.

3) SOURCE FOR EQUALIZATION RATES: 2014 COUNTY EQUALIZATION RATES ESTABLISHED BY THE NEW YORK STATE BOARD OF EQUALIZATION AND ASSESSMENTS.
2015 INTERGOVERNMENTAL RELATIONS
MEMORANDUM OF SUPPORT

Title of Resolution: RETAINING FUNDING APPROPRIATED INTO CP 8240.325 FOR THE TOWN OF SOUTHAMPTON STORMWATER ABATEMENT PROJECT IN THE REEVES BAY WATERSHED (CP 8240.325)

PURPOSE OR GENERAL IDEA OF BILL:

The funding appropriated from Fund 477 for the Town of Southampton Reeves Bay stormwater project into CP 8240.325 will be refreshed/retained in this CP account to allow the Town of Southampton to move forward on the Reeves Bay stormwater project.

The original project has been modified and this modification was approved by the WQPRP Review Committee at their February 27, 2015 meeting.

SUMMARY OF SPECIFIC PROVISIONS:

The resolution will retain the Fund 477 funds in CP 8240.325. No new funding is being transferred out of Fund 477 for this project.

JUSTIFICATION:

The funding currently residing in CP 8240.325 for this Town of Southampton project will sunset on 12/31/15 if this resolution is not adopted to retain/refresh this funding. The transfer of the $495,000 in funding was originally transferred out of Fund 477 into CP 8740.315 by Resolution 1200-2010.

FISCAL IMPLICATIONS

None. The grant funds were originally appropriated into CP 8240.325 and will be retained there in the amount of $495,000. No new funding is being transferred into the Capital Projects Budget.
October 23, 2015

Mr. Jon Schneider
Deputy County Executive
H. Lee Dennison Bldg. 12th Floor
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

Enclosed for your consideration and submission is the proposed resolution pursuant to:

RETAINING FUNDING APPROPRIATED INTO CP 8240.325 FOR THE TOWN OF SOUTHAMPTON STORMWATER ABATEMENT PROJECT IN THE REEVES BAY WATERSHED (CP 8240.325)

The funding appropriated from Fund 477 for the Town of Southampton Reeves Bay stormwater project into CP 8240.325 needs to be refreshed/retained in this CP account to allow the Town of Southampton to move forward on the Reeves Bay stormwater project.

The original project has been modified and this modification was approved by the WQPRP Review Committee at their February 27, 2015 meeting.

After your examination please place this on the Legislative Agenda. If you have any questions or concerns please contact me.

Sincerely,

Joanne Minieri
Deputy County Executive and Commissioner
Department of Economic Development and Planning

RESOLUTION NO. -2015, SALE OF COUNTY-OWNED
REAL ESTATE PURSUANT TO LOCAL LAW No. 13-1976
U.S. BANK NATIONAL ASSOCIATION, AS TRUSTEE FOR THE
STRUCTURED ASSET INVESTMENT LOAN TRUST
MORTGAGE PASS-THROUGH CERTIFICATES, SERIES 2006-3
(SCTM NO. 0200-033.00-02.00-016.000)

WHEREAS, the COUNTY OF SUFFOLK had acquired an interest in the following described
parcel that is surplus to the needs of the County of Suffolk:

ALL, that certain plot, piece or parcel of land, with any buildings and improvements thereon
erected, situate, lying and being in the Town of Brookhaven, County of Suffolk, and State of New
York, described on the Tax Map of the Suffolk County Real Property Tax Service Agency as District
0200 Section 033.00 Block 02.00 Lot 016.00 and acquired by Tax Deed on October 11, 2011 from
Angie M. Carpenter, the County Treasurer of Suffolk County, New York, and recorded on October
19, 2011 in Liber 12674 at CP 323 and described as follows, known and designated as part of Lots
3729 and 3730 on a certain map entitled "Second Map of North Shore Beach, Section A", and filed
in the Office of the Clerk of the County of Suffolk on June 11, 1928 as Map No. 1015; and

WHEREAS, in accordance with Local Law No. 13-1976 of the County of Suffolk, provision
has been made for the sale of real property acquired by the County through tax sale to an adjoining
property owner; and

WHEREAS, U.S. Bank National Association, as Trustee for the Structured Asset Investment
Loan Trust Mortgage Pass-Through Certificates, Series 2006-3, has made an offer to Suffolk
County, for the purchase of said above described parcel for the sum of $8,000.00. At closing the
purchaser will be responsible for the pro rata share of the current taxes which amount will be due
upon receipt of the deed; and

WHEREAS, the real property above described being in size approximately 19' x 20' x 129' x
70' x 104' has been appraised at $8,000.00, which property is surplus to the needs of the County of
Suffolk; and

WHEREAS, the Assistant Director of Real Estate, and/or his designee, has received and
deposited the sum of $8,000.00, pursuant to said purchase offer; and

WHEREAS, the Suffolk County Department of Economic Development and Planning has
reviewed this parcel and recommends that said parcel be sold to adjacent owners with certain
restrictive covenants so as to prevent further development of the land, now, be it therefore,

1st RESOLVED, this Legislature, being the State Environmental Quality Review Act (SEQRA)
Lead Agency, hereby finds and determines that adoption of this law is not an action within the
meaning of the State Environmental Quality Review Act and the regulations adopted thereto. See 6
N.Y.C.R.R. Section 617.2(b) (2). The Legislature further finds and determines that even if the
adoption of the local law is an action within the meaning of SEQRA, the adoption of the law is a
Type II action constituting a legislative decision in connection with routine or continuing agency
administration and management, not including new programs or major restructuring of priority. See 6
N.Y.C.R.R. Section 617.13(d) (15) and (21). As a Type II action, the Legislature has no further
responsibilities under SEQRA 6 N.Y.C.R.R. Section 617.5 (a) (1); and be it further,
2<sup>nd</sup> RESOLVED, that the deed shall include the following language: AND the premises described herein shall not be independently improved by the erection of any habitable structure, and can be merged with grantee's adjoining parcel if applicable so as to form one single lot. There can be no further subdivision of the merged parcel unless it is consistent with local town and/or village zoning codes and standards of the Suffolk County Department of Health Services, applicable at the time application is made. This restrictive covenant shall be enforceable by the County of Suffolk by injunctive relief or by any other remedy, in equity, or at law. The failure of the County of Suffolk or any agency thereof to enforce this covenant, shall not be deemed to impose any liability whatsoever upon the County of Suffolk or any officer, employee or agent thereof. THIS covenant and restriction shall run with the land and shall be binding upon the grantee, its successor and assigns, and upon all persons claiming under them; and be it further,

3<sup>rd</sup> RESOLVED, that the Assistant Director of Real Estate, and/or his designee, be and he hereby is authorized to execute and acknowledge a, Quitclaim Deed to transfer the interest of SUFFOLK COUNTY in the above described property and on the above described terms to said U.S. Bank National Association, as Trustee for the Structured Asset Investment Loan Trust Mortgage Pass-Through Certificates, Series 2006-3, c/o Louisa Spoede, MAC #F2302-03B, 1 Home Campus, Des Moines, IA 50328.

Re: Tax Map Number: 0200-033.00-02.00-016.000

Dear Mr. Schneider:

Enclosed herewith is the original copy of the proposed resolution with documentation pursuant to:

Local Law No. 13-1976 - Authorizing the Direct Sale of County Owned Real Estate

I would appreciate your placing this on the legislative agenda.

Very truly yours,

Wayne A. Thompson
Real Property Manager
Division of Real Property Acquisition and Management

Copy of Resolution to:
CE Reso Review, (electronic copy)
RESOLUTION NO. --2015, AUTHORIZING THE SALES OF
SURPLUS PROPERTY SOLD AT THE OCTOBER 20 AND 21, 2015
AUCTION PURSUANT TO LOCAL LAW 13-1976 AS PER
EXHIBIT "A" (OMNIBUS RESOLUTION)

WHEREAS, in accordance with Suffolk County Local Law 13-1976, provision is made
for disposition by Auction of certain County owned real property which is surplus to the needs of said
County; and

WHEREAS, pursuant to Section 9 of said Local Law the Department of Economic
Development and Planning, Division of Real Property Acquisition and Management, on
October 20 and 21, 2015, offered at auction certain parcels at the minimum upset price set opposite
their tax map designation and accepted the highest bid for such parcel set next to said respective upset
prices as shown on listing annexed hereto and made a part hereof as Exhibit "A".

WHEREAS, pursuant to Section 11 of said Local Law 13-1976, the Department of
Economic Development and Planning, Division of Real Property Acquisition and Management, is
authorized to deliver, by a Bargain and Sale Deed Without Covenants, or such deed as further
restricted by the parcel listings in the auction booklet, any deeds which are the subject matter of said
Local Law, subject to Legislative approval; and

WHEREAS, Section A40-4 of the Suffolk County Administrative Code provides that the
County Commissioner of Economic Development and Planning shall deliver to the County Legislature,
in resolution for approval, a list of properties proposed to be sold, together with the bid price; and

WHEREAS, the Department of Economic Development and Planning, Division of Real
Property Acquisition and Management, requests authority to execute a Bargain and Sale Deed, without
Covenants, or such deed as further restricted by the parcel listing in the auction booklet, on the said
designated parcels to the successful bidder thereon; now, therefore, be it

1st RESOLVED, that the said described parcels are surplus to the needs of Suffolk County; and be
it further

2nd RESOLVED, this Legislature, being the State Environmental Quality Review Act (SEQRA) Lead
Agency, hereby finds and determines that adoption of this law is not an action within the meaning of the
State Environmental Quality Review Act and the regulations adopted thereto. See 6 N.Y.C.R.R. Section
617.2(b) (2). The Legislature further finds and determines that even if the adoption of the local law is an
action within the meaning of SEQRA, the adoption of the law is a Type II action constituting a legislative
decision in connection with routine or continuing agency administration and management, not
including new programs or major reordering of priority. See 6 N.Y.C.R.R. Section 617.13(d) (15) and
(21). As a Type II action, the Legislature has no further responsibilities under SEQRA 6 N.Y.C.R.R.
Section 617.5(a)(1); and be it further
RESOLVED, that the Director of Real Estate, and/or his or her designee, be and hereby is authorized to execute and deliver a Bargain and Sale Deed Without Covenants, or such deed as further restricted by the parcel listing in the auction booklet, to each of the listed successful bidders for the tax map parcel, for the bid price set opposite their names, plus or minus usual closing adjustments, and to take such other actions as may be necessary or desirable to carry out the purpose and intent of the foregoing resolutions.

Re: Resolution Authorizing the Sales of Surplus Property Sold at the October 20 and 21, 2015 Auction, Local Law 13-1976 Resolution Authorizing Sale of Auctioned Properties as per Exhibit "A" (Omnibus Resolution)

Dear Mr. Schneider:

We are pleased to enclose for your approval an original of the above proposed resolution with documentation pursuant to Local Law 13-1976 which authorizes the sale of County owned real estate.

You will note anticipated revenues of $8,252,750.00 as a result of 100 parcels being sold at the auction.

We request that the enclosed resolution be laid on the table at the November 17, 2015 meeting of the Legislature for consideration and vote at the December 1, 2015 meeting.

Very truly yours,

Jason Smagin  
Assistant Director of Real Estate  
Division of Real Property Acquisition and Management, Department of Economic Development and Planning

JS:WRT:sc  
cc: CE RESO REVIEW (e-copy)
RESOLUTION NO. - 2015, ACCEPTING AND APPROPRIATING 100% FEDERAL GRANT FUNDS FROM THE US ENVIRONMENTAL PROTECTION AGENCY PASSED THROUGH THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR THE BEACH ACT PROGRAM

WHEREAS, 100% Federal grant funds passed through the New York State Department of Health have been awarded to the Department of Health Services, Division of Environmental Quality for the Beach Act Program in the amount of $104,705 for the period 10/01/15-09/30/16; and

WHEREAS, this program will monitor recreational waters for the purpose of protecting bathers from potential exposure to pathogenic organisms through sample collection; and

WHEREAS, a portion of these funds were already included in the 2015 Adopted Operating Budget and $60,633 needs to be appropriated; now, therefore be it

1st RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $60,633 in Federal grant funds as follows:

REVENUES
001-4905 Federal Aid: Beach Monitoring $78,529

APPROPRIATIONS

Department of Health Services (HSV)
Division of Environmental Quality
Beach Act Program
001-HSV-4409

1100 Personal Services $47,597
1110 Interim Salaries (for charging salaries from 001-4400) $36,952
1130 Temporary Salaries $10,645

Please write a resolution to accept and appropriate Federal 100% grant funds for the above mentioned program. The total grant award for this period is $ 104,705. A portion of the grant funds has already been included in the 2015 Adopted Operating Budget. The balance of the grant funds need to be appropriated as follows:

**REVENUE:**
001-4905 Federal Aid: Environmental Quality $ 78,529

Suffolk County Dept of Health Services
001-HSV-4409

**PERSONAL SERVICES:**
1110 Interim Salaries $ 56,992

$ 56,992

**SUPPLIES, MATERIALS & OTHER:**
3370 Medical, Dental & Lab Supplies $ 9,395

$ 9,395

Employee Benefits
Social Security
001-EMP-9030 - $2,827

8000-Employee Benefits $ 3,641

8330-Social Security $ 3,641

Budget, Purchasing & Inventory Unit
3500 Sunrise Hwy, Suite 124, Great River, NY 11739-9006 (631) 854-0140 Fax (631) 854-0147
Date: Apr. 20, 2015
Contract #: C029644
Contractor: Suffolk County Department of Health
Contract Period: Oct. 01, 2014 - Sep. 30, 2019

Attached is your copy of the approved contract. The contract number must appear on all vouchers and correspondence.

