

SUFFOLK COUNTY LEGISLATURE

BUDGET REVIEW OFFICE

March 1, 2021

To: Robert Calarco, Presiding Officer
and All Suffolk County Legislators

From: Lance Reinheimer, Director
Budget Review Office

Subject: Year 2020 W-2 Compensation Report

Each year, the Budget Review Office issues a summary report on the W-2 earnings provided to the Internal Revenue Service (IRS) for all Suffolk County employees. This report is based on W-2 data generated by the Departments of Audit and Control and Information Technology Services that is extracted from the Payroll and Personnel System database.

In addition to 2020 data, this report includes historical W-2 data from 2016 to 2019. The report consists of nine sections: (1) Summary, (2) Description of the Data, (3) Number of Employees, (4) Total Remuneration, (5) Permanent Salaries, (6) Overtime, (7) Longevity, (8) Terminal Pay, and (9) Other Compensation. Three schedules are attached at the end of the report. Schedule 1 summarizes the data by department and bargaining unit, Schedule 2 lists the top 300 active wage earners, and Schedule 3 lists the top 300 active overtime earners.

I. Summary

- From 2019 to 2020 the active county workforce decreased by 237 employees; the number of active employees declined by 344 since 2016.
- From 2019 to 2020, expenditures for all employees increased in every W-2 category except terminal pay. The largest increase for any county wage category was \$33.7 million for permanent salaries, representing 90% of the net \$37.6 million increase.
- The Suffolk Detectives Association (SDA) and Deputy Sheriffs Police Benevolent Association (DSPBA) agreed to contracts in January and March of 2020, respectively. Detective Investigators in the District Attorney (DIPBA) are still without a contract. All other bargaining units began 2020 with contracts that extend through 2024.
- Although the number of active employees decreased from 2019 to 2020, personnel costs increased because steps and raises more than offset savings from workforce attrition.

- From 2019 to 2020, permanent salaries for active employees increased by \$26.8 million. Salaries increased for all bargaining units except the DSPBA, which declined by 7.2% as a result of a 10% reduction in membership.
- Countywide, permanent salaries per active employee increased by 8.9% from 2016 to 2020, including an increase of 6.4% from 2019-2020. Salaries per employee increased for every bargaining unit from 2019 to 2020 except the DIPBA, the only union without a contract.
- Overtime for active employees increased by 2.8% since 2016, but decreased by 0.87% from 2019 to 2020. However, overtime per active employee increased by 1.9% from 2019 to 2020, which suggests that the total number of overtime hours worked was reduced.
- Approximately 69% of the active workforce received longevity payments in 2020. The increase in cost from 2019 is \$1.8 million or 6.7%.
- In 2020, 685 employees that separated from the county payroll received a total of \$40.4 million in terminal pay. Individual payments ranged from \$1 to \$500,053; the average amount paid to all employees that received terminal pay in 2020 was \$58,928.
- Workers compensation increased by 17.7% from 2019 to 2020, but is still less than in 2016 and 2017.

