6
7 **COMMITTEE MEETING**

8
9
10 ***MINUTES***

11
12 A meeting of the Fire, Rescue, & Emergency Services Committee of
13 the Suffolk County Legislature was held in the Rose Y. Caracappa
14 Legislative Auditorium of the William H. Rogers Legislature
15 Building, 725 Veterans Memorial Highway, Smithtown, New York on
16 January 26, 2021 via in-person and through Zoom participation.

17
18 **Members Present:**

19 Legislator Tom Cilmi - Chairman
20 Legislator Tom Donnelly - Vice Chairman
21 Legislator Susan A. Berland
22 Legislator Leslie Kennedy
23 Legislator Kara Hahn
24 Legislator Samuel Gonzalez
25 Legislator Rudolph A. Sunderman

26
27 **Also in Attendance:**

28 Presiding Officer Robert Calarco
29 Legislator Al Krupski - District No. 1
30 Sarah Simpson - Counsel to the Legislature
31 Amy Ellis - Clerk/Suffolk County Legislature
32 Thomas Corcoran - Budget Review Office
33 Bob Braun - County Attorney's Office
34 John Jordan - Commissioner of FRES
35 Patrick Beckley - Deputy Commissioner/FRES
36 Joel Vetter - Chief/FRES
37 Thomas Kriklava - Appointee/FRES Commission
38 All Other Interested Parties

39
40 **Minutes Taken By:**

41 Gabrielle Severs - Court Stenographer

42
43 **Minutes Transcribed By:**

44 Kim Castiglione - Legislative Secretary

1 (*The meeting was called to order at 11:40 a.m.*)

2
3 **CHAIRMAN CILMI:**

4 Welcome to the January 26th meeting of the Fire, Rescue, Emergency
5 Medical Services and Preparedness Committee. If I could ask
6 everyone to rise for the Pledge of Allegiance to be led by
7 Legislator Gonzalez.

8
9 (*Salutation*)

10
11 **CHAIRMAN CILMI:**

12 And if I could ask everyone to please remain standing, those of you
13 who are standing and who are able to stand, for a moment of silence
14 in memory of Lieutenant Robert Van Zeyl, who passed away on January
15 20th from complications associated with COVID-19. Lieutenant Van
16 Zeyl was an officer with the Suffolk County Police Department in
17 the Second Precinct. He offered more than three decades, more than
18 30 years of public service to this County and to his community.
19 And I know that he and his family and friends and the entire
20 Suffolk County Police Department, in fact, the entire Suffolk
21 County Government, joins in mourning and in prayer for all of them.
22 So a moment of silence, please.

23
24 (*Moment of Silence*)

25
26 **CHAIRMAN CILMI:**

27 Thank you. May he rest in peace.

28
29 We do have a couple of members of our committee and others who are
30 here with us in committee, who are attending Lieutenant Van Zeyl's
31 funeral momentarily or as we speak, so I know we have Legislator
32 Donnelly on the phone who will participate very shortly and we have
33 Legislator Sunderman who is at the funeral. And I see Legislator
34 Hahn has joined us.

35
36 So that said, we are going to go right to the agenda. Of course
37 this meeting is being held remotely with all Legislators
38 participating via Zoom due to the Governor's continuing Executive
39 Order. We do have one piece of correspondence that I would like to
40 share with the committee. Let me just make sure I have everybody
41 admitted here. I'm admitting Joel Vetter. Joel, are you with us?
42 Let me just wait for this correspondence. Joel, are you there?

43
44 **CHIEF VETTER:**

45 Yes, sir, sorry.

46
47 **CHAIRMAN CILMI:**

48 Okay, fantastic. We just were about to start here. We had the
49 Pledge and I'm moving on to correspondence, and there's a piece of
50 correspondence that I just wanted to share with the committee. I
51 wanted to make sure that you, Joel, were in the meeting for this
52 because it pertains to you, frankly. So this is from Joe Micheels,
53 who is a paramedic and firefighter with the East Islip Fire
54 Department, and a friend of mine as well. He sent an e-mail which
55 he asked if I would read to the committee.

1 It says, "Good evening. I hope this message finds you well. I'm
2 writing you this evening in regards to Joel Vetter, Chief of Fire,
3 Rescue and Emergency Services. The effort put forth by Chief
4 Vetter and his staff is amazing. From the timely updates in
5 regards to testing and the virus to most recently the vaccination
6 of our first responders. As I scheduled a number of our EMS
7 providers for the East Islip Fire Department and am now working on
8 getting our info for our firefighters to him, I cannot fathom the
9 logistics required to schedule the first responders across the
10 County.

11
12 Having previously served with Chief Vetter on the Suffolk REMSCO, I
13 knew his work ethic and dedication. He, in my eyes, has gone above
14 and beyond in serving the first responders and, therefore, our
15 County. From the announcement Wednesday night that first
16 responders would be able to get vaccinated through the County he
17 has responded to a number of my e-mails in an amazing period of
18 time and I cannot begin to digest how many e-mails he must be
19 receiving.

20
21 Thank you both for your hard work during these most trying times."

22
23 So this was written to me and to County Executive Steve Bellone and
24 I just wanted to make sure, you know, oftentimes all we hear is
25 criticism. I wanted to make sure that, Joel, that you heard those
26 words of praise much deserved for you. So thank you for your
27 service.

28
29 **CHIEF VETTER:**
30 Thank you, sir.

31
32 **CHAIRMAN CILMI:**
33 You're welcome.

34
35 **CHIEF VETTER:**
36 But definitely with the leadership of both Commissioner Jordan and
37 Deputy Commissioner Beckley, who I'm supposed to introduce to you
38 guys, as well as all of them, all of the Chiefs and the support out
39 of IT. I can't speak enough to the need for that to continue which
40 I'm sure will. That's what's leading us to be so successful. So
41 thank you for reading that.

42
43 **CHAIRMAN CILMI:**
44 You're welcome. Okay. I've admitted Thomas Kriklava, Chief
45 Kriklava, to our meeting. Can you hear me, Chief?

46
47 **CHIEF KRIKLAVA:**
48 Hello, sir. How are you?