Reports of the Expenditures and Budget Statements should be submitted as outlined in the contract.

In accordance with the contract, properly completed vouchers and/or programmatic questions should be addressed to the state’s designated payment office as stated in the contract.

Failure of the contracting agency to comply with payment provisions as set forth in the approved contract may result in non-payment.

Claim for Payment (AC3253-S) forms can be obtained at the following web site:
http://www.osc.state.ny.us/agencies/index.htm

In an effort to “GO GREEN”, your approved contract is being sent via this electronic submission. If you should desire an original approved contract, please send a reply to this e-mail stating the person and postal address for which you would like the original contract to be sent.

Instructions: Applicant will complete all items on this form. If an item is not applicable, enter "NA". If additional space is needed, insert and asterisk (*) in the item box and attach additional information on an 8 1/2” X 11” sheet cross referenced to the item.

## I. Background Information

1. **Grant Title**
   - Beach Act Program

2. **Statutory Legislation (Public Law No. & Title & Department Administering Grant Program)**

3. **Grant / Contract Status (Check One Box)**
   - A. New Program Application
   - X. B. Renewal Application
   - C. Supplemental (Specify)
   - D. Extension of Funding Period
   - E. Contract

4. **General Purpose of Grant / Contract (Describe briefly. If it is a refunding, please attach a recent progress report, including summary of goal attainment.)**

   Monitor recreational waters for the purpose of protecting bathers from potential exposure to pathogenic organisms through regular sample collections.

5. **County Departments / Agencies Affected (Include any with similar operational programs, regardless of their eligibility for this program.)**

   **NONE**

## II. BUDGET INFORMATION

1. **Term of Contract**
   - From: 10/1/2015
   - To: 9/30/2016

2. **Financial Assistance Requested**

2015 Intergovernmental Relations
Memorandum of Support

TITLE OF BILL: Accepting and appropriating 100% Federal grant funds from the US Environmental Protection Agency passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Beach Act Program.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriate 100% Federal grant funds for the Beach Act Program. This program will monitor recreational waters for the purpose of protecting bathers from potential exposure to pathogenic organisms through sample collection.

SUMMARY OF SPECIAL PROVISIONS: None.

JUSTIFICATION: Only part of this grant was included in the 2015 Adopted Operating Budget, this legislation will appropriate the remaining grant funding that was awarded. The remaining grant funds are needed to ensure that all grant objectives are met.

FISCAL IMPLICATIONS: Additional Federal grant funds will be added to the 2015 Adopted Operating Budget.
October 23, 2015

Jon Schneider, Deputy County Executive
County Executive’s Office, 12th Floor
H. Lee Dennison Building
Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 100% Federal grant funds from the US Environmental Protection Agency passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Beach Act Program. This program will monitor recreational waters for the purpose of protecting bathers from potential exposure to pathogenic organisms through sample collection.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-EQ Beach Act Grant FY15-16.docx.”

Sincerely,

RESOLUTION NO. - 2015, ACCEPTING AND APPROPRIATING 100% STATE GRANT FUNDS FROM THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR THE DRINKING WATER ENHANCEMENT PROGRAM

WHEREAS, 100% State grant funds from the New York State Department of Health have been awarded to the Department of Health Services, Division of Environmental Quality for the Drinking Water Enhancement Program in the amount of $187,597 for the period 04/01/15-03/31/16; and

WHEREAS, these grant funds will be used to protect Suffolk County’s drinking water supply through planning, data collection, investigations, surveillance monitoring, implementation and enforcement; and

WHEREAS, a portion of these funds were already included in the 2015 Adopted Operating Budget and $44,775 needs to be appropriated; now, therefore be it

1st RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $44,775 in State grant funds as follows:

REVENUES

001-3910 State Aid: Environmental Control $46,899

APPROPRIATIONS

Department of Health Services (HSV)
Division of Environmental Quality
Drinking Water Enhancement Program
001-HSV-4430

1100 Personal Services $41,593
1110 Interim Salaries (for charging salaries from 001-4400) $41,593

Employee Benefits
Social Security

8000 – Employee Benefits $3,182
8330 Social Security $3,182

and be it further

2nd RESOLVED, that the funding and expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further
RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II action.

DATED:

APPROVED BY:

County Executive of Suffolk County

Date of Approval:

HSV #52-2015

To: Liza Wright, Budget, Purchasing and Inventory Unit
From: Gary Amato, Budget, Purchasing and Inventory Unit
Date: October 21, 2015
Subject: Request for Resolution

Drinking Water Enhancement Program
Budget Period: 4/1/15 – 3/31/16
Approp: 001-4430
Revenue Code: 3910
Grant ID # HSV 2369

Please write a resolution to accept and appropriate New York State 100% grant funds for the above mentioned program. The total grant award for this period is $187,597. Part of the funds have been included in the 2015 adopted operating budget. The remaining grant funds need to be appropriated as follows:

REVENUES:
001-3910 State Aid: Environmental Control $ 46,899

Suffolk County Dept of Health Services
001-HSV-4430

PERSONAL SERVICE:
1110 – Interim Salaries $ 41,593

Employee Benefits
Social Security
001-EMP-9030

8000-Employee Benefits
8330-Social Security

$ 3,182

$ 3,182
I. Background Information

1. Grant Title
   Drinking Water Enhancement Program

2. Statutory Legislation (Public Law No. & Title & Department Administering Grant Program)

3. Grant / Contract Status (Check One Box)
   - A. New Program Application
   - X B. Renewal Application
   - C. Supplemental (Specify)
   - D. Extension of Funding Period
   - E. Contract

4. General Purpose of Grant / Contract (Describe briefly. If it is a refunding, please attach a recent progress report, including summary of goal attainment.)
   These grant funds will be used to protect Suffolk County’s drinking water supply through planning, data collection, investigations, surveillance monitoring, implementation and enforcement.

5. County Departments / Agencies Affected (Include any with similar operational programs, regardless of their eligibility for this program.)
   NONE

II. BUDGET INFORMATION

1. Term of Contract
   From: 4/1/2015 To: 3/31/2016

2. Financial Assistance Requested

City/County Commissioners of Health
Public Health Directors

Re: Drinking Water Enhancement Program
For 4/1/15 - 3/31/20 Grant Period

Dear Commissioner/Public Health Director:

The New York State budget for State Fiscal Year 2015-16 (SFY '15-16) includes an appropriation of $5,017,000 for services and expenses related to the water supply protection program commonly known as the Drinking Water Enhancement (DWE) Program. The county-by-county grant allocations for SFY '15-16 are listed in the enclosed table.

SFY '15-16 marks the first year of a five-year contract. To be considered for funding, your City/County must submit as soon as possible, but no later than July 11, 2015, a comprehensive contract application package, which includes:

1. State of New York Master Contracts for Grant Face Page
2. Two original signed and notarized signature pages
4. Attachment A-1, Program Specific Terms and Conditions
5. Attachment B-1, Expenditure Based Budget
6. Attachment C, Work Plan; and
7. Attachment D, Payment and Reporting Schedule

For subsequent years, the City/County must submit a new budget and work plan.

Hard copies of all contract documents have been mailed to your City/County Environmental Health Directors. Please make sure to use the templates without making any changes. Fillable budget and work plan documents will be e-mailed to your fiscal staff. A guidance document that provides instructions for the preparation and submittal of your work plan and budget along with contract documents has also been sent to the City/County Environmental Health Directors. The completed comprehensive contract application package must be sent to the Regional Director of Environmental Health for review and approval. Upon approval, the Regional Director of Environmental Health will forward the completed contract renewal application package to the Bureau of Water Supply Protection for processing.

During the administration of the DWE Program, all audit obligations in accordance with OMB, 2 CFR, Chapter I, Chapter II, Part 200, per Attachment A-1, section (H)(3)(b) must be met. Noncompliance with these requirements can delay the processing of contracts and vouchers.
Please note, a budget modification to any budget category that is equal to or greater than 10 percent of the total budget must be submitted to the Office of the State Comptroller (OSC) for approval. A contract amendment must be completed, and shall be effective only upon approval by OSC. The budget categories are:

1. Personal Services
2. Non-personal services minus equipment
3. Equipment

Standard Vouchers (AC-92) and an expenditure report template are included for submittal of quarterly 2015-16 DWE expenses. Please note that quarterly expenditure reports must accompany each quarterly voucher submission and that the dollar amount requested on the voucher cannot exceed the dollar amount of the expenditure report. No voucher can be processed until an executed contract is in place. All completed quarterly Standard Vouchers and expense reports should be submitted directly to:

Lori Ahmed  
Bureau of Water Supply Protection  
Corning Tower, Room 1110  
Empire State Plaza  
Albany NY, 12237

We look forward to working with your staff to successfully implement your approved work plan for this upcoming year. If you or your staff have any questions, please contact your Regional Field Coordinator or Regional Director of Environmental Health.

Sincerely,

[Signature]

TITLE OF BILL: Accepting and appropriating 100% State grant funds from the New York State Department of Health to the Suffolk County Department of Health Services for the Drinking Water Enhancement Program.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriate 100% State grant funds for the Drinking Water Enhancement Program. These grant funds will be used to protect Suffolk County's drinking water supply through planning, data collection, investigations, surveillance monitoring, implementation and enforcement.

SUMMARY OF SPECIAL PROVISIONS: None.

JUSTIFICATION: Only part of this grant was included in the 2015 Adopted Operating Budget, this legislation will appropriate the remaining grant funding that was awarded. The remaining grant funds are needed to ensure that all grant objectives are met.

FISCAL IMPLICATIONS: Additional State grant funds will be added to the 2015 Adopted Operating Budget.
October 23, 2015

Jon Schneider, Deputy County Executive
County Executive’s Office, 12th Floor
H. Lee Dennison Building
Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 100% State grant funds from the New York State Department of Health to the Suffolk County Department of Health Services for the Drinking Water Enhancement Program. These grant funds will be used to protect Suffolk County’s drinking water supply through planning, data collection, investigations, surveillance monitoring, implementation and enforcement.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-EQ Drinking Water.docx.”

Sincerely,

RESOLUTION NO. - 2015, ACCEPTING AND APPROPRIATING 100% STATE GRANT FUNDS FROM THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR THE TOBACCO ENFORCEMENT PROGRAM-ATUPA

WHEREAS, 100% State grant funds from the New York State Department of Health have been awarded to the Department of Health Services for the Tobacco Enforcement Program in the amount of $324,486 for the period 04/01/15-03/31/16; and

WHEREAS, these grant funds will be used to ensure that over 1,800 merchants registered to sell tobacco products in Suffolk County are in compliance with regulations; and

WHEREAS, these grant funds will also enforce the Clean Indoor Air Act, which prohibits smoking in all indoor public areas and work places; and

WHEREAS, a portion of these funds were already included in the 2015 Adopted Operating Budget and $64,590 needs to be appropriated; now, therefore be it

1st RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $64,590 in State grant funds as follows:

REVENUES

001-3401 State Aid: Public Health $81,122

APPROPRIATIONS

Department of Health Services (HSV) Division of Environmental Quality Tobacco Enforcement Program-ATUPA 001-HSV-4502

1100 Personal Services $60,000
1110 Interim Salaries (for charging salaries from 001-4400) $60,000

Employee Benefits
Social Security

8000 – Employee Benefits $4,590
8330 Social Security $4,590

and be it further

2nd RESOLVED, that the funding and expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further
3rd RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II action.

Contact Person in Department / Agency: Gary Amato
Telephone Number: 854-0143
Grant Application Due Date

Instructions: Applicant will complete all items on this form. If an item is not applicable, enter "NA". If additional space is needed, insert an asterisk (*) in the item box and attach additional information on an 8 1/2" X 11" sheet cross referenced to the item.

I. Background Information

1. Grant Title
Tobacco Enforcement Program - ATUPA

2. Statutory Legislation (Public Law No. & Title & Department Administering Grant Program)

3. Grant / Contract Status (Check One Box)
   A. New Program Application
   X B. Renewal Application
   C. Supplemental (Specify)
   D. Extension of Funding Period
   E. Contract

4. General Purpose of Grant / Contract (Describe briefly. If it is a refunding, please attach a recent progress report, including summary of goal attainment.)
The Bureau of Community Environmental Health and Food Protection (BCEHFP) is responsible for the implementation and oversight of the New York State Public Health Law, Article 13-F, also known as the Adolescent Tobacco Use Prevention Act (ATUPA). The ATUPA prohibits the sale of cigarettes, cigars, chewing tobacco, powdered tobacco, shisha or other tobacco products, herbal cigarettes, electronic cigarettes, liquid nicotine, rolling papers or smoking paraphernalia to persons under 18 years of age. The BCEHFP also oversees enforcement of the New York State Public Health Law, Article 13-E, known as the Clean Indoor Air Act (CIAA), which prohibits smoking in all indoor public areas and work places.