2. Description of the Data

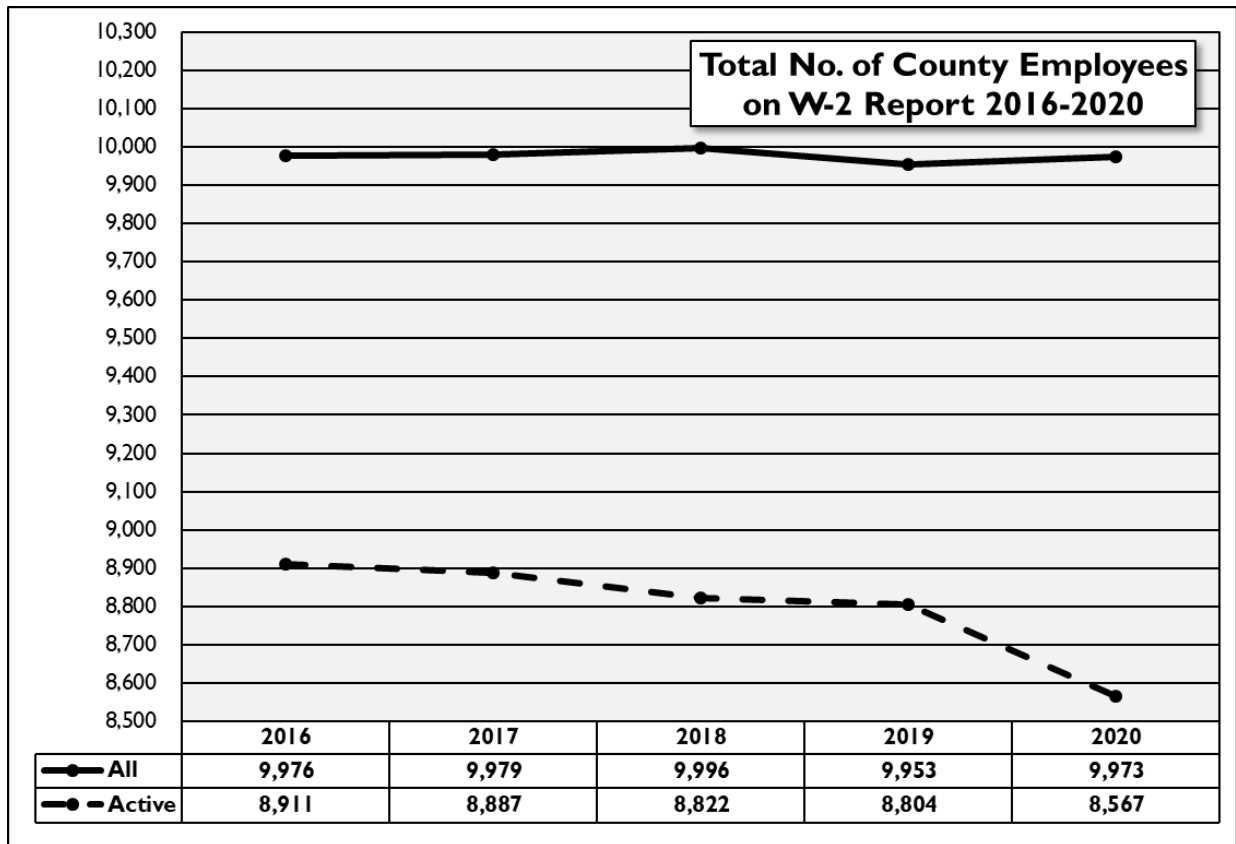

- The wages reported on W-2 forms include all wages paid to employees during the calendar year, regardless of when they were earned.
- The IRS requires that dollar amounts be attached to certain taxable benefits such as commutation in county vehicles and legal benefits offered through the various benefit funds. Because the values of these benefits must be reported as income, the earnings totals reported to the IRS on the W-2 forms is slightly greater than direct payroll costs, averaging \$131 per active employee in 2020.
- The wages reported are based on when employees were compensated, not necessarily when wages were earned or accrued by the Department of Audit and Control. Consequently, there is a disconnect between W-2 compensation and actual budget expenditures.
- The W-2 data classifies employees in three categories: active, new, and terminated. Active employees were employed by the County from January 1, 2020 to December 31, 2020. New employees began county service at some point during the year. The classification “terminated” does not imply any negative employment action, but simply indicates that the individual left county employment during 2020. The majority of the data in this report focuses on active employees because inclusion of employees who worked a portion of the year skews the averages.
- This report presents information on average salaries, overtime compensation, terminal pay, and other compensation; it does not assign values for employee benefits: health insurance, Social Security, employee benefit fund, and employer contributions to the New York State Employees’ Retirement System (ERS) and Police & Fire Retirement System (PFRS).
- Some employees work in positions that are not typically considered permanent authorized positions. They skew the overall data due to the specific nature of their jobs, and were omitted from calculations: Health Department part-time Registered Nurses (BU 13), temporary employees (BU 22), Health Department part-time Clinic Aides (BU 25), and School Crossing Guards.
- Resolution No. 617-2020 suspended steps and raises for employees in the exempt (21), Board of Elections (24), and confidential (30) bargaining units. Employees will receive all steps and

raises that were withheld on July 1, 2022. All pay deferred from January 1, 2020 to July 1, 2022 will be paid to employees upon separation from the County.

3. Number of Employees

The number of active county employees decreased by 237 from 2019 to 2020 and by 344, or 3.9%, from 2016 to 2020. Although the number of active employees on the payroll for the full year has declined each year since 2011, the total number of employees receiving compensation at some point during the year increased annually each year from 2016 to 2020 except in 2019. The observed trend can be explained by a high turnover rate in recent years. The County has increased the number of employees that are being hired to replace separating employees.

The following chart shows the number of permanent county employees receiving IRS reportable wages from 2016 to 2020. The solid line accounts for all employees, including those that worked only part of the year as a result of beginning employment or separating from the payroll. The dashed line includes only active employees that were on the payroll for the entire year.