49
50 **CHAIRMAN CILMI:**
51 I'm doing fantastic, thanks. So with that being said, I'm going to
52 go to Appointments and we have one appointment for the day. We
53 have *IR 2001 - Approving the appointment of Thomas J. Kriklava as a*
54 *member of the Suffolk County Fire, Rescue and Emergency Services*
55 *Commission. (Co. Exec.)* Let me just get a motion first.

56

1 **LEG. KENNEDY:**

2 Motion.

3

4 **CHAIRMAN CILMI:**

5 From Legislator Kennedy.

6

7 **LEG. DONNELLY:**

8 Second.

9

10 **CHAIRMAN CILMI:**

11 Second by Legislator Donnelly. On the motion. Chief Kriklava,
12 thank you for your willingness to serve on the Commission. Why
13 don't you give the committee a little background and tell us who
14 you are and why you are looking forward to serving and if there's
15 anything else you would like to share.

16

17 **CHIEF KRIKLAVA:**

18 Thank you, sir. Thank you, Honorable Legislators. It's a
19 privilege to be here today. Basically, in a nutshell about myself,
20 my professional history, I'll start with that. I started in the
21 emergency service field back in 1982 with the New York City Police
22 Department. I served there for 21 years as an Emergency Service
23 Police Officer. My last detail before I retired from there was
24 with the World Trade Center rescue recovery operation. I was
25 actually assigned down there from September 11th right through to
26 June 6th.

27

28 When I retired from there I moved on into private practice with an
29 insurance company as a field underwriter. Then after that, the
30 company downsized, so I kind of moved on again. I became -- kind
31 of bouncing around, to be quite honest. I served as a Code
32 Enforcement Officer for the Town of -- the Village of Islandia, I'm
33 sorry. I also worked for the Town of Islip as the Assistant to the
34 Commissioner of Public Safety. I also handled several part-time
35 security jobs for various fields. I worked for the IRS, Hauppauge
36 School District and a couple of private organizations.

37

38 Currently I sit as the Operations Manager for the Central Islip -
39 Hauppauge Volunteer Ambulance, which basically, the easiest way to
40 understand the Operations Manager's job, it's the same as the
41 District Manager of any fire district. I handle the day to day
42 operations, all the employees, vehicles, whatever the Board entails
43 me to handle.

44

45 On the volunteer side, I actually started my volunteer career in
46 1979. I started as a member of the Sayville Community Ambulance.
47 I also since 1979 have served as a member of the Bohemia Fire
48 Department, Islip Terrace Fire Department, Central Islip Ambulance
49 as a volunteer, and also the Hauppauge Fire Department, which I
50 achieved the rank of Ex-Chief and served in that rank from 2007 to
51 2010.

52

53 I also served on numerous LION organizations within the fire
54 service. I'm currently serving as an active member of the Islip
55 Chiefs Fire Council where I serve on a couple of committees there.
56 I served as the Past President -- I am a Past President of the

1 Smithtown Fire Chiefs Council, where I worked on several projects
2 there also. And currently, as you're aware, I sit as the President
3 of the Suffolk County Fire Chiefs, where I'm working along with our
4 current Board to move our organization along in this pandemic. We
5 have a lot of ideas that we want to move forward and we're hoping
6 to actually involve local government and get more closer with local
7 government with our operations and different things.

8
9 As far as my personal life, I have been married to my wife, Kim,
10 since 1985. We have three children in the community. I have one
11 down in Florida right now who is a P.A., or going to P.A. school.
12 I have one that's a nurse in Suffolk Community -- Suffolk County,
13 I'm sorry, in Stony Brook University, and I have one that's a
14 teacher right here in Hauppauge in a private school. Three
15 grandchildren. I'm very proud of them.

16
17 I guess in a nutshell my goal is to work along with the FRES
18 Commission, the Legislative body and local government to try to
19 move the fire service forward and keep a positive flow moving
20 forward with the fire service.

21
22 **CHAIRMAN CILMI:**

23 That's great. Certainly, as is the case with many of our first
24 responders and volunteer fire service folks, very long, robust
25 history of service to our communities, Tom, so thanks for all of
26 that.

27
28 **CHIEF KRIKLAVA:**

29 You're welcome.

30
31 **CHAIRMAN CILMI:**

32 Any questions from the committee? I see one hand up. Legislator
33 Gonzalez, go ahead, please.

34
35 **LEG. GONZALEZ:**

36 It's not a question, it's just the extensive resume that you have,
37 Tom, but more than anything, it is your work ethic and everything
38 that you do, especially here in the Town of Islip when you were
39 here. And I represent Islip, I represent Brentwood and North Bay
40 Shore. But it's your work ethic, Tom, and, you know, it's so
41 extensive. It's remarkable all the things that you've done in the
42 years that you've put your service to this County. So, listen, I'm
43 with this. If I could put and raise both my hands I would, but I'm
44 going to prematurely just say welcome. Welcome.

45
46 **CHIEF KRIKLAVA:**

47 Thank you, Legislator Gonzalez. I appreciate it.

48
49 **LEG. GONZALEZ:**

50 You're welcome, sir.

51
52 **CHAIRMAN CILMI:**

53 We'll instruct the Clerk to count your vote twice, Sammy.
54 Legislator Hahn, go ahead.

55
56

1 **D.P.O. HAHN:**

2 I'd like to echo Sammy's comments, and being from a volunteer
3 firefighter family, I'd like to thank you for all your service to
4 the community, for your commitment to the volunteer firefighter
5 service here in Suffolk County, and to the betterment of it. And
6 we're very appreciative for your willingness to serve in this role.
7 Thank you.

8
9 **CHAIRMAN CILMI:**

10 Thank you, Legislator Hahn. Legislator Kennedy.

11
12 **LEG. KENNEDY:**

13 Chief Kriklava, I am proud to extend my vote for you to be in this
14 position. It's not only your work ethic, it's your knowledge and
15 it's that you're fair and equitable to everyone. You always do the
16 right thing. Thank you, sir.