5. County Departments / Agencies Affected (Include any with similar operational programs, regardless of their eligibility for this program.)
NONE

II. BUDGET INFORMATION

1. Term of Contract
From: 4/1/2015 To: 3/31/2016

2. Financial Assistance Requested

TITLE OF BILL: Accepting and appropriating 100% State grant funds from the New York State Department of Health to the Suffolk County Department of Health Services for the Tobacco Enforcement Program-ATUPA.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriate 100% State grant funds for the Tobacco Enforcement Program-ATUPA.

SUMMARY OF SPECIAL PROVISIONS: None.

JUSTIFICATION: These grant funds will be used to ensure that over 1,800 merchants registered to sell tobacco products in Suffolk County are in compliance with regulations and will enforce the Clean Indoor Air Act, which prohibits smoking in all indoor public areas and work places.

FISCAL IMPLICATIONS: Additional State grant funds will be added to the 2015 Adopted Operating Budget.
October 23, 2015

Jon Schneider, Deputy County Executive
County Executive’s Office, 12th Floor
H. Lee Dennison Building
Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 100% State grant funds from the New York State Department of Health to the Suffolk County Department of Health Services for the Tobacco Enforcement Program-ATUPA. These grant funds will be used to ensure that over 1,800 merchants registered to sell tobacco products in Suffolk County are in compliance with regulations and will enforce the Clean Indoor Air Act, which prohibits smoking in all indoor public areas and work places.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-Tobacco ATUPA.docx.”

Sincerely,

James L. Tomarken, MD, MPH, MBA, MSW
Commissioner

RESOLUTION NO. — 2015, ACCEPTING AND APPROPRIATING 100% FEDERAL GRANT FUNDS PASSED THROUGH THE NEW YORK STATE DEPARTMENT OF HEALTH TO THE SUFFOLK COUNTY DEPARTMENT OF HEALTH SERVICES FOR THE CHILDREN WITH SPECIAL HEALTH CARE NEEDS PROGRAM

WHEREAS, these 100% Federal grant funds are passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Children with Special Health Care Needs Program and the award amount is $112,774 for the period 10/01/15-09/30/16; and

WHEREAS, this program provides community outreach, education, and referrals to providers and families of children with special health care needs age birth to twenty-one years; and

WHEREAS, this program also identifies gaps and barriers in the health service systems and proposes strategies to address them; and

WHEREAS, a portion of these funds are already included in the 2015 Suffolk County Adopted Operating Budget and $66,726 needs to be appropriated; and

WHEREAS, these funds are 100% federally funded; now, therefore be it

1ST RESOLVED, that the County Comptroller and the County Treasurer be and hereby are authorized to accept and appropriate $66,726 in grant funds as follows:

REVENUES

001-4401 Federal Aid: Public Health $84,580

APPROPRIATIONS

Department of Health Services (HSV)
Division of Patient Care Services
Children with Special Health Care Needs
001-HSV-4812

1100 Personal Services $59,558
1110 Interim Salaries (for charging salaries from 001-4101) $59,558

3000 Supplies, Materials & Other $2,612
3010 Office Supplies $1,937
3100 Instructional Supplies $675

Employee Benefits
Social Security
2nd RESOLVED, that the funding and expenditures that may be incurred run concurrent to the budget period as specified in the award letter; and be it further

3rd RESOLVED, that this Legislature, being the lead agency under SEQRA and Chapter 279 of the Suffolk County Code, hereby determines that this resolution constitutes a Type II action.

October 24, 2014

Ellen Ellis
Coordinator of Special Education
Suffolk County Department of Health Services
225 Rabro Drive East

Dear Ms. Ellis:

Enclosed please find the forms necessary to initiate your new Children with Special Health Care Needs contract number C029743 for the period October 1, 2014 – September 30, 2017, in the amount of $338,322 ($112,774 per year). Your grant will be a multi-year contract which will require you to prepare three (3) budgets, one for each year of the contract from October 1, 2014 – September 30, 2017. Enclosed is a standard workplan that will apply to the three year period as well as budget, justification, and contact forms. Please project your budgets as closely as possible, taking into account future salary increases.

Multi-year contracts eliminate the need to renew contracts each year. As you know, the contract renewal process can be lengthy, sometimes resulting in voucher payment delays pending contract execution. The process should result in more timely payment of claims.

Budgets, justification forms and a completed contact sheet must be submitted to me electronically at rachel.gaul@health.ny.gov by November 30, 2014. Hardcopy submissions will not be accepted. When your budgets are approved, you will receive contract signature pages under separate cover.

If you have fiscal questions or require assistance, please contact me at (518) 474-4688 or by e-mail. For programmatic questions or for guidance, please contact your Regional Office contact or Marina Sapowski at (518) 473-9883 or by email at marina.sapowski@health.ny.gov.

Sincerely,

Rachel Gaul
Director
Bureau of Administration
Division of Family Health

Memorandum of Support

TITLE OF BILL: Accepting and appropriating 100% Federal grant funds passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Children with Special Health Care Needs Program.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriate 100% Federal grant funds passed through the New York State Department of Health for the Children with Special Health Care Needs Program.

SUMMARY OF SPECIAL PROVISIONS: None.

JUSTIFICATION: This program provides community outreach, education, and referrals to providers and families of children with special health care needs, age birth to twenty-one years, and identifies gaps and barriers in the health service system and proposes strategies to address them.

FISCAL IMPLICATIONS: Additional Federal grant funds will be added to the 2015 Adopted Operating Budget.
October 23, 2015

Jon Schneider, Deputy County Executive  
County Executive’s Office, 12th Floor  
H. Lee Dennison Building  
Veterans Memorial Highway  
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 100% Federal grant funds passed through the New York State Department of Health to the Suffolk County Department of Health Services for the Children with Special Health Care Needs Program. This program provides community outreach, education, and referrals to providers and families of children with special health care needs, age birth to twenty-one years, and identifies gaps and barriers in the health service system and proposes strategies to address them.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-Children Special HC Needs.docx.”

Sincerely,

James L. Tomarken, MD, MPH, MBA, MSW

Agreement No. CE99200218
Amendment No. 2

James L. Tomarken
Commissioner
Suffolk County Department of Health Services
225 Rabro Drive East
Hauppauge, New York 11788-4290

Subject: Peconic Estuary Program

Dear Commissioner Tomarken:

Attached please find Amendment No. 2 to the above-referenced Cooperative Agreement to assist the Suffolk County Department of Health Services (SCDHS) in the administration of the Peconic Estuary Program. SCDHS’s application dated June 1, 2015, increases the federal share of this Agreement by $337,000 from $754,268 to $1,091,268, as well as increases the match share from $754,268 to $1,091,268. In addition, this amendment extends the project period and budget period expiration dates to September 30, 2017. All previous Administrative Conditions to this Agreement remain in effect for all funds awarded and obligated prior to the date of this amendment, with the exception of Administrative Condition Nos. 1 and 9, which are superseded by the conditions below. Please note this amendment also adds an entirely new set of Conditions which apply to the new funds and unobligated balances as of the date of this amendment.

Please be advised that as of December 26, 2014, the Office of Management and Budget’s (OMB’s) Uniform Grants Guidance (UGG), codified at 2 CFR Part 200, took effect nationwide for all new federal awards and monetary amendments made on or after this date. For EPA assistance agreements, these new rules supersede the Uniform Administrative Requirements (40 CFR Parts 30 and 31), and streamline requirements from eight OMB Circulars, including Cost Principles and Audit Requirements. Also in effect as of December 26, 2014, are EPA’s implementing regulations at 2 CFR Part 1500, which clarify selected specific requirements for EPA assistance agreements.

EPA has compiled requirements that apply to all agreements in an on-line set of conditions, which are referenced in the section of the award entitled, GENERAL TERMS AND CONDITIONS. You must access these and ensure your organization complies with them.

Internet Address (URL): [http://www.epa.gov](http://www.epa.gov)
Recycled/Recyclable • Printed with Vegetable Oil Based Inks on Recycled Paper (Minimum 50% Postconsumer content)
Additionally, your agreement includes grant-specific administrative and programmatic conditions with which your organization must also comply.

Please also pay particular attention to General Condition 15: Disclosing Conflict of Interests. This new provision of the UGG requires that recipients and subrecipients identify and disclose to EPA any potential conflicts of interest that may arise after the award (or subaward) is made.

As a reminder, EPA has eliminated the requirement for recipients to submit a signed Affirmation of Award for assistance agreements. An assistance agreement recipient demonstrates its commitment to carry out the award by either: 1) drawing down funds within 21 days after the EPA award or amendment mailing date; or, 2) not filing a notice of disagreement with the award terms and conditions within 21 days after the EPA award or amendment mailing date. Please see the “Notice of Award” section of the agreement for more information. Due to this change, you are not required to sign and return a copy of the attached agreement.

However, if you wish to file a notice of disagreement with the award terms and conditions, you must email your notice to Region2_GrantApplicationBox@epa.gov. All email attachments must be sent in pdf format. Documents emailed to us in any other format cannot be accepted.

Sincerely,

Donald C. Pace  
Acting Assistant Regional Administrator  
for Policy and Management

III. BUDGET DETAILS

1. Resources Requested
The total requested in this PEP grant to Suffolk County Department of Health Services is $337,000. This grant will be complimented by a request for PEP support to the New England Interstate Water Pollution Control Commission (NEIWPC) for $236,000, and together these two components make up the full Peconic Estuary Program FFY2015 workplan for a total $320 request of $600,000.

The $337,000 allocated to the Suffolk County Department of Health Services is distributed among the following budget categories:

TITL OF BILL: Accepting and Appropriating 50% Federal grant funds from the United States Environmental Protection Agency to the Department of Health Services, Division of Environmental Quality for the Peconic Estuary Program.

PURPOSE OR GENERAL IDEA OF BILL: This legislation is needed to accept and appropriation 50% grant funds for the Peconic Estuary Program.

SUMMARY OF SPECIAL PROVISIONS: None

JUSTIFICATION: These additional grant funds along with County funds will be dedicated to the Peconic Estuary Program. This program supports the implementation of the Peconic Estuary Program’s Comprehensive Conservation and Management Plan.

FISCAL IMPLICATIONS: Accept federal grant funds into the 2015 Adopted Operating Budget. The in-kind match for these funds have already been identified and appropriated.
October 26, 2015

Jon Schneider, Deputy County Executive
County Executive’s Office, 12th Floor
H. Lee Dennison Building
Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Mr. Schneider:

I request the introduction of the enclosed Resolution to accept and appropriate 50% Federal grant funds from the United States Environmental Protection Agency to the Department of Health Services, Division of Environmental Quality for the Peconic Estuary Program. This program supports the implementation of the Peconic Estuary Program’s Comprehensive Conservation and Management Plan.

I enclose a financial impact statement and other back-up documentation for this Resolution. If you have any questions on the enclosed, please call Gary Amato at 4-0143. Also, an e-mail version of this Resolution was sent to CE RESO REVIEW and the file name is “Reso-HSV-EQ PEP FY15.docx.”

Sincerely,

RESOLUTION NO. -2015, AUTHORIZING THE COUNTY EXECUTIVE TO ENTER INTO AN INTERMUNICIPAL AGREEMENT WITH THE TOWN OF SMITHTOWN FOR THE MAINTENANCE OF HARNED ROAD FROM THE VICINITY OF CR 67, MOTOR PARKWAY TO THE VICINITY OF SR 25, JERICO TURNPIKE

WHEREAS, the Town of Smithtown currently maintains a portion of Harned Road, from the vicinity of CR 67, Motor Parkway to the vicinity of SR 25, Jericho Turnpike; and

WHEREAS, this portion of Harned Road requires certain capital improvements over and above repairs performed in connection with the maintenance of the road; and

WHEREAS, the County is preparing to make certain Capital Improvements to Harned Road under CP 5014, Strengthening and Improving County Roads including drainage improvements, curb and sidewalk installation (to meet ADA requirements) and resurfacing, expected to be completed in 2016; and

WHEREAS, Article 5-G of the General Municipal Law provides broad authority for municipal corporations to cooperate with each other in the performance of their respective responsibilities; and

WHEREAS, the Town of Smithtown is desirous of continuing its cooperative arrangement with the County in connection with the repair and maintenance of Harned Road; and

WHEREAS, the Town Board of the Town of Smithtown adopted Resolution No. 2015-832 authorizing the Town to execute an Intermunicipal Agreement with the County of Suffolk for maintenance of a portion of Harned Road, from CR 67, Motor Parkway to SR 25, Jericho Turnpike; now, therefore, be it

1st RESOLVED, that the County Legislature hereby authorizes the County Executive, or his designee, to execute an agreement with the Town of Smithtown for the repair and maintenance of a portion of Harned Road, from CR 67, Motor Parkway to SR 25, Jericho Turnpike; and be it further

2nd RESOLVED, that this Legislature, being the lead agency under the State Environmental Quality Review Act ("SEQRA"), Environmental Conservation Law Article 8, hereby finds and determines that this law constitutes a Type II action, pursuant to Section 617.5 (C) (20) and (27) of Title 6 of New York Code of Rules and Regulations ("NYCRR"), in that the resolution concerns routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment, and adoption of a local legislative decision in connection with the same; and the Legislature has no further responsibilities under SEQRA; and be it further

3rd RESOLVED, that the Intermunicipal Agreement for the Maintenance of Harned Road and all other contract documents shall be subject to the approval of the County Attorney.
INTERMUNICIPAL AGREEMENT
for the Maintenance of Harned Road
from CR 67, Motor Parkway to SR 25, Jericho Turnpike
Town of Smithtown

This Agreement ("Agreement") is between the County of Suffolk ("County"), a municipal corporation of the State of New York, acting through its duly constituted Department of Public Works/ Highways Division ("Department"), located at 335 Yaphank Avenue, Yaphank, New York 11980-9744; and the

Town of Smithtown ("Town"), a municipal corporation organized under the State of New York, located at 99 West Main Street, Smithtown, New York 11787.

