HEALTH COMMITTEE
OF THE
SUFFOLK COUNTY LEGISLATURE
MINUTES

A meeting of the Health Committee of the Suffolk County Legislature was held in the Rose Y. Caracappa Legislative Auditorium of the William H. Rogers Legislature Building, 725 Veterans Memorial Highway, Smithtown, New York on March 12, 2020.

MEMBERS PRESENT:

Leg. William Spencer, Chairperson
Leg. Leslie Kennedy, Vice Chair
Leg. Kara Hahn, DPO
Leg. Tom Donnelly
Leg. Rudy Sunderman

ALSO IN ATTENDANCE:

Presiding Officer Robert Calarco, 7th Legislative District
Sarah E. Simpson, Counsel to the Legislature
Jessica Nowak, Assistant Counsel
Amy Ellis, Chief Deputy Clerk/Legislature
Craig Freas, Budget Review Office
Nicole Duckham, County Executive's Office
Jack Nix, County Executive's Office
Elizabeth Alexander, Aide to Leg. Spencer
Ali Nazir, Aide to Leg. Kennedy
Tim Rothang, Aide to Leg. Sunderman
Doug Sutherland, SC Deputy Comptroller
Robert Braun, Deputy Chief Bureau/County Attorney's Office

PUBLIC PORTION

Jarred Muraco
Michael Ciarmella, Appointee/Food Policy Council of Suffolk County
And all other interested parties

MINUTES TAKEN BY:

Diana Flesher, Court Stenographer

MINUTES TRANSCRIBED BY:

Kim Castiglione, Legislative Secretary

THE MEETING WAS CALLED TO ORDER AT 2:06 PM

CHAIRMAN SPENCER:

Good afternoon, everyone. Welcome to the Health Committee. And we're going to begin shortly. I just want to see -- I think we have a quorum with Legislators Kennedy, Donnelly, Sunderman and Legislator Hahn, I'm sure that we will be hearing from her shortly. But we have a quorum so we're going to stand for the Salute to the flag to be led by Legislator Sunderman.

SALUTATION

Thank you. Please remaining standing for the men and women who are serving this country both at home and abroad, and also for the entire world, all the countries, the families, who are dealing with the Coronavirus crisis. We pray that we can take the appropriate steps and that we can do the right thing to protect our population.

MOMENT OF SILENCE

Okay. On our agenda today I think that it's important that we are dealing with a national issue with the Coronavirus, and the Commissioner is engaged in dealing with that. I really wanted to be respectful of his time to not have him have to come here at this particular time so that he can deal with a very fluid situation. So what we're going to do today, we're going to have our public portion, our presentation has been postponed for the time being, and we will do an up to date informative statement on the Coronavirus as to the information that we have at this time.

PUBLIC PORTION

So I have one card, and that is from Jarred -- it's looks like Murco. Muraco. Jarred, welcome and please come to the podium. Thank you for being here and you have three minutes to share with us any thoughts or concerns that you may have.

MR. MURACO:

Sure. I'm speaking about the resolution that was tabled, 1066, that Tom Cilmi and I worked on. I just wanted to ask that to be sent back to the full Legislature to be voted on after he clarified whatever language was necessary.

CHAIRMAN SPENCER:

We are working with Legislator Cilmi on that very important, what you're working on, and we will be honoring that request and working with Legislator Cilmi. And also Legislator Gonzalez is working on a version so that we can do the appropriate thing. So I will follow-up on that.

MR. MURACO:

That's it.

CHAIRPERSON SPENCER:

All right. Thank you, sir. We appreciate it. Is there anyone else in the audience that wishes to be heard? Is there anyone else

1 that wishes to be heard? Seeing none, we will close the public
2 portion.

3
4 Our presentation was from Jeff Szabo, the Executive Director of the
5 Suffolk County Water Authority, who was going to give us an update
6 on the 1,4-Dioxane, PFOS and PFOA Action Plan. We will reschedule
7 that presentation in the future.

8
9 I'm going to move on to our agenda and then I plan to spend a few
10 minutes just giving an update. Some of the information we just
11 presented on a conference call to the Legislature, but for the
12 public, we want to give them the information that we currently
13 have.

