**Are you passionate about helping others going through difficult times?
Do you consider yourself to be a good listener?**

Response is seeking volunteer crisis counselors and will offer a free training program to those interested in becoming the caring voice on the other end of the phone or online chat/text. This volunteer experience relies on technology, so you must have computer skills and a laptop/desktop computer.

We meet online over Microsoft Teams Video conference and use Teams chat. Our required training has two parts, Part I occurs in **March** 2023. If invited to Part II, those dates continue in the evenings in **April** and **May**. Upon the completion of required training, we seek:

a 1-year commitment of one 4-hour shift per week.

Registration is pending until an application is complete & verification is conducted.