The parties hereto desire to establish and define maintenance responsibilities between the Town of Smithtown (Town) and the County of Suffolk (County) for the maintenance of Harned Road from CR 67, Motor Parkway to SR 25, Jericho Turnpike.

Term of Agreement: The term of this IMA shall be for a term of ten (10) years, commencing immediately upon execution by the parties. The term shall be automatically renewed, without any action being required by either party. This IMA may be terminated by either party, by providing thirty (30) days written advance notice sent by certified mail to the other party, or upon the mutual consent of the parties.

Cost of Agreement: Capital Improvements shall be borne by the County of Suffolk. Maintenance costs shall be borne by the Town of Smithtown (maintenance is defined on Page 3, Item 2 of this IMA).

Terms and Conditions: Shall be as set forth in Exhibit A through D and Article I attached hereto and incorporated herein.

Article I
General Terms and Conditions

Whereas, the Town of Smithtown currently maintains a portion of Harned Road, from the vicinity of CR 67, Motor Parkway to the vicinity of SR 25, Jericho Turnpike; and

Whereas, this portion of Harned Road requires certain capital improvements over and above repairs performed in connection with the maintenance of the road; and

Whereas, the County is preparing to make certain Capital Improvements to Harned Road under CP 5014, Strengthening and Improving County Roads including drainage improvements, curb and sidewalk installation (to meet ADA requirements) and resurfacing, expected to be completed in 2016; and

Whereas, Article 5-G of the General Municipal Law provides broad authority for municipal corporations to cooperate with each other in the performance of their respective responsibilities; and

Whereas, the Town of Smithtown is desirous of continuing its cooperative arrangement with the County in connection with the repair and maintenance of Harned Road; and

Whereas, the Town Board of the Town of Smithtown adopted Resolution No. 2015-832, authorizing the Town to execute an Intermunicipal Agreement with the County of Suffolk for maintenance of a portion of Harned Road, from CR 67, Motor Parkway to SR 25, Jericho Turnpike; and

Whereas, County Legislative Resolution No. ____________, authorized the County to enter into an agreement with the Town of Smithtown for Maintenance of a portion of Harned Road from CR 67, Motor Parkway to SR 25, Jericho Turnpike;

Now, Therefore, in consideration of the mutual covenants herein set forth and other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. Recitals. The Parties acknowledge that the foregoing recitals are true and correct and are hereby incorporated into this Agreement as if fully set forth herein.

2. Purpose of Agreement. The purpose of this Agreement is to outline the maintenance responsibilities of the Town of Smithtown with respect to the portion of Harned Road, from CR 67, Motor Parkway to SR 25, Jericho Turnpike. The term “maintenance” as used in the Agreement means and includes, but is not limited to: (a) salting, sanding and snow plowing; (b) litter pick-up; (c) catch basin and drainage pipe cleaning; (d) snow fence installation; (e) brush cutting, tree trimming and removal; (f) installation and repair of guardrail; (g) installation of signs which are to be supplied by the County; (h) manhole and catch basin repair; (i) mowing areas adjacent to the road; (j) emergency callout work, including traffic accidents; (k) special markings, such as school crossings; (l) street sweeping at least three times a year, and upon special occasions, emergencies and valid citizen complaints; (m) minor crack repair, sweeping and snow removal of sidewalk and curb areas and (n) pavement patching.

3. Term of Agreement. The term of this Agreement shall be for a term of ten (10) years, commencing immediately upon execution by the parties. The term shall be automatically renewed, without any action being required by either party.

4. Termination or Suspension. The Parties to this Agreement may agree to terminate this Agreement at any time, according to mutually agreed upon terms and conditions which have been forwarded in writing to the County for advance approval. Upon approval by the County of such terms and conditions, this
Agreement shall be terminated.

5. Indemnification.

a. General. To the greatest extent permitted by law, the Town agrees that it shall protect, indemnify and hold harmless the County and its officers, officials, employees, contractors, agents and other persons from an against all liabilities, fines, penalties, actions, damages, claims, demands, judgments, losses, costs, expenses, suits or actions and reasonable attorneys’ fees arising out of the acts, omissions, or the negligence of the Town, its officers officials, employees, contractors, subcontractors or agents in connection with, or incident to, this Agreement and/or the Work and Services provided hereunder; provided, that nothing herein shall require the Town to indemnify against and hold harmless the County from claims demands, or suits based upon the negligent conduct of the County, its officers, officials, employees, contractor or agents. The Town shall defend the County and its officers, officials, employees, contractors, agents and other persons in any suit, including appeals, or at the County’s option, pay reasonable attorney’s fees for defense of any such suit arising out of the acts or omissions or negligence of the Town, its officers, officials, employees, subcontractors or agents, if any, in connection with the services described or referred to in this Agreement.

b. Federal Copyright Act. The Town hereby represents and warrants the Town, will not infringe upon any copyrighted work or material in accordance with the Federal Copyright Act during the performance of this Contract. Furthermore, the Town agrees that it shall protect, indemnify and hold harmless the County and its officers, officials, employees, contractors, agents and other persons from and against all liabilities, fines, penalties, actions, damages, claims, demands, judgments, losses, costs, expenses, suits or actions and reasonable attorney’s fees, arising out of the acts or omissions or the negligence of the Town in connection with the services described or referred to in this Agreement. The Town shall defend the County and its officers, officials, employees, contractors, agents and other persons in any suit, including appeals, or, at the County’s option, pay reasonable attorney’s fees for defense of any such suit arising out of the acts or omissions or negligence of the Town, its officers, officials, employees, subcontractors, lessees, licensees, invitees or agents, if any, in connection with the services described or referred to in this Agreement.

6. Insurance.

a. The Town agrees to procure, pay the entire premium for and maintain throughout the term of this Agreement, insurance in amounts and types specified by the County and as may be mandated and increased from time to time. The Town agrees to require that all of its subcontractors, in connection with work performed for the Town related to this Agreement, procure, pay the entire premium for and maintain throughout the term of this Agreement insurance in amounts and types equal to that specified by the County for the Town. Unless otherwise specified by the County and agreed to by the Town, in writing, such insurance shall be as follows:

i. Commercial General Liability insurance, including contractual liability coverage, in an amount not less than Two Million Dollars ($2,000,000.00) per occurrence for bodily injury and Two Million Dollars ($2,000,000.00) per occurrence for property damage.

ii. Automobile Liability insurance (if any vehicles are used by the Town in the performance of this Agreement) in an amount not less than Five Hundred Thousand Dollars ($500,000.00) per person, per accident, for bodily injury and not less than One Hundred Thousand Dollars ($100,000.00) for property damage per occurrence.

iii. Workers’ Compensation and Employer’s Liability insurance in compliance with all applicable New York State laws and regulations and Disability Benefits insurance, if required by law. Town shall furnish to the County, prior to its execution of this Agreement, the
documentation required by the State of New York Workers' Compensation Board of coverage or exemption from coverage pursuant to §§57 and 220 of the Workers' Compensation Law. In accordance with General Municipal Law §108, this Agreement shall be void and of no effect unless the Town shall provide and maintain coverage during the term of this Agreement for the benefit of such employees as are required to be covered by the provisions of the Workers' Compensation Law.

b. All policies providing such coverage shall be issued by insurance companies with an A.M. Best rating of A- or better.

c. The Town shall furnish to the County Declaration Pages for each such policy of insurance and upon request, a true and certified original copy of each such policy, evidencing compliance with the foresaid insurance requirements. In the case of commercial general liability insurance, the County of Suffolk shall be named as an additional insured and the Town shall furnish a Declaration Page and endorsement page evidencing the County's status as an additional insured on said policy.

d. All such Declaration Pages, certificates and other evidence of insurance shall provide for the County of Suffolk to be notified in writing thirty (30) days prior to any cancellation, nonrenewal or material change in said policies. Such Declaration Pages, certificates, policies and other evidence of insurance and notices shall be mailed to the Department at its address as set forth in this Agreement in the paragraph entitled “Notices and Contact Persons” or at such other address of which the County shall have given the Town notice in writing.

e. In the event Town shall fail to provide the Declaration Pages or certificates of insurance or to maintain any insurance required by this Agreement, the County may, but shall not be required to, obtain such policies and deduct the cost thereof from payments due Town under this Agreement or any other agreement between the County and Town.

f. If the contractor is a town or other municipal corporation and has a self-insurance program under which it acts as a self-insurer for any of such required coverage, it may provide self-funded coverage and certificates or other evidence of such self-insurance in lieu of insurance issued by insurance companies.

7. **Town Authorization under Federal, State and Local Law.** In the event that any approval, permit, action, proceeding or authorization is required by applicable law, ordinance, rule or regulation to enable the Town to enter into this Agreement, or to undertake the Services, or to observe, assume, or carry out any of the provisions of this Agreement, the Town shall initiate and complete such action as is so required.

8. **Personnel.** The County shall not be responsible for providing any personnel for the performance of the Services under this Agreement.

9. **Applicable Laws and Regulations.** The Town will comply with all applicable laws, statutes, regulations, ordinances, or directives of whatsoever nature with respect to the performance of the Services. The Town shall be responsible for proper resolution of any and all governmental violations, objections and/or disputes concerning the conduct of the Services to be performed pursuant to this Agreement, including any and all costs associated with such violations, objections and/or disputes, including attorney's fees.

10. **No Assignment.** In accordance with the provisions of section 109 of the General Municipal Law, both Parties hereto are hereby prohibited from assigning, transferring, conveying, subletting or otherwise disposing of this Agreement or of its right, title or interest in this
agreement to any other person or corporation without the previous consent in writing of the other Party.

11. No Third Party Interests. This Agreement is solely for the benefit of the Parties hereto and confers no right to third parties. This Agreement may not be assigned to other parties. This Agreement shall not be construed between the Parties other than as an intermunicipal agreement.

12. No Other Authority. The Parties agree that nothing in this Agreement shall be construed so as to interfere, limit, diminish, enhance or grant any ownership, municipal or regulatory power or authority of the participating Parties over the other, except as are contemplated hereunder.

13. No Gratuities. The Town represents and warrants that neither the Town nor any official officer, employee, etc., of the Town of Smithtown has offered or given any gratuity to any official or employee or agent of Suffolk County, New York State or any political party with the purpose or intent of securing an agreement or securing favorable treatment with respect to the awarding or amending of an agreement or the making of any determination with respect to the performance of an agreement and that the Town has read and is familiar with the provisions of Suffolk County Local Law No. 32-1980.

14. Merger; No Oral Changes. It is expressly agreed that this Agreement represents the entire agreement of the parties, that all previous understandings are merged in this Agreement. No modification of this Agreement shall be valid unless written in the form of an Amendment and executed by both parties.

15. No Implied Waiver. No waiver shall be inferred from any failure or forbearance by the County to enforce any provision of this Agreement in any particular instance or instances, but the same shall otherwise remain in full force and effect notwithstanding any such failure or forbearance.

16. Cooperation on Claims. Each of the parties hereto agrees to render diligently to the other party, without additional compensation, any and all cooperation, that may be required to defend the other party, its employees and designated representatives against any claim, demand or action that may be brought against the other party, its employees or designated representatives in connection with this Agreement.

17. Severability. It is expressly agreed that if any term or provision of this Agreement, or the application thereof to any person or circumstance, shall be held invalid or unenforceable to any extent, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected thereby, and every other term and provision of this Agreement shall be valid and shall be enforced to the fullest extent permitted by law.

18. Agreement Headings. All Headings of the Articles of this Agreement have been inserted for convenience of reference only, are not to be considered a part of this agreement, and shall in no way affect the interpretation of any provisions of this agreement.

19. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of New York, without regard to conflict of laws. Venues shall be designated in Suffolk County; New York or the United States District Court for the Eastern District of New York.

Article II
Project Description

1. The Town agrees to assume Maintenance (defined on Page 3, Section 2) of Harned Road upon completion of Capital Improvements currently underway by the County. The Town shall have the opportunity to inspect said roadway prior to completion of the Capital Improvements, and acceptance of Maintenance responsibilities.

2. The Town shall enact any ordinance, order, rule, or regulation necessary for the performance of the services required under this Agreement.

3. The Town shall comply, and shall require its officers, directors, partners, trustees and other members of its governing body, as well as any personnel employed to render services under this Agreement, to comply with all applicable rules, regulations and requirements of law, including Suffolk County local preference laws and other applicable Suffolk County local laws, and resolutions of the Suffolk County Legislature.