17
18 **CHIEF KRIKLAVA:**

19 Thank you, Legislator Kennedy.

20
21 **CHAIRMAN CILMI:**

22 Thank you, Legislator Kennedy. Legislator Berland.

23
24 **LEG. BERLAND:**

25 Thank you. I also want to give you my support and thank you for
26 your service to the people of the County and thank you for your
27 willingness to serve in this capacity. You have an incredible
28 resume and I'm with you as well. Thank you.

29
30 **CHIEF KRIKLAVA:**

31 Thank you very much.

32
33 **LEG. BERLAND:**

34 You're welcome.

35
36 **CHAIRMAN CILMI:**

37 Okay, anybody else? All right. Tom, once again, thank you. I
38 echo what everyone has said. As somebody who represents the C.I. -
39 Hauppauge Ambulance Company, along with Legislator Gonzalez and as
40 well as the Hauppauge Fire Department along with Legislator
41 Kennedy, we are forever appreciative of the work that you do.

42
43 So with that said, we have a motion and a second. All in favor?
44 Opposed? Abstentions? Madam Clerk, would you call the roll,
45 please.

46
47 *(*Roll Call By Amy Ellis - Clerk of the Legislature*)*

48
49 **LEG. KENNEDY:**

50 Yes.

51
52 **LEG. DONNELLY:**

53 Yes.

54
55 **CHAIRMAN CILMI:**

56 Yes.

1 **LEG. SUNDERMAN:**

2 (Not Present).

3

4 **D.P.O. HAHN:**

5 Yes.

6

7 **LEG. GONZALEZ:**

8 Yes.

9

10 **LEG. BERLAND:**

11 Yes.

12

13 **LEG. CALARCO:**

14 Yes.

15

16 **MS. ELLIS:**

17 Seven. (*Vote: 7/0/0/1 - Presiding Officer Calarco is included in*
18 *the vote*).

19

20 **D.P.O. HAHN:**

21 Chairman Cilmi?

22

23 **CHAIRMAN CILMI:**

24 The resolution is approved. If I could before I recognize you,
25 Deputy Presiding Officer Hahn. Chief, normally what happens now is
26 the resolution will go to the full Legislature which meets on
27 Tuesday. I don't expect that you need to be there. If for any
28 reason any member of the Legislature reaches out to me between now
29 and Tuesday and asks our office will certainly reach out to you,
30 but don't expect to have to come before us for Tuesday's meeting.
31 Our committee's approval should suffice.

32

33 **CHIEF KRIKLAVA:**

34 Very good, sir.

35

36 **CHAIRMAN CILMI:**

37 All right. Thanks for taking the time to be here, we appreciate
38 it, and for your service.

39

40 **CHIEF KRIKLAVA:**

41 Thank you very much, folks, for taking the time to talk to me and I
42 greatly appreciate your vote of confidence. Thank you.

43

44 **CHAIRMAN CILMI:**

45 Thank you.

46

47 **LEG. KENNEDY:**

48 Thank you.

49

50 **LEG. BERLAND:**

51 Thank you. Congratulations.

52

53 **LEG. GONZALEZ:**

54 Thank you.

55

56

1 **CHAIRMAN CILMI:**
2 Legislator Hahn.

3
4 **D.P.O. HAHN:**
5 I can't tell, is Joel Vetter still on the line?

6
7 **CHAIRMAN CILMI:**
8 Joel is still on the line, yes. And we're going to have a quick
9 presentation, by the way, from him.

10
11 **D.P.O. HAHN:**
12 Oh, okay.

13
14 **CHAIRMAN CILMI:**
15 So you might want to hold up on your question for that.

16
17 **D.P.O. HAHN:**
18 Yes, he's probably going to be talking about the questions I have,
19 so good.

20
21 **CHAIRMAN CILMI:**
22 Okay. And Legislator Krupski has a question for Commissioner
23 Jordan, who is still with us. Legislator Krupski, did you want to
24 ask that question now or do you want to wait?

25
26 **LEG. KRUPSKI:**
27 I don't know. It might relate to what Mr. Vetter is going to say.

28
29 **CHAIRMAN CILMI:**
30 Okay.

31
32 **LEG. KRUPSKI:**
33 It's a question about distributing the vaccine to the volunteer
34 firemen.

35
36 **CHAIRMAN CILMI:**
37 Yeah. So I had asked the Commissioner to join us to quickly talk
38 about vaccine distribution to our first responders, the departments
39 throughout Suffolk County. So without further ado, I'm just going
40 to turn it over to Commissioner Jordan who may, in fact, turn it
41 over to others. So, Commissioner Jordan, go right ahead.

42
43 **COMMISSIONER JORDAN:**
44 Good afternoon, everyone. We are in afternoon, right, or almost, I
45 guess. I don't know. Anyway, so, yes, I will touch quickly and
46 then I have to run into Duck Stadium to get my second shot, so
47 Chief Vetter will pick up where I leave off.

48
49 So there was a resounding cry from the fire and EMS community about
50 first responder vaccinations, about fair and equitable distribution
51 of first responder vaccinations. And so what we saw a couple of
52 weeks ago, or three or four weeks ago, I don't even know the time
53 frame now, the County set up a vaccination POD at Suffolk Community
54 College, and that vaccination POD was a community-based POD and we
55 set that up at the request of the State. But that has been part of
56 our plan all along for a couple decades now. We set up the

1 Riverhead Campus. We finished setting that up yesterday and we're
2 going to be doing a site visit today at the Selden Campus to get
3 that campus up and running for a community-based POD as well.

4
5 So as far as first responders, there has been -- there was a
6 network of planning, if you will, over the last couple of decades
7 about first responder PODS and things like that. So what we saw
8 with this particular virus, with this vaccine, it's very, very
9 logistically heavy and there's a lot of things that were not
10 incorporated in previous POD planning and POD vaccinations with
11 respect to the logistics of having a pharmacist on site, a whole
12 staff. And there's a ratio of vaccinators and a limit to how many
13 vaccinations can be done by hour and things like that.