The next table shows the number of active permanent county employees by bargaining unit from 2016 to 2020. Over the five-year period, each bargaining unit declined except the SDA and exempt employees. The Association of Municipal Employees (AME, 2 & 6) experienced the greatest decrease, 219. From 2019 to 2020, the largest reduction was in the PBA (84) due to retirements and promotions, and no police class.

4. Total Remuneration

W-2 wages are divided into nine categories: salary, overtime, longevity, terminal pay, workers compensation, peace officers workers compensation, car allowance, legal benefits, and other compensation. In this report, we combine into one category the two types of workers compensation; we also combine the legal benefit and car allowance. The “other” category includes several types of compensation, but is primarily comprised of holiday pay and night differential for law enforcement. The following table shows total remuneration by category for all employees since 2016.

Total Remuneration for All Employees by Category								
Year	Salary	Overtime	Longevity	Terminal Pay	Workers Comp	Other	Legal & Car	Total
2016	\$768,884,082	\$101,773,308	\$29,377,175	\$31,156,344	\$12,538,440	\$57,910,527	\$647,314	\$1,002,287,190

The next table shows total remuneration for just active employees by category. The amounts are less because it excludes employees who worked only a portion of the year as well as the majority of terminal pay. Some active employees received terminal pay if they retired from one bargaining unit and began work in another bargaining unit without leaving county employment. In 2016, retroactive payments to Deputy Sheriffs as part of the highway patrol settlement were categorized as terminal pay.

Although the number of active employees has trended consistently downward, employee remuneration has increased. Due to step increases and contractually negotiated cost of living increases, the growth in cost for employees who remain on the payroll has exceeded savings realized from employees leaving county service. The following table shows total remuneration to county employees from 2016 to 2020 for all employees and for just active employees.

The next two tables show total remuneration for active employees since 2016 by bargaining unit. The first table shows total dollars paid and the second table shows the amount paid per employee (total dollars / no. employees). Total remuneration for all active employees increased by 3.2% from 2019 to 2020 and by 4.1% since 2016. The rate of growth in total remuneration per active employee is greater than the aggregate, increasing by 6% from 2019 to 2020 and increasing by 8.3% since 2016.

5. Permanent Salaries

Permanent salaries constitute the majority of total remuneration for active employees. Salaries are more than 93% of all employee compensation for exempt, confidential, Probation Officers Association (POA), and AME white-collar employees. Salaries are a smaller percentage of total remuneration for public safety unions whose employees typically earn a substantial amount of overtime as well as payments not typically earned by other bargaining units, including holiday pay and night differential. In 2020, permanent salaries accounted for less than 70% of total compensation for the PBA, Correction Officers Association (COA), DSPBA, and SDA.

Typically, the two major factors that affect salary costs are the number of employees and collective bargaining agreements. Each county bargaining unit began 2019 without a contract. AME and the PBA settled in May, the COA settled in July, the POA settled in August, and the SOA settled in December of 2019. The SDA settled in January and the DSPBA settled in March of 2020. Currently, every bargaining unit has a contract through 2024 with the exception of the DIPBA, which has no contract. The POA and AME were the only unions to negotiate increases in 2019, all unions with contracts received increases in 2020.

Permanent salaries for active employees increased for every bargaining unit from 2016 to 2020 except for the PBA, DIPBA, and Confidential employees. In addition to fewer employees, the decrease in cost for these bargaining units is due to the highest paid employees retiring or being promoted to other bargaining units and being replaced by entry-level employees. From 2019 to 2020, permanent salaries increased by \$26.8 million. Salaries increased for all bargaining units except the DSPBA, which declined by 7.2% as a result of a 10% reduction in members from 2019 to 2020. The following table shows total permanent salaries for active employees since 2016.

The next table shows salary per active employee for each bargaining unit from 2016 to 2020. Countywide, salaries per employee increased by 8.9% from 2016 to 2020, including an increase of 6.4% from 2019-2020. Salaries per employee increased for every bargaining unit from 2019 to 2020 except the DIPBA, the only union without a contract.

6. Overtime

Overtime is the second largest category of employee remuneration. While overtime for active employees increased by 2.8% since 2016, overtime decreased by 0.87% from 2019 to 2020. However, overtime per active employee increased by 1.9% from 2019 to 2020, which suggests that the total number of overtime hours worked was reduced.