Article III
Notices and Contact Persons

1. Notices Relating to Payments, Reports, Insurance, or Other Submissions

Any communication, notice, claim for payment, report, insurance, or other submission necessary or required to be made by the parties regarding this Agreement shall be in writing and shall be given to the County or the Town or their designated representative at the following addresses or at such other address that may be specified in writing by the parties and must be delivered as follows:

For the Department:
By Regular and Certified Mail in Postpaid Envelope or by
Courier Service or by Fax or by E-Mail

Suffolk County Department of Public Works
335 Yaphank Avenue
Yaphank, NY 11980-9744
Attn: Commissioner

and

By Regular and Certified Mail in Postpaid Envelope or by
Courier Service or by Fax or by E-Mail

At the address set forth on page one of this Agreement, attention of the person who executed this Agreement or such other designee as the parties may agree in writing.

2. Notices Relating to Termination and/or Litigation

In the event the Town receives a notice or claim or becomes a party (plaintiff, petitioner, defendant, respondent, third party complainant, third party defendant) to a lawsuit or any legal proceeding related to this Agreement, the Town shall immediately deliver to the County Attorney, at the address set forth below, copies of all papers filed by or against the Town.

Any communication or notice regarding termination shall be in writing and shall be given to the County or the Town or their designated representative at the following addresses or at such other addresses that may be specified in writing by the parties and must be delivered as follows:

For the County:
By Regular and Certified Mail in Postpaid Envelope or by
Nationally Recognized Courier Service or Personally and by First Class Mail

Suffolk County Department of Public Works
335 Yaphank Avenue
Yaphank, NY 11980-9744
Attn: Commissioner

and
Suffolk County Department of Law

Article IV
Suffolk County Legislative Requirements

1. Contractor's/Vendor's Public Disclosure Statement

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of section A5-7 of Article V of the Suffolk County Code.

Unless certified by an officer of the Contractor as being exempt from the requirements of section A5-7 of Article V of the Suffolk County Code, the Contractor represents and warrants that it has filed with the Comptroller the verified public disclosure statement required by Suffolk County Administrative Code Article V, Section A5-7 and shall file an update of such statement with the Comptroller on or before the 31st day of January in each year of the Agreement's duration. The Contractor acknowledges that such filing is a material, contractual and statutory duty and that the failure to file such statement shall constitute a material breach of the Agreement, for which the County shall be entitled, upon a determination that such breach has occurred, to damages, in addition to all other legal remedies, of fifteen percent (15%) of the amount of the Agreement.

Required Form:
Suffolk County Form SCEX 22; entitled "Contractor's/Vendor's Public Disclosure Statement"

2. Living Wage Law

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of Chapter 575 of the Suffolk County Code.

This Agreement is subject to the Living Wage Law of the County of Suffolk. The law requires that, unless specific exemptions apply, all employers (as defined) under service agreements and recipients of County financial assistance, (as defined) shall provide payment of a minimum wage to employees as set forth in the Living Wage Law. Such rate shall be adjusted annually pursuant to the terms of the Suffolk County Living Wage Law of the County of Suffolk. Under the provisions of the Living Wage Law, the County shall have the authority, under appropriate circumstances, to terminate the Agreement and to seek other remedies as set forth therein, for violations of this Law.

Required Forms:
Suffolk County Living Wage Form LW-1; entitled “Suffolk County Department of Labor – Living Wage Unit Notice of Application for County Compensation (Agreement)”

Suffolk County Living Wage Form LW-38; entitled “Suffolk County Department of Labor – Living Wage Unit Living Wage Certification/Declaration – Subject To Audit”

3. Use of County Resources to Interfere with Collective Bargaining Activities

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of Chapter 803 of the Suffolk County Code.

County Contractors (as defined by section 803-2) shall comply with all requirements of Chapter 803 of the Suffolk County Code, including the following prohibitions:

a. The Contractor shall not use County funds to assist, promote, or deter union organizing.

b. No County funds shall be used to reimburse the Contractor for any costs incurred to assist, promote, or deter union organizing.

c. The Contractor shall not use County funds to assist, promote, or deter union organizing.

d. No employer shall use County property to hold a meeting with employees or supervisors if the purpose of such meeting is to assist, promote, or deter union organizing.

If the Services are performed on County property, the Contractor must adopt a reasonable access agreement, a neutrality agreement, fair communication agreement, non-intimidation agreement, and a majority authorization card agreement.

If the Services are for the provision of human services and are not to be performed on County property, the Contractor must adopt, at the least, a neutrality agreement.

Under the provisions of Chapter 803, the County shall have the authority, under appropriate circumstances, to terminate the Agreement and to seek other remedies as set forth therein, for violations of this Law.

Required Form:
Suffolk County Labor Law Form DOL-LO1; entitled “Suffolk County Department of Labor – Labor Mediation Unit Union Organizing Certification/Declaration – Subject to Audit.”

4. Lawful Hiring of Employees Law

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of Chapter 353 of the Suffolk County Code.

This Agreement is subject to the Lawful Hiring of Employees Law of the County of Suffolk. It provides that all covered employers, (as defined), and the owners thereof, as the case may be, that are recipients of compensation from the County through any grant, loan, subsidy, funding, appropriation, payment, tax incentive, agreement, subcontract, license agreement, lease or other financial
compensation agreement issued by the County or an awarding agency, where such compensation is one hundred percent (100%) funded by the County, shall submit a completed sworn affidavit (under penalty of perjury), the form of which is attached, certifying that they have complied, in good faith, with the requirements of Title 8 of the United States Code Section 1324a with respect to the hiring of covered employees (as defined) and with respect to the alien and nationality status of the owners thereof. The affidavit shall be executed by an authorized representative of the covered employer or owner, as the case may be; shall be part of any executed agreement, subcontract, license agreement, lease or other financial compensation agreement with the County; and shall be made available to the public upon request.

All contractors and subcontractors (as defined) of covered employers, and the owners thereof, as the case may be, that are assigned to perform work in connection with a County agreement, subcontract, license agreement, lease or other financial compensation agreement issued by the County or awarding agency, where such compensation is one hundred percent (100%) funded by the County, shall submit to the covered employer a completed sworn affidavit (under penalty of perjury), the form of which is attached, certifying that they have complied, in good faith, with the requirements of Title 8 of the United States Code Section 1324a with respect to the hiring of covered employees and with respect to the alien and nationality status of the owners thereof, as the case may be. The affidavit shall be executed by an authorized representative of the contractor, subcontractor, or owner, as the case may be; shall be part of any executed agreement, subcontract, license agreement, lease or other financial compensation agreement between the covered employer and the County; and shall be made available to the public upon request.

An updated affidavit shall be submitted by each such employer, owner, contractor and subcontractor no later than January 1 of each year for the duration of any agreement and upon the renewal or amendment of the agreement, and whenever a new contractor or subcontractor is hired under the terms of the agreement.

The contractor acknowledges that such filings are a material, contractual and statutory duty and that the failure to file any such statement shall constitute a material breach of the Agreement.

Under the provisions of the Lawful Hiring of Employees Law, the County shall have the authority to terminate the Agreement for violations of this Law and to seek other remedies available under the law.

The documentation mandated to be kept by this law shall at all times be kept on site. Employee sign-in sheets and register/log books shall be kept on site at all times during working hours and all covered employees, as defined in the law, shall be required to sign such sign-in sheets/register/log books to indicate their presence on the site during such working hours.

Required Forms:
Suffolk County Lawful Hiring of Employees Law Form

LHE-1; entitled "Suffolk County Department of Labor — Notice Of Application To Certify Compliance With Federal Law (8 U.S.C. SECTION 1324a) With Respect To Lawful Hiring of Employees."

"Affidavit Of Compliance With The Requirements Of 8 U.S.C. Section 1324a With Respect To Lawful Hiring Of Employees" Form LHE-2.

5. Gratuities

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of Chapter 664 of the Suffolk County Code.

The Contractor represents and warrants that it has not offered or given any gratuity to any official, employee or agent of the County or the State or of any political party, with the purpose or intent of securing an agreement or securing favorable treatment with respect to the awarding or amending of an agreement or the making of any determinations with respect to the performance of an agreement.

6. Prohibition Against Contracting with Corporations that Reincorporate Overseas

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of sections A4-13 and A4-14 of Article IV of the Suffolk County Code.

The Contractor represents that it is in compliance with sections A4-13 and A4-14 of Article IV of the Suffolk County Code. Such law provides that no agreement for consulting services or goods and services shall be awarded by the County to a business previously incorporated within the U.S.A. that has reincorporated outside the U.S.A.

7. Child Sexual Abuse Reporting Policy

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of Article II of Chapter 880 of the Suffolk County Code.

The Contractor shall comply with Article II of Chapter 880, of the Suffolk County Code, entitled "Child Sexual Abuse Reporting Policy," as now in effect or amended hereafter or of any other Suffolk County local law that may become applicable during the term of the Agreement with regard to child sexual abuse reporting policy.

8. Non Responsible Bidder

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of Article II of Chapter 189 of the Suffolk County Code.

Upon signing the Agreement, the Contractor certifies that it has not been convicted of a criminal offense within the last ten (10) years. The term "conviction" shall mean a finding of guilty after a trial or a plea of guilty to an offense covered under the provision of section 189-5 of the Suffolk County Code.
9. Use of Funds in Prosecution of Civil Actions Prohibited

It shall be the duty of the Contractor to read, become familiar with, and comply with the requirements of section 590-3 of Article III of Chapter 590 of the Suffolk County Code.

The Contractor shall not use any of the moneys, in part or in whole, and either directly or indirectly, received under the Agreement in connection with the prosecution of any civil action against the County in any jurisdiction or any judicial or administrative forum.

10. Work Experience Participation

In accordance with Local Law No. 44-2009, (Suffolk County Code Chapter 419-14), all contract agencies that conduct youth sports programs are required to develop and maintain a written plan or policy addressing incidents of possible or actual concussion or other head injuries among sports program participants. Such plan or policy must be submitted prior to the award of the County contract, grant or funding. Receipt of such plan or policy by the County does not represent approval or endorsement of any such plan or policy, nor shall the County be subject to any liability in connection with any such plan or policy.

MEMORANDUM OF SUPPORT

TITLE OF BILL: Authorizing the County Executive to Enter into an Intermunicipal Agreement with the Town of Smithtown for the Maintenance of Harned Road from the Vicinity of CR 67, Motor Parkway to the Vicinity of SR 25, Jericho Turnpike

PURPOSE OR GENERAL IDEA OF BILL: authorizing an Intermunicipal Agreement between the County of Suffolk and the Town of Smithtown wherein the Town has agreed to maintain a portion of Harned Road from the vicinity of CR 67, Motor Parkway to the vicinity of SR 25, Jericho Turnpike.

SUMMARY OF SPECIFIC PROVISIONS: Upon completion of Capital Improvements currently underway by Suffolk County Department of Public Works, the Town will continue maintenance responsibilities along this portion of road.

JUSTIFICATION: It is mutually beneficial for the County and the Town to engage in the maintenance agreement for this section of roadway.

FISCAL IMPLICATIONS: This reduces the costs associated with day-to-day maintenance of this portion of road, to the County.
MEMORANDUM

TO: Jon Schneider, Deputy County Executive
FROM: Gilbert Anderson, P.E. Commissioner
DATE: October 23, 2015
RE: Authorizing the County Executive to Enter into an Intermunicipal Agreement with the Town of Smithtown for the Maintenance of Harned Road from the Vicinity of CR 67, Motor Parkway to the Vicinity of SR 25, Jericho Turnpike

Attached is a draft resolution authorizing an Intermunicipal Agreement between the County of Suffolk and the Town of Smithtown wherein the Town has agreed to maintain the portion of Harned Road from the Vicinity of CR 67, Motor Parkway to the Vicinity of SR 25, Jericho Turnpike, upon completion of Capital Improvements currently underway by this Department.

An e-mail version of this resolution was sent to CE RESO REVIEW saved under the title “Reso-DPW-IMA Smithtown Harned Rd.doc”.

RESOLUTION NO. 1904-15

Introducory Resolution No. Laid on Table

Introduced by Presiding Officer on request of the County Executive

WHEREAS, the COUNTY OF SUFFOLK acquired the following described parcel:

FURTHER, notwithstanding the above description, it is the intention of this conveyance to give title only to such property as was acquired by the County of Suffolk by Tax Deed on August 27, 2012, from Angie M. Carpenter, the County Treasurer of Suffolk County, New York, and recorded on August 28, 2012, in Liber 12703, at Page 480, and otherwise known and designated by the Town of Brookhaven, as Lot No. 277, on a certain map entitled "Map of The Hunt Club", filed in the Office of the Clerk of Suffolk County on June 14, 1974 as Map No. 6113; and

WHEREAS, Michael Wasiluk, as Executor of the Estate of Marie Wasiluk has made application of said above described parcel and Michael Wasiluk, as Executor of the Estate of Marie Wasiluk has paid the application fee and has paid $50,537.71, as payment of taxes, penalties, interest, recording fees, and any other charges due the County of Suffolk, pursuant to Local Law, by applicant, through November 30, 2015; now, therefore be it

RESOLVED, this Legislature, being the State Environmental Quality Review Act (SEQRA) Lead Agency, hereby finds and determines that adoption of this law is not an action within the meaning of the State Environmental Quality Review Act and the regulations adopted thereeto. See 6 N.Y.C.R.R. Section 617.2(b) (2). The Legislature further finds and determines that even if the adoption of the local law is an action within the meaning of SEQRA, the adoption of law is a Type II action constituting a legislative decision in connection with routine or continuing agency administration and management, not including new programs or major reordering of priority. See 6 N.Y.C.R.R. Section 617.13(d) (15) and (21). As a Type II action, the Legislature has no further responsibilities under SEQRA 6 N.Y.C.R.R. Section 617.5(a)(1); and be it further
RESOLVED, that the Director of Real Estate, and/or her designee, be and she hereby is authorized to execute and acknowledge a Quitclaim Deed to MICHAEL WASILUK, AS EXECUTOR OF THE ESTATE OF MARIE WASILUK, 52 Autumn Lane, Hicksville, NY 11801, to transfer the interest of Suffolk County in the above described property and on the above described terms.

