3. Project and Compliance

County Obligations

The County shall furnish to the Town all information required, and obtain any and all permits that permit the County, or its contractor, to install all necessary drainage equipment and facilities that run from Wicks Road along Williams Street to, and discharging into, the Recharge Basin.

The County shall assume all reasonable maintenance of the Recharge Basin for the term of this Agreement upon the completion of the installation of the drainage equipment and facilities. Reasonable maintenance shall mean the removal of debris and silt within the Recharge Basin fence line, as needed, and maintenance of the drainage pipes and structures installed by the County.

The County shall make certain improvements to the Recharge Basin, as more fully described and in accordance with the site map and construction plan dated October 31, 2011, which is attached hereto and incorporated into this Agreement as Exhibit D.

The County shall, upon review and approval of hydraulic calculations prepared by the Town or its agents, allow the Town to connect existing or future drainage facilities to the proposed drainage system that will discharge to the Williams Street Recharge Basin. These calculations shall clearly indicate that stormwater flows contributed by any additional drainage facilities into the Williams Street/Wicks Road Drainage System do not exceed the hydraulic capacity of this system when subjected to a ten-year design storm event (five (5) inches over 24 hours). Any additional drainage facilities installed by the Town and connected to the Williams Street/Wicks Road Drainage System shall be maintained by and at the cost to the Town.
Town Obligations

The Town shall permit and allow the County to have unrestricted access to Williams Street to enable the County to install drainage equipment and facilities within Williams Street to be discharged into the Recharge Basin; and to enable the County to maintain such drainage equipment and facilities for the term of this Agreement. Nothing contained herein shall deny or restrict the Town's right to access to the Recharge Basin or limit the Town's ownership interest therein nor shall anything set forth in this agreement limit the Town's interest in or right of use of Williams Street.

The Town shall allow the drainage equipment and facilities installed within Williams Street, and the discharge of the runoff into the Recharge Basin, to remain and continue for the term of this Agreement, unless terminated pursuant to paragraph 5 below or as otherwise provided for in this agreement. Notwithstanding any provision of this agreement under no circumstance shall the County be required to remove any piping or structures installed by the County.

The Town shall not unreasonably withhold the issuance of any and all permits, licenses and other approvals, necessary for the County to install drainage equipment and facilities running from Wicks Road, along Williams Street, to the Recharge Basin and shall assist the County in obtaining any and all necessary permits, licenses and other approvals.

4. Insurance

The County shall maintain in full force and effect, throughout the term of this Agreement: 1) General Liability Insurance with liability limits of TWO MILLION DOLLARS ($2,000,000) per occurrence for bodily injury and TWO MILLION DOLLARS ($2,000,000) per occurrence for property damage; 2) Automobile Bodily Injury and Property Damage Insurance with limits of TWO MILLION DOLLARS ($2,000,000) per occurrence; 3) Contractor's Equipment Insurance in the amount of TWO MILLION DOLLARS ($2,000,000); 4) Worker's Compensation and New York State Disability Insurance for all of its employees, agents and sub-contractors, in accordance with New York State Law. Since the County has a self-insurance program under which it acts as a self-insurer for all of the above-required coverage, the County shall provide self-funded coverage, declaration pages, and certificates or other evidence of such self-insurance in lieu of insurance issued by insurance companies, prior to the execution of this Agreement. Said certificate shall: 1) name the Town as additional insured by endorsement and on the declaration page; 2) provide for the Town as Certificate Holder; and 3) further provide that the Certificate Holder shall be notified thirty (30) days prior to any cancellation, nonrenewal or material change of action.

The Town shall maintain in full force and effect, throughout the term of this Agreement: 1)
General Liability Insurance with liability limits of TWO MILLION DOLLARS ($2,000,000) per occurrence; 2) Automobile Bodily Injury and Property Damage Insurance with limits of TWO MILLION DOLLARS ($2,000,000) per occurrence for bodily injury and TWO MILLION DOLLARS ($2,000,000) per occurrence for property damage; 3) Contractor's Equipment Insurance in the amount of TWO MILLION DOLLARS ($2,000,000); 4) Worker's Compensation and New York State Disability Insurance for all of its employees, agents and sub-contractors, in accordance with New York State Law. The Town shall furnish to the County, prior to the execution of this agreement, declarations from each policy of insurance. If the Town has a self-insurance program under which it acts as a self-insurer for any or all of the above-required coverage, the Town shall provide self-funded coverage, declaration pages, and certificates or other evidence of such self-insurance in lieu of insurance issued by insurance companies, prior to the execution of this Agreement. Said certificate shall: 1) name the County as additional insured by endorsement and on the declaration page; 2) provide for the County as Certificate Holder; and 3) further provide that the Certificate Holder shall be notified thirty (30) days prior to any cancellation, non-renewal or material change of action.

5. Termination

This Agreement may be terminated in whole or in part in writing by the County or the Town, in the event of failure by the Town or the County to fulfill its obligations, respectively, under this Agreement. The County or the Town shall have the right to terminate this Agreement at any time and for any reason deemed to be in their best interest, provided that no such termination shall be effective unless the other party is given thirty (30) calendar days written notice of termination. Upon the giving of such notice by either party, the County shall promptly discontinue and cease and desist from performing any maintenance to the Recharge Basin, piping and structures installed by the County. Notwithstanding any provision of this agreement under no circumstance shall the County be required to remove any piping or structures installed by the County.

Dr. Kenneth Cunnell
Suffolk County
100 Veterans Memorial Highway
Hauppauge, NY 11788-0099

Dear Dr. Cunnell:

Congratulations on your recent award. In establishing financial assistance programs, Congress linked the receipt of Federal funding to compliance with Federal civil rights laws. The Office for Civil Rights (OCR), Office of Justice Programs (OJP), U.S. Department of Justice is responsible for ensuring that recipients of financial aid from OJP, its component offices and bureaus, the Office on Violence Against Women (OVW), and the Office of Community Oriented Policing Services (COPS) comply with applicable Federal civil rights statutes and regulations. We at OCR are available to help you and your organization meet the civil rights requirements that come with Justice Department funding.

Ensuring Access to Federally Assisted Programs

As you know, Federal laws prohibit recipients of financial assistance from discriminating on the basis of race, color, national origin, religion, sex, or disability in funded programs or activities, not only in respect to employment practices but also in the delivery of services or benefits. Federal law also prohibits funded programs or activities from discriminating on the basis of age in the delivery of services or benefits.

Providing Services to Limited English Proficiency (LEP) Individuals

In accordance with Department of Justice Guidance pertaining to Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, recipients of Federal financial assistance must take reasonable steps to provide meaningful access to their programs and activities for persons with limited English proficiency (LEP). For more information on the civil rights responsibilities that recipients have in providing language services to LEP individuals, please see the website at http://www.lep.gov.

Ensuring Equal Treatment for Faith-Based Organizations

The Department of Justice has published a regulation specifically pertaining to the funding of faith-based organizations. In general, the regulation, Participation in Justice Department Programs by Religious Organizations; Providing for Equal Treatment of all Justice Department Program Participants, and known as the Equal Treatment Regulation 28 C.F.R. part 38, requires State Administering Agencies to treat these organizations the same as any other applicant or recipient. The regulation prohibits State Administering Agencies from making award or grant administration decisions on the basis of an organization’s religious character or affiliation, religious name, or the religious composition of its board of directors.

The regulation also prohibits faith-based organizations from using financial assistance from the Department of Justice to fund inherently religious activities. While faith-based organizations can engage in non-funded inherently religious activities, they must be held separately from the Department of Justice funded program, and customers or beneficiaries cannot be compelled to participate in them. The Equal Treatment Regulation also makes clear that organizations participating in programs funded by the Department of Justice are not permitted to discriminate in the provision of services on the basis of a beneficiary’s religion. For more information on the regulation, please see OCR’s website at http://www.ojp.usdoj.gov/ocr/etbo.htm.

State Administering Agencies and faith-based organizations should also note that the Safe Streets Act, as amended; the Victims of Crime Act, as amended; and the Juvenile Justice and Delinquency Prevention Act, as amended, contain prohibitions against discrimination on the basis of religion in employment. Despite these nondiscrimination provisions, the Justice Department has concluded that the Religious Freedom Restoration Act (RFRA) is reasonably construed, on a case-by-case basis, to require that its funding agencies permit faith-based organizations applying for funding under the applicable program statutes both to receive DOJ funds and to continue considering religion when hiring staff, even if the statute that authorizes the funding program generally forbids considering religion in employment decisions by grantees.