The largest increases in overtime in 2020 were for BOE employees and AME white collar employees. BOE overtime increased because of the cyclical costs associated with presidential election years. AME overtime increases may be explained by pandemic related overtime and the provision of the 2019-2024 AME contract, which enabled previously ineligible employees from grades 24-28 to get paid for up to 70 hours of overtime per year. The largest decreases (by percentage) were for the DSPBA, DIPBA, and SDA, which is likely due to reduced court dates in 2020 because of COVID-19.

The next two tables show total overtime and overtime per active employee for each bargaining unit from 2016 to 2020. The PBA earns the greatest amount of total overtime, but the most overtime per employee is earned by Deputy Sheriffs.

Note that in addition to overtime salaries (Objects 1120 - Overtime Salaries and 1620 - OT-Straight Time); the W-2 database includes Special Holiday Pay (Object 1330) in this field. Special Holiday Pay is unique to the Police Department and accounted for approximately \$7.4 million in 2020 for all employees (active, new, terminated).

7. Longevity

Longevity is paid to county employees based on years of service. Employee eligibility and amount paid varies by bargaining unit. Countywide, 5,927 active employees received longevity pay in 2020, which is approximately 69% of the active county workforce. Longevity payments are typically increased incrementally when union contracts are settled; however, cost increases tend to vary dramatically from year to year, especially for public safety unions where many employees are hired on the same date. A spike in costs exists when large groups of employees become eligible for longevity or reach the next seniority threshold. The following table shows longevity costs by bargaining unit since 2016.

8. Terminal Pay

Employees separating from county service are entitled to be compensated for any deferred pay as well as unused personal and vacation accruals. Retiring employees are also compensated for a portion of unused sick accruals. The two most significant factors that affect the County's terminal pay expenses are the number of retirements and the bargaining units of employees retiring. In 2020, 685 employees that separated from the county payroll received a total of \$40.4 million in terminal pay (does not include payment to active employees or employees receiving no term pay). Individual payments ranged from \$1 to \$500,053; the average amount paid to all employees that received terminal pay in 2020 was \$58,928.

Typically, sworn personnel in the Police Department earn the majority of terminal pay. In 2020, the PBA, SOA, and SDA accounted for 16% of the number of separating employees receiving terminal pay and 72% of the total cost. In contrast, AME employees (White and Blue) accounted for 62% of employees receiving terminal pay and 13% of the total cost. The SOA had the highest terminal pay costs, \$12.8 million, and the highest average cost at \$345,122 per employee. The following table summarizes 2020 terminal pay by bargaining unit.

Although terminal pay decreased slightly from 2019 to 2020, it has increased from \$31.2 million in 2016 to \$40.5 million in 2020. The following factors have contributed to the 30% increase:

- The number of sworn personnel retiring has increased in recent years.
- The value of accruals has increased due to wage increases.
- Contracts negotiated over the past several years included pay deferrals, which has increased the amount due to employees upon separation.

The following table shows terminal pay by bargaining unit from 2016 to 2020. Note that terminal pay in the table below is slightly higher than in the previous table because that data refers only to employees separating from the payroll. Several employees retire each year, but have no break in service because they either remain active part-time or accept a position in another bargaining unit.

9. Other Compensation

This category includes workers compensation, taxable legal benefits and car allowance, and other types of remuneration. The "Other" category is primarily comprised of holiday pay and night differential for law enforcement employees. The following table shows IRS reportable wages paid to county employees for these categories from 2016 to 2020.

Other Compensation 2016-2020 for Active Employees				
Workers

2020	\$9,424,430	\$60,714,636	\$1,262,020	\$71,401,086

Workers compensation is paid predominantly to law enforcement employees. From 2016 to 2019, sworn police personnel accounted for an average of 79% of workers compensation payments. Sworn police personnel, in conjunction with other peace officers and police officers, including Correction Officers, Deputy Sheriffs, Probation Officers, and Detective Investigators, accounted for an average of 95% of workers compensation payments. The following table shows workers compensation payments to active employees from 2016 to 2020. Note that amounts paid reflect only employee compensation and do not reflect indemnities, medical expenses, and other expenses. The County's total workers compensation expenditures are approximately \$29 million in 2020 as of 2/23/2021.

As is the case with workers compensation, the vast majority of "other" remuneration is paid to law enforcement employees. Less than six percent of these payments were made to active employees in 2020 that were not represented by the three sworn police unions, the COA, or the DSPBA. The following table shows other compensation for active employees by bargaining unit from 2016 to 2020. These expenditures have increased each year.