WADE STROBLE AND ANITA STROBLE, HUSBAND AND WIFE (SCTM NO. 0103-005.00-01.00-015.000)

WHEREAS, the COUNTY OF SUFFOLK acquired the following described parcel:

ALL, that certain plot, piece or parcel of land, with any buildings and improvements thereon erected, situate, lying and being in the Incorporated Village of Lindenhurst, Town of Babylon, County of Suffolk, and State of New York, described on the Tax Map of the Suffolk County Real Property Tax Service Agency as District 0103, Section 005.00, Block 01.00, Lot 015.000, and acquired by tax deed on September 24, 2014, from Angie M. Carpenter, the County Treasurer of Suffolk County, New York, and recorded on September 26, 2014, in Liber 12790, at Page 110, and otherwise known and designated by the Incorporated Village of Lindenhurst, Town of Babylon, as Easterly 75 Feet of Lots 1 to 4, Inclusive, Block 49, on a certain map entitled "Map of Welwood, Sheet 4" a/k/a "Map of the City of Breslau, Sheet 4", filed in the Office of the Clerk of Suffolk County on October 5, 1870 as Map No. 132; and

FURTHER, notwithstanding the above description, it is the intention of this conveyance to give title only to such property as was acquired by the County of Suffolk by Tax Deed on September 24, 2014, from Angie M. Carpenter, the County Treasurer of Suffolk County, New York, and recorded on September 26, 2014 in Liber 12790 at Page 110.

WHEREAS, in accordance with Suffolk County Local Law No. 16-1976, provision has been made for the sale of such real property acquired by the County through tax sale; and

WHEREAS, WADE STROBLE AND ANITA STROBLE, HUSBAND AND WIFE have made application of said above described parcel and WADE STROBLE AND ANITA STROBLE, HUSBAND AND WIFE have paid the application fee and have paid $91,646.35, as payment of taxes, penalties, interest, recording fees, and any other charges due the County of Suffolk, pursuant to Local Law, by applicant, through November 30, 2015; now, therefore be it

1st
RESOLVED, this Legislature, being the State Environmental Quality Review Act (SEQRA) Lead Agency, hereby finds and determines that adoption of this law is not an action within the meaning of the State Environmental Quality Review Act and the regulations adopted thereto. See 6 N.Y.C.R.R. Section 617.2(b) (2). The Legislature further finds and determines that even if the adoption of the local law is an action within the meaning of SEQRA, the adoption of law is a Type II action constituting a legislative decision in connection with routine or continuing agency administration and management, not including new programs or major reordering of priority. See 6 N.Y.C.R.R. Section 617.13(d) (15) and (21). As a Type II action, the Legislature has no further responsibilities under SEQRA 6 N.Y.C.R.R. Section 617.5(a)(1); and be it further
2nd RESOLVED, that the Director of Real Estate, and/or her designee, be and she hereby is authorized to execute and acknowledge a Quitclaim Deed to WADE STROBLE AND ANITA STROBLE, HUSBAND AND WIFE, 404 33rd Street, Lindenhurst, NY 11757, to transfer the interest of Suffolk County in the above described property and on the above described terms.

RESOLUTION NO. -2015, ACCEPTING A DONATION OF TWENTY TO TWENTY FOUR (20-24) BIKE LOCKERS FROM THE NEW YORK STATE DEPARTMENT OF TRANSPORTATION

WHEREAS, New York State Department of Transportation approached Suffolk County to donate twenty to twenty four (20-24) unused bike lockers; and

WHEREAS, the provision of bike lockers at various transit and county facilities would advance some of the recommendations in the County’s 2015 Comprehensive Plan to promote non-motorized mobility; and

WHEREAS, Suffolk County would accept the donation of the bike lockers and administer a bike locker rental program according to the terms of the contract; and

WHEREAS, the New York State Department of Transportation wishes to donate twenty to twenty four (20-24) bike lockers with a value of $18,300.00 to $21,960.00; and

WHEREAS, the unconditional gift comes with additional costs to the County to administer the program; now, therefore be it

1st RESOLVED, that the County Comptroller and County Treasurer be and they hereby are authorized to accept and appropriate said donation; and be it further,

2nd RESOLVED, that this Legislature, being the State Environmental Quality Review Act (“SEQRA”) lead agency, hereby finds and determines that this resolution constitutes a Type II action, pursuant to Section 617.5 (c) (20), (21) and (27) of Title 6 of the New York Code of Rules and Regulations ("NYCRR"), and within the meaning of Section 8-0109(2) of the New York Environmental Conservation Law as a promulgation of regulations, rules, policies, procedures, and legislative collection, and the Suffolk County Council on Environmental Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this resolution.

3. SOURCE FOR EQUALIZATION RATES: 2014 COUNTY EQUALIZATION RATES ESTABLISHED BY THE NEW YORK STATE BOARD OF EQUALIZATION AND ASSESSMENTS.

Page 2 of 2

To be completed by the Executive Budget Office
TITLE OF BILL:

ACCEPTING A DONATION OF TWENTY TO TWENTY FOUR (20-24) BIKE LOCKERS FROM THE NEW YORK STATE DEPARTMENT OF TRANSPORTATION

PURPOSE OR GENERAL IDEA OF BILL:

To accept twenty to twenty four (20-24) bike lockers from the New York State Department of Transportation for installation at locations across the County.

SUMMARY OF SPECIFIC PROVISIONS:

This legislation enables Suffolk County to accept the twenty to twenty four (20-24) bike lockers and proceed with their installation in collaboration with local municipalities and the Long Island Rail Road.

JUSTIFICATION:

Economic Development and Planning is implementing the County Executive’s Connect Long Island regional transportation and development plan to stop brain drain and foster the growth of an innovation economy. A crucial component of Connect Long Island is enhancing multi-modal transportation connectivity by leveraging existing infrastructure such as the Long Island Rail Road, while also promoting alternative forms of transportation to alleviate congestion. Providing bike lockers at Long Island Rail Road stations is the first step in creating a robust network of bike friendly infrastructure that encourages discretionary transit riders to forgo the use of single occupancy vehicles by providing a secure, sheltered location to store bicycles.

FISCAL IMPLICATIONS:

DATE: November 5, 2015

TO: Jon Schneider, Deputy County Executive
Office of the County Executive

FROM: Joanne Minieri, Deputy County Executive and Commissioner
Department of Economic Development and Planning

RE: ACCEPTING A DONATION OF TWENTY TO TWENTY FOUR (20-24) BIKE LOCKERS
FROM THE NEW YORK STATE DEPARTMENT OF TRANSPORTATION

The Department of Economic Development and Planning requests the submittal of the attached resolution authorizing the County to formally accept twenty to twenty four (20-24) bike lockers from the New York State Department of Transportation for installation at locations across the County.

The Department is implementing the County Executive’s Connect Long Island regional transportation and development plan to stop brain drain and foster the growth of an innovation economy. A crucial component of Connect Long Island is enhancing multi-modal transportation connectivity by leveraging existing infrastructure such as the Long Island Rail Road, while also promoting alternative forms of transportation, to alleviate congestion. Providing bike lockers at Long Island Rail Road stations is the first step in creating a robust network of bike friendly infrastructure that encourages discretionary transit riders to forgo the use of single occupancy vehicles by providing a secure, sheltered location to store bicycles.

Attached please find the draft resolution and the required documentation. Electronic copies have been filed as required.

Thank you,

RESOLUTION NO. -2015, ACCEPTING AND APPROPRIATING A GRANT IN THE AMOUNT OF $887,000 IN FEDERAL PASS-THROUGH AND NEW YORK STATE FUNDING FROM THE NEW YORK STATE DEPARTMENT OF TRANSPORTATION FOR THE LONG ISLAND EXPRESSWAY HIGH OCCUPANCY VEHICLE LANE ENFORCEMENT PROGRAM IN SUFFOLK COUNTY WITH 100% SUPPORT

WHEREAS, the New York State Department of Transportation (DOT) has made $887,000 available to Suffolk County for the continued Suffolk County enforcement efforts targeting the High Occupancy Vehicle (HOV) lane regulations on the Long Island Expressway in Suffolk County; and

WHEREAS, the operational period of the Program will be from March 2, 2015, through March 1, 2016; and

WHEREAS, $10,000 in vehicle use costs for this program have been included in the Suffolk County 2015 Operating Budget; and

WHEREAS, remaining funds have not been included in the Suffolk County Operating Budget for 2015; now, therefore, be it

1st RESOLVED, that the County Comptroller and County Treasurer be and they hereby are authorized to accept and appropriate said grant funds as follows:

REVENUES: AMOUNT
115-4224 Federal Aid: LIE/HOV Enforcement Program 2015 $710,000
115-3365 State Aid: LIE/HOV Enforcement Program 2015 $177,000

ORGANIZATIONS:

Police Department (POL)
LIE/HOV Enforcement Program 2015
115-POL-3751

1000-Personal Services $679,047
1120-Overtime Salaries $679,047

4300-Travel $15,593
4310-Employee Miscellaneous Expense $15,593

Employee Benefits (EMP)
Retirement
115-EMP-9010

8000-Employee Benefits $171,441
8280-State Retirement $171,441
Employee Benefits (EMP)
Social Security
115-EMP-9030

8000-Employee Benefits $10,919
8330-Social Security $10,919

and be it further

2nd RESOLVED, that the County Executive be and hereby is authorized to execute the grant agreement between Suffolk County and the New York State Department of Transportation.

DATED:

APPROVED BY:

______________________________
County Executive of Suffolk County

Date of Approval:
2015 INTERGOVERNMENTAL RELATIONS
MEMORANDUM OF SUPPORT

TITLE OF BILL: Accepting and appropriating a grant in the amount of $887,000 in Federal pass-through and New York State funding from the New York State Department of Transportation for the Long Island Expressway High Occupancy Vehicle Lane enforcement program in Suffolk County with 100% support

PURPOSE OR GENERAL IDEA OF BILL: To accept a grant award of $887,000 to enhance Suffolk County’s enforcement efforts targeting the HOV lane regulations on the Long Island Expressway in Suffolk County.

SUMMARY OF SPECIFIC PROVISIONS: This legislation will allow the County to accept funding in the amount of $887,000 from the New York State Department of Transportation which will be used to support dedicated overtime enforcement patrols targeting HOV lane regulations on the Long Island Expressway in Suffolk County.

JUSTIFICATION: The Long Island Expressway (LIE) runs through Suffolk County for the entire length of the Police District and maintains the High Occupancy Vehicle (HOV) Lane until Exit 64 when the HOV lane terminates. HOV lanes generally increase the person-carrying capacity of highway corridors, induce modal shift, improve efficiency and economy of public transit operations, reduce total travel time and fuel consumption and reduce urban and suburban congestions. Enforcement of lane regulations has been a key element in the successful operation of HOV lanes.

FISCAL IMPLICATIONS: None

**Task 2: Enforcement**

Provide for orderly and safe operation of the LIE HOV lanes between Nassau/Suffolk Line and Exit 64 dissuading motorists from disobeying HOV rules of operation. Provide other special HOV enforcement needs as determined by the Department including HOV-lane closure for sweeping and extra HOV enforcement for low compliance areas.

Cost reimbursement based on cost per four (4) hour tour of duty as follows, subject to an additional fringe rate of 26.35% for Police Personnel and 27.25% for Deputy Sheriffs; and a meal of $12 where warranted:

**Police Personnel:**

- Police Officer – $498.30 + $131.30 + $12 meal ** = $641.60
- Sergeant – $587.84 + $154.90 + $12 meal ** = $754.74
- Lieutenant – $654.37 + $172.43 + $12 meal ** = $826.80

**Sheriff’s Office Personnel:**

- Sheriff’s Deputy I – $306.08 + $83.41 + $12 meal ** = $401.49
- Sheriff’s Deputy II – $369.00 + $100.55 + $12 meal ** = $481.55

** The $12 meal is included only if 4 hour tour is utilized.**

**Task 3: Equipment Use**

Provide reimbursement of operating costs for vehicle usage for HOV enforcement.

Cost reimbursement based on $10.85 per hour of usage.

**Task 4: Evaluation**

In consultation with the Department, monitor, review, and evaluate the Enforcement Program. Provide monthly reports to the Department summarizing the previous month’s enforcement activities, including the actual number of tours, related costs, and the number and reason for stops.