Questions about the regulation or the application of RFRA to the statutes that prohibit discrimination in employment may be directed to this Office.
Enforcing Civil Rights Laws

All recipients of Federal financial assistance, regardless of the particular funding source, the amount of the grant award, or the number of employees in the workforce, are subject to the prohibitions against unlawful discrimination. Accordingly, OCR investigates recipients that are the subject of discrimination complaints from both individuals and groups. In addition, based on regulatory criteria, OCR selects a number of recipients each year for compliance reviews, audits that require recipients to submit data showing that they are providing services equitably to all segments of their service population and that their employment practices meet equal employment opportunity standards.

Complying with the Safe Streets Act or Program Requirements

In addition to these general prohibitions, an organization which is a recipient of financial assistance subject to the nondiscrimination provisions of the Omnibus Crime Control and Safe Streets Act (Safe Streets Act) of 1968, 42 U.S.C. § 3799d(c), or other Federal grant program requirements, must meet two additional requirements: (1) complying with Federal regulations pertaining to the development of an Equal Employment Opportunity Plan (EEOP), 28 C.F.R. § 42.301-308, and (2) submitting to OCR Findings of Discrimination (see 28 C.F.R. §§ 42.205(5) or 31.202(5)).

1) Meeting the EEOP Requirement

In accordance with Federal regulations, Assurance No. 6 in the Standard Assurances, COPS Assurance No. 8.B, or certain Federal grant program requirements, your organization must comply with the following EEOP reporting requirements:

If your organization has received an award for $500,000 or more and has 50 or more employees (counting both full- and part-time employees but excluding political appointees), then it has to prepare an EEOP and submit it to OCR for review within 60 days from the date of this letter. For assistance in developing an EEOP, please consult OCR's website at http://www.ojp.usdoj.gov/ocr/eep.htm. You may also request technical assistance from an EEOP specialist at OCR by dialing (202) 616-3208.

If your organization received an award between $25,000 and $500,000 and has 50 or more employees, your organization still has to prepare an EEOP, but it does not have to submit the EEOP to OCR for review. Instead, your organization has to maintain the EEOP on file and make it available for review on request. In addition, your organization has to complete Section B of the Certification Form and return it to OCR. The Certification Form can be found at http://www.ojp.usdoj.gov/ocr/eep.htm.

If your organization received an award for less than $25,000; or if your organization has less than 50 employees, regardless of the amount of the award; or if your organization is a medical institution, educational institution, nonprofit organization or Indian tribe, then your organization is exempt from the EEOP requirement. However, your organization must complete Section A of the Certification Form and return it to OCR. The Certification Form can be found at http://www.ojp.usdoj.gov/ocr/eep.htm.

2) Submitting Findings of Discrimination

In the event a Federal or State court or Federal or State administrative agency makes an adverse finding of discrimination against your organization after a due process hearing, on the ground of race, color, religion, national origin, or sex, your organization must submit a copy of the finding to OCR for review.

Ensuring the Compliance of Subrecipients

If your organization makes subawards to other agencies, you are responsible for ensuring that subrecipients also comply with all of the applicable Federal civil rights laws, including the requirements pertaining to developing and submitting an EEOP, reporting Findings of Discrimination, and providing language services to LEP persons. State agencies that make subawards must have in place standard grant assurances and review procedures to demonstrate that they are effectively monitoring the civil rights compliance of subrecipients.

If we can assist you in any way in fulfilling your civil rights responsibilities as a recipient of Federal funding, please call OCR at (202) 307-0690 or visit our website at http://www.ojp.usdoj.gov/ocr/.

Sincerely,

SPECIAL CONDITIONS

8. Pursuant to Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving," 74 Fed. Reg. 51225 (October 1, 2009), the Department encourages recipients and sub recipients to adopt and enforce policies banning employees from text messaging while driving any vehicle during the course of performing work funded by this grant, and to establish workplace safety policies and conduct education, awareness, and other outreach to decrease crashes caused by distracted drivers.

9. The recipient agrees to comply with applicable requirements regarding Central Contractor Registration (CCR) and applicable restrictions on subawards to first-tier subrecipients that do not acquire and provide a Data Universal Numbering System (DUNS) number. The details of recipient obligations are posted on the Office of Justice Programs web site at http://www.ojp.gov/funding/ccr.htm (Award condition: Central Contractor Registration and Universal Identifier Requirements), and are incorporated by reference here. This special condition does not apply to an award to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

10. The recipient agrees to comply with applicable requirements to report first-tier subawards of $25,000 or more and, in certain circumstances, to report the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients of award funds. Such data will be submitted to the FFATA Subaward Reporting System (FSRS). The details of recipient obligations, which derive from the Federal Funding Accountability and Transparency Act of 2006 (FFATA), are posted on the Office of Justice Programs web site at http://www.ojp.gov/funding/ffata.htm (Award condition: Reporting Subawards and Executive Compensation), and are incorporated by reference here. This condition, and its reporting requirement does not apply to grant awards made to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

11. The recipient is required to establish a trust fund account. (The trust fund may or may not be an interest-bearing account.) The fund, including any interest, may not be used to pay debts or expenses incurred by other activities beyond the scope of the Edward Byrne Memorial Justice Assistance Grant Program (JAG). The recipient also agrees to obligate and expend the grant funds in the trust fund (including any interest earned) during the period of the grant. Grant funds (including any interest earned) not expended by the end of the grant period must be returned to the Bureau of Justice Assistance no later than 90 days after the end of the grant period, along with the final submission of the Federal Financial Report (SF-425).

12. To avoid duplicating existing networks or IT systems in any initiatives funded by BJA for law enforcement information sharing systems which involve interstate connectivity between jurisdictions, such systems shall employ, to the extent possible, existing networks as the communication backbone to achieve interstate connectivity, unless the grantee can demonstrate to the satisfaction of BJA that this requirement would not be cost effective or would impair the functionality of an existing or proposed IT system.

13. To support public safety and justice information sharing, OJP requires the grantee to use the National Information Exchange Model (NIEM) specifications and guidelines for this particular grant. Grantee shall publish and make available without restriction all schemas generated as a result of this grant to the component registry as specified in the guidelines. For more information on compliance with this special condition, visit http://www.niem.gov/implementationguide.php.
SPECIAL CONDITIONS

14. The grantee agrees to assist BJA in complying with the National Environmental Policy Act (NEPA), the National Historic Preservation Act, and other related federal environmental impact analyses requirements in the use of these grant funds, either directly by the grantee or by a subgrantee. Accordingly, the grantee agrees to first determine if any of the following activities will be funded by the grant, prior to obligating funds for any of these purposes. If it is determined that any of the following activities will be funded by the grant, the grantee agrees to contact BJA.

The grantee understands that this special condition applies to its following new activities whether or not they are being specifically funded with these grant funds. That is, as long as the activity is being conducted by the grantee, a subgrantee, or any third party and the activity needs to be undertaken in order to use these grant funds, this special condition must first be met. The activities covered by this special condition are:

a. New construction;

b. Minor renovation or remodeling of a property located in an environmentally or historically sensitive area, including properties located within a 100-year flood plain, a wetland, or habitat for endangered species, or a property listed on or eligible for listing on the National Register of Historic Places;

c. A renovation, lease, or any proposed use of a building or facility that will either (a) result in a change in its basic prior use or (b) significantly change its size;

d. Implementation of a new program involving the use of chemicals other than chemicals that are (a) purchased as an incidental component of a funded activity and (b) traditionally used, for example, in office, household, recreational, or education environments; and

e. Implementation of a program relating to clandestine methamphetamine laboratory operations, including the identification, seizure, or closure of clandestine methamphetamine laboratories.

The grantee understands and agrees that complying with NEPA may require the preparation of an Environmental Assessment and/or an Environmental Impact Statement, as directed by BJA. The grantee further understands and agrees to the requirements for implementation of a Mitigation Plan, as detailed at http://www.ojp.usdoj.gov/BJA/resource/nepa.htm, for programs relating to methamphetamine laboratory operations.

Application of This Special Condition to Grantee's Existing Programs or Activities: For any of the grantee’s or its subgrantees’ existing programs or activities that will be funded by these grant funds, the grantee, upon specific request from BJA, agrees to cooperate with BJA in any preparation by BJA of a national or program environmental assessment of that funded program or activity.

15. The recipient agrees that any information technology system funded or supported by OJP funds will comply with 28 C.F.R. Part 23, Criminal Intelligence Systems Operating Policies, if OJP determines this regulation to be applicable. Should OJP determine 28 C.F.R. Part 23 to be applicable, OJP may, at its discretion, perform audits of the system, as per the regulation. Should any violation of 28 C.F.R. Part 23 occur, the recipient may be fined as per 42 U.S.C. 3789g(c)-(d). Recipient may not satisfy such a fine with federal funds.

16. The recipient agrees to ensure that the State Information Technology Point of Contact receives written notification regarding any information technology project funded by this grant during the obligation and expenditure period. This is to facilitate communication among local and state governmental entities regarding various information technology projects being conducted with these grant funds. In addition, the recipient agrees to maintain an administrative file documenting the meeting of this requirement. For a list of State Information Technology Points of Contact, go to http://www.it.ojp.gov/default.aspx?area=policyAndPractice&page=1046.
SPECIAL CONDITIONS

17. The grantee agrees to comply with the applicable requirements of 28 C.F.R. Part 38, the Department of Justice regulation governing "Equal Treatment for Faith Based Organizations" (the "Equal Treatment Regulation"). The Equal Treatment Regulation provides in part that Department of Justice grant awards of direct funding may not be used to fund any inherently religious activities, such as worship, religious instruction, or proselytization. Recipients of direct grants may still engage in inherently religious activities, but such activities must be separate in time or place from the Department of Justice funded program, and participation in such activities by individuals receiving services from the grantee or a sub-grantee must be voluntary. The Equal Treatment Regulation also makes clear that organizations participating in programs directly funded by the Department of Justice are not permitted to discriminate in the provision of services on the basis of a beneficiary's religion. Notwithstanding any other special condition of this award, faith-based organizations may, in some circumstances, consider religion as a basis for employment. See http://www.ojp.gov/about/oci/faith.htm.

18. The recipient acknowledges that all programs funded through subawards, whether at the state or local levels, must conform to the grant program requirements as stated in BJA program guidance.

19. Grantee agrees to comply with the requirements of 28 C.F.R. Part 46 and all Office of Justice Programs policies and procedures regarding the protection of human research subjects, including obtaining of Institutional Review Board approval, if appropriate, and subject informed consent.

20. Grantee agrees to comply with all confidentiality requirements of 42 U.S.C. section 3789g and 28 C.F.R. Part 22 that are applicable to collection, use, and revelation of data or information. Grantee further agrees, as a condition of grant approval, to submit a Privacy Certificate that is in accord with requirements of 28 C.F.R. Part 22 and, in particular, section 22.23.

21. The recipient agrees that funds received under this award will not be used to supplant State or local funds, but will be used to increase the amounts of such funds that would, in the absence of Federal funds, be made available for law enforcement activities.

22. Award recipients must submit quarterly a Federal Financial Report (SF-425) and annual performance reports through GMS (http://grants.ojp.usdoj.gov). Consistent with the Department's responsibilities under the Government Performance and Results Act (GPRA), P.L. 103-62, applicants who receive funding under this solicitation must provide data that measure the results of their work. Therefore, quarterly performance metrics reports must be submitted through BJA's Performance Measurement Tool (PMT) website (www.bjaperformance.metrics.org). For more detailed information on reporting and other JAG requirements, refer to the JAG reporting requirements webpage. Failure to submit required JAG reports by established deadlines may result in the freezing of grant funds and future High Risk designation.

23. The recipient agrees to monitor subawards under this JAG award in accordance with all applicable statutes, regulations, OMB circulars, and guidelines, including the OJP Financial Guide, and to include the applicable conditions of this award in any subaward. The recipient is responsible for oversight of subrecipient spending and monitoring of specific outcomes and benefits attributable to use of JAG funds by subrecipients. The recipient agrees to submit, upon request, documentation of its policies and procedures for monitoring of subawards under this award.

24. Award recipients must verify Point of Contact (POC), Financial Point of Contact (FPOC), and Authorized Representative contact information in GMS, including telephone number and e-mail address. If any information is incorrect or has changed, a Grant Adjustment Notice (GAN) must be submitted via the Grants Management System (GMS) to document changes.
SPECIAL CONDITIONS

25. The grantee agrees that within 120 days of award acceptance, each member of a law enforcement task force funded with these funds who is a task force commander, agency executive, task force officer, or other task force member of equivalent rank, will complete required online (internet-based) task force training. The training is provided free of charge online through BJA’s Center for Task Force Integrity and Leadership (www.ctfl.org). All current and new task force members are required to complete this training once during the life of the award, or once every four years if multiple awards include this requirement. This training addresses task force effectiveness as well as other key issues including privacy and civil liberties/rights, task force performance measurement, personnel selection, and task force oversight and accountability. Additional information is available regarding this required training and access methods via BJA’s web site and the Center for Task Force Integrity and Leadership (www.ctfl.org).

26. Recipient may not expend or drawdown funds until the Bureau of Justice Assistance, Office of Justice Programs has reviewed and approved the Abstract portion of the application and has issued a Grant Adjustment Notice (GAN) informing the recipient of the approval.

Accordingly, prior to obligating funds for any of the specified activities, the grantee must first determine if any of the specified activities will be funded by the grant.

The specified activities requiring environmental analysis are:

a. New construction;

Any renovation or remodeling of a property located in an environmentally or historically sensitive area, including properties located within a 100-year flood plain, a wetland, or habitat for endangered species, or a property listed on or eligible for listing on the National Register of Historic Places;

e. Implementation of a program relating to clandestine methamphetamine laboratory operations, including the identification, seizure, or closure of clandestine methamphetamine laboratories.

Complying with NEPA may require the preparation of an Environmental Assessment and/or an Environmental Impact Statement, as directed by BJA. Further, for programs relating to methamphetamine laboratory operations, the preparation of a detailed Mitigation Plan will be required. For more information about Mitigation Plan requirements, please see http://www.ojp.usdoj.gov/BJA/resource/nepa.html.

Please be sure to carefully review the grant conditions on your award document, as it may contain more specific information about environmental compliance.

RE: INTRODUCTORY RESOLUTION APPROVING THE PURCHASE OF VEHICLES AND APPROPRIATING FUNDS IN CONNECTION WITH THE PURCHASE OF HEAVY DUTY EQUIPMENT FOR COUNTY PARKS (CP 7011)

Enclosed please find a draft resolution and supporting documentation relative to the above-captioned. An e-mail version of this resolution was sent to CE RESO REVIEW under the file name “RESO-PKS-Appropriating Funds for Heavy Duty Equipment in County Parks – CP 7011.doc”.

The Parks Department is responsible for maintaining, managing and securing over 46,000 acres of land, 95 park facilities and over 200 historic structures. These responsibilities are constantly being expanded as the County continues to acquire additional park acreage. The Department’s equipment needs to be more efficient with fewer employees.

To this end, the Parks Department has determined that we need the following types of vehicles and heavy equipment in order to fulfill our duty to properly maintain County Parks: one (1) additional rear loading refuse collection truck ($130,000) and two (2) replacement tractor/mowers ($70,000).

The addition of the rear loading refuse collection truck will reduce costs by reducing the Department’s reliance on private garbage carting services.

Should you require anything further, please contact my office at 4-4984.

SUBJECT: Capital Project # 1729 - DISASTER RECOVERY

We are forwarding a draft resolution requesting appropriation of $ 300,000 for the year 2012. The resolution amount represents the monies that will be provided by Capital Project # 1729. An email version of the resolution was sent to CE RESO saved under the title “Reso-ITS-CP-1729”.

Program Description: Funding for this project will be used to purchase additional equipment for the upgrade of the Riverhead DR Power Room, upgrades of the UPS units, replacement of UPS batteries, additional PDU’s and additional moves to the Riverhead DR for other County department agencies. As well as server consolidation and virtualization to efficiently use the system resources, Storage Area Network (SAN) expansion to accommodate real time data replication at a remote location, consolidated management and monitoring of all systems, and hardware support to access remote systems. In addition to additional Netscaler upgrades, Netscaler Load Hardware, Blade Server/Oracle, Oracle Licenses and Redundant GBIC Dark Fiber. The plan will provide restoration of critical applications services and data for all County departments in the event of an emergency.

Operating Budget Impact: Savings will be realized by both the elimination of duplicative services, and through a coordination of systems based on the County’s overall priorities, not those of individual departments.

Re:  Flight 800 Crew Memorial

Dear Al:

This letter will serve as confirmation of our telephone conversation regarding relocation of the TWA Flight 800 Crew Memorial. The TWA Museum looks forward to the honor of housing the Crew Memorial. The TWA Museum is located at the Downtown Kansas City Airport at 10 Richards Road, Kansas City, MO 64116. This building has historical significance as it was originally built for T&WA in 1930.

It is our understanding that the employees at JFK are relinquishing custody and care of the Memorial to the TWA Museum. We are proud that the Museum is staffed by an all-volunteer group comprised of former TWA employees. I can assure you the Memorial holds special meaning to everyone at the Museum, as well as all former TWA employees.

The Memorial will be picked up and driven to Kansas City by Capts. Bill Kirschner and Mike McFarland.

Thank you for your assistance in making sure the Memorial will have a good, safe home.

Sincerely,

Pamela R. Blaschum

SUBJECT: Request for Introductory Resolution: Increase Fleet - Forklifts

I respectfully submit the attached documents requesting an increase in the department’s fleet by two (2).

- (1) New Forklift - 100% grant funded  
  FRES recently leased a warehouse for the storage of its vast domestic preparedness equipment. A forklift is required to properly arrange equipment on a continuing basis. The purchase of a new forklift as well as the cost of the warehouse lease is 100% grant funded through the Urban Area Security Initiative (UASI) grant program

MEMORANDUM

TO: Jon Schneider, Deputy County Executive
FROM: Gilbert Anderson, P.E., Commissioner
SUBJECT: A Draft Resolution Transferring Assessment Stabilization Reserve Funds to the Capital Fund, Amending the 2012 Operating Budget, Amending the 2012 Capital Budget and Program, and Appropriating Funds for a SCADA (Surveillance, Control and Data Acquisition) System for Sanitary Facilities in Suffolk County Sewer Districts (CP 8165)

DATE: May 21, 2012

Attached is a draft resolution and appropriate forms with backup for a SCADA (Surveillance, Control and Data Acquisition) System for the various Suffolk County Sewer Districts filed as Reso DPW CP 8165 SCADA (Surveillance, Control and Data Acquisition) System 5-21-12 and backup filed as Reso-Backup DPW CP 8165 SCADA (Surveillance, Control and Data Acquisition) System 5-21-12. The project has been included in the Adopted 2012 Capital Budget and Program and has been indicated as requiring sewer district funds for its implementation. It is our understanding that sufficient funds are available in the Assessment Stabilization Reserve Fund in 2012 and we have, therefore, prepared the draft resolution with that source of funding.

The SCADA system will assist in providing added efficiency to our operation, maintenance, and response to pump stations and also to those treatment plants that do not have 24 hour coverage. A summary sheet describing that basic concept is attached.

We request this resolution be laid on the table at your earliest convenience.

SCADA (Surveillance Control and Data Acquisition) System
Summary

Suffolk County DPW, Division of Sanitation, operates and maintains twenty-two Sewage Treatment Plants and nearly 90 pumping stations. The facilities are located between Westhampton, Huntington, and Babylon. A need exists to incorporate real time monitoring with these facilities to efficiently utilize staff.

The SCADA (Surveillance Control and Data Acquisition) system for Suffolk County will utilize a high-speed communication system to monitor pumping stations and plant operation in real time. The pump station system will monitor the level of the well, the operation and condition of the pumps, alarm conditions, the power supply and generator operation. The plant system will monitor plant flow, tank levels, equipment operation, power supply and alarm conditions. This computerized monitoring system will be a graphical animated system that will mimic the operation of the pumping station and plant equipment. The screen image will portray the filling of the well or tank and the operation of the pumps and/or equipment. Alarm conditions will change the color of the icons from green to red to attract attention to the problem. When an alarm condition occurs, we will be able to utilize surveillance cameras via telephone wiring to observe the problem and insure that severity or criticality of the problem. Additionally, the system will maintain a computerized logging of all points monitored allowing to investigate the history of all these conditions.

Subject: Capital Project 1132

I am requesting a resolution to appropriate funding for Capital Project 1132.5XX. These funds will be used to purchase equipment as updated in our 2012 Capital Budget for $210,000. The application of technology in Forensic Science is constantly changing and advancing. This is the primary reason the Capital Project must be flexible enough for use to re-prioritize our requests to keep pace with these advances.

MEMORANDUM

TO: Diane E. Weyer

FROM: Walter Dawydiak, PE, Acting Director
   Division of Environmental Quality

DATE: May 18, 2012

SUBJECT: Request for Introductory Resolution for 2012 Capital Program 8224

I request drafting of an Introductory Resolution for the 2012 Capital Project 8224 – Public Health Related Harmful Algal Blooms (HABs). The resolution would appropriate $25,000 in the 2012 adopted Capital Budget for continuing to assess the cause, effects, dynamics, and distribution of Toxic Cyanobacteria and Cochlodinium polykrikoides (Red Tide) in the County’s marine and fresh surface waters.

Toxic cyanobacteria blooms represent a serious threat to aquatic ecosystems. Globally, the frequency and intensity of toxic cyanobacteria blooms have increased greatly during the past decade and toxin concentrations during many blooms often surpass the World Health Organization (WHO) safe drinking water and recreational water limit. In Suffolk County, fifteen out of 20 lakes previously sampled had levels of microcystin exceeding levels permissible for drinking water according to the WHO. Fortunately, Suffolk County residents use these systems for recreation, not potable water.

Investigations will continue to determine factors promoting toxic cyanobacteria and cyanotoxins in Suffolk County’s waters, as well as assess potential remediation factors.

Red Tide caused by Cochlodinium polykrikoides has occurred throughout the Peconic Estuary and in portions of Shinnecock Bay for the past six years. Disturbingly, it was observed in Great South Bay for the first time in 2011. The organism is not known to cause health effects in humans, but has been found to be lethal to juvenile species of fish and shellfish which is of particular concern in the Peconic Estuary where huge scallop restoration efforts have been ongoing, as well as Suffolk County’s newly established aquaculture lease program.

Until 2006 I devoted a great deal of my time to successfully lobby locally, in Albany and in Washington to prevent the 106th ANG wing at Gabreski Airport from being included on the BRAC commission list of closures or realignments. I am currently focused on the convergent needs of ground water preservation, bay waters restoration, affordable (work force) housing, transportation, overdevelopment, community character and open space preservation.

As president of the GWCoC for 5-1/2 years I took the organization from near bankruptcy to an annualized cash flow in the low 6 figures. Instituted and corrected audit procedures and successfully reorganized the chamber and established functional responsibilities for all board members. Wrote grant proposals and raised money to build (from scratch) a new headquarters and public rest rooms in downtown Westhampton. Increased general membership. The chamber goals (and my strong personal goals) include preserving and maintaining the character and quality of life and the environment that attracts visitors to the area.

Entrepreneur/business owner and manager with an extremely broad knowledge of the Internet, electronic communications, design, pre-press, on-demand printing and publishing industries. A demonstrated leader, founding member and 5-term president of the largest computer users group in Connecticut (peak membership 700+).
Experienced and skilled in most of the currently used desktop publishing, page layout, graphic design and Internet web creation software and paperless document (.pdf – Adobe Acrobat) generation, use and distribution. Web site maintenance and a working knowledge of HTML code and remote site modifications. Excellent interpersonal communications skills and familiar with complex technical presentation and proposal writing.

My wife's family purchased property on Dune Road in Westhampton in 1958 and I've been coming out to the East End with her since 1960. We owned and restored an 1890's Victorian home in Queens over a period of 22 years. We moved permanently to Westhampton in 1999. I was a backpacker, hiker and long distance bicycle rider all of which helped me develop a great appreciation for nature and outdoor activities.

JASON McMUNN
EAST QUOGUE, NEW YORK

Jason McMunn has been a resident of Southampton since 1991 and East Quogue since 1995. In early 1991 Jason became a reserve member of the 106 Rescue Wing as a Security Forces member and started serving as a member of the Quogue Village Police Department, where he now serves as a Police Sergeant. Both positions helped strengthen his ties to the community.

Jason went on to become the Reserve Security Forces Commander at the 106 Rescue Wing from 2001 to 2008. After serving at the 106 Rescue Wing he moved to positions in the Air Force which better serve the community. Jason now serves as an Admissions Liaison Officer and Security Forces Operations Officer with the United States Air Force Academy in Colorado Springs, Colorado.

Jason’s interest and love of flying started in 1994. In 1995 he received his Private Pilots license and has based his flying operations out of Gabreski Airport in Westhampton Beach. Jason’s knowledge of aviation coupled with a need for balancing community concerns with airport development drove him to become a member of the Airport Conservation and Assessment Panel (ACAP). As the Aviation representative for over five years, Jason has served on the committee with his perspective as a pilot, member of the local community, and Air National Guard.

He would like to continue working in a similar capacity and would be honored to serve on the newly created Airport Conservation and Assessment Committee.

To be completed by the Executive Budget Office
November 5, 2010

Honorable Steve Levy
County Executive
Suffolk County
100 Veterans Memorial Highway,
Hauppauge, NY 11788-0099

Dear Mr. Levy:

I am pleased to inform you that Congress has appropriated $2,213,300 for federal fiscal year (FFY) 2010 Juvenile Accountability Block Grant (JABG) funding for New York State.

According to the federal formula based on available local juvenile justice expenditure data and Part I Violent Crimes arrest data, Suffolk County is eligible to receive the following JABG allocation:

**Award Amount: $ 67,606**

This letter provides specific information concerning the funding requirements and process for awarding this allocation. As required by the Juvenile Accountability Block Grant statute (42 U.S.C. 3796ee-2), New York State submitted an application for these funds that detailed the activities proposed to be carried out with the 2010 JABG funding for New York State. The activities outlined in that application were based on funding priorities established by New York State’s Juvenile Justice Advisory Group (JJAG), a federally mandated board appointed by the Governor and responsible for the development and implementation of New York State’s planning and implementation for federal juvenile justice funding. Those priorities were incorporated into a new juvenile justice and delinquency prevention funding strategy that can be accessed at [http://www.criminaljustice.state.ny.us/ofpa/pdfdocs/fundingstrategy09.pdf](http://www.criminaljustice.state.ny.us/ofpa/pdfdocs/fundingstrategy09.pdf).

In order to comply with federal law by ensuring that local activities funded with the 2010 JABG allocation are the types of activities outlined in New York State’s application for the 2010 JABG funds, DCJS has developed the following list of allowable uses for your 2010 JABG award. Those allowable uses are activities that:

An Equal Opportunity/Affirmative Action Employer
1. Promote the development of timely and accurate information about juvenile crime, juvenile justice system processing, and the risks and needs presented by juvenile offenders;

2. Support the use of instruments and structured processes to guide wise decision-making at key points throughout the juvenile justice system.

Within this category, applicants may create mental health crisis teams who will respond directly to schools in the event of a mental health crisis that might otherwise lead to arrest. Proposed projects should include: 1) training for school staff and personnel in recognizing a mental disorder or illness in students, 2) a responder or responders qualified to assess a student’s risks and needs, 3) linkages to services and community programming, and 4) follow-up services. A mental health crisis response protocol should be implemented in the schools as an alternative to law enforcement involvement in certain circumstances. Linkages between the schools, law enforcement, mental health providers, community services, and courts will be an integral part of a successful program. Priority will be given to projects that engage schools categorized as either “Persistently Low-Achieving,” “Persistently Dangerous,” or Schools under Registration Review (SURR) by the State Education Department and/or

3. Provide coordinated and comprehensive prevention and reentry strategies for high-risk juvenile offenders that emphasize competency development, school engagement, and/or specialized services to meet the needs of females.

The following details outline your options regarding acceptance of this award as well as reminders and guidelines regarding the application process for accepting your allocation.

Options for Eligible Municipalities (Non-County Units of Local Government)

Non-county units of government eligible to receive JABG allocations will be given the opportunity to select one of the following four options regarding the use of their allocations. Non-county units of governments may:

- Establish their own Juvenile Crime Enforcement Coalition (JCEC), develop their own enforcement plans to reduce juvenile crime and use their allocations to implement their own plans.

- Waive their allocations to their counties, which will then use their allocations to assist in implementing county enforcement plans to reduce juvenile crime.

- Elect to use their county's JCEC and retain their allocations but use these funds as directed by the county's JCEC to assist with the implementation of the county's enforcement plan to reduce juvenile crime. The county JCEC must agree to assume this expanded responsibility.
- Opt to waive their allocation to the state.

**Option for Counties receiving JABG Funds**

Counties eligible for JABG allocations may:

- Opt to receive their allocation and comply with all the JABG program requirements regarding the use of these funds;

- Opt to waive their allocation to the State; or

- Request approval to combine their allocation with that of other counties to implement a program/project of benefit to all counties involved in this arrangement.

A few reminders and guidelines for all applicants:

1. The submission deadline for your application in the DCJS GMS system is December 17, 2010. No application will be considered after this date without prior approval from DCJS. DCJS projects that your contract for this allocation will be executed in March 2011. All funds must be expended by June 30, 2013.

2. All prior year JABG contracts must be currently compliant with contract progress reports, fiscal cost reports and vouchers before a 2010 JABG application will be approved.

3. Units of local government receiving JABG allocations must contribute a cash match of 10% of the total cost of the program to be implemented using JABG funds.

4. Units of local government receiving JABG allocations must have a viable JCEC in place with representation reflecting sectors of the entire community. The JCEC must meet at least quarterly, preferably monthly. The JCEC should play a significant role in the development of a coordinated plan to reduce juvenile crime. The required composition of the JCEC is provided in Attachment A. To maximize the potential impact of the JABG funds and ensure coordination of efforts, counties and their units of local government are encouraged to develop one planning process.

5. Per federal JABG legislation, a maximum of 5% of the JABG allocation may be used for administrative costs. Please note that the 5% administrative budget line is also subject to the 10% match requirement. JABG funds may not be used to supplant state or local operating funds.
General questions about the JABG program should be directed to Ronda Ross of the Juvenile Justice Unit within the Office of Criminal Justice Programs at DCJS, at (518) 457-3670 or ronda.ross@dcjs.state.ny.us. Thank you for your continued efforts to provide these important services and help make New York State the safest state in the nation.

Very truly yours,

Sean M. Byrne
Acting Commissioner

Answer

a. According to the 2000 census, 418,389 youths under the age of 21 reside in Suffolk County, which is the largest youth population in New York State outside of New York City. Research conducted by the Suffolk County Juvenile Crime Commission and results of the Juvenile Crime Study indicate the following: 1. In 1999, there were 991 misdemeanor offenses committed by juveniles, 483 felony offenses and 16 juvenile offenses (most serious of juvenile offenses). 2. According to the 2000 census, 28.36% of Suffolk County’s population was between 0 & 19 years old in 2000, representing 402,462 youth out of a total population of 1,419,369. 3. According to this data, there were 103,930 10 to 14 year olds in Suffolk, and 88,558 15 to 19 year olds for a combined total of 192,488 10-19 year olds in 2000 (comprising 13.56% of the County’s population). 4. Looking at the primary juvenile, Family Court age bracket (10-15), there should be a drop in the population from 1996 to 2000, a fairly marked increased from 2000 to 2004, and then another drop from 2004 to 2008. The end result should be a population base in 2008 which is not markedly different from that of 1996. 5. Overall juvenile arrests in Suffolk County in 1999 totaled 1,474 arrests. 6. The violent index crimes of juveniles between 1987 and 1996, increased by 72% (or 60 cases) overall with the largest increase of 135% or 46 arrests for robbery. Aggravated assaults also increased by 13 arrests or 33% during this period. 7. Violent Non-Index Crimes By Juveniles increased from 219 in 1987 to 254 in 1996, which represents a 35 arrest or 16% increase during the ten-year period. 8. Juvenile arrests for sale or possession of illegal drugs increased from 35 in 1987 to 121 in 1996 or by 86 arrests or 246%. The peak year was 1994 with 150 arrests. The five year (92-96) increase was 81% while the 95-96 increase was 20%. There were 545 juvenile arrests between 1992-1996. 9. Juvenile arrests for the Sale of Cocaine increased from 2 in 1987 to 31 in 1996 or an increase of 29 arrests or 1450%; while Criminal Use of Cocaine increased from 7 arrests in 1987 to 48 in 1996 or by 586%. 10. Violent Crime has not experienced the same decline as property crime, but rather remains persistently high for all age groups. Sex offenses, robberies, aggravated assaults, gang violence and school violence are areas of special concern. 11. Arrests for the sale or use of illegal drugs has increased significantly for all youthful age groups across all ten, five and two year time frames. 12. The combined number of violent crimes committed by the 0-18 year old population in Suffolk County during the 1992-96 period is significant with 2,533 violent index crimes and 3,477 violent non-index crimes for a
total of 6,010 violent crimes. Suffolk County has undertaken substantial initiatives to address the problem of juvenile crime and violence, including the development of a graduated system of sanctions and alternatives to institutionalization. The Suffolk County Probation Department is committed to the principle that early identification of mental health and substance abuse issues among the JD population, leading to the expedient delivery of counseling services, helps to prevent further penetration into the juvenile justice system and placement in costly residential facilities. This program will implement a school based intervention prevention model utilizing mental health professionals in high risk school districts to intervene before mental health problems lead to family court involvement and residential placement of the juvenile population. Juvenile delinquency in Suffolk County continues to be a major social problem and the current juvenile justice system is having considerable difficulty responding to all of the current challenges. On average, the Suffolk County Department of Probation supervises between 900-1,600 juvenile delinquency cases annually. In 2007, the Family Court Intake Division of Probation provided services for 905 new Juvenile Delinquency cases. A total of 952 cases were served (new + prior year carryovers) and 250 or 26.3% were diverted from Family Court. The remaining 626 juvenile delinquent cases were petitioned to Family Court. In 2008, 194 of these juvenile delinquents were placed in OCFS (n=165) and Private Residential Facilities (n=29). The Department researched case histories to develop a profile of adolescents placed in institutional care. A review of these case histories showed that 79% of such adolescents suffered from serious family problems including parental substance/alcohol abuse or mental/physical handicaps, abandonment and domestic violence. In addition, the mental health history of these adolescents indicated that 70% had histories of mental health, alcohol and substance abuse problems, learning disabilities and other co-morbid disorders. These adolescents also had emotional or behavioral disorders that manifested themselves in a variety of ways including aggressive behavior, conduct/oppositional defiant behavior, anger disorder, attention deficit/hyperactivity disorder, depression, sexual acting out, substance abuse, suicidal symptoms, runaway behavior and school related problems. In many cases, the Family Court has opted to place JDs in costly residential/institutional placement facilities as a sentencing sanction for the JD crime. From 2002 to 2008 a total of 1,474 JDs have been placed in residential care. The Department of Probation is responsible for paying the cost associated with JD placed in OCFS facilities and JD placed in facilities for diagnostic evaluations. The Suffolk County Department of Social Services is responsible for the cost of JD placements in other private residential care facilities, (29 JD youth in 2008 as noted above). The cost to place one youth in residential care is between $90,000 to $180,000 per year. The Suffolk County Probation Department incurs costs of the approximately $5 million per year for JDs placed in OCFS facilities and in 2008 incurred an additional $466,267 for JDs placed in facilities for diagnostic evaluations. Thus, the Suffolk County Probation Department will pay nearly $5.5 million dollars for JD youth placed in diagnostic or OCFS facilities in 2008. While this cost factor is alarming and doesn’t even include the cost of the JDs placed in private residential facilities, it is most concerning that these youth are removed from their families and efforts are not being made to address family functioning. While the youth may receive treatment in these facilities, their families are not. Thus, for the majority of these youth placed in OCFS care, private residential care or diagnostic facilities, the youth are returning home to the same environment from which they left. In most cases, the youth-family conflict return. While we cannot address and attempt to fix this entire $5.5 million problem, we can begin to address the needs of a segment of this JD population. Youth do not live in a vacuum. They are impacted by their social interaction in school, peers, church, and most importantly their family. Providing services to just the troubled youth has limited positive results. Research supports that adolescents in the court system generally have experienced limited academic success and therefore have tended to lose interest in school. The link between academic failure and juvenile criminal conduct needs to be addressed and requires education reform to address the specific needs of these “high risk” adolescents. Nearly all adolescents in the court system are engaged in educational activities stipulated in disposition plans. Unfortunately, most of such adolescents are ordered to regularly attend the same school that failed to engage them effectively in the first place. In recent years, the number of JD youth presenting with mental health or substance abuse issues has significantly increased. This proposal will address Mental Health issues of youth identified as hi risk, or having been involved in the family court system. Providing services and linkages for youth in two high impact area school districts will help youth who are at risk of placement or juvenile justice involvement stay out of the system. The school districts chosen have limited mental health services, or staff available to meet the demands of the number of youth requiring services or intervention services. By placing additional social workers in the district we can help close the gap on the problem of youth “falling through the cracks.”

Answer

The County of Suffolk County-Executive’s Office is the lead agency (grantee) that will coordinate activities and administer the grant project. The Suffolk County Probation Department is the lead agency (implementing agency) that will coordinate activities and administer the grant project. The primary agency contact is John Desmond, Director of Probation located in Yaphank, New York. Suffolk Probation has been responsible for the Criminal Justice Coordinating Council (CJCC) operations since the early 1990’s. Through the CJCC, Probation has successfully planned, developed and implemented the County’s Alternative To Incarceration Service Plans. As an active member of the CJCC, Suffolk Probation has been instrumental in the County’s Criminal Justice System/Jail Overcrowding Analysis and Evaluation Task Force and has spearheaded the development of the County’s CJCC Research and Systems Planning Subcommittee, Juvenile Justice Crime Prevention Commission and Mentally Ill Offender/MICA Subcommittee. Attached is the membership list of the Criminal Justice Coordinating Council (CJCC) - Program and Services Subcommittee (formerly named Juvenile Crime Prevention Commission). Mr. Thomas MacGilvray, Director of Community Mental Hygiene is the Chairman of the Program and Services Subcommittee. This subcommittee meets quarterly to identify resources and services for juveniles and adults, define specific problems/needs; report on the progress of programs and work with the CJCC Systems Planning Subcommittee to carry out the goals of the CJCC. The CJCC operates within the Suffolk County Probation Department. This program proposal was discussed with several members of the CJCC Program and Services Subcommittee for their input. This Subcommittee will be updated on a progress of this program through implementation. The Suffolk County Probation Department is the implementing agency. The Suffolk County Probation Department was established in 1908 under Article XXI, Section 2102 of the Suffolk County Charter. Virtually all of the duties performed by the Probation Department are mandated by New York State law. Suffolk County Probation has a dual mission of community protection and client assistance and rehabilitation. To these ends, the Department provides intake and screening services, investigations, court-ordered supervisory services, victim protection and juvenile respite and detention programs. The Department provides a wide variety of correctional and treatment services to adults and youth in Suffolk County. To achieve its mission of maintaining a high level of community protection, the Department has established a variety of methods including treatment, reintegration, surveillance and correctional supervision. In addition to intake, investigation and supervision services, the department operates the County’s Juvenile Detention and Residential Placement Systems, Adult and Community Service Programs, as well as diversion services. Suffolk Probation has developed a system of graduated sanctions during the last twenty (25) years. Specific Probation programs include the following areas: domestic violence, youth violence, gang reduction, substance abuse, sex offender treatment, arson and aggression reduction services, conditional release commission (local parole) and other specialized services. The majority of the programs involve a correctional-treatment design, which is a multi-disciplinary, correctional sanction that integrates the services of two (2) or more disciplines in one coordinated team working towards common goals and objectives. Suffolk County Probation has a long history of effectively administering and implementing adult and juvenile justice prevention and treatment programs. Following is a list of juvenile justice programs that have been developed, implemented and evaluated by the Suffolk County Probation Department: Juvenile: 1. Foster Care/Intensive Supervision Project for Status Offenders (1980) 2. Police/Probation Juvenile Intake Screening and Diversion Project (1977 1980) 3. Group Home Program for hard to place Juvenile (1975 1978) 4. Suffolk County Juvenile Intensive Supervision Project (1978 1984) 5. Family Court Dispositional Alternatives Project (1979 1980) 6. Juvenile Community Service Program (1982 Present) 7. Adolescent Sexual Offender Project (1985 Present) 8. Juvenile Arson and Aggression Program (1989 Present) 9. Adolescent Drug Treatment Program (1992 2002) 10. Juvenile Intensive Supervision Program (1995 Present) 11. Mental Health Juvenile Justice Diversion Project (1995 Present) 12. Probation/Psychiatric-Community Intervention Project (1997 2005) 13. Partners Against Crime Mentoring Team Program (1998 Present) 14. Options for Female Offenders (1998 Present) 15. Juvenile Accountability Incentive Block Grant (JABG) (1999 Present) 16. Juvenile Drug Court (2001 Present) 17. Enhanced Services to PINS (2002 2005) 18. School Based Probation Program (2002-Present) 19. Juvenile Day Reporting Center Program (2002-Present) 20. Alternatives For Youth (2005 Present) All of the above

demonstrations that the Suffolk County Probation Department has considerable experience in developing, implementing and operating interagency cooperative efforts. Most of the programs listed above were developed with federal and state grant funding. Many of these programs are still operating today. This exemplified the County's commitment to institutionalizing effective programs after the grant funding has expired. However, limited funding for juvenile programs is always a challenge, but the Department has been creative to provide the best possible programming with limited fiscal resources in order to improve the services and address the needs of the juvenile population. Additionally, it has been difficult to maintain staffing for our programs. There is a reluctance to hire new staff for grant funded programs and therefore the Department has had to rely on employee overtime and contracting out for services to meet the needs of the juvenile population. While contracting for services from private treatment individuals or community based agencies is an effective means for service delivery, the rudiments (rules and regulations) for the procurement of services adds another obstacle to implementing programs in a timely and effective manner. The Suffolk County Probation Department is not currently under investigation nor has it been charged in the last five years by any federal, state, or local authority for criminal, civil or regulatory violations.

(3) Applications for a scavenger wastes discharge permit shall be signed by the owner of the vehicle to be used for the purpose of transporting the scavenger wastes for which a permit is desired.

B. Any false or misleading statement in any application for a permit shall invalidate the permit and shall be deemed a violation of these rules and regulations.

C. All functions or acts performed by the permittee in connection with or in reliance upon any permit shall be subject to inspections by and the rules and regulations of the Administrator and to ordinances and laws of the County and any other lawfully controlling municipal entity.

D. No application for a permit or use of the facilities of a district will be approved or granted until all charges or arrearages, if any, due to the Administrator from such premises or applicant shall first have been paid, unless such charges or arrearages are, in the discretion of the Administrator, waived.

E. Applications for special and general permits shall be considered void if sewer construction has not progressed sufficiently, as determined by the Administrator, within three years of submission.

§ 740-19 Special Permits

A. SPs shall be required for multiple-family, institutional, commercial and industrial facility sewer connections to County sewage works or to building sewer or to its appurtenances. [The purpose of a DC is to identify, regulate and monitor the introduction of toxic, hazardous, objectionable and excess strength discharges to the County sewage works from Significant Industrial and all other Industrial/Commercial users.] Applications for SPs may require information required to characterize the proposed waste discharge.
B. DCs shall be required for all industrial, commercial and institutional users. The purpose of a DC is to identify, regulate and monitor the introduction of toxic, hazardous, objectionable and excess strength discharges to the County sewage works from Significant Industrial users and all other Industrial/Commercial/Institutional/ users. DCs shall be issued to a specified property owner or a specific user for a specific operation. Such DCs shall be assignable only with the written consent of the Administrator. Applications for [SPs and] DCs may require information required to characterize the proposed waste discharge.

C. In each instance where a SP is required, it shall be unlawful to undertake sewer construction, to connect or attach to sewage works or to discharge any sewage, effluent or substance directly or indirectly into a sewage works without first having secured such SP, notwithstanding the fact that the person may have obtained a general permit or a related permit from another municipal entity having some jurisdiction in the matter. If separate SPs are issued to both a landlord and a lessee or occupant affecting the same premises, the landlord may assign his SP to a subsequent owner of the premises without consent of the administrator. Written notice of such assignment by certified or registered mail shall be sent to the Administrator by the subsequent owner within five days of such assignment. Any succeeding owner of the premises shall be bound by and comply with the terms and conditions of the SP so transferred.

D. DCs will be issued for a time period not to exceed five years. Every holder of a DC shall [may] apply for renewal not less than 90 days prior to the expiration of the holder’s existing DC. The terms and conditions of the DC shall be subject to modification by the Administrator during the term of the DC if limitations, conditions or requirements identified elsewhere in these rules and regulations occur or exist. The holder shall be informed of any proposed changes in his DC at least 30 days prior to the effective date of change unless a violation requires immediate termination. Any changes or new conditions in the DC shall include a time schedule for compliance and an opportunity for the holder to obtain a hearing on the proposed change from the Administrator.

E. A DC may be declared suspended, invalid, revoked or void upon the occurrence of any of the following:

(1) Making a false or misleading statement in the application for a SP or DC.
(2) Violation by the DC holder of any of the conditions prescribed in his DC.
(3) Any change in either the DC holder’s business or processes which change the quality or quantity of the DC holder’s effluent discharge to a County Sewage works.
(4) Violation by the DC holder of any provision of these rules and regulations.

F. If the DC holder anticipates a change in either the quality or quantity of effluent discharge under a DC, the DC holder [he] shall, at least 60 days prior to the anticipated change, inform the Administrator in writing and request a reevaluation of the anticipated discharge and a modification of the [his] DC, if necessary. The Administrator may, after investigation, approve the continuance of the existing DC, deny said request, or issue an amended DC with additional conditions. In no event shall the DC holder change the quality or quantity of the discharge prior to obtaining a valid DC therefor.

G. Any DC holder, person or industrial user shall immediately notify the Administrator of any situation or changes that occur at their facility which may or does result in a slug
discharge or a discharge which is in non-compliance with or in violation of the provisions of these rules and regulations or results in hazardous or dangerous conditions to the general public, personnel of the Administrator and/or the County sewage works.

H. Any industrial user shall notify the Administrator, the United States Environmental Protection Agency Regional Waste Management Division Director, and New York State hazardous waste authorities in writing of any discharge into the County sewage works of a substance which, if otherwise disposed of, would be considered a hazardous waste under 40 CFR Part 261. Such notification must be made in accordance with the provisions contained in 40 CFR Part 403.12 (p) (1), (2), (3) and (4) and must be accompanied by the certification as specified in § 424-24B(5).

I. DC holders may be required to collect samples from their discharges to the County sewage works at regular intervals for analysis and reporting to the Administrator. By reference, 40 CFR 403.12 and amendments, with its reporting requirements, shall be considered part of these rules and regulations, and, as such, the Administrator may require any or all reports indicated therein from industrial users subject to applicable federal pretreatment standards as specified under and pursuant to 40 CFR Part 403. In addition, monitoring facilities, such as sampling/flow-measurement manholes, may be required by the Administrator where he deems necessary.

J. All DC holders subject to this Article shall retain and preserve, for not less than three years, or other appropriate time period deemed necessary by the Administrator, New York State Department of Environmental Conservation or United States Environmental Protection Agency, all records, books, documents, memoranda, reports, correspondence and any and all summaries thereof relating to industrial waste removal, pretreatment unit maintenance, and the monitoring, sampling and chemical analysis of their discharge. All records which pertain to matters which are the subject of administrative action or any other enforcement or litigation activities shall be retained and preserved by such persons until all enforcement activities have concluded and all periods of limitation with respect to appeals have expired. The Administrator and/or representatives of the New York State Department of Environmental Conservation or the United States Environmental Protection Agency shall be allowed to inspect and/or copy any of the above-referenced records as necessary.

K. Information and data pertaining to an industrial user and any DC issued thereto obtained from applications, permits, monitoring programs and inspections shall be available to the public or any government agencies without restriction unless the industrial user specifically requests otherwise and is able to demonstrate to the satisfaction of the Administrator that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets of the industrial user. When required by the person furnishing a report, and until such time as the information is determined not to be confidential, the portions of a report which might disclose trade secrets shall be confidential but shall be made available upon written request to governmental agencies for uses related to these rules and regulations and/or pretreatment programs; provided, however, that such portions of a report shall be available for use by the state or any state agency in judicial review or enforcement proceedings involving the person furnishing the report. Sewage and Industrial Waste constituents and characteristics will not be recognized as confidential information.

A. The Administrator is hereby authorized, empowered and directed to issue permits to scavenger waste collectors and carters, [from inside or outside a district,] on such terms and conditions as to him may seem reasonable, proper and in the best interests of the district; and, unless exceptions are granted by the Administrator, only scavenger wastes generated within the County shall be discharged at the permitted County sewage works. The discharge of acceptable scavenger wastes into County sewage works shall be permitted only after the issuance of scavenger waste discharge permit by the Administrator. The applicant must first have obtained a valid New York State Department of Environmental Conservation industrial waste hauler and septic tank cleaner registration. The termination, cancellation or revocation of such state permit shall constitute an automatic simultaneous cancellation termination and revocation of any permit issued by the Administrator.

B. The approved discharge of scavenger wastes shall be made only at locations designated on the permit or as may, from time to time, be redesignated by the Administrator.

C. The Administrator shall after public notice and hearing, establish and adopt a schedule of charges and fees for scavenger waste discharge and treatment. A schedule of such charges and fees or amendments hereto shall be kept on file in the Office of the Administrator.

D. Discharge of any objectionable wastes into County sewage works is prohibited and shall constitute a violation of these rules and regulations. The Administrator shall direct the wastehauler to cease the discharge and may require such objectionable wastes to be impounded or tested, or both, and to be transported, at the cost and expense of the carrier, to an appropriate holding or disposal facility located either inside or outside Suffolk County. Failure of a permit holder thereafter to produce a valid receipt indicating proper disposal of the rejected objectionable wastes or fail to comply with the Administrator’s directive shall result in the revocation of any Suffolk County scavenger waste discharge permit held by the carrier.

§ 740-40 Surcharges.

A surcharge may be imposed for the privilege of discharging any sewage, compatible industrial or other wastes which, although approved for acceptance into the works, have characteristics which exceed the maximum values or strengths defined by the Administrator for such characteristics when found in normal sewage or wastes. Surcharges may differ between districts pursuant to individual treatment plant design. In no event shall a surcharge be applicable in lieu of conformance to Federal General Pretreatment Regulations (40 CFR Part 403), federal categorical pretreatment standards or Suffolk County sewer discharge concentration limits. Owners of business, commercial and industrial properties shall submit data characterizing the water flow rates and constituents of sewage and industrial waste discharged. The Administrator may require such additional chemical and hydraulic evaluations of business, commercial and industrial discharges deemed by him to be necessary to determine the number of dwelling unit equivalents for such applicants. Such evaluations shall, if necessary, be performed at the cost and expense of the applicant. In the absence of complete or actual flows and data, the Administrator may determine the surcharge and cost recovery charge, if any, and assign an appropriate number of dwelling unit equivalents to the premises in question on the basis of available facts and established technical standards.

GENERAL PROVISIONS

§ 740-45 Connection by premises outside district.

A. The Administrator is hereby authorized and empowered to consider applications for connections to a County sewer district facility by businesses, industries and other users from outside the geographical boundaries of a district and to negotiate contracts and agreements with those businesses, industries and users as he deems appropriate upon such terms and conditions as to him may seem reasonable and proper to protect the best interests and to accrue to the financial benefit of the district, including but not limited to provisions intended to relieve a district of the full burden of maintenance and capital costs, present or future, if any, attributable to and that might result from such contractual connections, and including the filing of a surety bond or the deposit of cash or securities with the County Treasurer or the giving of every guaranty to the district to ensure the performance of said agreements and contracts, and the costs, if any, to a district relating thereto will be offset by payments from the owner and will not constitute an undue burden upon the property within said district, subject to the provisions of § 740-38 of this chapter and the charges imposed thereunder.

B. The Administrator, when considering applications for connection to a County sewer district facility by businesses, industries and other users from outside the geographical boundaries of a district, shall first make a determination that the connection is in the best interests of the residents of the district and the citizens of the County of Suffolk, and shall consider each of
the following factors in making the determination:

(1) The environmental impact of the proposed connection;

(2) The tax impact of the proposed connection on the affected sewer district;

(3) Whether the applicant can demonstrate that an economic benefit will accrue either through an increase in jobs or an increase in tax revenue to the County, as a result of the sewer connection;

(4) Whether there is adequate capacity within the affected sewer district to absorb the outside connection;

(5) Whether the proposed application shall provide an economic benefit to the area; and

(6) If the proposed connection is for a residential development whether the applicant has incorporated affordable housing units within the development.

C. Affordable housing considerations.

(1) No contract between the Administrator and an applicant from outside the geographical boundaries of a district may be entered into unless, in the case of a residential housing development or a development that includes a residential component, which consists of 10 or more units only, the housing development or component is comprised of no less than 20% of units that are set aside for homebuyers or renters whose income does not exceed 120% of the HUD-established median income limit for the Nassau-Suffolk Primary Metropolitan Statistical Area (PMSA) adjusted by family size.

(2) Prior to the approval of a contract with the Administrator, the Director of Affordable Housing within the Suffolk County Department of Economic Development and Workforce Housing shall be provided with such documentation and certification as he or she deems necessary in order to certify that the requirements outlined in Subsection B(1) of this section are being complied with.

(3) Upon approval of a contract with the Administrator, a covenant shall be filed on the deed of those units that are required to be set aside pursuant to Subsection B(1) of this section, which covenant or covenants shall contain the following restrictions:

(a) Said unit or units shall be restricted for use as affordable housing units, defined for purposes of this section as meaning units which are set aside for homebuyers or renters whose income does not exceed 120% of the HUD-established median income limit for the Nassau-Suffolk Primary Metropolitan Statistical Area (PMSA) adjusted by family size, for a period of 15 years from the date of filing of the covenant or covenants;

(b) Said unit or units shall remain the principal residence of the individual or individuals who occupy the unit or units during the fifteen-year restriction described above;

(c) All covenants filed pursuant to this section shall be in a form approved by the Suffolk County Attorney.
D. Any contracts or agreements negotiated by the administrative head of any Suffolk County sewer district shall be subject to the final review, approval and ratification of the Suffolk County Legislature.

E. Contracts for connection of out of district areas meeting the definition of a Municipal Satellite Collection System shall be in compliance with New York State Department of Conservation regulations as amended if applicable.

§740-49 Sewer Connection Moratorium.

In the event the Administrator determines that the effluent discharge from a publicly owned treatment works has exceeded a SPDES permit limit for Biochemical Oxygen Demand or Ultimate Oxygen Demand for any four or more months during two consecutive calendar quarters, or a SPDES permit limit for total Suspended Solids for any four or more months during two consecutive calendar quarters, then, and in accordance with the provisions of Part 750-2.9(c) of Title 6 of the New York Codes, Rules and Regulations (6 NYCRR), an immediate moratorium on additional sewer connections to the affected sewer district shall be imposed and the further approval of sewer connections to the affected sewer district shall cease immediately.

If any clause, sentence, paragraph, subdivision, section or part of this law or the application thereof to any person, individual, corporation, firm, partnership, entity, or circumstance, shall be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part of this law, or in its application to the person, individual, corporation, firm, partnership, entity, or circumstance, directly involved in the controversy in which such judgment or order shall be rendered.

RE: MEMORANDUM OF COUNSEL TO THE LEGISLATURE PURSUANT TO RULE 28

PROPOSED LOCAL LAW YEAR 2012

TITLE: I.R. NO. -2012; A LOCAL LAW AMENDING CHAPTER 740 OF THE SUFFOLK COUNTY CODE IN CONNECTION WITH REVISIONS TO SEWER USE RULES AND REGULATIONS

SPONSOR: THE PRESIDING OFFICER, ON REQUEST OF THE COUNTY EXECUTIVE

DATE OF RECEIPT BY COUNSEL: 6/13/12  PUBLIC HEARING: 9/7/12

DATE ADOPTED/NOT ADOPTED:  CERTIFIED COPY RECEIVED:

Chapter 740 of the SUFFOLK COUNTY CODE regulates all sewers and sewer connections within the County. This proposed local law would amend Chapter 740 to add definitions and clarify some existing definitions and regulations.

This law would classify medications and prescription drugs discharged into sewers as “objectionable, prohibited or limited waste” and subject to all regulations associated with this designation. Garbage or solid materials shredded by a garbage disposal will also be similarly classified.

This law would also expand the powers of the administrator for each County sewer district (hereinafter “Administrator”). This law would make all applications for special and general permits for sewer works voidable at the discretion of the Administrator in the event sewer construction has not progressed sufficiently within three years of the permit’s submission. This law would also authorize a moratorium on new sewer connections in the event the Administrator determines that effluent discharge at a publicly owned treatment plant exceed permitted limits.

This law will also restrict scavenger waste discharge permits to authorize only the discharge of scavenger wastes generated within Suffolk County. Exceptions may be granted by the Administrator. The Administrator is also empowered to direct waste haulers to cease discharge of objectionable wastes at County facilities.

Discharge permits will be required for all industrial, commercial and institutional users under this law. Holders of discharge certificates will also be required to retain documents relating to industrial waste removal and pretreatment unit maintenance in addition to existing requirements.
This law will take effect immediately upon its filing in the Office of the Secretary of State.