14
15 So the Police Department has always been designated a first
16 responder POD. The Police Department since planning, or over the
17 years, has a robust staff in the MedCAT Unit and they've been
18 training and they have a whole world of experience and they have a
19 whole staff who was ready, willing and able to go. We saw a
20 donation in like the first week that they were set up and ready to
21 go of 500 vaccines, to specifically to the Police Department. They
22 vaccinated a lot of personnel, their POD staff. And so we saw a
23 concern in the first responder community because they kind of
24 thought that they weren't going to be vaccinated and things like
25 that and that wasn't the case.

26
27 So in Phase 1A the agencies and the points of contact from the
28 agencies, and I'll let Joel get in more little deep in this because
29 I got to run in a second, but the power or the ability to make
30 those vaccinations was with the agencies. The specific agencies
31 were able to make their own appointments for their own membership.
32 And in Phase 1B, when 1B was announced, that ability was taken away
33 from the local agencies. So everything had to go through the
34 State, the Am I Eligible tool and the site and it became very, very
35 confusing.

36
37 We saw hundreds of thousands of people eligible and so first
38 responders needed guidance and attention. And so, again, Joel will
39 talk about what we did as an agency to organize all that, get
40 everybody together, but in communicating with Chief -- oh, I'm
41 forgetting the most important part, right. So when 1B was
42 announced there was a drought of vaccine. There was not enough
43 vaccine for the County, coming into the County. There was actually
44 no vaccine and then we were told we were getting 600 doses for a
45 whole week and we were targeted. The State would identify targets
46 of where that was going.

47
48 So last week we were able to and we got an allotment of 1100 doses
49 from the State. That's all we got for the week and it was
50 designated for frontline workers and so the County Executive
51 dedicated that in completion to first responders, both police,
52 fire, EMS, things like that. So Chief Cameron and I discussed it
53 and instead of mixing the two, because we were using two different
54 reservation systems, we dedicated Friday as law enforcement and
55 Saturday, fire and EMS. So we've been tracking through
56 SurveyMonkey and through Joel's hard work, you know, trying to

1 organize, because there really is no one point of contact for the
2 County to tell us when we're done vaccinating first responders.

3
4 But at any rate, so we opened up with a target of 550 for fire and
5 EMS on Saturday and we actually did 681, which was a huge, huge
6 chunk of the outstanding 1B population. We feel pretty confident
7 that 1A is complete. So the 1B population for fire and EMS we got
8 681. So, again, it's difficult to track when we're done because
9 the cooperation and the information sharing has to be there in
10 order for us to know when we're done.

11
12 So this week we've got an allotment coming from the State and our
13 plan is to, again, open up. So we're doing Selden, I mean, excuse
14 me, Brentwood and Riverhead Thursday and Friday, and then we're
15 going to be opening the first responder POD on Saturday again. And
16 it's not going to be just a designated law enforcement or fire and
17 EMS. The plan is to combine them and do a reservation and to do,
18 you know, hundreds more firefighters on that day as well as some
19 law enforcement folks and stuff like that. So with that said, we
20 just don't know the exact number yet from the State. We haven't
21 received the vaccine yet, so we can't dedicate a specific number to
22 the fire/EMS community and then have those reservations coordinated
23 through Joel.

24
25 And then backpedaling a little bit, through Legislator Sunderman,
26 South Country Ambulance, Chief Miglino reached out and wanted to
27 partner with us. So we've been talking to Chief Miglino, you know,
28 about the pharmacist piece is the drought for all of these folks
29 that want to open up PODS, is you need a pharmacy -- you need a
30 pharmacist, rather, and a staff. So Chief Miglino reached out to
31 Long Island Community Hospital, which was more than willing to
32 partner in this endeavor. So as vaccines come into the County we
33 have another avenue to vaccinate first responders through the
34 partnership with South Country and Long Island Community Hospital
35 and then obviously with the support of County personnel as well.

36
37 So I hope that's in a nutshell a picture. I'm going to turn it
38 over to Joel to plug in the gaps because I have to get off. If
39 anybody has a specific question for me, before I jump off, please
40 ask, otherwise I got to hang up because I'm going to be late for my
41 second shot.

42
43 **CHAIRMAN CILMI:**

44 Maybe specific questions could be addressed to you privately, John.
45 We don't want to stand in between you and the coveted second shot
46 of that vaccine. So if that's okay with everybody.

47
48 **D.P.O. HAHN:**

49 Thank you for all you do.

50
51 **COMMISSIONER JORDAN:**

52 Oh, no problem. I just want to echo the sentiments of the e-mail
53 praising Joel's hard work. Joel has done an outstanding job,
54 there's no doubt about that, and we would really be at a deficit
55 without him. And I was negligent and I didn't introduce Pat
56 Beckley. I see he's on the call. Pat is our Deputy Commissioner.

1 Pat is not new to the fire/EMS world and certainly not to emergency
2 management. Pat comes to us from the State. He was the Regional
3 Director of State OEM in Suffolk and Nassau and we are absolutely
4 -- I have known Pat for a decade now. We've worked hand in hand
5 with him. He was instrumental during the recovery of Hurricane
6 Sandy and every other incident that we've had. He's been a great
7 partner to the County and we are really, really fortunate to have
8 him on our staff. He brings a lot of tools in his toolbox, that's
9 for sure. So it's a perfect time for him to join us. And now as
10 I'm stepping in the building I'm going to exit, but I am definitely
11 available. You guys can call me on my cell. In ten minutes I
12 should be done.

13

14 **CHAIRMAN CILMI:**

15 Thanks, Commissioner, be safe.

16

17 **COMMISSIONER JORDAN:**

18 Thank you.

19

20 **CHAIRMAN CILMI:**

21 Okay. With that said, we'll turn it over to Joel. Did you want to
22 add anything prior to answering questions?

23

24 **CHIEF VETTER:**

25 No, unless is there a desire for you guys to have a brief overview
26 of how we're communicating with the 140 agencies? I see a couple
27 of nods of a yes.

28

29 **CHAIRMAN CILMI:**

30 Sure.

31

32 **CHIEF VETTER:**

33 I'll give you the 30,000 foot. Working with Suffolk EMS, Dr.
34 Winslow and the staff over there, we've build out for over a year
35 and a half now communication tools in Outlook as well as in our
36 software here, our RAVE Alert, our Smart911 alerting software,
37 with each of the agencies. It's a very robust list. There's
38 different ways that the responders can enroll into it.