Cost reimbursement based on hourly cost for staff at the following hourly rates, subject to an additional fringe rate of 26.35% for Police Personnel and 27.25% for Deputy Sheriffs:

**Police Personnel:**

- Lieutenant – pay rate $87.25 per hour + fringe (26.35%) overtime rate $130.87 per hour + fringe (26.35%)

**Sheriff’s Office Personnel:**

- Sheriff’s Deputy II– pay rate $49.20 per hour + fringe (27.25%) overtime rate $73.80 per hour + fringe (27.25%)
<table>

<tr>
<th>Task 5: Training</th>
</tr>
</thead>
<tbody>
<tr>
<td>To allow Sheriff's Deputies unfamiliar with the program to be trained in HOV Lane enforcement operations by experienced Suffolk Police Department or other trained staff.</td>
</tr>
</tbody>
</table>

Sheriff's Deputy I -
pay rate $40.81 per hour + fringe 27.25%
overtime rate $61.22 per hour + fringe (27.25%)

Cost reimbursement based on hourly cost for staff at the following hourly rates, subject to an additional fringe rate of 26.35% for Police Personnel and 27.25% for Deputy Sheriffs:

**Police Personnel:**
Sergeant –
pay rate $78.38 + $20.65 fringe + $3.00 meal** =
$102.03/hr.
overtime rate $117.57 + $30.98 fringe + $3.00 meal** =
$151.55 p/hr.

**Sheriff's Office Personnel:**
Sheriff's Deputy I –
pay rate $40.81 + $11.12 fringe + $3.00 meal** =
$54.93/hr.
overtime rate $61.22 + $16.68 fringe + $3.00 meal** =
$80.90 p/hr.

Sheriff's Deputy II –
pay rate $49.20 + $13.41 fringe + $3.00 meal** =
$65.61/hr.
overtime rate $73.80 + $20.12 fringe + $3.00 meal** =
$96.92 p/hr.

** The per hour meal is included only if 4 hour tour is utilized.

Titles not listed are not eligible for reimbursement under this task.

TO: Jon Schneider, Deputy County Executive  
Suffolk County Executive's Office

FROM: Robert Oswald, Inspector  
Office of Chief of Support Services  
Suffolk County Police Department

DATE: November 3, 2015

SUBJECT: Resolution Packet for the LIE/HOV Enforcement Program 2015 Grant  
Request Late Starter to be Laid on the Table at the November 17, 2015 General Meeting

Attached please find the following for the New York State Department of Transportation sponsored LIE/HOV Enforcement Program 2015 grant:

- Draft Resolution
- Memorandum of Support
- Grant SCIN Forms
- Request for Introduction of Legislation
- Financial Impact Statement
- Copy of the proposed contract between Suffolk County and the New York State Department of Transportation

Request to have this resolution laid on the table at the November 17, 2015 meeting in order to ensure passage at the December 1 meeting. It is essential that the resolution be passed this year in order to correctly charge back grant costs incurred this year to the grant appropriation.

Electronic copies of this packet are also being forwarded to the Federal and State Aid Claims Unit for review. Electronic copies of the resolution and SCIN forms will be transmitted to CE RESO REVIEW, and one hard copy will be delivered. The original grant contract will be submitted to your office upon approval of the resolution.

If you have any questions concerning this resolution package, please contact Sarah Furey, Senior Grants Analyst, at 852-6042 or Susan Krause, Grants Analyst, at 852-6601.

Thank you for your assistance with this project.

RESOLUTION NO. 2015
TO READJUST, COMPROMISE, AND GRANT
REFUNDS AND CHARGE-BACKS ON REAL
PROPERTY CORRECTION OF ERRORS BY:
COUNTY LEGISLATURE (CONTROL #1015-2015)

WHEREAS, the Director of the Real Property Tax Service Agency, under appropriate sections of
the Real Property Tax Law, will cause to have investigated and a determination made as to whether
those submitted "Correction of Error" items which would amend the assessment and tax rolls shall
be recommended for approval (or recommended for denial) to the Suffolk County Legislature, and

WHEREAS, the County Legislature of the County of Suffolk may cancel assessments, grant
refunds of taxes in case of correction of errors on the assessment and tax rolls, and pursuant to the
provisions of the Real Property Tax Law, and

WHEREAS, the properties represented by the tax item number and/or Suffolk County tax map
number and indicated below have been duly investigated by the Real Property Tax Service Agency,
and the procedures of the Real Property Tax Law having been fully complied with, together with
documentation and amended tax statements placed on file with the County, as submitted by the
appropriate Assessor and/or Receiver of Taxes, then

1. BE IT RESOLVED, that the taxes for the properties represented by the tax item number and/or
Suffolk County Tax Map Number, as shown, for the year or year specified be readjusted or refunded
in full or part in the amount set opposite each such parcel as herein indicated, and

2. BE IT FURTHER RESOLVED, that the amount of such refund, if tax paid or charge-back, be
made to the respective TOWN as provided by law.

_______________________________________________

County Executive of Suffolk County
Date:
DISTINGUISHING FEATURES OF THE CLASS
An employee in this class is involved in the planning, design and administration of transit-oriented development, transportation, and other local community revitalization projects. The incumbent will initiate programs to revitalize and redesign key elements of neighborhoods such as buildings, streets, landscaping, public transportation systems, and public spaces to attract businesses, and create places that are enjoyable to users. Work performed is aimed at enhancing the functionality and aesthetics of infrastructure and improving local social and economic conditions. Does related work as required.

TYPICAL WORK ACTIVITIES
Meets with officials, community representatives, civic groups, and business leaders to discuss goals for community improvement projects;
Conducts visioning and community planning activities for community improvement projects;
Initiates and coordinates community renewal projects;
Develops plans to address transportation issues and improve transportation systems, public areas, and parks as companion measures to upgraded housing and business properties;
Develops ways to improve the economy of a particular area through the design of buildings, parks, and transportation systems and other public spaces;
Identifies ways to maximize the natural resources in an area while reducing the negative impact of development on the local environment;
Reviews proposed plans to ensure the design of buildings, streetscapes, transit systems and public spaces are in line with the goals of the community;

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS
Thorough knowledge of federal, state and local statutes regarding Urban Renewal, transportation, and neighborhood improvement projects; thorough knowledge of the sociological, economic, environmental and legal aspects of administering a community improvement program; good knowledge of investigative techniques involving housing and building codes ability to delegate authority for both professional and clerical duties; ability to establish and maintain effective working relationships with civic leaders, public officials and the general public; physical condition commensurate with the demands of the position.

MINIMUM QUALIFICATIONS
OPEN COMPETITIVE
Graduation from a college with federally-authorized accreditation or registration by NY State with a Bachelor's Degree in Urban Design, Planning, Architecture, Landscape Architecture, Economics, Geography, Environmental Studies, Civil Engineering or a related field plus one (1) year of experience in Urban Planning.

DRAFT
DISTINGUISHING FEATURES OF THE CLASS
An employee in this class will be part of a centralized unit providing support for the County Executive’s Performance Management Program by planning, designing and providing innovative representations of data in a graphical and user-friendly manner, working closely with Business Intelligence Systems Developers and operating departments. The employee will define technical requirements for reports, data extracts, etc., and perform complex data queries using Business Intelligence tools to support enhanced decision-making capabilities. The employee will work collaboratively with BI developers and with all levels of operating departments. Work is performed under the general supervision of a technical supervisor and is reviewed through discussions, observation and review of completed work. Does related work as required.

TYPICAL WORK ACTIVITIES
Serves as a resource person for the use of Business Intelligence (BI) applications including dashboards and portals and for solving user problems;
- Gathers information, defines technical requirements, designs, produces and revises planned or ad hoc reports, data extracts and visual presentations from BI systems and databases;
- Designs and develops solutions to maximize the utilization of features and functionality of Business Intelligence software;
- Works with developers and provides input into the ongoing design, development, and deployment of business intelligence and analytical solutions to improve departmental operations;
- May identify data formats and best methods for conversion;
- Reviews technical design documentation and performs quality assurance testing of BI solutions to ensure the accurate development of reporting solutions;
- Assists in analyzing and documenting data management processes to achieve process efficiency;
- Trains and assists personnel in the use of Business Intelligence solutions;
- Maintains procedural manuals for the BI solutions in use;
- May work with third party BI vendors (e.g. Cognos, Qlik, Tableau, SharePoint, etc.)
- May manage timely flow of business intelligence information to users.

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS
Good knowledge of business intelligence and data warehousing principals; good knowledge of data processing and Business Intelligence hardware and software including capabilities and application; Skill in data modeling and data analysis; Ability to understand and gather complex reporting requirements and develop creative graphical data representations; ability to analyze and solve problems; ability to follow detailed written and oral instructions; ability to establish effective working relationships with others; ability to compile and prepare comprehensive reports and diagrams; ability to express oneself clearly and concisely, both orally and in writing; physical condition commensurate with the demands of the position.

MINIMUM QUALIFICATIONS
OPEN-COMPETITIVE
- (A) Graduation with a Bachelor's Degree in computer science, information systems or a related field from a college with federally-authorized accreditation or registration by NY State, plus one (1) year of reports design and development experience utilizing Business Intelligence and/or data warehouse technology; or,
- (B) Graduation with an Associate's Degree in computer science, information systems or a related field from a college with federally-authorized accreditation or registration by NY State, plus three (3) years of reports design and development experience utilizing Business Intelligence and/or data warehouse technology; or,
- (C) An equivalent combination of education and experience as defined by the limits of A and B.

NOTE: Experience must be with products specifically recognized as Business Intelligence tools. Business Intelligence technologies include, Microsoft PerformancePoint, PowerBI, SQL Server Analysis Services (SSAS), IBM Cognos, SAS Analytics, QlikView, SAP BusinessObjects, Tibco, MicroStrategy, Information Builders WebFOCUS, and Oracle Enterprise Business Intelligence. Data warehouse technologies include Microsoft, Oracle, SAP, IBM, Teradata and EMC.

DISTINGUISHING FEATURES OF THE CLASS
An employee in this class will be part of a centralized unit performing technical work in the design, development, implementation, enhancement and maintenance of countywide business intelligence and data warehouse solutions and systems. The employee will assist in the development of systems and technical strategies in support of the County Executive's Performance Management Program and in the interpretation of data to enable the identification of new or improved operational opportunities and enhanced decision-making capabilities. Work is performed under the general supervision of a technical supervisor and is reviewed through discussions, observation and review of completed work. Does related work as required.

TYPICAL WORK ACTIVITIES
Assists in the development, analysis and application of business intelligence and data warehouse technology solutions in support of the County Executive's Performance Management Program;
Works with operating departments to understand operational systems and data to enable the extraction of data from various sources to be uploaded to data warehouses and made accessible through portals and dashboards;
Uses various database scripting and software programming languages to support the development of Extraction, Transformation and Load (ETL) Routines;
Prepares charts, tables and diagrams and assists in the development of Key Performance Indicators (KPIs) and performance scorecards;
Creates and incorporates performance scorecards into dashboards and portals to allow for tracking and monitoring of staff activities;
Designs and maintains relational and multidimensional data structures including data warehouses and data marts to optimize data collection, distribution, accessibility and analysis;
Uploads data to warehouses from various operational sources and creates dashboards and portals providing users with easy data access and monitoring;
Integrates data sources with Open Data Portal to provide the public with easy access to open data as defined by the County’s open data policy.
Assists users in the use of dashboards and portals;
Performs historical data mining to provide insights to support improved decision making in various operations within the County;
Assists in writing user manuals as well as procedural manuals for other developers regarding technical architecture, system development and implementation.

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS
Thorough knowledge of business intelligence and data warehousing principals and methods including online analytical processing (OLAP) and multidimensional analysis; thorough knowledge of data processing and business intelligence hardware and software including capabilities and application; ability to configure and/or develop complex business intelligence computer programs and databases; ability to analyze and solve problems; ability to follow detailed written and oral instructions; ability to establish effective working relationships with others; ability to compile and prepare comprehensive reports and diagrams; ability to express oneself clearly and concisely, both orally and in writing; physical condition commensurate with the demands of the position.

MINIMUM QUALIFICATIONS
OPEN-COMPETITIVE
Graduation with a Bachelor's Degree in computer science, information systems, engineering or a related field from a college with federally-authorized accreditation or registration by NY State, plus two (2) years of experience utilizing Business Intelligence and/or data warehouse technology to manipulate data and to design and create databases and associated reports.

NOTE: Experience must be with products specifically recognized as Business Intelligence tools. Business Intelligence technologies include, Microsoft PerformancePoint, PowerBI, SQL Server Analysis Services (SSAS), IBM Cognos, SAS Analytics, QlikView, SAP BusinessObjects, Tibco, MicroStrategy, Information Builders WebFOCUS, and Oracle Enterprise Business Intelligence. Data warehouse technologies include Microsoft, Oracle, SAP, IBM, Teradata and EMC.

PROMOTIONAL
Three (3) years of permanent competitive status as a Business Intelligence Applications Analyst.

DISTINGUISHING FEATURES OF THE CLASS
An employee in this class will be part of a centralized unit and will evaluate and recommend business intelligence and data warehouse technology solutions and performs highly complex technical work in the design, development, implementation, enhancement and maintenance of countywide business intelligence and data warehouse solutions and systems in support of the County Executive's Performance Management Program. A position at the senior level is distinguished from a Business Intelligence Systems Developer in that the employee will handle more complex programming, evaluate and analyze proposals for new systems and software and act with greater independence in the development of systems and technical strategies and in the interpretation of data to enable the identification of new or improved operational opportunities and enhanced decision-making capabilities. Work is performed under the general supervision of a technical supervisor and is reviewed through discussions, observation and review of completed work. Does related work as required.