14 **APPOINTMENT RESOLUTIONS**

15
16
17 So, first on our agenda are our appointments, and the first is **IR**
18 **1011, Reappointing member to the Suffolk County Board of Health**
19 **(Stephen L. Dewey). (Spencer).** We are tabling that at this
20 particular point as we work with Dr. Dewey. Motion to table;
21 second by Legislator Sunderman. All those in favor? Opposed?
22 Abstentions? Motion is tabled. (VOTE: 6-0-0-0. **PO CALARCO**
23 **INCLUDED IN VOTE)**

24
25 **IR 1251, To appoint member to the Food Policy Council of Suffolk**
26 **County (Michael Ciaramella). (Hahn).** Is Michael here? Hi,
27 Michael. Thank you for taking the time out of your busy day. I'm
28 going to ask if you would come forward at this time. And for the
29 purposes of discussion I'm going to ask for a motion to approve;
30 seconded by Legislator Kennedy.

31
32 Before we vote on the motion, Michael, please have a seat at the
33 table there. Welcome. Thank you. What I'd like to have you do is
34 to just take a minute to introduce yourself, tell us where you're
35 from, and also tell us any pertinent information about your
36 background or experience that would make you or a fit for our Food
37 Policy Council and why you deserve -- desire to serve. Not
38 deserve, buy why you desire to serve.

39 **MR. CIARAMELLA:**

40 Okay, sure. My name is Michael Ciaramella. I'm the Seafood
41 Specialist for New York Sea Grant and Cornell Cooperative
42 Extension. I work out of Stony Brook in our extension office here
43 on Long Island. I do a lot of outreach, education and trainings on
44 seafood safety and nutrition sustainability. All needs approach
45 may have worked within quite a bit on a lot of marketing and safety
46 of aquaculture and seafood products throughout Long Island and New
47 York State, so they've asked me to serve on the committee. And I'm
48 happy to do so to assist in ensuring that we have a safe and high
49 quality food supply, especially with regards to seafood.

50 **CHAIRMAN SPENCER:**

51
52 Excellent. That was perfect. Are there any questions for -- did I
53 pronounce your correctly?
54
55
56

1 **MR. CIARAMELLA:**

2 Ciaramella.

3
4 **CHAIRMAN SPENCER:**

5 Ciaramella. Mr. Ciaramella. Well, we are always very appreciative
6 of our private citizens when they step forward to donate their time
7 and their expertise to kind of help us address some of the
8 challenges that we face. And you coming here and being willing to
9 do that is really very much appreciated and very special, and we
10 thank you for that.

11
12 **MR. CIARAMELLA:**

13 Thank you.

14
15 **CHAIRMAN SPENCER:**

16 So with that, we have a motion and a second. All those in favor?
17 Opposed? Abstentions? **(VOTE: 5-0-0-1. PO CALARCO INCLUDED IN**
18 **VOTE/ABSENT: LEG. HAHN)**. It is approved unanimously.

19
20 Now, you do not have to appear at the General Meeting, but really
21 before it's official there has to be a vote at the General Meeting
22 on Tuesday. So usually these things work out very well so, you
23 know, congratulations and, you know, we're looking forward to
24 working with you.

25
26 **MR. CIARAMELLA:**

27 Thank you.

28
29 **CHAIRMAN SPENCER:**

30 Thank you. Thanks for taking the time.

31
32 **TABLED RESOLUTIONS**

33
34 **CHAIRMAN SPENCER:**

35 Moving on to Tabled Resolutions. **IR 1066, Adopting Local Law No.**
36 **-2020, A Local Law to update the County's smoking regulations in**
37 **multiple dwelling units. (Cilmi)**. It still has to be -- is the
38 public hearing closed at this point?

39
40 **MS. SIMPSON:**

41 My notes have the public hearing closed.

42
43 **CHAIRMAN SPENCER:**

44 The public hearing is closed, okay. So I know there's a couple of
45 competing resolutions. I support both of them. I will have to
46 work out the particulars, so I'm going to make a motion to approve.
47 Is there a second on the legislation to approve? No? Okay. Is
48 there a motion to table?

49
50 **LEG. DONNELLY:**

51 Motion.

52
53 **CHAIRMAN SPENCER:**

54 Motion to table by Legislator Donnelly; seconded by Legislator
55 Kennedy. Motion to table takes precedence. On the approval
56 motion. So just on the motion, just what goes on the tabling. I

1 know there are some concerns as far as personal liberties and
2 things, working it out, but I know there's also very strong
3 interests with regards to people with health issues, with young
4 children with asthma, things of that sort, the right to have clean
5 air and balancing that. So as a physician I'm supporting all of
6 these regardless, but I definitely understand.

7
8 Is there any comment on the tabling motion or just take the vote?
9 Okay. Motion to table goes first. All those in favor? Those
10 opposed? I'm opposed. Abstentions? All right. So the motion is
11 tabled at this point. **(VOTE: 5-1-0-0. PO CALARCO INCLUDED IN**
12 **VOTE/OPPOSED: LEG. SPENCER)**

13
14 **IR 1101, Adopting Local Law No. -2020, A Local Law to amend**
15 **Resolution No. 1234-2019, to clarify regulation of age-restricted**
16 **products. (Pres. Off.). Motion to approve by the Presiding**
17 **Officer; seconded by Legislator Donnelly. All those in favor?**
18 **Opposed? Abstentions? The motion is carried. (VOTE: 6-0-0-0.**
19 **PO CALARCO INCLUDED IN VOTE).** Moving on to Introductory
20 Resolutions.

21 22 INTRODUCTORY RESOLUTIONS

23
24 **IR 1194, Amending Resolution No. 704-2017, establishing a permanent**
25 **Heroin and Opiate Epidemic Advisory Panel. (Anker). A motion to**
26 **approve. I'll make that motion; seconded by Legislator Sunderman.**
27 **All those in favor? Opposed? Abstentions? The motion is**
28 **approved. (VOTE: 6-0-0-0. PO CALARCO INCLUDED IN VOTE)**

29
30 **IR 1242, Accepting and appropriating 100% State grant funds from**
31 **New York State Department of Health in the amount of \$418,578 for**
32 **the Public Health Tuberculosis Prevention and Control Program**
33 **("TBPC") administered by the Suffolk County Department of Health**
34 **Services and to execute grant related agreements. (Co. Exec.).**
35 **Motion to approve by Legislator Kennedy and place on the consent**
36 **calendar; seconded by Legislator Donnelly. All those in favor?**
37 **Opposed? Abstentions? Motion is approved. (VOTE: 6-0-0-0. PO**
38 **CALARCO INCLUDED IN VOTE/CONSENT CALENDAR)**

39
40 **IR 1243, Accepting and appropriating 100% State grant funds from**
41 **the New York State Department of Health in the amount of \$327,369**
42 **for the Tobacco Enforcement Program - ATUPA administered by the**
43 **Suffolk County Department of Health Services, Division of**
44 **Preventive Medicine and to execute grant related agreements. (Co.**
45 **Exec.). Same motion, same second, same vote. (VOTE: 6-0-0-0.**
46 **PO CALARCO INCLUDED IN VOTE/CONSENT CALENDAR)**

47
48 **IR 1252, Adopting Local Law No. -2020, A Local Law to prohibit**
49 **the feeding of wild animals in Suffolk County. (Cilmi). Motion by**
50 **Legislator Sunderman to table for public hearing; second by**
51 **Legislator Kennedy. All those in favor? Opposed? Abstentions?**
52 **Motion is tabled for public hearing. (VOTE: 6-0-0-0. PO CALARCO**
53 **INCLUDED IN VOTE)**

54
55 That's the resolution portion of the agenda.

1 So I wanted to make some comments on the record for the public and
2 for anyone that, you know, may be interested to be able to give as
3 much resources, and this is a public statement on the Coronavirus.
4 I think that I'll start out with this: I believe this is not a
5 time for panic. I think it is important to get as much information
6 out there as we can. I think it's important that we realize that
7 if we are going to be successful in terms of limiting the spread,
8 saving lives, that we have to work together.

9
10 So first I want to start out by thanking our Presiding Officer for
11 his leadership of this body and his proaction that we just had a
12 conference call with members of the Legislature and all the
13 supporting staff, and we've taken decisive action to protect the
14 employees and the public that are coming in contact with this body.

15
16 It's also important that I express my thanks to County Executive
17 Steve Bellone, Governor Cuomo, but here in Suffolk County Steve
18 Bellone has really put all County department on notice and really
19 put this at the forefront, and particularly the Department of
20 Health.

21
22 Dr. Gregory Pigott has been sworn in as our Commissioner for less
23 than two weeks and he has been engaged in this issue and really has
24 done an incredible job keeping us as up to date and making sure
25 that we stay on top of the situation.

26
27 So with that, I did want to make some comments and I'd ask that
28 everyone bear with me. You've heard some of this information if
29 you were on the previous call. So the interesting thing about the
30 Coronavirus is that yesterday the World Health Organization
31 declared it a pandemic. What that means, the Coronavirus, which is
32 -- the technical name, Covid-19, was characterized as having enough
33 spread worldwide that it would be considered a serious outbreak.
34 So as of yesterday, there were more than 118,000 cases around the
35 globe in 114 countries. More than 4,000 have died because of the
36 illness. To put this in context, the SARS, or the Severe Acute
37 Respiratory Syndrome, affected 26 countries and was not declared a
38 pandemic. So this goes a lot further. And the term pandemic, let
39 me be clear, should not install fear or panic, but it is a call to
40 action.

41
42 For most people, the Coronavirus symptoms are mild and most people
43 will recover within six days. In fact, around the globe 90% of the
44 cases are only in four countries, and two of those countries have
45 seen a leveling off or even a decline; that's China and Korea.
46 There are 57 countries still that don't have any cases, and there
47 are ten countries -- I'm sorry. There are 81 countries that don't
48 have any cases and 57 that have ten or fewer cases.

49
50 So what are the statistics, and this number is very fluid. It's
51 probably changed since we've written these numbers down. So I'm
52 just going to say that there are over 1200 confirmed cases in the
53 United States, with 36 deaths. And 42 states, including the
54 District of Columbia, have reported cases. Right here on Long
55 Island, in Nassau County the number of cases has risen to over 40,
56 and as of publication of this we had nine in Suffolk. My

1 understanding is that that over the afternoon has risen to 16 cases
2 in Suffolk County. Statewide we have approximately 220 confirmed
3 cases, with half of those being in Westchester.

4
5 So, what do we know about the virus and why is it so important?
6 Why is it different from the flu? Well, there are some
7 characteristics. The flu is very common and typically tens of
8 thousands of people die of the flu every year. The differences
9 here is that, number one, the virus here is a lot more infectious.
10 It's lot more infectious because it can survive a lot longer
11 outside of the body on surfaces. Typically it survives for two
12 hours on a surface and it's been reported to last as long as a day
13 in conditions where there's moisture and humidity.

14
15 The second characteristic that makes it more infectious is that
16 every year we see the flu and there is some immunity built into the
17 flu in our society, which we call a herd immunity. The Coronavirus
18 is relatively new to the -- even though there are other
19 Coronaviruses that are present, but within humans there's not a lot
20 of immunity that we possess naturally, so it's a lot easier for us
21 to catch because our bodies' defenses aren't used to this
22 particular virus.

23
24 Another feature is that when we looked at the flu, when we talk
25 about mortality or the death rate from the flu, typically one in a
26 thousand or point one percent will die because of the flu. Right
27 now with the Coronavirus we're seeing rates of mortality that range
28 between two to three percent. Though as we have more aggressive
29 treatment, we will see that percentage go down, but with the death
30 rate being two to three percent, the Coronavirus is 20 to 30 times
31 more fatal than the common flu. So it's more infectious and it's
32 more fatal.

33
34 So when we know these things -- let's talk about which populations
35 are vulnerable. Eighty percent of people who are infected with the
36 Coronavirus will have a mild to moderate illness; 15% will go on to
37 have severe disease; 5% will have critical symptoms and require
38 intensive care support; and about three percent of the people who
39 have confirmed cases may die of the disease. The most susceptible
40 population is the elderly. People who are over the age of 60 are
41 at a higher risk of developing a severe case according to the WHO
42 data. The highest death right is in people who are over 80 years
43 old. So we really have to take particular care to protect our
44 nursing homes and our seniors, to limit them from spread because of
45 this.

46
47 As per are the Center For Disease Control, children have typically
48 cold-like symptoms, runny nose and cough. Some have reported
49 gastrointestinal symptoms, but children do appear to recover at a
50 better rate.

51
52 Who should be tested? Every day we are increasing our capacity to
53 test. So the Governor, the County Executive, we're working with
54 our health care systems for private labs. Northwell is a site on
55 Long Island now that has the ability to do the rapid test. They
56 can do several hundred tests a day, but they're still limiting the

1 tests to those who have severe symptoms or have a direct contact.
2 And so as we get more and more capacity we would need to expand
3 that testing.

4
5 Right now the strategy has to be that we need to contain this.
6 Because with the potential ability for the virus to infect a large
7 segment of the population, containment is the only way that we can
8 decrease the impact on our society, but most importantly, the
9 impact on life.

10
11 How is the virus spread? The virus is spread by respiratory
12 droplets, respiratory droplets that you may inhale or respiratory
13 droplets that contain the virus that may land on a surface that may
14 survive for an extended period of time. When you come into contact
15 with those surfaces and then touch your face, your eyes, your
16 mouth, your nose, then that's how the virus is introduced.

17
18 Right now there is no particular cure, there's no vaccine, there's
19 no specific treatment for Coronavirus as far as curing, but it is
20 something that our bodies are able to fight off, so the treatment
21 is supportive treatment. That is rest, plenty of fluids, making
22 sure that you take things such as anti-inflammatories to sort of
23 decrease inflammation, and seeking the care of a doctor.

24
25 There are strategies, and you've heard of these things. They sound
26 basic, but they are so important. Adequate handwashing for at
27 least 20 seconds is important; covering our mouths during -- when
28 we're coughing. If you are sick, please stay home. We should on
29 our own limit our going to unnecessary sort of outings where there
30 are large groups of people, and as the health professionals look at
31 these situations more and more, we will see some limitations with
32 regards to our colleges, our schools, some of our entertainment
33 venues as we take proper steps.

34
35 But you need to take personal responsibility for social distancing.
36 We're very social people. We love to shake hands and give hugs and
37 give kisses, but at this particular point you should refrain from
38 shaking hands, you should refrain from embracing. In closed
39 situations you should try to limit your time there so that you
40 decrease the chance of either contracting or spreading the virus.

41
42 So I am confident that we will be okay. We have the best health
43 professionals working on this. I have seen them in action. And as
44 I mentioned before, we need to reduce panic and chaos. Sacrifices
45 will need to be made by all. We know that there are people that
46 are relying on paychecks, that they are relying on their jobs and
47 businesses, and we have to place a priority on life. That's
48 extremely important. So this is a time to be sober, this is a time
49 to be vigilant, but it is a call to action.

50
51 So, I will -- we're going to be issuing a public statement, the
52 Legislature under the guidance of the Presiding Officer, and I will
53 be joining him in that statement, and our Deputy Presiding Officer
54 Kara Hahn. We're meeting, we're ready to accept questions and
55 we're ready to work with the professionals to make sure that we do
56 the best job possible. Thank you.

1 We have Jason Nix from the County Executive's Office. Jack Nix,
2 I'm sorry, I know that. And there is a proposal that I understand
3 for the County to be able to tap into funding sources for support,
4 and Jack's going to tell us about that, and I think that may be
5 coming before the Legislature.
6

7 **MR. NIX:**

8 I'll take whatever J name you want, Jason, Jack, that's fine. But,
9 yes, I just wanted to bring to you guys' attention that on Tuesday
10 at the General Meeting we're going to be bringing forward an LL40
11 from the State that's going to be \$30,000. It's based on
12 population. That's the highest amount of money that was given out.
13 Local health departments can use this funding for the response in
14 the following categories. I'll just a couple. Surveillance and
15 case identification, monitoring of travelers, data management, lab
16 equipment, surge staffing, emergency operations and public health
17 coordination with health care systems. So we're going to bring
18 that forward on Tuesday for you guys.
19

20 **CHAIRMAN SPENCER:**

21 Thank you very much.
22

23 **MR. NIX:**

24 Thanks.
25

26 **CHAIRMAN SPENCER:**

27 Thank you very much. So that's all the business that I have. I
28 just want to extend to our Deputy Presiding Officer, I know that
29 she's been someone that has really taken a particularly strong
30 interest in terms of making sure that we are taking the appropriate
31 steps. I thank her for her leadership in this situation as well as
32 in others. But I didn't know if she had any comment.
33

34 **D.P.O. HAHN:**

35 Thank you, Doc. I don't have anything prepared to say. I do just
36 hope that we all, you know, give this the serious consideration it
37 deserves and that we limit our non-essential gathering so that we
38 can get through this together and quickly.
39

40 **CHAIRMAN SPENCER:**

41 Thank you. So that's all the business I have. If you are sick,
42 stay home. Okay. With that, we stand adjourned. Thank you.
43

44 **THE MEETING CONCLUDED AT 3:32 PM**