39

40 So we are currently using the keyword Suffolk VFR. Those are for
41 allowing us to capture our veterans as well as our first responders
42 for rapid testing and then from there they're automatically
43 enrolled into those text groups. So very similar to Suffolk Alert,
44 right, there's Suffolk VFR. We have been sending out almost daily
45 to nauseam, to the points of contact in each of the agencies.

46

47 Over the last week when we pulled off the last POD we really
48 analyzed and looked at where some of our vulnerabilities were. So
49 after yesterday's webinar with roughly 280 in attendance we've had
50 each agency's point of contact individually contact me and we've
51 sent back secured sheets to them. That gives them a process. The
52 process is automated now today that they're sending it to a secured
53 e-mail that automatically puts it into a box location for us so we
54 don't have to manually move things around and potentially lose an
55 agency's data.

56

1 We then take that information. They set the priority. So there's
2 two options for our fire and our EMS folks. One, option A. They
3 manage their own list, set their own priorities and schedule their
4 people. As vaccines change and become available, the membership is
5 then making a choice. So we do have, you know, we're considering
6 1A being complete, but there are people who fit 1A who now are
7 making decisions to get vaccinated, right, so we're in the 1B phase
8 is the way we're kind of selling it. So if you see the
9 spreadsheets, it's not that we're not vaccinating the 1A's. It's
10 up to the agency in that priority one, that option one, to put them
11 in a list order and then we're pulling from them equally across the
12 board. And we are taking into consideration, and we did it this
13 past weekend, where they're traveling from, where they're traveling
14 to.

15
16 So, for example, Montauk we asked them to come off the Fork at off
17 hours so they weren't sitting in excessive traffic. Fire Island,
18 we only took so many people off of the Island versus on the Island.
19 And then we called locally towards the end of the day when we saw
20 the amount of either no shows for a mixture of reasons, COVID,
21 illness, accidents, whatever the component was, locally. So we
22 have points of contacts that literally the day of in the last hour
23 when we knew what that magic number was going to be out of the
24 vaccines, we called locally Brentwood, Brentwood Fire Department.
25 We said, "How many can you get us? This is our target number". We
26 actually only sent four people away.

27
28 If we over register, if we call extra people in from a will call
29 list, which I'll describe to you, they go on the top of the list
30 for the next POD component. So there's four people that are from
31 Brentwood that are first in on the next POD because of that
32 component. The variable there is the amount of diluent, the actual
33 amount of vaccine that's available in the actual vial. As the
34 pharmacists are drawing them up, there is a tendency, an
35 infrequency component of it where there might only be seven or
36 eight or nine doses, not the full ten. So that's why that number
37 gets a little wacky like, you know, people ask. My wife, who is
38 the math teacher. How did you get to 681? How is that possible?
39 It's those other shortages over that period of time.

40
41 And then the last piece of the puzzle that we're doing with them,
42 or two last pieces, real brief, is the option B. If the agency
43 doesn't have the capabilities or the technologies, we will build an
44 individual SurveyMonkey with a URL specifically for that agency
45 that they can share. They can then update and enter that
46 information. They don't have the ability to prioritize who in that
47 agency is first versus last. That's a first come, first serve,
48 type of deal. We cannot support and manage that feature within
49 SurveyMonkey.

50
51 And then lastly here in the department, for those that are calling
52 us. Our veterans are over the age of 75 are those that are 1B's.
53 We have developed an internal tool that I would love to partner
54 with you on and share that if they're calling your offices you
55 could enter them into this SurveyMonkey of a collection point.
56 There is no guarantee of a vaccine. If they fit the 1B model and

1 they're in there and they fit the target that's identified from the
2 State we will pull from there. We will also bill that as a will
3 call list. So this past weekend we launched a survey in a matter
4 of 15 minutes through Suffolk VFR. We put 285 people into the will
5 call list. We took 61 of them off of that list. So it's a
6 multiprong approach, a lot of moving parts.

7
8 The last piece is the technology of the reservations. I've really
9 got to applaud IT, that they're taking the information that we're
10 giving them and they're bulk loading the appointments upfront so it
11 bypasses the thousands of people trying to click these buttons on
12 these sites where we're seeing the majority of the trouble.

13
14 It's really driven, though, on the text and the e-mail. So what
15 we're trying to get the point across, and we're pretty successful
16 at looking at this morning's data, is they've got to have an e-mail
17 in the system. So let's say I'm a member of Holbrook, I'm doing it
18 from my home agency, the 85 year-old member that doesn't have
19 e-mail, they've got to put an e-mail address in that. Otherwise we
20 saw appointments getting rejected and we saw appointments --
21 somebody put my e-mail address in for six people, so I got six
22 random people's appointments and then it was like trying to find a
23 needle in a haystack; it's not going to happen, okay. So that's
24 the big overview. Questions?

25
26 **CHAIRMAN CILMI:**

27 That was great, Chief. Thanks. Okay, let's go to Legislator Hahn
28 first. Go ahead, Kara.

29
30 **D.P.O. HAHN:**

31 Thank you. And thank you, Joel, for all you're doing, your whole
32 department. It's an incredibly monumental task and we're so
33 appreciative to have your leadership.

34
35 So the questions I had, you know, before Jay started talking was
36 still sort of -- still exist in my mind. Like I'm not sure I got
37 answered. So are we maintaining data on each department? Like do
38 we know the current number of members and how many of them have
39 been vaccinated with a first dose, have been vaccinated with a
40 second dose, how many are declined, like from each of our 140
41 agencies.

42
43 **CHIEF VETTER:**

44 So each agency has to maintain their data. We are supporting them.
45 Right now we're roughly running about 48 surveys for those agencies
46 with home court rule, right.

47
48 **D.P.O. HAHN:**

49 When you say they have to maintain their data, so you're relying on
50 each agency to enter into our system, you know, I guess member
51 names and birthdays or something or some kind of member ID number
52 and then when they get vaccinated they check them off?

53
54 **CHIEF VETTER:**

55 So for the agencies that have ambulances, under New York State
56 Department of Health, they are required to have records on file for

1 their operating certificate of who is vaccinated, when they were
2 vaccinated, the first and second dose, and who refused or denied
3 the vaccine. That's at an agency level.

4
5 We will support any agency that needs assistance in collecting that
6 information. We have done that successfully for 46 agencies. If
7 the other agencies -- some of them are very high tech so, Dave
8 Sterne up in Setauket, right, I'm going to give him a shout out.
9 He doesn't need my help. He knows how to navigate a Google world.
10 He does his own Google surveys, he has all of his information, but
11 that's where that lies. I can tell you that we have been extremely
12 successful in data mining who is from what agencies all through our
13 COVID rapid testing on the weekends and in the vaccines.

14
15 **D.P.O. HAHN:**

16 And so when you say David Sterne in Setauket do it themselves, so
17 they're not one of the 46 agencies that you assisted is what you're
18 saying.

19
20 **CHIEF VETTER:**

21 Correct.

22
23 **D.P.O. HAHN:**

24 Okay. So you've assisted 46. How many are able to do it on their
25 own, and are there agencies that are just kind of out there and not
26 responding?

27
28 **CHIEF VETTER:**

29 So last week did a -- before we did the first responder test we did
30 a standalone survey that we sent to every department. We had about
31 a 60% completion rate within the first six hours. On the overnight
32 that data jumped up to roughly about 100, 110. Over the next two
33 days after that we physically called the other agencies. Very
34 labor intensive process, got general overviews of where they stood
35 as far as who completed 1A, who was left, what were the
36 subcategories of the 1B, and we went and we attempted to try to go
37 very granual. So not only what is their classification, what was
38 their age bracket. Because if a decision is made that we're
39 targeting let's say 75 year-old people starting tomorrow, we're
40 going to crawl the list of data, of the thousands of volunteers
41 that we have, that have the magical birth date ending in whatever,
42 and we're going to register them for vaccines. So any opportunity
43 we have, whichever target group they are, that's where we're going
44 to try to plug them in.

45
46 **D.P.O. HAHN:**

47 Okay. Theoretically could you say, you know, if everything on the
48 system is up to date, you know, you could say how many members we
49 have and how many have gotten their first dose, theoretically.

50
51 **CHIEF VETTER:**

52 Yes.

53
54 **D.P.O. HAHN:**

55 Okay.

56

1 **CHIEF VETTER:**

2 We can provide general overview numbers that way. The other piece
3 of the puzzle is the moving target is as the membership changes,
4 who wants it, who doesn't want it.

5
6 **D.P.O. HAHN:**

7 Things do change, and people move out of state and people expire
8 and people join the department, you know, so.

9
10 **CHIEF VETTER:**

11 Who got hit with COVID and who didn't get sick.

12
13 **D.P.O. HAHN:**

14 Those are moving pieces and I understand that, so any data point at
15 any given time is only good at that given time it's collected.

16
17 **CHIEF VETTER:**

18 I want to reassure you that we have a high degree of accuracy on
19 the entire system.

20
21 **D.P.O. HAHN:**

22 Good. Do we have a list of fire department ambulance companies
23 willing to offer their houses as vaccination sites as the supply
24 becomes really available and if we have pharmacists and if we have
25 the freezers or whatever were needed.

26
27 **CHIEF VETTER:**

28 Yes.

29
30 **D.P.O. HAHN:**

31 Do you ever anticipate us going to that place where Setauket Fire
32 House on Nicolls Road might be a vaccination site.

33
34 **CHIEF VETTER:**

35 So, yes, in that survey that I've referenced prior we asked that
36 question and we do have that sub-list. The real goal and what I
37 would like you all to think of this as an ultra marathon, all
38 right, that's what this is, is really mass vaccinations in the
39 three large public PODS, right. Those -- there's very high
40 capacities in that way. We've been building a very robust system
41 not only from our volunteers, but also the Medical Reserve Corp
42 here at FRES with the Health Department. We have over 1200 people
43 enrolled, licensed practitioners, willing to help out in that way.

44
45 In prior discussions the local stuff would be the little seeds, the
46 little pop-ups. If there's health disparities, if there's other
47 reasons for us to do some of those activities, that's when we'd be
48 looking at that, or towards the end. If we see that we're not
49 really getting a herd mentality in a specific community and we have
50 to do a push in aspect in that way, that's when we would move those
51 components that way.

52
53 **D.P.O. HAHN:**

54 So I haven't seen the site at Brentwood or Riverhead or Selden for
55 that matter. My concern is early on when B, 1A maybe, the 75 and
56 older, I can't remember which is 1A and 1B. But, you know, there's

1 some pretty elderly individuals who are not mobile, that getting in
2 a car and driving for 45 minutes and then having to walk, you know,
3 from a parking spot into a, you know, a POD that could be a long
4 walk from the parking lot and having to wait on a line, even though
5 it might be short. You know, there are people with not only
6 mobility issues, incontinence issues, other problems with aging and
7 we're talking about the most elderly first, right, the most
8 vulnerable and sick first. Going to mass vaccination sites, you
9 know, is not necessarily the way to get to those most vulnerable
10 people. And those are the ones we want vaccinated first. So I get
11 that you're going to be able to vaccinate the most people quickly
12 at big PODS, big mass vaccination sites, but to really, truly get
13 to, you know, the elderly, the infirmed, you kind of have to go to
14 them in some cases. And so --

15
16 **CHIEF VETTER:**

17 I do not disagree with you. So in my entire graduate studies I
18 potentially wrote a couple of papers on some of this stuff. I do
19 not disagree with you, I just have to point out that with the
20 current pharmaceuticals that are being used and the cold storage
21 and the other components that are with it, it kind of makes it
22 physically impossible. As the Johnson & Johnson vaccine becomes
23 available that will change this process, but then we also have to
24 educate the public to make sure that they understand what vaccine
25 is doing what and what they're willing to accept.

26
27 **D.P.O. HAHN:**

28 So are you telling me that like because we have these major
29 vehicles for emergency services, I can't remember what they're
30 called, but you're telling me you can't put a freezer in one of
31 those?

32
33 **CHIEF VETTER:**

34 That's not what I'm saying. It's just very labor intensive, right.
35 You know, honestly, we're at the point that we're trying to do the
36 greatest good to get to a herd mentality, right. The quicker we
37 can kind of do that and work around.

38
39 So this past Sunday, if we really looked at the data from the fire
40 service, the majority of them had mobility issues and issues in
41 this way. The advantage of the Brentwood POD, by us bringing them
42 in through the police side of the operation, the academy, was that
43 it was closer. It wasn't through the gravel lot, you know, we had
44 wheelchairs available. I can assure you that the functional needs
45 of any constituent coming to any POD is being met, right. We're
46 not necessarily taking them and walking them through the long
47 corridor, there's little breakouts, right, ways that we could do it
48 and we could do it in a safe manner.

49
50 **D.P.O. HAHN:**

51 Yeah. I'm just hoping that also -- listen, I understand the
52 reality of today, which is there is no supply, right, next to zero.
53 When you're talking 600, 1100, we're talking next to zero, right,
54 so in terms of the number we need to get to. So I just want to
55 know --

56

1 **CHIEF VETTER:**

2 I want to reassure you it is an active discussion happening at
3 multiple levels from the top all the way down, and when we are in a
4 position to do that, there will be a way of us doing that.

5
6 **D.P.O. HAHN:**

7 So you're planning for mobile type units that can go out and meet
8 the need where it exists.

9
10 **CHIEF VETTER:**

11 I'm not in a position to say that. I'm in a position to assure you
12 that we are planning to adjust as the vaccine becomes available.
13 My own father can't do this. My own father is going to need to
14 figure out a way to do it, right. He looks at me every day asking
15 me when, right, so it will happen, I promise.

16
17 **D.P.O. HAHN:**

18 My dad's in Florida, so he got it.

19
20 **CHAIRMAN CILMI:**

21 Joel, Legislator Hahn, if I could just interject here for a second.
22 Joel, your shop is coordinating distribution at the PODS for all
23 residents, for everyone in the 1A and 1B cohort and not just first
24 responders. Is that right?

25
26 **CHIEF VETTER:**

27 Primarily we are tasked with first responders.

28
29 **CHAIRMAN CILMI:**

30 That's what I thought.

31
32 **CHIEF VETTER:**

33 I cannot ask the administrative staff here, the support staff, to
34 tell one more elderly person I'm sorry, we don't have a vaccine for
35 you. We've instructed them and have empowered them with the tools
36 to take their information.

37
38 **CHAIRMAN CILMI:**

39 All right. Okay, thanks. Legislator Hahn, are you finished?

40
41 **D.P.O. HAHN:**

42 Yeah, yeah. I just, you know, want to be part of and help to
43 understand. I'm going to have someone from my office, and I'm sure
44 others will, be contacting you or if you identify a person about
45 the SurveyMonkey. You talked that if a veteran calls our office,
46 because the Suffolk VFR stands for Veteran First Responders --

47
48 **CHIEF VETTER:**

49 Veterans and First Responders, yup.

50
51 **D.P.O. HAHN:**

52 So not a veteran that is a first responder, but a veteran or a
53 first responder. So we have been getting calls, maybe not as much
54 from volunteer firemen because you're, you know, that job, but
55 there have been some veteran calls and we would like to understand
56 what you want us to do with those.

1 **CHIEF VETTER:**

2 Very simply, if I may. It's about nine little data fields that you
3 click on a SurveyMonkey. You save it to the browser, you fill it
4 in. I will literally create a box for each Legislator that's
5 participating so their staff clicks the box. So that when we
6 notify them, we will tell you that your efforts have resulted in
7 this person being and coming off that list.

8
9 **D.P.O. HAHN:**

10 Okay. So who should, since I don't know enough about SurveyMonkey
11 and --

12
13 **CHIEF VETTER:**

14 Have the staff just send me an e-mail.

15
16 **D.P.O. HAHN:**

17 Send you an e-mail.

18
19 **CHIEF VETTER:**

20 One of the staff members here will send you the URL. We'll open up
21 a Zoom, we'll say click this, click this, this is how you fill it
22 in. It's extremely easy.

23
24 **D.P.O. HAHN:**

25 Oh, I'm sure.

26
27 **CHAIRMAN CILMI:**

28 Joel, perhaps you can e-mail the entire Legislature with --

29
30 **CHIEF VETTER:**

31 Done.

32
33 **CHAIRMAN CILMI:**

34 -- just kind of a thumbnail sketch of that and how to proceed,
35 okay?

36
37 **CHIEF VETTER:**

38 Done.

39
40 **CHAIRMAN CILMI:**

41 That would be helpful.

42
43 **D.P.O. HAHN:**

44 Thank you.

45
46 **LEG. GONZALEZ:**

47 Thanks, Tom. Good idea.

48
49 **CHAIRMAN CILMI:**

50 Yup, yup. Thank you. Thank you, Legislator Hahn. Legislator
51 Krupski.

52
53 **LEG. KRUPSKI:**

54 Thank you. And, Joel, I tell you, very comprehensive program, well
55 received. I got a text yesterday from a fireman in Jamesport, he
56 was very grateful, he had to go to Brentwood, so the fact that

1 you'll be opening up in Riverhead is going to be a help.

2
3 We've had this conversation about -- with the County Executive
4 about something further east. To Legislator's Hahn's point, 45
5 minutes notice, Riverhead's more than an hour from a lot of points
6 further east. So is there anything in the works for expanding or
7 does that go back to your answer of everyone is talking about
8 expanding.

9
10 **CHIEF VETTER:**

11 The problem with expansion right now is the logistical support, the
12 lack of vaccines.

13
14 **LEG. KRUPSKI:**

15 Okay.

16
17 **CHIEF VETTER:**

18 As those factors change, it will change. We are even in
19 discussions with Fishers Island.

20
21 **LEG. KRUPSKI:**

22 That was my next question --

23
24 **CHIEF VETTER:**

25 Yup.

26
27 **CHIEF VETTER:**

28 -- because I don't want you to forget Fishers Island.

29
30 **CHIEF VETTER:**

31 We are not. They have been having conversations with both us as
32 well as Dr. Winslow.

33
34 **LEG. KRUPSKI:**

35 Okay.

36
37 **CHIEF VETTER:**

38 The other day we even told them, like they thought they were going
39 to rent a bus for \$1200. I said absolutely not. If we need to
40 drive the van out to Greenport to pick up people to drive them back
41 and forth, that's what we will do.

42
43 **LEG. KRUPSKI:**

44 Okay.

45
46 **CHIEF VETTER:**

47 Once vaccines become available and they have names and they're
48 willing to travel, we will assist them. The goal is every
49 volunteer, every first responder, everyone in 1B, a needle in the
50 arm. They want it, that's what we're going to strive to do every
51 day.

52
53 **LEG. KRUPSKI:**

54 I just want to thank you for that well-coordinated and thought out
55 effort. We all appreciate it.

56

1 **CHIEF VETTER:**

2 Thank you.

3

4 **CHAIRMAN CILMI:**

5 Thank you, Legislator Krupski. Legislator Gonzalez.

6

7 **LEG. KRUPSKI:**

8 Thank you, Mr. Chair, I appreciate the time.

9

10 **CHAIRMAN CILMI:**

11 You're welcome, sure. Thanks for joining us. Legislator Gonzalez,
12 go ahead.

13

14 **LEG. GONZALEZ:**

15 Hi, Joel. Listen, thank you for all the work that you're doing,
16 phenomenal, phenomenal. I was also thinking about that while you
17 were speaking and what you just said right now, if need be when we
18 get to that position, to that point that you could send a van out
19 there, pick them up and transport back and forth. Do you have
20 enough vans? Do you have enough vehicles that when the time comes
21 you can do that back and forth in multi-locations, once we have
22 these vaccines at the numbers that we're hoping and praying that we
23 get, Joel.

24

25 **CHIEF VETTER:**

26 So I can't speak specifically about this, but I can tell you in the
27 past practice, especially in the time of Sandy when we were doing
28 evacuations, we have access to Suffolk Paratransit as well as
29 Suffolk Bus.

30

31 **LEG. GONZALEZ:**

32 Okay.

33

34 **CHIEF VETTER:**

35 We also know of the inventory of buses and vans locally at the fire
36 departments, so I would have to describe it as a very dynamic
37 process that would go underway. We're seeing that now in the fire
38 departments, right. I don't want the 87 year-old coming by himself
39 with his walker. We want them to come together, we want them to
40 be, you know, having a familiar face, right. It's emotionally -- I
41 mean, I've had people crying at me that, you know, we, all of us,
42 are saving their lives, right. So we want to make sure that
43 there's an emotional support team in place, right. There's a lot
44 of other things in the background that you just don't even see,
45 right. We're all seeing the pictures of the people getting needles
46 in their arms. There's a lot more to it, I promise you that's
47 happening.

48

49 **LEG. GONZALEZ:**

50 Thank you, Joel. That's all I have, Tom. Thank you.

51

52 **CHAIRMAN CILMI:**

53 Thank you. Thank you, Sam. Any other questions for Chief Vetter?
54 Okay, Joel, on behalf of the committee thank you so much for all
55 the great work that you're doing. Obviously you are chin deep in
56 all of this stuff and we appreciate you keeping your head above the

1 water and making it all work, so thank you.

2

3 **CHIEF VETTER:**

4 Absolutely.

5

6 **CHAIRMAN CILMI:**

7 Yup. Okay, with that said, we also have with us Deputy
8 Commissioner Beckley. I'd like to offer you, Commissioner, an
9 opportunity, if you'd like, certainly don't feel obligated, but if
10 you'd like to just introduce yourself to the committee, please feel
11 free.

12

13 **DEPUTY COMMISSIONER BECKLEY:**

14 Well, good afternoon. I appreciate the opportunity to serve. I
15 don't know if I have any jokes, but I do appreciate the ones in the
16 beginning, Legislator Berland, thank you. I'm just really, really
17 excited to be part of this team. Listening to Joel speak, it's
18 obvious he has a great amount of wealth of knowledge and is very
19 needed and recognized by me in my short time here.

20

21 I started on January 4th, hit the ground running. As Commissioner
22 Jordan mentioned, we go back to Sandy. I have been in the region
23 as Regional Director since 2014. Prior to that, I was Regional
24 Coordinator, 2012. I'm very familiar with a lot of the issues that
25 we deal with here locally from a Suffolk County perspective, but
26 also I'm aware of some of the issues that Nassau County deals with.
27 And we're looking to build a better relationship with our
28 counterparts over at Nassau County OEM as well, because I think in
29 these times we need to be creative and to find ways that we can
30 work together to be one Island.

31

32 That being said, I'm just in awe of the team that's been assembled
33 here and the jobs that they do on a day in and day out basis to not
34 only test first responders on the weekend, but now moving to
35 vaccinating them and to really see in the eyes of the people that
36 are doing it that they care. These are first responders themselves
37 that are helping other first responders and their families get this
38 life saving vaccine. I think we're all part of the biggest
39 humanitarian effort our nation has ever seen, certainly our Island,
40 and everybody is stepping up and I appreciate all of your efforts
41 and I'm just happy to be part of the Suffolk County team.

42

43 **CHAIRMAN CILMI:**

44 Thanks, Commissioner, and welcome to you. And it is a great team,
45 and we look forward to working with you and seeing you in the
46 future.

47

48 So with that said, any other business? Legislator Gonzalez, go
49 ahead.

50

51 **LEG. GONZALEZ:**

52 Hey, Patrick. My comedy show starts at 12:35.

53

54 **DEPUTY COMMISSIONER BECKLEY:**

55 All right. Thank you very much.

56

1 **LEG. BERLAND:**
2 I guess I'm the opening act, right?

3
4 **LEG. GONZALEZ:**
5 Yes.

6
7 **CHAIRMAN CILMI:**
8 I was going to say Sammy's the opening act. Susan, you can
9 headline.

10
11 **LEG. BERLAND:**
12 All right, I can headline.

13
14 **CHAIRMAN CILMI:**
15 All right, folks. Seeing no further business, this committee is
16 adjourned. Have a good day, everybody.

17