TYPICAL WORK ACTIVITIES
- Evaluates operational needs and makes recommendations for enhanced or additional applications of business intelligence technologies and solutions;
- Refines the overall business intelligence environment to assure optimal system performance and maximize results in attaining programmatic and operational goals;
- May provide technical guidance to lower level developers;
- Develops highly complex business intelligence and data warehouse technology solutions including relational and multidimensional data structures in support of the County Executive's Performance Management Program;
- Uses application servers, logic analyzers and development environment software;
- Works with operating departments to understand operational systems and data and to identify enhanced opportunities;
- Uses various database scripting and software programming languages to support the development of Extraction, Transformation and Load (ETL) Routines;
- Prepares charts, tables and diagrams and develops Key Performance Indicators (KPIs) and performance scorecards;
- Performs historical data mining to provide insights to support improved decision making in various operations within the County.

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS
Thorough knowledge of business intelligence and data warehousing principals and methods including online analytical processing (OLAP) and multidimensional analysis; thorough knowledge of data processing and business intelligence hardware and software including capabilities and application; ability to configure and/or develop moderately complex business intelligence computer programs and databases; ability to analyze and solve problems; ability to follow detailed written and oral instructions; ability to establish effective working relationships with others; ability to compile and prepare comprehensive reports and diagrams; ability to express oneself clearly and concisely, both orally and in writing; physical condition commensurate with the demands of the position.

2015 INTERGOVERNMENTAL RELATIONS
MEMORANDUM OF SUPPORT

TITLE OF BILL: A Resolution amending the Classification and Salary Plan to add new titles: Community Development and Planning Specialist; Business Intelligence Applications Analyst; Business Intelligence Systems Developer; Senior Business Intelligence Systems Developer; Principal Business Intelligence Systems Developer.

PURPOSE OR GENERAL IDEA OF BILL: To add the Community Development and Planning Specialist and the Business Intelligence title series to the Classification and Salary Plan. The Business Intelligence title series has grades similar to the existing Programmer Analyst and Office Systems Analyst titles already in use in the Department of Information Technology Services (Grades 21, 24, 27 and 30.) Business Intelligence titles were developed in concert with the Information Technology Commissioner so that Information Technology Services might have available titles that would provide candidates with the experience deemed necessary to support their data-driven requirements. No positions are created via the Resolution because existing positions in Information Technology Services and the Department of Economic Development and Planning will be earmarked and reclassified as needs develop.

SUMMARY OF SPECIFIC PROVISIONS: This Resolution adds five titles to the Classification and Salary Plan:

- Community Development and Planning Specialist at Grade 21
- Business Intelligence Applications Analyst at Grade 21
- Business Intelligence Systems Developer at Grade 24
- Senior Business Intelligence Systems Developer at Grade 27
- Principal Business Intelligence Systems Developer at Grade 30

JUSTIFICATION: For the Business Intelligence title series, the Information Technology Commissioner has demonstrated a need for support staff with expertise in the utilization of Business Intelligence and/or data warehouse technology. Positions will be placed in Information Technology Services, the Department which is the central repository of County data, and incumbents will work under the direction of the Commissioner of Information Technology Services or his/her designee.

For the Community Development and Planning Specialist, the Department of Economic Development and Planning Specialist has demonstrated a need for support staff with expertise in revitalization efforts, attracting businesses and creating community hubs.

FISCAL IMPACT: There is no anticipated fiscal impact because existing positions with similar or the same salary grades in Information Technology and the Department of Economic Development and Planning will be earmarked or reclassified to the new titles when they become available and as needs arise.
MEMORANDUM

TO: Jon Schneider, Deputy County Executive
FROM: Stephanie Rubino, Assistant Budget Director
DATE: November 9, 2015
RE: New Title Request

A draft of a Resolution to add a new title, Community Development and Planning Specialist and a new title series including Business Intelligence Applications Analyst, Business Intelligence Systems Developer, Senior Business Intelligence Systems Developer, Principal Business Intelligence Systems Developer and Community Development and Planning Specialist to the Classification and Salary Plan is attached. There are currently no titles available that would be guaranteed to provide candidates with the specific experience needed in revitalization efforts, attracting businesses and creating community hubs. In addition, a need has been identified for titles to be used by the Department of Information Technology Services that would be guaranteed to provide candidates with specific experience in Business Intelligence-related technology and therefore able to serve in support of the County Executive’s Performance Management Program.

Please initiate this Resolution to amend the Classification and Salary Plan to add these titles. Draft specifications are attached for your reference.

RESOLUTION NO. -2015 ACCEPTING NEW YORK STATE WATER QUALITY IMPROVEMENT PROJECTS ROUND 11 GRANT FUNDS, AMENDING THE ADOPTED 2015 OPERATING BUDGET TO TRANSFER FUNDS FROM FUND 477 WATER QUALITY PROTECTION AND AMENDING THE 2015 CAPITAL BUDGET AND PROGRAM AND APPROPRIATING FUNDS IN CONNECTION WITH THE CARMANS RIVER FISH LADDER PROJECT (CP 7180.310)

WHEREAS, the Commissioner of the Suffolk County Department of Economic Development and Planning has requested funding for the Carmans River Fish Ladder project; and

WHEREAS, there are available Fund 477 funds within the Reserved Fund Balance for Water Quality related projects to support the appropriation of this project within the 2015 Capital Budget and Program; and

WHEREAS, the Suffolk County Water Quality Protection and Restoration Program Review Committee at its July 26, 2011 meeting, pursuant to Article XII of the SUFFOLK COUNTY CHARTER, has recommended funding this project as an appropriate use of Suffolk County Water Quality Protection and Restoration Program and Land Stewardship Initiative (WQPRP) funds; and

WHEREAS, the New York State Department of Environmental Conservation (NYSDEC) granted Suffolk County $100,000 in funding through the New York State Water Quality Improvement Projects (WQIP) Round 11 grant program; and

WHEREAS, the County is providing a match of no less than twenty-five percent (25%) consisting of in-kind services for the WQIP grant funding and has received NYSDEC Contract C305145 to be executed for this project; and

WHEREAS, the fish ladder project will be accomplished through the combined efforts of the Suffolk County Department of Economic Development and Planning and the Department of Public Works; and

WHEREAS, the Carmans River is one of only four State-designated Wild, Scenic, and Recreational Rivers within New York State, and the River contains State-designated Significant Costal Fish and Wildlife Habitat which includes Upper and Lower Lakes and extends north to NYS Route 25; and

WHEREAS, in accordance with the South Shore Estuary Reserve Comprehensive Management Plan (CMP) and based upon guidance from the Diadromous Fish Work Group, alewife and American eel have been identified as priority diadromous fish species due to their historic presence within the tributaries of the Reserve but currently have limited distribution within the Reserve's tributaries; and

WHEREAS, the project is consistent with the specific recommendation of SSER CMP to "restore diadromous fish populations in tributaries where necessary habitat conditions
exist or can be created" in accordance with the requirements of Article XII of the SUFFOLK COUNTY CHARTER; and

WHEREAS, Upper and Lower Lake Dams remain as barriers to current fish passage and installing a fish ladder at Lower Lake Dam will move migratory fish safely and effectively across the stream barrier at Lower Lake Dam while protecting public welfare with regards to flooding and existing infrastructure; and

WHEREAS, a complementary project that is currently being conducted by the Town of Brookhaven will install a fish ladder at Upper Lake Dam to allow fish passage beyond the dam into the upper reaches of the river; and

WHEREAS, the County has applied to extend, a New York State Department of State Clean Water/Clean Air Bond Act Grant for this project in the amount of $252,000 pursuant to Suffolk County Resolution No. 201-2013 and NYSDOS Contract C006596; and

WHEREAS, the WQPRP funding requested is match for the New York State grant for this project pursuant to NYS DOS executed Contract C006596; and

WHEREAS, all the initial engineering design work, including the submission of all required permits for the project, will be completed by the contractor, GEI Consultants, Inc., retained by the County pursuant to RFP # 12022; and

WHEREAS, pursuant to the State Environmental Quality Review Act, N.Y. Environmental Conservation Law Article, 8 ("SEQRA"), and Chapter 450 of the Suffolk County Code, the subject project is required to undergo an appropriate SEQRA review; and

WHEREAS, the final design plans for the fish ladder will be submitted to the Suffolk County Council on Environmental Quality (CEQ) for review and recommendation under SEQRA; and

WHEREAS, Resolution No. 471-1994, as revised by Resolution No. 461-2006, has established a priority ranking system, implemented in the 2015 Adopted Capital Budget and Program, as the basis for funding capital projects such as this project; and

WHEREAS, sufficient funds have not yet been included within the 2015 Capital Budget and Program and pursuant to the Suffolk County Charter, Section C4-13, an offsetting authorization is not required on amendments which are financed in an amount of at least fifty percent (50%) by Federal and/or State Aid; and

WHEREAS, the County must in the first instance fund the entire cost of the project and will subsequently be reimbursed for the State share of the project; now, therefore be it

1st RESOLVED, that it is hereby determined that this project, with a priority ranking of fifty five (55) is eligible for approval in accordance with the provisions of Resolution No. 471-1994, as revised by Resolution No. 461-2006; and be it further

2nd RESOLVED, that sufficient funds exist within Fund 477’s Water Quality Reserve Fund Balance component to cover the cost of said transfer; and be it further
3rd RESOLVED, that the County Treasurer and the County Comptroller are hereby authorized and directed to accept State funding in the amount of $100,000 into Capital Project 7180.310; and be it further

4th RESOLVED, that the Adopted 2015 Operating Budget be and hereby is amended and that the interfund transfer be and hereby is appropriated from Fund 477 Reserve Fund Balance as follows:

8th RESOLVED, that the interfund revenues in the amount of $200,000 be and hereby is appropriated as follows:
Project Number 525-CAP-7180.310
JC 50 Project Title Carmans River Fish Ladder
Amount $200,000

and be it further

9th RESOLVED, that the County Treasurer and the County Comptroller are hereby authorized and directed to accept State funding in the amount of $100,000 into Capital Project 7180.310; and be it further

10th RESOLVED, that the County Treasurer and County Comptroller are hereby authorized and directed to accept these interfund revenues and effectuate these interfund transfers, including the associated cash transfers to finance this capital project; and be it further

11th RESOLVED, that the County Treasurer and County Comptroller are hereby authorized and directed to advance funding to finance this capital project; and be it further

12th RESOLVED, that the Department of Economic Development and Planning will be the lead agency in overseeing the performance of this project and will coordinate with the Department of Public Works in communicating with the State agencies to ensure compliance and that all associated aid is captured; and be it further

13th RESOLVED, that the County Legislature hereby authorizes the County Executive, or his designee, to execute the standard agreement for reimbursement with the NYSDEC and any and all contract documents related to this project, including an access or other agreement with the Town of Brookhaven if necessary to complete the project, on behalf of the County of Suffolk providing for the municipality's participation in the above referenced project, and to execute any and all related documents necessary to effectuate or otherwise give full force and effect to this transaction, the execution of which by the County Executive and/or his designee shall be conclusive evidence of the approval, the authorization and the direction thereof of this Legislature; and be it further

14th RESOLVED, that in order to protect the environment, the County shall not commence construction of the Carmans River Fish Ladder Project or physical alteration of the project site prior to completion of an appropriate environmental review as required by SEQRA and Chapter 450 of the Suffolk County Code and adoption of any required SEQRA determination or findings by this Legislature; and be it further

15th RESOLVED, that this Legislature, being the lead agency under the State Environmental Quality Review Act ("SEQRA"), Environmental Conservation Law Article 8, hereby finds and determines that this resolution constitutes a Type II action, pursuant to Section 617.5 (c) (20) and (21) of Title 6 of the NYCRR and within the meaning of Section 8-019 (2) of the New York Environmental Conservation Law as a promulgation of regulations, rules, policies, procedures, and Legislative decisions in connection with continuing agency administration, management and information collection, and the Suffolk County Council on Environmental Quality (CEQ) is hereby directed to circulate any appropriate SEQRA notices of determination of non-applicability or non-significance in accordance with this resolution.

To be completed by the Executive Budget Office
PROCEDURAL RESOLUTION NO. 27 -2015, SETTING LAND ACQUISITION PRIORITIES IN ACCORDANCE WITH “AAA PROGRAM” REQUIREMENTS (2015 - PHASE III)

WHEREAS, Resolution No. 265-2013, codified at § 1070-17 of the SUFFOLK COUNTY CODE, established a new process to govern the County’s land acquisitions; and

WHEREAS, pursuant to § 1070-17 of the SUFFOLK COUNTY CODE, the Division of Planning and Environment is required to periodically provide a report to the Legislature’s Environment, Planning and Agriculture Committee containing all proposed acquisition sites reviewed by the Division and the highest offer price approved for each by the Environmental Trust Review Board, together with scoring and recommendations by the Division as well as an account of the funds expected to be available for acquisitions; and

WHEREAS, the Environment, Planning and Agriculture Committee is empowered to prepare procedural resolutions which sets forth the County’s priorities for acquisition and submit such resolutions to the full Legislature for consideration; and

WHEREAS, the Division of Planning and Environment presented their periodic report to the Environment, Planning and Agriculture Committee on November 9, 2015; now, therefore be it

1st RESOLVED, that this Legislature hereby designates the following parcels as the County’s priority acquisitions pursuant to §1070-17 of the SUFFOLK COUNTY CODE:
